China Institution of Property-right Exchange Development Model and Investment Strategy Planning Report, 2013-2017

目 录

CONTENTS

Chapter 1: Development Environment for Institution of Property-right Exchange in China
1.1 Relevant Concepts Related to Property-right Transaction
1.1.1 Definition of Property-right Transaction
1.1.2 Definition of Property Exchange Market
1.1.3 Major Forms of Property-right Transaction for Enterprise
1.1.4 Contrast for Major Capital Markets
(1) Features and Functions of Security Exchange
(2) Features and Functions of SEM Board
(3) Features and Functions of Property-right Exchange Market
1.1.5 Subjects for Indirect Behavior in Property-right Transaction
(1) Property-right Exchange Market and Property-right Broker
(2) Property-right Exchange Market and Auction Institution
(3) Property-right Exchange Market and Lawyer Firm
(4) Property-right Exchange Market and Investment Bank
(5) Property-right Exchange Market and Other Intermediary Service Institution
1.2 Analysis of Life Cycle for Property-right Transaction Industry
1.3 Analysis of External Environment for Property-right Transaction Industry
1.3.1 Analysis of Economic Environment
(1) Analysis of Domestic Economic Growth
(2) Analysis of Development of Financial Market
(3) Analysis of Development of Stock Market
1.3.2 Analysis of Policy Environment
(1) Law on State-Owned Assets of Enterprises
1) Background of Policy Releasing
2) Major Contents of Policy
3) Impact of Policy
(2) Administrative Measures for the Transfer of State-owned Assets of Financial Enterprises
1) Background of Policy Releasing
2) Major Contents of Policy
3) Impact of Policy
(3) Guidelines on Risk Management of M&A Loans of Commercial Banks
1) Background of Policy Releasing
2) Major Contents of Policy
3) Impact of Policy
1.4 Role of Property-right Transaction Played in National Economy
1.4.1 Provide State-owned Asset Inventory with A Channel for Entry and Exit
1.4.2 Optimize Structure of State-owned Asset Inventory
1.4.3 Improve the Transparency of Property-right Exchange Market
1.4.4 Create A bridge of Reorganizing State-owned Asset for Private and Foreign Capital
1.5 Development Impact of Property-right Transaction Industry
1.5.1 Relation between Economic Growth and Property-right Transaction
1.5.2 Impact of Economic Factors on Property-right Exchange Market
1.5.3 Impact of System Resources on Property-right Exchange Market
1.5.4 Impact of Natural Resources on Property-right Exchange Market
1.5.5 Impact of Operating Models on Property-right Exchange Market
1.5.6 Impact of Human Resources on Property-right Exchange Market
Chapter 2: Analysis of Market Panorama of China Property-right Exchange Market
2.1 Analysis of Origin of Property-right Exchange Market
2.1.1 Analysis of Origin of Property-right Exchange Market

(1) Starting Stage of Analysis of Property-right Exchange Market
(2) Initial Establishment Stage of Property-right Exchange Market
(3) Development Stage of Analysis of Origin of Property-right Exchange Market
(4) Clean-up and Rectification Stage of Property-right Exchange Market
(5) Further Standard and Development Stage of Property-right Exchange Market
2.1.2 Procedures for Enterprise Entering Transaction Market
2.1.3 Means of Property-right Transaction for Enterprise
(1) Reorganization Forms for Enterprises with Different Property-right Subjects
1) Analysis of Reorganization Forms for Property-right Transferor
2) Analysis of Reorganization Forms for Property-right Transferee
(2) Selection for Property-right Object of Enterprise Entering the Market
1) By the Scope of Property-right Transaction
2) By Ways to Deal for Property-right Transaction at Price
2.1.4 Analysis of Subject and Object in Property-right Transaction Market
(1) Analysis of Subject Status of Property-right Transaction
(2) Analysis of Object Innovation of Property-right Transaction
2.2 Development Status of Property-right Exchange Market
2.2.1 Analysis of Transaction Volume of Property-right Market
2.2.2 Analysis of Market Share of Property-right Exchange Market
2.2.3 Analysis of Growth of Property-right Transaction Volume
2.2.4 Analysis of Transaction Fields for Property-right Exchange Market
2.2.5 Analysis of Market Structure of Property-right Transaction
(1) Market Concentration
(2) Geographic Attributes of Property-right Transaction
2.2.6 Analysis of Cross-border Property Transaction
2.3 Basic Pattern of Property Transaction Market
2.3.1 Analysis of National Property-right Exchange Market
2.4 Analysis of Regional Property-right Exchange Market
2.4.1 Analysis of Provincial P Property-right Exchange Market
2.5 Analysis of Competition for Property-right Exchange Market
2.5.1 Analysis of Regional Competition for Property-right Exchange Market
(1) Features of Property-right Exchange Market
(2) Analysis of Market Monitoring
(3) Market Growth Situation
(4) Analysis of Exit Barrier
2.5.2 Analysis of Competition for Potential Entrants
2.5.3 Analysis of Competition for Substitutes
2.5.4 Analysis of Bargaining Power of Suppliers
2.5.5 Analysis of Bargaining Power of Buyers
2.6 Analysis of Supply and Demand of Property-right Exchange Market
2.6.1 Analysis of Supply of Property-right Exchange Market
(1) Reform of State-owned Enterprise Provides Object Resources for Transaction
(2) Decrease of State-owned Shares Provides Important Object Resources
(3) Transfer of Property Right Provides Object Resources
2.6.2 Analysis of Demand of Property-right Exchange Market
(1) Analysis of State-owned Enterprise Reorganization of Market Demand Momentum
(2) Growth of Private Enterprise and Personnel Savings of Market Demand Momentum
(3) Analysis of Foreign Investors of Market Demand Momentum
2.7 Analysis of Business for Property-right Exchange Market
2.7.1 Analysis of Non-performing Asset Business
(1) Analysis of Buyer
1) Investor in SOE (State-owned Enterprise)
2) Investor in Private-owned Enterprise
3) Investor in Foreign-funded Enterprise
4) Investment Fund
(2) Buyer’s Intention to Invest
(3) Buyer’s Expectation for Investing
(4) Analysis of Seller
(5) Analysis of Transaction Situation of Non-performing Assets

(6) Market Satisfaction
2.7.2 Analysis of Financial Equity Transaction Business
(1) Overview of Financial Equity Transaction Business
(2) Supply of Financial Equity Transaction Business
1) Impact of Stock Market on Financial Asset Transaction
2) Impact of Relevant Policies and Regulations on Financial Asset Transaction
3) Impact of Macro-economic Environment on Market Supply
(3) Demand and Expectation for Financial Equity Transaction Business
2.7.3 Analysis of M&A Loans
2.8 Problems in Property-right Exchange Market
2.8.1 Function Weakness in Property-right Exchange Market
(1) Property-right Transaction Can't Be Standardized
(2) Pricing Mechanism of Property-right Transaction Can't Be Formed at a Reasonable Way
(3) Market Monitoring System of Property-right Transaction Market Is Unsound
(4) Behavior of Property-right Transaction Is Non-standard
(5) Service System of Property-right Exchange Market Is Imperfect
2.8.2 Deficiency of Property-right Exchange Market in System
(1) Unclear Definition for Nature of Property-right Exchange Market
(2) Role of Government Played in Property-right Exchange Market
(3) No Risk Investment Mechanism of "Capital Poll"
(4) Disable Competition Mechanism in Property-right Exchange Market
(5) Nature of Administrative Land Governed by Transaction Market
2.8.3 Restriction to Develop Property-right Exchange Market
(1) Restriction Impact on Governmental Attribute of Transaction Market
(2) Restriction Impact on Transfer of State-owned Property-right in Transaction Market
(3) Restriction Impact on Transaction Models for Property-right Exchange Market
(4) Restriction Impact on Land Possession Management Mechanism for Transaction Market
2.9 Strategies and Suggestions for Developing Property-right Exchange Market
2.9.1 Make Sure the Functional Orientation of China Property-right Exchange
2.9.2 Establish A Complete and Unified Property-right Market System
2.9.3 Strengthen the Regulation and Management for Innovating Property-right Transaction Business
2.9.4 Set up An Administration Office for Property-right Transaction
Chapter 3: Analysis of Product Segments of China Property-right Exchange Market
3.1 Analysis of Intellectual Property Transaction Market
3.1.1 Basic Features of Intellectual Property Transaction Market
(1) Rational Choice
(2) Power Division
(3) Non-obligatory Feature
(4) Uncertainty
3.1.2 Analysis of Major Transaction Forms for Intellectual Property Transaction
(1) Auction-oriented Intellectual Property Transaction
(2) Bidding-oriented Intellectual Property Transaction
(3) Negotiated Intellectual Property Transaction
(4) Trustee-oriented Intellectual Property Transaction
(5) M&A-oriented Intellectual Property Transaction
(6) Assuming Liability-oriented Intellectual Property Transaction
(7) Contract-oriented Intellectual Property Transaction
(8) Alliance-oriented Intellectual Property Transaction
(9) Electronic Intellectual Property Transaction
3.1.3 Analysis of Intellectual Property Market Segments
3.1.4 Development Status of Intellectual Property Transaction Market
3.1.5 Major Problems in Intellectual Property Transaction Market
(1) Low Degree of Intermediary Service System
(2) Backward Transaction Mechanism for Intellectual Property Market
3.1.6 Analysis of Innovation Path for Intellectual Property Transaction Market
(1) Construct A Cross-regional Intermediary Service System
(2) Advance the Innovation for Means of Intellectual Property Transaction
3.1.7 Major Risks Confronted by Intellectual Property Transaction
(1) Political and Legal Risks in Intellectual Property Transaction

(2) Market Operation Risks in Intellectual Property Transaction
(3) Social and Media Transaction Risks in Intellectual Property Transaction
(4) Operation and Management Risks in Intellectual Property Transaction
(5) Risks in Intellectual Property Transaction Itself
3.1.8 Risk Control Process and Measures for Intellectual Property Exchange
(1) Analysis of Risk Control Process for Intellectual Property Exchange
(2) Major Control Measures for Intellectual Property Exchange
3.2 Analysis of Technology Property Right Transaction Market
3.2.1 Analysis of Technology Property Right Transaction Status
(1) Analysis of Volume of Technology Property Right Transaction
(2) Analysis of Region of Technology Property Right Transaction
(3) Distribution of Technology Property Right Transaction Industry
(4) Economic Organization Forms and Methods for Technology Property Right Transaction
(5) Case Study of Technology Property Right Transaction - Take An Example of CHTF
3.2.2 Operating Models for Technology Property Right Transaction Market
(1) Origin of Technology Property Right Market
(2) Major Operating Models for Technology Property Right Transaction Market
1) Analysis of Shanghai Model
2) Analysis of Shenzhen Model
3) Analysis of Zhongguancun Model
4) Analysis of Wuhan Model
5) Analysis of Guangzhou Model
3.2.3 Problems in Transacting Technology Property Right
(1) Incomplete Technology Property Right Transaction
(2) Imperfect Technology Property Right Transaction
3.2.4 Operation Mechanism Design for Technology Property Right Transaction
(1) Reputation Mechanism for Technology Property Right Transaction
(2) Signaling Mechanism for Technology Property Right Transaction
(3) Intermediary Mechanism for Technology Property Right Transaction
(4) Risk and Safeguard Mechanism for Technology Property Right Transaction
3.3 Analysis of Tourism Property Transaction Market
3.3.1 Definition of Tourism Property
3.3.2 Function of Tourism Property Transaction Market
3.3.3 Major Models for Tourism Property Transaction
(1) Medium and Long-term Loan Assure Cash Flow
(2) M&A Loan Supports Tourism Enterprise
(3) Asset Securitization Expands Financing Channel
(4) Bring in Social Capital
Chapter 4: Analysis of Development Models for China Property-right Exchange Market
4.1 Analysis of Mechanism for Property-right Exchange Market
4.1.1 Classification of Institutions in Property-right Exchange Market
4.1.2 Analysis of Mechanism for Property-right Exchange Market
(1) Classification by Operating Model
(2) Classification by Time Nodes
4.2 Analysis of Operating Mechanism for Market Integration of Property-right Transaction
4.2.1 Definition of Operating Mechanism for Market Integration of Property-right Transaction
4.2.2 What Criteria Applied in Operating Mechanism of Market Integration
(1) Criteria of Optimization of Resource Allocation
(2) Criteria of Optimization of Industrial Structure
(3) Improve Multilevel Criteria of Property-right Exchange Market
4.2.3 Analysis of Framing Property-right Exchange Market
(1) Analysis of Designing Total Framework
(2) Analysis of Positioning Multilevel Functions
1) National Network-oriented Property-right Exchange Market
2) Regional and Specialist Cooperated/Allied Property-right Exchange Union Market
3) Provincial and City-level Property-right Exchange
4) Property-right Exchange Branches in Province or City
(3) Relation among All Levels of Exchange Markets
4.2.4 Design Operating Mechanism for Property-right Exchange Market

(1) Analysis of Information Mechanism
(2) Analysis of Price Mechanism
(3) Analysis of Transaction Mechanism
(4) Analysis of Monitoring Mechanism
4.3 Analysis of E-commerce Model for Property-right Exchange Market
4.3.1 Analysis of Traditional E-commerce Model
4.3.2 Analysis of E-commerce Development in Property-right Exchange Market
(1) Analysis of Commerce Process in Property-right Exchange Market
(2) Analysis of E-commerce Process in Property-right Exchange Market
(3) Analysis of E-commerce' s Subject Matter in Property-right Exchange Market
4.3.3 Analysis of E-commerce Model for Property-right Exchange Market
(1) What Exchanges Are Suitable for Developing in E-commerce Model
(2) Relation between E-commerce Online and Offline in Property-right Exchange Market
(3) Risk Prevention for E-commerce Model in Property-right Exchange Market
(4) Trade Promotion for E-commerce Model in Property-right Exchange Market
(5) Information Pool of Differentiated Services and Buyer Resources
4.3.4 Analysis of E-commerce Model in Future Property-right Exchange Market
(1) Single-exchange Model
(2) Multi-exchange Model
(3) National Unified E-commerce Platform Model
4.4 Analysis of Integrated Operation for Property-right Transaction Business
4.4.1 Limitation for Property-right Transaction Model in Nowadays
4.4.2 Operating Mechanism for Integrated Transaction Model
4.4.3 Major Features of Integrated Transaction Model
4.4.4 Practical Value of Integrated Transaction Model
4.4.5 Prospects and Problems for Integrated Transaction Model
Chapter 5: Analysis of Development of Regional Property-right Exchange Market in China
5.1 Analysis of Development Models for Regional Property-right Exchange Market
5.1.1 Analysis of External Administration for Regional Property-right Exchange Market
(1) Establish Institutions Governed by the Government
(2) Governmental Joint Management Mechanism
5.1.2 Analysis of Internal Administration for Regional Property-right Exchange Market
(1) Internal Administration Status of Exchange Market
(2) Administration for Divisionalized Property-right Exchange Market
(3) Administration for Corporate Property-right Exchange Market
5.1.3 Development Model for Major Regional Property-right Exchange Markets in China
(1) Models Applied in Major Regional Property-right Exchange Markets at Present Stage
(2) Changjiang Assets and Equity Exchange Union Market
1) Background of Establishing Regional Union Market
2) Transaction Volume of Regional Union Market
3) Operating Model for Regional Union Market
(3) North China Assets and Equity Exchange Union Market
1) Background of Establishing Regional Union Market
2) Transaction Volume of Regional Union Market
3) Operating Model for Regional Union Market
(4) Yellow River Assets and Equity Exchange Union Market
1) Background of Establishing Regional Union Market
2) Transaction Volume of Regional Union Market
3) Operating Model for Regional Union Market
(5) West China Assets and Equity Exchange Union Market
1) Background of Establishing Regional Union Market
2) Transaction Volume of Regional Union Market
3) Operating Model for Regional Union Market
5.2 Analysis of Development Model for Shanghai Property-right Exchange Market
5.2.1 Development History of Property-right Exchange Market
5.2.2 Driving Force for Property-right Market
(1) Market Positioning by Government
(2) Provide Policy Support and Source Guarantee
1) Award the Monopoly Position to

2) Expand Size of Market Relying on Policy
3) Integrate All Resources Possessed by Government
5.2.3 Development Features of Property-right Exchange Market
(1) Diversification of Property-right Exchange Market
(2) Standardization of Property-right Exchange Market
5.2.4 Weaknesses and Strategies of Property-right Exchange Market
(1) Major Problems in Exchange Market
(2) Improve Service System for Exchange Market
5.3 Analysis of Development Model for Guangdong Property-right Exchange Market
5.3.1 Development History of Property-right Exchange Market
5.3.2 Measures for Guangdong Integrating Property-right Exchange Market
5.3.3 A Role Played by Provincial Institution of Property-right Exchange in Course of Integration
5.3.4 Major Problems in Guangdong Property-right Exchange Market
5.3.5 Competitiveness for Guangdong Property-right Exchange Market
5.3.6 Selection of Integrated Strategy for Guangdong Property-right Exchange Market
(1) Principle of Strategy Selection
(2) Analysis of Integrated Strategy Goal
(3) Route to Realize Integrated Strategy
5.3.7 Measures for Implementing Integrated Strategy in Guangdong Property-right Exchange Market
5.4 Analysis of Development Model for Guangxi Property-right Exchange Market
5.4.1 Development History of Property-right Exchange Market
5.4.2 Development Status of Property-right Exchange Market
(1) Analysis of Business Types in Property-right Exchange Market
(2) Analysis of Transaction Means of Property-right Exchange Market
(3) Analysis of Transaction Situation of Property-right Exchange Market
5.4.3 Analysis of Major Problem in Property-right Exchange Market
(1) Positioning of Property-right Exchange Market
(2) Marketization of Property-right Transaction
(3) Narrow Scope of Property-right Transaction
(4) Problems in Property-right Transaction Project
5.4.4 Development Strategies and Suggestions for Property-right Exchange Market
Chapter 6: Analysis of Innovation Routes for China Property-right Exchange Market
6.1 Innovation for Trading Varieties in Property-right Exchange Market
6.1.1 Structural Weakness of Current Trading Varieties in Property-right Exchange Market
6.1.2 Reposition Trading Varieties in Property-right Exchange Market
6.1.3 Innovation of Trading Varieties in Property-right Exchange Market
(1) Equity Trusteeship of Non-listed Company
(2) PE Investment Fund
(3) Asset Securitization
6.2 Transaction Means Innovation for Property-right Exchange Market
6.2.1 Analysis of Transaction Means Innovation for Property-right Exchange Market
6.2.2 Analysis of Call Auction Mechanism
6.2.3 Analysis of Market Maker Quote-driven Mechanism
(1) Connotation of Market Maker Rule
1) Definition of Market Maker Rule
2) Market Maker Rule and Quote-driven Mechanism
3) Operating Mechanism of Market Maker Rule
(2) Analysis of Necessity and Feasibility
1) Necessity for Property-right Market Bringing in Market Maker Rule
2) Feasibility for Property-right Market Bringing in Market Maker Rule
(3) Design for Mechanism Solution
1) Securitization of Property-right
2) Selection for Transaction Mechanism
3) Operation Means of Market Maker Rule
4) Mechanism Design for Market Maker Rule
(4) Obstacles for Bringing in Mechanism and Its Solutions
1) Major Obstacles for Bringing Market Maker Rule in Property-right Market
2) Solutions to Bring in Market Maker Rule in Property-right Market
(5) Case Study - Market Maker Transaction Model for Tianjin Equity Exchange(TEE)

1) Background of Establishing Market Maker Transaction Model
2) Operation Status of Market Maker Transaction Model
3) Market Maker Mechanism Design for TEE
1. Market Entry
2. Training & Testing
3. Mechanism Monitoring
4. Pricing Model
5. Business Evaluation
6.3 Analysis of Pricing Mechanism Innovation for Property-right Exchange Market
6.3.1 Pricing Status of China Property-right Market
6.3.2 Problems in Property-right Pricing Mechanism
6.3.3 Contrast and Selection for Asset Pricing Means Abroad
6.3.4 Development Strategies for Pricing Mechanism Applied in China Property-right Transaction
6.4 Analysis of Statistical Mechanism Innovation for Property-right Exchange Market
6.4.1 Statistical Status of China Property-right Market
6.4.2 Statistical Weakness of China Property-right Market
6.4.3 Enlightenment from Statistics of China Securities Market
6.4.4 Statistical Work Innovation for China Property-right Transaction
6.5 Innovation of Institutions and Organization of Property-right
6.5.1 Forms of Institutions and Organization of Property-right
6.5.2 Enlightenment from Corporate System Reform of Security Exchange
6.5.3 Innovation of Institutions and Organizations of Property-right Exchange
6.6 Innovation of Market Monitoring System for Property-right Exchange Market
6.6.1 Monitoring Status and Problem of Property-right Exchange Market
6.6.2 Monitoring Experiential Learning from Financial Markets Home and Abroad
6.6.3 Suggestions for Establishing and Improving Monitoring Mechanism for Property-right Exchange Market
Chapter 7: Development Strategies for Institutions of Private Property-right Exchange in China
7.1 Background of Non-state-owned Property-right Exchange Mechanism
7.1.1 Non-state-owned Nature of Private Property-right Transaction
7.1.2 Baseline of Private Property-right Exchange Mechanism
7.1.3 Specification and Requirements for Private Property-right Transaction
7.1.4 Specification for Private Property-right Transaction Process
7.2 Transaction Mechanism for Institution of Private Property-right Exchange
7.2.1 Definition of “Dual-track” Exchange Mechanism
7.2.2 Feasibility of Exchange Mechanism
7.2.3 Strategy for Designing Private Property-right Exchange Mechanism
7.3 Development Strategy for Institution of Private Property-right Exchange
7.3.1 Necessity of Differentiated Strategy for Institution of Private Property-right Exchange
(1) Monopoly Pattern Formed in Property-right Exchange Market
(2) Institutions of State-owned Property-right Exchange Have the Say
(3) Homogenization Doesn’t Match Long-term Development of Private Institution
7.3.2 Analysis of Differentiated Strategy for Institution of Private Property-right Exchange
(1) Differentiation Should Match Non-standard Market
(2) Differentiation Should Match Market at Every Stage
7.3.3 Innovation Direction for Institution of Private Property-right Exchange
(1) Demand of Enterprise in Incubator for Service
(2) Demand of Enterprise at Starting-up Stage for Service
(3) Demand of Enterprise at Growth Stage for Service
(4) Demand of Enterprise at Mature Stage for Service
(5) Demand of Enterprise at Post-mature Stage for Service
Chapter 8: Development Model for Major Institutions of Property-right Exchange in China
8.1 Development Model for China Beijing Equity Exchange Group
8.1.1 CBEEG History
8.1.2 CBEEG Main Business Scope
8.1.3 CBEEG Business Framework
8.1.4 CBEEG Financing Capability
(1) Market Volume

(2) Quantity and Size of Listed Companies
(3) Financing Capability
8.1.5 CBEEG Completed Projects
(1) Corporate State-owned Property-right Transaction
(2) Material Object and Prelisting State-owned Asset Project
(3) All Kinds of Specialist Exchange Platform
(4) Dynamic Quotation Project
8.1.6 CBEEG Business Innovation
8.1.7 CBEEG Operating Model
8.2 Development Model for Shanghai United Asset and Equity Exchange
8.2.1 Development of Shanghai United Asset and Equity Exchange
8.2.2 SUAEE Establishment Background
(1) Development History
(2) Main Business
(3) Principles Followed
(4) Main Functions
8.2.3 SUAEE Administration Mechanism
(1) Governmental Supervision Mechanism
(2) Internal Corporate Governance
(3) Membership Mechanism
