

# China Air Pollution Control Industry Indepth Research and Investment Strategy Planning Report, 2013-2017

## 目 录

### CONTENTS

#### Chapter 1: Background of Air Pollution Control Industry

- 1.1 Researches on Background and Methods
- 1.2 Research Scope of Air Pollution Control Industry
  - 1.2.1 Fields of Research on Air Pollution Control Industry
  - 1.2.2 Research Scope of Air Pollution Control Technologies
- 1.3 Characteristics Analysis of Air Pollution Control Industry
- 1.4 Business Model Analysis of Air Pollution Control Industry
- 1.5 Service Model Analysis of Air Pollution Control Industry

#### Chapter 2: Environment Analysis of Air Pollution Control Industry

- 2.1 Policy Environment Analysis of Air Pollution Control Industry
  - 2.1.1 Major Supervision System
  - 2.1.2 Emission standard of Principal Pollutants
  - 2.1.3 Regulations and Policies Related to the Industry
  - 2.1.4 Key Points of Environmental Protection "Twelfth Five-Year" Plan
- 2.2 Economic Environment of Air Pollution Control Industry
  - 2.2.1 Environment Analysis of Domestic Macroeconomic
  - 2.2.2 Economic and Environment Analysis of Environmental Protection Industry
  - 2.2.3 Macroeconomic Effects on the Industry
- 2.3 Technology Environment of Air Pollution Control Industry
  - 2.3.1 Analysis of Current Application of Leading Desulphurization Technology
  - 2.3.2 Analysis of Application and Status Quo of Leading DeNO<sub>x</sub> Technologies
- 2.4 Market Environment Analysis of Air Pollution Treatment Equipments

#### Chapter 3: Analysis of Leading Air Pollution Control Industries

- 3.1 National Waste Gas Emission and Treatment Status
- 3.2 Market of the Electric Power Industry Emissions and Treatment
  - 3.2.1 Analysis of Supply and Demand of Electricity in the Electric Power Industry
  - 3.2.2 Analysis of Gas Pollution Emissions from the Electric Power Industry
  - 3.2.3 Air Pollution Trend and Prediction of the Electric Power Industry
  - 3.2.4 Prediction for Air Pollution Treatment Investment and Operating Costs
- 3.3 Market of Steel Industry Emissions and Treatment
  - 3.3.1 Environment Analysis of the Economic Development of Steel Industry
  - 3.3.2 Analysis of Sulphur Dioxide Emissions from Steel Industry
  - 3.3.3 Trend Prediction for Air Pollution from Steel Industry
  - 3.3.4 Prediction for Conventional Air Pollution Treatment Investment and Operation Costs
- 3.4 Market of Non-ferrous Metal Industry Emissions and Treatment
  - 3.4.1 Environment Analysis of the Economic Development of Non-ferrous Metal Industry
  - 3.4.2 Analysis of Sulphur Dioxide Emissions from Non-ferrous Metal Industry
  - 3.4.3 Trend Prediction for Air Pollution from Non-ferrous Metal Industry
  - 3.4.4 Prediction for Conventional Air Pollution Treatment Investment and Operation Costs
- 3.5 Market of Chemical Industry Emissions and Treatment
  - 3.5.1 Environment Analysis of the Economic Development of Chemical Industry
  - 3.5.2 Analysis of Sulphur Dioxide Emissions from Chemical Industry
  - 3.5.3 Trend Prediction for Air Pollution from Chemical Industry
  - 3.5.4 Prediction for Air Pollution Treatment Investment and Operation Costs
- 3.6 Market of Building Materials (Cement) Industry Emissions and Treatment
  - 3.6.1 Environment Analysis of the Economic Development of Building Materials (Cement) Industry
  - 3.6.2 Analysis of Sulphur Dioxide Emissions from Building Materials (Cement) Industry
  - 3.6.3 Trend Prediction for Air Pollution from Building Materials (Cement) Industry
  - 3.6.4 Prediction for Air Pollution Treatment Investment and Operation Costs

## Chapter 4: Analysis of Market Attractiveness of Denitration Industry for Air Pollution Treatment

### 4.1 Current Situation Analysis of Denitration Industry

### 4.2 Analysis of DeNOx System Capital Investment and Operation Costs

#### 4.2.1 Cost Analysis of Low DeNOx combustion Denitration System

#### 4.2.2 Cost Analysis of SCR Denitrification Technology

### 4.3 Prospective Analysis of Thermal Power Denitration Market

### 4.4 Analysis of Nox Catalysts Market

#### 4.4.1 Analysis of Nox Catalysts Raw Material Market

#### 4.4.2 Products Classification of Nox Catalysts

#### 4.4.3 Analysis of Catalyst Consumption

#### 4.4.4 Competition Pattern Among Catalyst Enterprises

#### 4.4.5 Analysis of the Supply and Demand Structure of Catalyst

#### 4.4.6 Prediction for Market Capacity of Catalyst

### 4.5 Prediction for the Prospect of Denitration Market to Air Pollution Treatment Industry

## Chapter 5: Analysis of Market Attractiveness of Desulfurization Market for Air Pollution Treatment

### 5.1 Current Situation Analysis of Desulfurization Industry

#### 5.1.1 Analysis of Sulfur Dioxide Emissions Status Quo

#### 5.1.2 Market Size Analysis of Desulfurization Industry

#### 5.1.3 Current Situation Analysis of Desulfurization Project Construction

#### 5.1.4 Market Structure Analysis of Desulfurization Industry

### 5.2 Analysis of Desulfurization Industry Capital Investment and Operation Costs

#### 5.2.1 Gypsum FGD Capital Investment and Operation Costs

#### 5.2.2 Comprehensive Economic Analysis of Gypsum FGD Cost

#### 5.2.3 Result Analysis of Gypsum FGD System

### 5.3 Prospective Analysis of Thermal Power Desulfurization

### 5.4 Prospective Analysis of Steel Desulfurization Sintering Market

### 5.5 Market Analysis of Desulfurization Catalysts

### 5.6 Prediction for the Prospect of Desulfurization Market to Air Pollution Treatment Industry
