

China Low Voltage Electrical Apparatus Industry Report of Produce and Sale & Investment Forecast Analysis, 2013-2017

目 录

CONTENTS

Chapter 1: Summary of development of China low-voltage electrical apparatus industry

1.1 Definition and classification of low-voltage electrical apparatus industry

- 1.1.1 industry concepts and definitions
- 1.1.2 categories of the industry's main products
- 1.1.3 analysis of the industry's life cycle

1.2 statistical standards for low-voltage electrical industry

- 1.2.1 statistics caliber
- 1.2.2 statistical methods
- 1.2.3 data types

1.3 analysis of development environment of low-voltage electrical industry

- 1.3.1 policy environment analysis
 - (1) departments in charge and management system
 - (2) industry-related policy developments
 - (3) development of industry standardization
 - (4) development plan of low-voltage electrical industry
- 1.3.2 the macroeconomic environment analysis
 - (1) macroeconomic situation analysis
 - (2) the macroeconomic situation forecast
 - (3) the macroeconomic impact on the industry
- 1.3.3 technical environment analysis
 - (1) analysis of the level of activity of industry technology
 - (2) analysis of leading enterprises of the industry technology
 - (3) analysis of popular technologies

1.4 analysis of low-voltage electrical apparatus industry chain

- 1.4.1 introduction of the industry chain
- 1.4.2 analysis of the industry's downstream
 - (1) development of the electricity industry
 - (2) development of construction
 - (3) development of the petrochemical industry
 - (4) development of the coal industry
 - (5) development of the metallurgical industry
 - (6) development of the machine tool industry
- 1.4.3 analysis of the industry's upstream
 - (1) analysis of the copper market operations
 - 1) analysis of copper supply and demand
 - 2) analysis of the copper price trend
 - (2) analysis of the silver market operations
 - 1) analysis of the supply and demand of silver
 - 2) analysis of recycled silver
 - 3) analysis of the silver price trend
 - (3) analysis of the operations of the steel industry
 - 1) analysis of the steel industry supply and demand
 - 2) analysis of the steel industry price trend
- 1.4.4 analysis of development of plastics industry
 - (1) analysis of plastic market
 - (2) analysis of waste plastics market

Chapter 2: Analysis of development of China low-voltage electrical apparatus industry

2.1 overview of China low-voltage electrical apparatus industry

- 2.1.1 general overview of the development of the China low-voltage electrical apparatus industry

- 2.1.2 main characteristics of the China low-voltage electrical apparatus industry
- 2.1.3 leading driving factors of the China low-voltage electrical apparatus industry
- 2.2 analysis of low-voltage electrical apparatus industry operators**
 - 2.2.1 analysis of the management performance of low-voltage electrical apparatus industry in....2012
 - 2.2.2 analysis of the profitability capacity of low-voltage electrical apparatus industry in....2012
 - 2.2.3 analysis of the operation capacity of low-voltage electrical apparatus industry in.....2012
 - 2.2.4 analysis of the solvency capacity of low-voltage electrical apparatus industry in.....2012
 - 2.2.5 analysis of the development capacity of low-voltage electrical apparatus industry in.....2012
- 2.3 analysis of economic indicators of low-voltage electrical apparatus industry**
 - 2.3.1 analysis of economic indicators of low-voltage electrical apparatus industry in 2011-2012
 - 2.3.2 analysis of economic indicators of enterprises of different sizes in 2011-2012
 - 2.3.3 analysis of economic indicators of enterprises of different nature in 2011-2012
- 2.4 analysis of supply and demand balance of low-voltage electrical apparatus industry**
 - 2.4.1 analysis of the national supply of low-voltage electrical apparatus industry in.....2012
 - (1) analysis of national output of low-voltage electrical apparatus industry
 - (2) analysis of national finished products of low-voltage electrical apparatus industry
 - 2.4.2 analysis of needs of the national low-voltage electrical apparatus industry in.....2012
 - (1) analysis of sales value of the national low-voltage electrical apparatus industry
 - (2) analysis of sales revenue of the national low-voltage electrical apparatus industry
 - 2.4.3 analysis of sales rate of the national low-voltage electrical apparatus industry in.....2012
- 2.5 import and export analysis of low-voltage electrical apparatus industry in 2010-2012**
 - 2.5.1 the overall situation of import and export of low-voltage electrical apparatus industry in 2010-2012
 - 2.5.2 export situation in 2010-2012
 - (1) overall export situation
 - (2) export structure
 - 2.5.3 analysis of import of low-voltage electrical apparatus industry in 2010-2012
 - (1) overall import situation
 - (2) import structure

Chapter 3: Analysis of market competition of China low-voltage electrical apparatus industry

- 3.1 analysis of international market competition of low-voltage electrical apparatus industry**
 - 3.1.1 overview of the international low-voltage electrical apparatus industry
 - 3.1.2 overview of the low-voltage electrical apparatus industry in main regions
 - (1) overview of the low-voltage electrical apparatus industry in Europe
 - (2) overview of the low-voltage electrical apparatus industry in North America
 - (3) overview of the low-voltage electrical apparatus industry in Asia Pacific
 - (4) overview of the low-voltage electrical apparatus industry in Africa
 - 3.1.3 analysis of international market competition of low voltage electrical apparatus
 - 3.1.4 analysis of the development trends of the international low-voltage electrical apparatus market
- 3.2 Analysis of market competition of major international enterprises in China**
 - 3.2.1 investment layout of major corporate in China market
 - (1) Swiss ABB Group
 - (2) Germany Siemens AG
 - (3) Schneider Electric
 - (4) French company Legrand
 - (5) American General Electric Company
 - (6) American Eaton Electrical Apparatus Group
 - 3.2.2 Analysis of competition strategies of multinational companies in China
- 3.3 Analysis of China low-voltage electrical apparatus industry competition**
 - 3.3.1 analysis of market size of the low-voltage electrical apparatus industry
 - 3.3.2 analysis of concentration of low-voltage electrical apparatus industry
 - 3.3.3 five forces analysis of low-voltage electrical apparatus industry
 - (1) analysis of existing industry competitors
 - (2) analysis of the bargaining power of suppliers
 - (3) analysis of the bargaining power of the downstream customers
 - (4) analysis of potential entrants threat
 - (5) analysis of alternatives threat

3.4 analysis of key factors in China low-voltage electrical apparatus industry competition

- 3.4.1 price factors
- 3.4.2 channels factor
- 3.4.3 quality factor
- 3.4.4 brand factor

3.5 analysis of regional competition of China low-voltage electrical apparatus industry

- 3.5.1 regional competition of low-voltage electrical apparatus industry
- 3.5.2 analysis of the development of low-voltage electrical apparatus industry the key areas
 - (1) analysis of low-voltage electrical apparatus industry in Zhejiang province
 - (2) analysis of the development of low-voltage electrical apparatus industry in Guangdong province
 - (3) analysis of the development of low-voltage electrical apparatus industry in Beijing
 - (4) analysis of the development of low-voltage electrical apparatus industry in Shanghai
 - (5) analysis of the development of low-voltage electrical apparatus industry in Jiangsu province

Chapter 4: Analysis of market of China low-voltage electrical apparatus products

4.1 structural features of low-voltage electrical apparatus products

4.2 market analysis of circuit breakers

- 4.2.1 overview of the low-voltage circuit breakers market
- 4.2.2 analysis of market segmentation of the low-voltage circuit breakers
 - (1) market analysis of universal circuit breakers
 - 1) development status
 - 2) production and prospects
 - 3) main producers
 - 4) technical breakthrough point
 - (2) MCCB market analysis
 - 1) development status
 - 2) production and prospects
 - 3) main producers
 - 4) technical breakthrough point
 - (3) market analysis of miniature circuit breaker
 - 1) development status
 - 2) production and prospects
 - 3) main producers
 - 4) technical breakthrough point
- 4.2.3 analysis of applications and requirements of the low voltage circuit breakers
- 4.2.4 analysis of market competition of low-voltage circuit breakers
- 4.2.5 analysis of application areas of advantageous low voltage circuit breaker enterprises
- 4.2.6 new requirements of the smart grids on low-voltage circuit breakers
- 4.2.7 market trends and prospects

4.3 relay market analysis

- 4.3.1 relay market overview
 - (1) the international relay market overview
 - (2) the China relay market overview
- 4.3.2 the relay industry production
- 4.3.3 the relay market demand
- 4.3.4 the relay market competition
- 4.3.5 the relay market forecast

4.4 contactor market analysis

- 4.4.1 contactor market overview
- 4.4.2 analysis of contactor production
- 4.4.3 main contactor manufacturers
- 4.4.4 analysis of the contactor market demand

4.5 knife switches market analysis

- 4.5.1 production and prospects
- 4.5.2 the main producers

Chapter 5: Analysis of marketing factors of China low-voltage electrical apparatus industry

5.1 Analysis of users of low-voltage electrical apparatus industry

- 5.1.1 awareness of industry users
 - (1) lack of brand awareness
 - (2) apathetic safety awareness
 - (3) there is no sense of TCO
- 5.1.2 points of concern of industry users
 - (1) functional factor
 - (2) quality factor
 - (3) price factor
- 5.1.3 demand characteristics of industry users
- 5.1.4 demand structure of industry users
- 5.2 Analysis of product prices of low-voltage electrical apparatus industry**
 - 5.2.1 analysis of price characteristics
 - 5.2.2 relations between price and cost
 - 5.2.3 pricing strategy
 - (1) price competition situation of low-voltage electrical apparatus industry
 - (2) price strategies of low-voltage electrical apparatus industry
- 5.3 Analysis of channels of low-voltage electrical apparatus industry**
 - 5.3.1 analysis of the channel patterns
 - 5.3.2 analysis of channel form
 - 5.3.3 comparison of channel elements
 - 5.3.4 analysis of strategies for channel development and management
 - (1) channel construction
 - (2) channel management
 - (3) develop new sales channels
