

China Coal Mining Machinery Manufacturing Industry Production and Marketing Demand and Investment Forecast Report, 2013-2017

目 录

CONTENTS

Chapter 1: Analysis of Development Environment of China Coal Mine Machinery Industry

1.1 definition and properties of coal mining machinery industry

1.1.1 definition of the coal industry machinery

1.1.2 regional coal mining machinery industry

1.1.3 cycle of coal mine machinery industry

1.2 analysis of economic environment of coal mining machinery industry

1.2.1 analysis of international macroeconomic trend

1.2.2 analysis of domestic macroeconomic trend

1.2.3 analysis of effect of changes in economic conditions on the industry

1.3 analysis of policy environment of coal mining machinery industry

1.3.1 analysis of coal mining machinery industry management system

1.3.2 analysis of coal industry-related policy

1.3.3 analysis of coal mining machinery industry-related policy

1.3.4 analysis of related standards of coal mining machinery industry

1.4 analysis of technology environment of coal mining machinery industry

1.4.1 analysis of technical standard status of coal machinery industry

1.4.2 analysis of application of new technologies in coal mining machinery industry

(1) analysis of application of laser technology in coal mining machinery industry

(2) analysis of application of water lubrication technology in the coal mining machinery

industry

(3) analysis of application of new energy-saving technology in the coal mining machinery

industry

(4) analysis of application of intelligent technology in coal mining machinery industry

1.4.3 analysis of technology trends of coal mining machinery industry

Chapter 2: Analysis of Chinese coal mine machinery industry chain

2.1 introduction of coal mining machinery industry chain

2.2 analysis of raw material market of coal mine machinery industry

2.2.1 analysis of steel market

(1) analysis of steel production

(2) analysis of steel consumption

(3) steel price trends and forecasts

(4) analysis of the impact of the steel on coal mining machinery industry

2.2.2 analysis of development status and trend of reducer industry

(1) analysis of gear sales

(2) analysis of the impact of the reducer industry on coal mining machinery industry

2.2.3 analysis of development status and trend of motor industry

(1) analysis of motor sales

(2) analysis of the impact of the motor industry on coal mining machinery industry

2.2.4 analysis of development status and trend of hydraulic components industry

(1) analysis of hydraulic components sales

(2) analysis of the impact of the hydraulic components industry on coal mining machinery

industry

2.2.5 analysis of development status and trend of machine tool industry

(1) analysis of machine tool sales

(2) analysis of the impact of the machine tool industry on coal mining machinery industry

2.3 analysis of market demand for coal mining machinery industry

2.3.1 analysis of coal mining exploration and its impact

(1) analysis of coal reserves

(2) analysis of coal mining methods

- (3) analysis of coal mining mechanization
- (4) impact of coal mining exploration on the coal mining machinery industry
- 2.3.2 analysis of the operation and its impacts of the coal industry
 - (1) analysis of coal production and sales
 - (2) analysis of coal price trend
 - (3) analysis of the coal industry operation
 - 1) analysis of operating efficiency
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (4) the impact of the operation of the coal industry on coal mining machinery industry
- 2.3.3 analysis of investment in the coal industry and its impact
 - (1) analysis of investment scale of the coal industry
 - (2) analysis of investment direction of the coal industry
 - (3) impact of investment in the coal industry on the coal mining machinery industry
- 2.3.4 analysis of consolidation of the coal industry and its impact
 - (1) analysis of the coal industry concentration
 - (2) analysis of the coal industry consolidation trend
 - (3) the impact of coal industry consolidation on coal mining machinery industry

Chapter 3: Analysis of Current Situation of China Coal Mining Machinery Industry

3.1 analysis of coal mining machinery industry development

- 3.1.1 overview of the development of coal mining machinery industry
- 3.1.2 analysis of coal mining machinery industry output
- 3.1.3 analysis of coal mining machinery industry sales
- 3.1.4 analysis of coal mining machinery industry profit level
 - (1) analysis of profit level change trend
 - (2) analysis of reasons of industry profit level change

3.2 analysis of import and export of coal mining machinery industry

- 3.2.1 general export situation of coal mining machinery industry in 2011-2012
- 3.2.2 analysis of export market of coal mining machinery industry in 2011-2012
 - (1) overall export of coal mining machinery industry in 2011-2012
 - (2) export structure of coal mining machinery industry in 2011-2012
- 3.2.3 analysis of import market of coal mining machinery industry in 2011-2012
 - (1) overall import of coal mining machinery industry in 2011-2012
 - (2) import structure of coal mining machinery industry in 2011-2012

3.3 analysis of competition of coal mining machinery industry

- 3.3.1 analysis of international coal mining machinery industry competition
- 3.3.2 analysis of competition of international mining machinery enterprises in China
 - (1) competition of U.S. JOY company in China
 - (2) competition of Bucyrus International Inc. in China
 - (3) competition of Germany Aike Fu company in China
- 3.3.3 analysis of China coal mining machinery industry competition
 - (1) analysis of industry competition pattern
 - (2) analysis of industry five force model
 - 1) analysis of the upstream bargaining power
 - 2) analysis of downstream bargaining power
 - 3) analysis of new entrant threats
 - 4) analysis of alternative threats
 - 5) analysis of industry competitive situation
 - 6) analysis of summary of competition in the industry

Chapter 4: Analysis of main product markets of Chinese coal mine machinery industry

4.1 analysis of shearer market

- 4.1.1 yield analysis
- 4.1.2 market competition analysis
- 4.1.3 analysis of main production enterprises
- 4.1.4 analysis of the latest developments
- 4.1.5 analysis of development trends
- 4.1.6 market forecast

4.2 analysis of tunneling machine market

- 4.2.1 market competition analysis
- 4.2.2 major production companies
- 4.2.3 analysis of development trends
- 4.2.4 market forecast

4.3 analysis of shearer market scraper conveyor market

- 4.3.1 basic concepts
- 4.3.2 market competition analysis
