

China Oil and Gas Engineering Industry Prospects and Investment Strategy Report, 2013–2017

目 录

CONTENTS

Chapter 1: Development Overview of China Oil and Gas Engineering Industry

1.1 Definition of Industry

- 1.1.1 Definition of Industry
- 1.1.2 Scope Definition of This Report

1.2 Supervision Mechanism of Industry

- 1.2.1 Competent Departments in the Industry
- 1.2.2 Supervision Mechanism of Industry

1.3 Policies and Standards Related to Industry

- 1.3.1 Standards Related to Industry
- 1.3.2 Policies Related to Industry
 - (1) National Geological Exploration Plan
 - (2) National Mineral Resource Plan, 2008–2015
 - (3) Oil and Natural Gas Pipeline Protection Law of the People's Republic of China
 - (4) Provisions on Several Issues Concerning Reform of Resource Tax on Crude Oil and Natural Gas

in Xinjiang Region

- (5) Special Oil Gain Premium

Chinese Petroleum Enterprises

- (7) Notice Concerning the Imported gas in proportion to return the import link value-added tax
- (8) Industrial Guidance for Outbound Foreign Investment in Different Countries
- (9) Decision of the State Council on the Revision of the Interim Regulations on Resource Tax of

the People's Republic of China

- (10) Guidance Opinions on Developing the Natural-Gas-Fired Distributed Energy Resource

year" Period

- (12) Notice of Conducting Trial of Pricing Mechanism Reform for Natural Gas in Guangdong

Province and the Guangxi Autonomous Region

- (13) Notice of the Customs Tariff Commission of the State Council on the Tariff Implementation

P l a n f o r 2 0 1 2

- (14) Shale Gas Exploration Right Bidding Intention Survey Bulletin

- (15) Implementation Opinions on Encouraging and Leading Private Capital to Further Expand

Investment in the Field of Energy

- (16) "Twelfth Five-year" Development Guidance for Petroleum and Chemical Industry

- (17) "Twelfth Five-year" Development Plan for Petrochemical and Chemical Industry

1.4 Analysis of Economic Environment for Industry

1.5 Profile of Industrial Chain

Chapter 2: Development Status and Prospects of Oil and Gas Exploration Engineering Industry

2.1 Oil Reserves and Gas and Distribution

- 2.1.1 Global Oil and Gas Reserves and Distribution
- 2.1.2 Analysis of China Oil and Gas Reserves
 - (1) New Proven Oil and Gas Reserves
 - (2) Accumulated Proven Oil and Gas Reserves
- 2.1.3 Distribution of China Oil and Gas Reserves
 - (1) Distribution of Major Onshore Oilfield Reserves
 - (2) Distribution of Major Offshore Oilfield Reserves

2.2 R&D Progress of Oil and Gas Exploration Technology

- 2.2.1 Profile of New Geological Theory
 - (1) Petroleum Geological Dynamics Theory

- (2) Petroleum System Theory
- (3) Geological Theory for Deep Basin Gas
- (4) Sequence Stratigraphy Theory
- (5) Reservoir Forming Dynamic System Theory
- (6) Basin Thermal Evolution Theory
- 2.2.2 New Technology for Exploration in the Industry
 - (1) Technology of Basin Analysis and Simulation
 - (2) Technology of Reservoir Description
 - (3) Technology of Description and Evaluation for Petroleum System
 - (4) Technology of Description and Evaluation for Reservoir Forming Dynamic System
 - (5) Geochemistry Method and Technology
 - (6) Technology Seismic Information Recognition and Explaining
 - (7) Technology of Magnetic Resonance Image Logging
 - (8) Technology of Fluid Inclusion
- 2.2.3 Deep Oil and Natural Gas Exploitation Technologies
 - (1) Deep Oil and Natural Gas Exploration Technologies
 - (2) Deep Oil and Natural Gas Drilling Technologies
 - (3) Suggestions for Improving China's Deep Sea Exploration Capability
- 2.2.4 R&D Progress of Domestic Oil and Gas Exploration Technology
 - (1) R&D Progress of CNPC Oil and Gas Exploration Technology
 - (2) R&D Progress of Sinopec Oil and Gas Exploration Technology
 - (3) R&D Progress of CNOOC Oil and Gas Exploration Technology
 - (4) R&D Progress of Private Enterprise Oil and Gas Exploration Technology
- 2.3 Analysis of Competition in Oil and Petroleum Exploration Market**
 - 2.3.1 Competition of International Oil and Petroleum Exploration Market
 - (1) Analysis of Revenue and Position of Three Major Overseas Companies
 - (2) R&D Investment Situation of Three Major Overseas Companies
 - (3) Advantageous Regional Markets for Three Major Overseas Companies
 - (4) Analysis of Leading Causes of Three Major Overseas Companies
 - (5) Competitive Landscape of International Oil and Gas Exploration Market
 - 2.3.2 Competition Situation of Domestic Oil and Gas Exploration Market
 - (1) Competitive Subjects in Domestic Oil and Gas Exploration Market
 - (2) Comparison among Competitive Subjects of Domestic Oil and Gas Exploration
 - (3) Competitive Landscape of Domestic Oil and Gas Exploration Market
- 2.4 Analysis of Achievements of Oil and Gas Exploration Engineering Industry**
 - 2.4.1 Analysis of Team Equipment of Oil and Gas Exploration Engineering Industry
 - 2.4.2 Analysis of Exploration Cost of Oil and Gas Exploration Engineering Industry
 - 2.4.3 Analysis of Achievements of Oil and Gas Exploration Engineering Industry
 - (1) Analysis of CNPC Oil and Gas Exploration Achievements
 - (2) Analysis of Sinopec Oil and Gas Exploration Achievements
 - (3) Analysis of CNOOC Oil and Gas Exploration Achievements
 - (4) Analysis of Private Enterprise Oil and Gas Exploration Achievements

2.5 Analysis of Prospects for Oil and Gas Exploration Engineering Industry

Chapter 3: Development Status and Prospects for Oil and Gas Exploitation Engineering Industry

3.1 Analysis of Oil Resource Recoverable Reserves

- 3.1.1 Proven Technical Recoverable Reserves of Newly Increased Oil and Natural Gas
- 3.1.2 Residual Technical Recoverable Reserves of Oil and Natural Gas

3.2 R&D Progress of Oil and Gas Exploitation Technology

- 3.2.1 Testing and Control Technology of Frequency Conversion for Rod-Pumped Well
- 3.2.2 Analysis of Development of Wells Branch Technology
 - (1) Features of Wells Branch Technology
 - (2) Development of Foreign Wells Branch Technology
 - (3) Development of Domestic Wells Branch Technology
 - (4) Application Prospects for Wells Branch Technology
- 3.2.3 Wells Branch Technology Status and Development Trend
 - (1) Oil-well Cement and Additive for Cement Slurry
 - (2) Foreign Cementing Technology
 - (3) Domestic Cementing Technology

3.2.4 Analysis of Development of Clean Production Technology

- (1) Geophysical Prospecting Clean Production Technology
- (2) Well Drilling Clean and Production Technology
- (3) Oilfield Down-Hole Operation Clean Technology
- (4) Oil and Natural Exploitation Clean Production Technology

3.2.5 Exploitation Technologies for Deep Sea Oil and Natural Gas

- (1) Prevent and Exclude Pipe Plugging Technology
- (2) Forecast for Deep Water Development Leakage Technology
- (3) Key Tackling Contents for Deep Sea Oil and Gas Development Technologies

3.3 Analysis of Development Situation of Oil and Gas Exploitation Industry

3.3.1 Analysis of Operation Situation of Oil and Gas Exploitation Industry

- (1) Analysis of Operation Benefits of Oil and Gas Exploitation Industry, 2010-2011
- (2) Analysis of Profitability of Oil and Gas Exploitation Industry, 2010-2011
- (3) Analysis of Operation Capability of Oil and Gas Exploitation Industry, 2010-2011
- (4) Analysis of Debt-paying Ability of Oil and Gas Exploitation Industry, 2010-2011
- (5) Analysis of Development Capability of Oil and Gas Exploitation Industry, 2010-2011

3.3.2 Analysis of Economic Indicators of Oil and Gas Exploitation Industry

- (1) Analysis of Economic Indicators in Oil and Gas Exploitation Industry, 2010-2011
- (2) Analysis of Economic Indicators in Different Size, 2010-2011
- (3) Analysis of Economic Indicators for Enterprises in Different Economic Property, 2010-2011
- (4) Analysis of Economic Indicators in Different Regions, 2010-2011

3.3.3 Analysis of Balance between Supply and Demand of Oil and Gas Exploitation Industry

- (1) Analysis of Supply of National Oil and Gas Exploitation Industry, 2010 -2011
- (2) Analysis of Demand of National Oil and Gas Exploitation Industry, 2010 -2011
- (3) Analysis of Production and Marketing Ratio of National Oil and Gas Exploitation Industry,

2010 -2011

3.3.4 Analysis of Operation Situation of Oil and Gas Exploitation Industry, Jan. - Mar.2012

- (1) Analysis of Industrial Scale, Jan. - Mar.2012
- (2) Analysis of Capital/Labor Intensity, Jan. -Mar.2012
- (3) Analysis of Industry' s Cost, Jan. -Mar.2012
- (4) Analysis of Profit and Loss, Jan. -Mar.2012

3.4 Investment Status and Prospects Forecast for Oil and Gas Exploitation

3.4.1 Investment Size of Oil and Gas Exploitation

3.4.2 Analysis of Investment Capital Source Composition

3.4.3 Analysis of Investment Project Construction of Oil and Gas Exploitation

3.4.4 Analysis of Investment Project Construction of Oil and Gas Exploitation

3.4.5 Analysis of Investment Capital Usage of Oil and Gas Exploitation

- (1) Composition of Investment Capital Flow
- (2) Investment Capital Proportion for Different Levels of Projects
- (3) Investment Proportion for Newly-built, Expanded and Restructured Projects

3.4.6 Analysis of Investment Subject Composition for Oil and Gas Exploitation

3.4.7 Forecast for Investment Size of Oil and Gas Exploitation

3.5 Development Status of Oil and Gas Exploitation Engineering Industry

3.5.1 Analysis of Petroleum and Natural Gas Output

- (1) Analysis of Oil and Gas Output
- (2) Analysis of CNPC Oil and Gas Production
- (3) Analysis of Sinopec Oil and Gas Production
- (4) Analysis of CNOOC Oil and Gas Production

3.5.2 Oil and Gas Engineering Construction

- (1) Constriction Situation of Oil and Gas Output
- (2) Oil Exploitation Engineering Construction Progress
- (3) Ground Engineering Construction Progress
- (4) Ocean Engineering Construction Progress

3.5.3 Analysis of Competition in Oil and Gas Exploitation Engineering Market

3.6 Development Prospects and Trend for Oil and Gas Exploitation Engineering Industry

3.6.1 Analysis of Demand Prospects for Industry

3.6.2 Analysis of Resource Development Prospects

- (1) Analysis of Prospects for Onshore Resource Exploitation
- (2) Analysis of Prospects for Offshore Resource Exploitation

(3) Analysis of Prospects for Overseas Resource Exploitation

3.6.3 Analysis of Trend of Industry Exploitation

Chapter 4: Development Status and Prospects for Oil and Gas Storage and Transportation Engineering

4.1 Domestic Oil and Gas Transportation Construction Status

4.1.1 Analysis of Investment Size of Oil and Gas Transportation Engineering

(1) Completion Situation of Industry's Investment Construction during "12th Five-year" Period

(2) Analysis of Forecast for Industry's Construction Demand during "12th Five-year" Period

4.1.2 Overall Construction Situation of Oil and Gas Storage and Transportation Engineering

(1) Total Length of Oil and Gas Pipeline

(2) Construction of Oil Reserve Base

(3) Development History of Oil and Gas Pipeline Construction

4.1.3 Construction Situation of Field Segments of Oil and Gas Transportation Engineering

(1) Construction Situation of Crude Oil Transportation Engineering

(2) Construction Situation of Finished Oil Product Transportation Engineering

(3) Construction Situation of Natural Gas Transportation Engineering

4.2 Construction of Transnational Oil and Gas Transportation Engineering

4.2.1 Operation Situation of Central Asia Oil and Gas Transportation Engineering

4.2.2 Operation Situation of China-Kazakhstan Oil and Gas Transportation Engineering

4.2.3 Construction Progress of China-Burma Oil and Gas Transportation Engineering

4.2.4 Construction Progress of China-Russia Oil and Gas Transportation Engineering

4.2.5 Construction Progress of Central Asia Oil and Gas Transportation Engineering

4.3 Construction Situation of Domestic Oil and Gas Reserve Base

4.3.1 Tianjin Oil Reserve Base

(1) Construction Size

(2) Reserve Capacity

4.3.2 Shanshan Oil Reserve Base

(1) Construction Size

(2) Reserve Capacity

4.3.3 Zhoushan Oil Reserve Base

(1) Investment Size

(2) Construction Size

(3) Reserve Capacity

4.3.4 Dushanzi Oil Reserve Base

(1) Investment Size

(2) Construction Size

4.3.5 Zhenhai Reserve Base

(1) Investment Size

(2) Construction Size

(3) Reserve Capacity

4.3.6 Huizhou Reserve Base

(1) Investment Size

(2) Construction Size

4.3.7 Huangdao Reserve Base

(1) Investment Size

(2) Construction Size

(3) Reserve Capacity

4.3.8 Dalian Reserve Base

(1) Investment Size

(2) Construction Size

(3) Reserve Capacity

4.3.9 Lanzhou Reserve Base

(1) Investment Size

(2) Construction Size

4.3.10 Jinzhou Reserve Base

(1) Investment Size

(2) Construction Size

4.4 Development Prospects for Oil and Gas Storage and Transportation Engineering Industry

4.4.1 Driven Factors of Oil and Gas Storage and Transportation Engineering

- 4.4.2 Construction Planning for Oil and Gas Storage and Transportation Engineering
- 4.4.3 Development Prospects for Oil and Gas Storage and Transportation Engineering

Chapter 5: Analysis of Project Management for Oil and Gas Engineering Industry

5.1 Management Features of Oil and Gas Engineering Project

- 5.1.1 Management Features of Oil Industry before Project Restructuring
- 5.1.2 Management Features of Oil Industry after Project Restructuring

5.2 Management Experiential Learning from Foreign Oil and Gas Engineering Projects

- 5.2.1 Management Modes for Foreign Oil and Gas Engineering Projects
- 5.2.2 Implementation and Process Control of Foreign Oil and Gas Engineering Projects
- 5.2.3 Supervision Management of Foreign Oil and Gas Engineering Projects
- 5.2.4 Management Modes for Engineering Projects in Foreign Oil Companies
 - (1) PMC
 - (2) EPC
 - (3) PMT
 - (4) PMC+EPC
 - (5) PMT+EPC
- 5.2.5 Management Modes and Experiential Learning of Foreign Oil and Gas Engineering Project

5.3 Management Development Status of Domestic Oil and Gas Engineering Project

- 5.3.1 Management of CNOOC Engineering Project
 - (1) Management Mode
 - (2) Management Department
 - (3) Executive Standard for Project Management
 - (4) Administration Management
- 5.3.2 Management of CNPC Engineering Project
 - (1) Management Mode
 - (2) Management Department
 - (3) Administration Management
- 5.3.3 Management of Sinopec Engineering Project
 - (1) Management Mode
 - (2) Management Department
 - (3) Administration Management

5.4 Suggestions for Management Mode for Domestic Oil and Gas Engineering Project

Chapter 6: Analysis of Operation of Typical Enterprises in China Oil and Gas Engineering Industry

6.1 Analysis of Typical Enterprises in Oil and Gas Exploration Industry

- 6.1.1 Analysis of BGP Inc., China National Petroleum Corporation
 - (1) Analysis of Development Profile
 - (2) Analysis of Organization Structure
 - (3) Analysis of Operating Business
 - (4) Analysis of Technical Level
 - (5) Analysis of Engineering Performance
 - (6) Analysis of Latest Development Trend
- 6.1.2 Analysis of PetroChina Daqing Oilfield Geological Exploration Company
 - (1) Analysis of Development Profile
 - (2) Analysis of Operating Business
 - (3) Analysis of Technical Level
 - (4) Analysis of Engineering Performance
- 6.1.3 Analysis of PetroChina Daqing Oilfield Geophysical Prospecting Company
 - (1) Analysis of Development Profile
 - (2) Analysis of Operating Business
 - (3) Analysis of Technical Level
- 6.1.4 Analysis of Sino Geophysical Co., Ltd.
 - (1) Analysis of Development Profile
 - (2) Analysis of Organization Structure
 - (3) Analysis of Operating Business
 - (4) Analysis of Technical Level
 - (5) Analysis of Engineering Performance
 - (6) Analysis of Operating Mode
 - (7) Analysis of Operation Situation

- (8) Analysis of Operational Advantages and Disadvantages
- (9) Analysis of Investment, M&A and Restructuring
- (10) Analysis of Latest Development Trend
- 6.1.5 Analysis of LandOcean Energy Services Co., Ltd.
 - (1) Analysis of Development Profile
 - (2) Analysis of Organization Structure
 - (3) Analysis of Operating Business
 - (4) Analysis of Technical Level
 - (5) Analysis of Engineering Performance
 - (6) Analysis of Operating Mode
 - (7) Analysis of Operation Situation
