

China Electric Power Environmental Protection Industry Market Forecast and Investment Strategy Planning Report, 2013-2017

目 录

CONTENTS

Chapter 1: Overview of China Electric Power Environmental Protection Industry

1.1 Definition of Electric Power Environmental Protection Industry

1.2 Development Background of Electric Power Environmental Protection Industry

1.2.1 Serious Situation of Environment Protection

1.2.2 Great Pressure on Air Pollution Treatment

1.2.3 Environmental Protection Investment Becomes A Significant Aspect for Expanding Domestic

Consumption

1.3 Development Environment for Electric Power Environmental Protection Industry

1.3.1 Policy Environment

(1) Supervision Mechanism

(2) Policy Trends Related to Industry

(3) Latest Development Plan

1.3.2 Macro-economic Environment

(1) Economic Environment for Electricity Industry

(2) Macro-economic Environment for Electric Power Environmental Protection Industry

1.4 Development Overview of Electric Power Environmental Protection Industry

1.4.1 Development Overview of Electric Power Environmental Protection Industry

1.4.2 Development Features of Electric Power Environmental Protection Industry

1.4.3 Investment Features of Electric Power Environmental Protection Industry

(1) Entry Barriers to Electric Power Environmental Protection Industry

(2) Operation Models for Electric Power Environmental Protection Industry

Chapter 2: Thermal De-NO_x Market in China

2.1 Thermal De-NO_x Market

2.1.1 NO_x Pollution in Thermal Power Industry

2.1.2 NO_x Control Measures for Thermal Power Industry

2.1.3 Thermal De-NO_x Market Scale

(1) Distribution Pattern of Thermal Power Installed Capacity

(2) Thermal De-NO_x Status

(3) Construction of Thermal De-NO_x Programs

(4) "Twelfth Five-year" Forecast for Thermal De-NO_x Market Capacity

1) Market Capacity for Old Unit Transformation

2) Market Capacity for New Unit Installation

2.1.4 Competition for Thermal De-NO_x Market

2.2 Thermal De-NO_x Catalyst Market

2.2.1 Classification of SCR De-NO_x Catalysts

2.2.2 Relation between Efficiency of SCR De-NO_x and Catalyst Dosage

2.2.3 Market Competition of SCR De-NO_x Catalyst

2.2.4 Difficulty in Expanding SCR De-NO_x Catalyst Market

2.2.5 "Twelfth Five-year" Forecast for SCR De-NO_x Catalyst Market Capacity

(1) Initial Installed Capacity of New Unit SCR De-NO_x Catalyst

(2) Initial Installed Capacity of Old Unit SCR De-NO_x Catalyst

(3) Replacement Market Capacity of SCR De-NO_x Catalyst

2.2.6 Problems in SCR De-NO_x Catalyst

(1) Catalyst Carrier Need to Import from Foreign Countries

(2) Immature Catalyst Matching Processing Technology

Chapter 3: Thermal FGD (Flue Gas Desulfurization) Market in China

3.1 Development Overview of Thermal FGD Market

3.1.1 SO₂ Pollution in Thermal Power Industry

3.1.2 Development History of Thermal FGD Market

- 3.1.3 Influencing Factors of Thermal FGD Market
- 3.1.4 Problems in Thermal FGD Market
 - (1) Problems Confronted by Thermal FGD Market
 - (2) Coping Strategy for Problems in Thermal FGD Market

3.2 Thermal FGD Market

- 3.2.1 Thermal FGD Market Scale
- 3.2.2 Competitive Landscape of Thermal FGD Market
 - (1) Competitive Landscape of Thermal FGD Technology
 - (2) Competitive Landscape of Desulfurization Equipment Construction Market
 - 1) Wet Flue Gas Desulfurization (Wet FGD) Equipment Construction Market
 - 2) Dry Flue Gas Desulfurization (Dry FGD) Equipment Construction Market
 - (3) Competitive Landscape of FGD Franchise Market
- 3.2.3 Major Thermal FGD Enterprises and Their Market Shares
 - (1) Major FGD Equipment Enterprises and Their Market Shares
 - 1) Investment & Operation Volumes and Market Shares of FGD Enterprises
 - 2) Capacity Pattern of FGD Projects Put in to Operation for FGD Enterprises
 - 3) Capacity Pattern of Contracted FGD Projects for FGD Enterprises
 - (2) Major Enterprises and Their Market Shares in FGD Franchise Market
- 3.2.4 Profit of Thermal FGD Market
 - (1) Profit of FGD Equipment Construction Business
 - 1) Profit of Wet FGD Equipment Construction Business
 - 2) Profit of Dry FGD Equipment Construction Business
 - (2) Profit of FGD Franchise Market
- 3.2.5 Development Trend for Thermal FGD Market
- 3.2.6 “Twelfth Five-year” Forecast for Thermal FGD Market Capacity
 - (1) Forecast for FGD Equipment Construction Market
 - 1) Forecast for New FGD Equipment Market Capacity
 - 2) Forecast for Market Capacity of Renovating and Transforming Current De-NO_x Equipment
 - 3) Forecast for Market Capacity of Installing FGD Equipment on Old Machines
 - 4) Forecast for FGD Equipment Market Capacity on Sintering Machine, Industrial Boiler and Kiln
 - (2) Forecast for FGD Equipment Operation Market

3.3 Thermal FGD Equipment Market

- 3.3.1 Circulating Fluidized Bed Boiler (CFB Boiler) Market
- 3.3.2 Boost Fan Market
- 3.3.3 Gas-gas Heater (GGH) Market
- 3.3.4 Absorption Tower Market
- 3.3.5 Demister Market
- 3.3.6 Induced Draft Fan (IDF) Market
- 3.3.7 Wet Ball Mill Market
- 3.3.8 Dust Removing Desulfurizer Market
- 3.3.9 Vacuum Belt Filter Market

Chapter 4: Thermal Flue Gas Dust Removal Market

4.1 Development Overview of Flue Gas Dust Removal Market

- 4.1.1 Development of Electric Dust Removal Industry
- 4.1.2 Development of Electric Precipitator Industry
 - (1) Operation of Electric Precipitator Industry
 - (2) Benefit of Electric Precipitator Industry
 - (3) Market Features of Electric Precipitator Industry
 - (4) Competition for Electric Precipitator Industry
- 4.1.3 Development of Bag Filter Industry
 - (1) Distribution Features of Bag Filter Industry
 - (2) Operation of Bag Filter Industry
 - (3) Cost and Profitability of Bag Filter Industry
 - (4) Competition for Bag Filter Industry
 - (5) Problems in Bag Filter Industry

4.2 Thermal Flue Gas Dust Removal Market

- 4.2.1 Classification and Comparison of Thermal Flue Gas Dust Removal
 - (1) Classification of Thermal Flue Gas Dust Removal
 - (2) Comparison for Thermal Flue Gas Dust Removal

- 4.2.2 Structural Distribution of Thermal Flue Gas Dust Removal
- 4.2.3 Electric Precipitator Market
 - (1) Market Demand for Electric Precipitator
 - (2) Market Trend for Electric Precipitator
- 4.2.4 Bag Filter Market
 - (1) Market Demand for Bag Filter
 - (2) Market Trend for Bag Filter

Chapter 5: China Electric Power Environmental Protection Project

5.1 Bidding on Electric Power Environmental Protection Project

- 5.1.1 Technical Standards for Electric Power Environmental Protection Project
- 5.1.2 Electric Power Environmental Protection Project Bidding Models
 - (1) EPC Model
 - 1) Profile of EPC Model
 - 2) Problems Confronted by EPC Model
 - (2) BOT Model
 - 1) Profile of Construction and Operation of BOT Model
 - 2) Advantages of BOT Model
 - 3) Factors of Restraining the Development of BOT Model
- 5.1.3 Supervision Mechanism for Bidding on Electric Power Environmental Protection Project

5.2 Construction Cost of Electric Power Environmental Protection Project

- 5.2.1 Construction Cost of Thermal Flue Gas Dust Removal Project
- 5.2.2 Construction Cost of Thermal De-NO_x Project
- 5.2.3 Construction Cost of Thermal FGD Project

5.3 Construction of Electric Power Environmental Protection Project

- 5.3.1 Projects Put into Operation in Electric Power Environmental Protection Industry
 - (1) Desulfurization Project Put into Operation
 - (2) Denitration Project Put into Operation
- 5.3.2 Planned Construction Projects in Electric Power Environmental Protection Industry

Chapter 6: China Electric Power Environmental Protection Technology

6.1 Thermal Flue Gas Dust Removal Technologies

- 6.1.1 Development and Application of Electric Precipitation Technology
 - (1) Development and Application of Electric Precipitator Technology
 - (2) Development and Application of Power Supply Source Technology
- 6.1.2 Development and Application of Bag Filter Technology
 - (1) Overall Development of Bag Filter Industry
 - (2) Development and Application Performance of New Bag Filter Technology

6.2 Thermal FGD Technologies

- 6.2.1 Classification of Major FGD Technologies
 - (1) Wet FGD Technology
 - (2) Semi Dry FGD Technology
 - (3) Dry FGD Technology
- 6.2.2 Level of FGD Technology
- 6.2.3 Development Phase of FGD Technology
- 6.2.4 Basic Principles of Selecting FGD Technology
- 6.2.5 FGD Technology Fit for Present Situation of China
 - (1) Conditions Adapt to China FGD Technology
 - (2) Comparison for Two Kinds of FGD Processing Technologies from the Perspective of Economy

6.3 Thermal De-NO_x Technologies

- 6.3.1 Classification of De-NO_x Technologies
- 6.3.2 Low NO_x Combustion Technologies
 - (1) Classification of Low NO_x Combustion Technologies
 - 1) Low NO_x Burner
 - 2) Air Staged Combustion
 - 3) Fuel Staged Combustion
 - (2) Cost of Low-nitrogen Combustion Denitration
- 6.3.3 SCR De-NO_x Technology
 - (1) SCR De-NO_x Technology
 - (2) SCR De-NO_x Catalyst Technology
 - (3) Future De-NO_x Market Depends on Technology and Experience

6.3.4 SNCR NO_x Technology6.3.5 Comparison for 3 Kinds of De-NO_x Technologies**Chapter 7: Analysis of Major Enterprises in China Electric Power Environment Protection Industry****7.1 Operation of Leading Enterprises in Electric Power Protection Project**

7.1.1 Beijing Guodian Longyuan Environmental Engineering Co., Ltd.

- (1) Development Profile
- (2) Operation Business
- (3) Project Performance
- (4) Technology R&D System and Achievement
- (5) Operational Advantages and Disadvantages
- (6) Latest Development Trend

7.1.2 China Boqi Environmental Solutions Technology (Holding) Co., Ltd.

- (1) Development Profile
- (2) Operation Business
- (3) Project Performance
- (4) Technology R&D System and Achievement
- (5) Operational Advantages and Disadvantages
- (6) Latest Development Trend

7.1.3 Wuhan Kaidi Electric Power Environmental Co., Ltd.

- (1) Development Profile
- (2) Operation Business
- (3) Project Performance
- (4) Operation Situation
- (5) Technology R&D System and Achievement
- (6) Operational Advantages and Disadvantages
- (7) Latest Development Trend

7.1.4 Insigma M & E Engineering Co., Ltd.

- (1) Development Profile
- (2) Operation Business
- (3) Project Performance
- (4) Technology R&D System and Achievement
- (5) Operational Advantages and Disadvantages

7.1.5 CPI Yuanda Environmental Protection Engineering Co., Ltd.

- (1) Development Profile
- (2) Operation Business
- (3) Operation Situation
- (4) Project Performance
- (5) Technology R&D System and Achievement
- (6) Operational Advantages and Disadvantages
- (7) Latest Development Trend

7.1.6 Sanrong Environmental Protection Machinery Co., Ltd.

- (1) Development Profile
- (2) Operation Business
- (3) Project Performance
- (4) Technology R&D System and Achievement
- (5) Operational Advantages and Disadvantages

7.1.7 Tongfang Environment Co., Ltd.

- (1) Development Profile
- (2) Operation Business
- (3) Project Performance
- (4) Technology R&D System and Achievement
- (5) Operational Advantages and Disadvantages

7.1.8 China Huadian Corporation

- (1) Development Profile
- (2) Operation Business
- (3) Project Performance
- (4) Technology R&D System and Achievement
- (5) Operational Advantages and Disadvantages

- (6) Latest Development Trend
- 7.1.9 Zhejiang Tiandi Environmental Protection Engineering Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Technology R&D System and Achievement
 - (5) Operational Advantages and Disadvantages
 - (6) Latest Development Trend
- 7.1.10 China Datang Technologies & Engineering Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Technology R&D System and Achievement
 - (5) Operational Advantages and Disadvantages
 - (6) Development Goal
 - (7) Latest Development Trend
- 7.1.11 GCL Engineering Limited
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Technology R&D System and Achievement
 - (5) Operational Advantages and Disadvantages
 - (6) Latest Development Trend
- 7.1.12 Beijing SPC Environment Protection Tech Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Technology R&D System and Achievement
 - (5) Operational Advantages and Disadvantages
 - (6) Latest Development Trend
- 7.1.13 Guizhou Xingyun Environmental Protection Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Corporate Operation, 2009-July in.....2012
 - 1) Operation and Revenue Capability, 2009-July in.....2012
 - 2) Debt-paying Ability, 2009-July in.....2012
 - 3) Operation Capability, 2009-July in.....2012
 - 4) Profitability, 2009-July in.....2012
 - 5) Development Capability, 2009-July in.....2012
 - (5) Technology R&D System and Achievement
 - (6) Operational Advantages and Disadvantages
 - (7) Latest Development Trend
- 7.1.14 Hunan Yongqing Environmental Protection Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Corporate Operation, 2009-July in.....2012
 - 1) Operation and Revenue Capability, 2009-July in.....2012
 - 2) Debt-paying Ability, 2009-July in.....2012
 - 3) Operation Capability, 2009-July in.....2012
 - 4) Profitability, 2009-July in.....2012
 - 5) Development Capability, 2009-July in.....2012
 - (5) Technology R&D System and Achievement
 - (6) Operational Advantages and Disadvantages
 - (7) Latest Development Trend
- 7.1.15 Shandong Shanda Huate Environmental Engineering Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business

- (3) Project Performance
- (4) Technology R&D System and Achievement
- (5) Operational Advantages and Disadvantages
- 7.1.16 Sec-Ihi Power Generation Environment Protection Engineering Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Technology R&D System and Achievement
 - (5) Operational Advantages and Disadvantages
- 7.1.17 Beijing Lucency Enviro-tech Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Technology R&D System and Achievement
 - (5) Operational Advantages and Disadvantages
 - (6) Latest Development Trend
- 7.1.18 Zhejiang Atmosphere Environmental Protection Group Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Technology R&D System and Achievement
 - (5) Operational Advantages and Disadvantages
- 7.1.19 Guangzhou Tianci Sanhe Environmental Engineering Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Technology R&D System and Achievement
 - (5) Operational Advantages and Disadvantages
- 7.2 Operation of Leading Enterprises in Electric Environmental Protection Equipment Industry**
 - 7.2.1 Fujian Longjing Environmental Protection Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Major Economic Index
 - (4) Debt-paying Ability, 2009-July in.....2012
 - (5) Operation Capability, 2009-July in.....2012
 - (6) Profitability, 2009-July in.....2012
 - (7) Development Capability, 2009-July in.....2012
 - (8) Product Structure and New Product Trend
 - (9) Technology R&D System and Achievement
 - (10) Sales Channel and Network
 - (11) Operational Advantages and Disadvantages
 - (12) Latest Development Trend
 - 7.2.2 Babcock & Wilcox Beijing Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Major Economic Index
 - (4) Debt-paying Ability, 2009-July in.....2012
 - (5) Operation Capability, 2009-July in.....2012
 - (6) Profitability, 2009-July in.....2012
 - (7) Development Capability, 2009-July in.....2012
 - (8) Product Structure and New Product Trend
 - (9) Technology R&D System and Achievement
 - (10) Sales Channel and Network
 - (11) Operational Advantages and Disadvantages
 - 7.2.3 Zhejiang Feida Environmental Science & Technology Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Major Economic Index
 - (4) Debt-paying Ability, 2009-July in.....2012

(5) Operation Capability, 2009-July in.....	2012
(6) Profitability, 2009-July in.....	2012
(7) Development Capability, 2009-July in.....	2012
(8) Product Structure and New Product Trend	
(9) Technology R&D System and Achievement	
(10) Sales Channel and Network	
(11) Operational Advantages and Disadvantages	
(12) Latest Development Trend	
7.2.4 Hunan Yonker Mechanical Manufacture Co., Ltd.	
(1) Development Profile	
(2) Operation Business	
(3) Major Economic Index	
(4) Debt-paying Ability, 2009-July in.....	2012
(5) Operation Capability, 2009-July in.....	2012
(6) Profitability, 2009-July in.....	2012
(7) Development Capability, 2009-July in.....	2012
(8) Product Structure and New Product Trend	
(9) Technology R&D System and Achievement	
(10) Sales Channel and Network	
(11) Operational Advantages and Disadvantages	
7.2.5 Jiangsu Xinzhong Environmental Protective Co., Ltd.	
(1) Development Profile	
(2) Operation Business	
(3) Major Economic Index	
(4) Debt-paying Ability, 2009-July in.....	2012
(5) Operation Capability, 2009-July in.....	2012
(6) Profitability, 2009-July in.....	2012
(7) Development Capability, 2009-July in.....	2012
(8) Product Structure and New Product Trend	
(9) Technology R&D System and Achievement	
(10) Sales Channel and Network	
(11) Operational Advantages and Disadvantages	
7.2.6 Kelin Environmental Protection Equipment, Inc.	
(1) Development Profile	
(2) Operation Business	
(3) Major Economic Index	
(4) Debt-paying Ability, 2009-July in.....	2012
(5) Operation Capability, 2009-July in.....	2012
(6) Profitability, 2009-July in.....	2012
(7) Development Capability, 2009-July in.....	2012
(8) Product Structure and New Product Trend	
(9) Technology R&D System and Achievement	
(10) Sales Channel and Network	
(11) Operational Advantages and Disadvantages	
(12) Latest Development Trend	
7.2.7 Chaoyang Shuangling Environmental Protection Equipment Co., Ltd.	
(1) Development Profile	
(2) Operation Business	
(3) Major Economic Index	
(4) Debt-paying Ability, 2009-July in.....	2012
(5) Operation Capability, 2009-July in.....	2012
(6) Profitability, 2009-July in.....	2012
(7) Development Capability, 2009-July in.....	2012
(8) Product Structure and New Product Trend	
(9) Technology R&D System and Achievement	
(10) Sales Channel and Network	
(11) Operational Advantages and Disadvantages	
7.2.8 Anhui Shengyun Machinery Co., Ltd.	
(1) Development Profile	

- (2) Operation Business
- (3) Major Economic Index
- (4) Debt-paying Ability, 2009-July in.....2012
- (5) Operation Capability, 2009-July in.....2012
- (6) Profitability, 2009-July in.....2012
- (7) Development Capability, 2009-July in.....2012
- (8) Product Structure and New Product Trend
- (9) Technology R&D System and Achievement
- (10) Sales Channel and Network
- (11) Operational Advantages and Disadvantages
- (12) Latest Development Trend
- 7.2.9 Sinosteel Tiancheng Environmental Protection Science & Technology Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Major Economic Index
 - (4) Technology R&D System and Achievement
 - (5) Sales Channel and Network
 - (6) Development Strategy
 - (7) Operational Advantages and Disadvantages
 - (8) Latest Development Trend
- 7.2.10 Xiamen Savings Environmental Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Major Economic Index
 - (4) Debt-paying Ability, 2009-July in.....2012
 - (5) Operation Capability, 2009-July in.....2012
 - (6) Profitability, 2009-July in.....2012
 - (7) Development Capability, 2009-July in.....2012
 - (8) Product Structure and New Product Trend
 - (9) Technology R&D System and Achievement
 - (10) Sales Channel and Network
 - (11) Operational Advantages and Disadvantages
 - (12) Latest Development Trend
- 7.2.11 Zhejiang Huate Environmental Protection Equipment Industry Company
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Technology R&D System and Achievement
 - (5) Operational Advantages and Disadvantages
 - (6) Latest Development Trend
- 7.2.12 Jiangsu Longyuan Catalyst Co., Ltd.
 - (1) Development Profile
 - (2) Operation Business
 - (3) Project Performance
 - (4) Technology R&D System and Achievement
 - (5) Operational Advantages and Disadvantages
 - (6) Latest Development Trend

Chapter 8: Credit Risks and Opportunities for China Electric Power Environmental Protection Industry

8.1 Environment Risks and Tips of Industry

- 8.1.1 Overall Credit Opportunities and Suggestions
- 8.1.2 Credit Opportunities and Suggestions of Sub-industries
 - (1) Credit Opportunities and Suggestions of Thermal FGD Industry
 - (2) Credit Opportunities and Suggestions of Thermal De-NO_x Industry
 - (3) Credit Opportunities and Suggestions of Dust Removal for Power Plant

8.2 Regional Credit Opportunities and Suggestions

- 8.2.1 Regional Development Features and Summary
- 8.2.2 Credit Suggestions for Regional Market
- 8.2.3 Corporate Credit Opportunities and Suggestions

- (1) Credit Opportunities and Suggestions for Electric Environmental Protection Project Enterprise
- (2) Credit Opportunities and Suggestions for Electric Environmental Protection Equipment Manufacturing Enterprise
