

# China Engineering Plastics Industry Report (2016–2021), Investment Forecast and Demand of Production and Sales

## 目 录

### CONTENTS

#### Chapter 1: Overview of development of China's engineering plastics industry

- 1.1 overview of engineering plastics industry
  - 1.1.1 definition of the industry and scope of the research
  - 1.1.2 application of engineering plastics products
  - 1.1.3 classification of engineering plastics products
  - 1.1.4 characteristics of engineering plastics industry
  - 1.1.5 status of the industry in the national economy
- 1.2 research methods and statistic standards of the industry
  - 1.2.1 overview of research methods of the industry
  - 1.2.2 data sources of the industry
  - 1.2.3 statistical standards of the industry
- 1.3 analysis of upstream crude oil market of engineering plastics industry
  - 1.3.1 analysis of global crude oil reserves
  - 1.3.2 market supply and demand of global crude oil
  - 1.3.3 market supply and demand of China's crude oil
  - 1.3.4 import of China's crude oil market
  - 1.3.5 analysis of crude oil market prices

#### Chapter 2: Analysis of market environment of China's engineering plastics industry

- 2.1 analysis of policy environment of the industry
  - 2.1.1 authorities and regulatory regime of the industry
  - 2.1.2 related policy trend of the industry
  - 2.1.3 summary of related planning of the industry
- 2.2 analysis of economic environment of the industry
  - 2.2.1 analysis of macro economic environment
  - 2.2.2 forecast of macro economic trend
  - 2.2.3 analysis of correlation between the industry and macro economy
- 2.3 analysis of trade environment of the industry
  - 2.3.1 status quo of development of the international trade environment
  - 2.3.2 development trends of trade environment of the industry
- 2.4 analysis of product technology of the industry
  - 2.4.1 status quo of technology of China's engineering plastics products
  - 2.4.2 development direction of technology of China's engineering plastics products

#### Chapter 3: Analysis of status quo of development of China's engineering plastics industry

- 3.1 status quo of operation of engineering plastics products
  - 3.1.1 overview of overall development of engineering plastics industry
  - 3.1.2 major characteristics of development of engineering plastics industry
  - 3.1.3 analysis of operation of engineering plastics industry
- 3.2 analysis of economic indicators of engineering plastics industry
  - 3.2.1 analysis of influencing factors of economic indicators of engineering plastics industry
  - 3.2.2 analysis of economic indicators of engineering plastics industry
  - 3.2.3 analysis of economic indicators of enterprises of different scale
  - 3.2.4 analysis of economic indicators of enterprises of different nature
- 3.3 analysis of production and sales of engineering plastics industry
  - 3.3.1 analysis of supply of the national engineering plastics industry
  - 3.3.2 analysis of demand of engineering plastics industry in various regions
  - 3.3.3 analysis of demand of the national engineering plastics industry
  - 3.3.4 analysis of demand of engineering plastics industry in various regions
  - 3.3.5 analysis of sales-output ratio of the national engineering plastics industry

#### Chapter 4: Analysis of competitive landscape of engineering plastics industry

- 4.1 analysis of competitive landscape of the international engineering plastics industry
  - 4.1.1 status quo of development of the international engineering plastics industry
  - 4.1.2 competitive landscape of the international engineering plastics industry
  - 4.1.3 development trends of the international engineering plastics industry
  - 4.1.4 investment layout of multinational companies in China
  - 4.1.5 competitive strategy of multinational companies in China
- 4.2 analysis of competitive landscape of domestic engineering plastics industry
  - 4.2.1 analysis of concentration of engineering plastics industry
  - 4.2.2 analysis of five forces of engineering plastics industry
- 4.3 analysis of investment, merger and restructuring of the industry
  - 4.3.1 analysis of the international investment, merger and restructuring
  - 4.3.2 analysis of domestic investment, merger and restructuring
  - 4.3.3 analysis of trends of merger and restructuring

## Chapter 5: Analysis of product market of China's engineering plastics industry

- 5.1 analysis of polyamide (PA) market
  - 5.1.1 analysis of structure of PA chain
  - 5.1.2 analysis of production capacity and output of PA
  - 5.1.3 competitive landscape of PA market
  - 5.1.4 analysis of consumption amount of PA
  - 5.1.5 analysis of demand gap of PA
  - 5.1.6 analysis of features of competition of PA66
  - 5.1.7 analysis of PA market price
  - 5.1.8 analysis of structure of consumption of PA
  - 5.1.9 production capacity of raw materials of PA
  - 5.1.10 issues to be addressed for PA industry during the "twelfth-five year" period
- 5.2 analysis of polycarbonate (PC) market
  - 5.2.1 analysis of production capacity and output of PC
  - 5.2.2 competitive landscape of PC market
  - 5.2.3 analysis of consumption amount of PC
  - 5.2.4 analysis of demand gap of PC
  - 5.2.5 analysis of application of PC products
  - 5.2.6 analysis of structure of consumption of PC
  - 5.2.7 forecast of consumption of PC
- 5.3 analysis of POM market
  - 5.3.1 analysis of production capacity and output of POM
  - 5.3.2 competitive landscape of POM market
  - 5.3.3 analysis of consumption amount of POM
  - 5.3.4 analysis of demand gap of POM
  - 5.3.5 analysis of application fields of POM
  - 5.3.6 analysis of structure of consumption of POM
  - 5.3.7 problems of China's POM industry
  - 5.3.8 necessity of POM modification
  - 5.3.9 issues to be addressed for POM industry during the "twelfth-five year" period
- 5.4 analysis of PBT/PET market
  - 5.4.1 analysis of production capacity and output of PBT/PET
  - 5.4.2 PBT / PET capacity expansion plans
  - 5.4.3 competitive landscape of PBT/PET market
  - 5.4.4 analysis of consumption amount of PBT/PET
  - 5.4.5 analysis of demand gap of PBT
  - 5.4.6 analysis of structure of consumption of PBT
  - 5.4.7 issues to be addressed for PBT/PET industry during the "twelfth-five year" period
- 5.5 analysis of PPO/MPPPO market
  - 5.5.1 analysis of production capacity and output of PPO/MPPPO
  - 5.5.2 competitive landscape of PPO/MPPPO market
  - 5.5.3 analysis of consumption amount of MPPPO
  - 5.5.4 analysis of demand gap of MPPPO
  - 5.5.5 analysis of structure of consumption of MPPPO
  - 5.5.6 issues to be addressed for PPO industry during the "twelfth-five year" period
- 5.6 analysis of market of specialty engineering plastics products

- 5.6.1 overview of specialty engineering plastics market
- 5.6.2 competitive landscape of specialty engineering plastics market
- 5.6.3 consumption of specialty engineering plastics
- 5.6.4 analysis of subdivided product markets of specialty engineering plastics

(1) supply, demand, consumption structure, applications and development trends of PSF, PI, PEEK, LCP and other products, etc.)

## Chapter 6: Analysis of consumption amount and downstream demand of China's engineering plastics

- 6.1 analysis of consumption of engineering plastics industry**
  - 6.1.1 total consumption amount of China's engineering plastics
  - 6.1.2 structure of consumption of China's engineering plastics products
  - 6.1.3 structure of downstream demand of China's engineering plastics
- 6.2 analysis of demand for engineering plastics in automobile industry**
  - 6.2.1 analysis of development trends of automobile industry
  - 6.2.2 application of engineering plastics in automobile industry
  - 6.2.3 specific application of engineering plastics products
  - 6.2.4 analysis of structure of automobile plastic products
  - 6.2.5 analysis of market capacity of automobile engineering plastics
  - 6.2.6 forecast of market demand for automobile engineering plastics
  - 6.2.7 development trends of automobile engineering plastics products
- 6.3 analysis of demand for engineering plastics in appliance industry**
  - 6.3.1 analysis of development trends of appliance industry
  - 6.3.2 application of engineering plastics in appliance industry
  - 6.3.3 analysis of structure of appliance plastic products
  - 6.3.4 analysis of market capacity of appliance engineering plastics
  - 6.3.5 forecast of market demand for appliance engineering plastics
  - 6.3.6 development trends of appliance engineering plastics products
- 6.4 analysis of demand for engineering plastics in building materials industry**
  - 6.4.1 analysis of development trends of building materials industry
  - 6.4.2 application of engineering plastics in building materials industry
  - 6.4.3 analysis of market capacity of construction engineering plastics
  - 6.4.4 forecast of market demand for construction engineering plastics
  - 6.4.5 development trends of construction engineering plastics products
- 6.5 analysis of demand for engineering plastics in packaging industry**
  - 6.5.1 analysis of development trends of packaging industry
  - 6.5.2 application of engineering plastics in packaging industry
  - 6.5.3 analysis of market capacity of packaging engineering plastics
  - 6.5.4 forecast of market demand for packaging engineering plastics
  - 6.5.5 development trends of packaging engineering plastics products

## Chapter 7: Analysis of operation of leading enterprises of engineering plastics industry

- 7.1 overview of overall development of engineering plastics enterprises**
  - 7.1.1 corporate scale of engineering plastics industry
  - 7.1.2 industrial output of engineering plastics industry
  - 7.1.3 sales revenue and profit of engineering plastics industry
- 7.2 analysis of operation of domestic engineering plastics enterprises**
  - 7.2.1 ShenMa Group Co., Ltd.
  - 7.2.2 Kingfa Technology Co., Ltd.
  - 7.2.3 Guangdong Xinhui Meida Nylon Co., Ltd.
  - 7.2.4 Longkou Daoen Engineering Plastics Co., Ltd.
  - 7.2.5 DSM Engineering Plastics Co., Ltd.

there are another 25 enterprises

## Chapter 8: Analysis of investment of China's engineering plastics industry and forecast

- 8.1 forecast of development of engineering plastics industry**
  - 8.1.1 analysis of development trends of engineering plastics industry
  - 8.1.2 forecast of development of engineering plastics industry
- 8.2 analysis of characteristics of investment of engineering plastics industry**
  - 8.2.1 analysis of entry barriers of engineering plastics industry
  - 8.2.2 analysis of profit modes of engineering plastics industry
  - 8.2.3 analysis of profit factors of engineering plastics industry

### 8.3 suggestions and risks of investment of engineering plastics industry

8.3.1 analysis of risks of investment of engineering plastics industry

8.3.2 analysis of opportunities of investment of China's engineering plastics industry

8.3.3 suggestions for investment of China's engineering plastics industry
