

# China AdBlue Industry Report (2016–2021), Market Prospect and Investment Strategic Planning

## 目 录

### CONTENTS

#### Chapter 1: Overview of China's AdBlue industry

- 1.1 definition of AdBlue industry
- 1.2 reaction mechanism of AdBlue
- 1.3 production process of AdBlue
  - 1.3.1 urea purification
  - 1.3.2 water treatment
  - 1.3.3 configuration solution

#### Chapter 2: Implementation of China's national IV emission standards and emission reduction technologies

- 2.1 introduction of national IV standards
  - 2.1.1 automobile emissions
  - 2.1.2 national IV emission standard limits
  - 2.1.3 implementation time of national IV emission standards
- 2.2 analysis of maturity of implementation conditions of national IV standards
  - 2.2.1 oil supply
  - 2.2.2 urea supply
  - 2.2.3 electronic control system
  - 2.2.4 after-processing capacity
- 2.3 optimization of emission reduction technologies of national IV standards
  - 2.3.1 foreign emission reduction technology route
    - (1) EGR + DPF / DOC route
    - (2) optimization of combustion + SCR route
  - 2.3.2 China's optimal route of emission reduction technology
    - (1) comparison of SCR and EGR route
    - (2) SCR route is the best choice of China's emission reduction

#### Chapter 3: China's sales channels of AdBlue industry and channel construction

- 3.1 European sales channels of AdBlue and channel construction
  - 3.1.1 European sales channels of AdBlue
  - 3.1.2 construction of sales channels of AdBlue in Europe
    - (1) self-built urea filling pump station
    - (2) retail outlet
    - (3) large fleet depot
- 3.2 China's sales models of AdBlue and channel construction
  - 3.2.1 China's existing sales models of AdBlue
  - 3.2.2 status quo of China's construction of sales channels of AdBlue and planning
    - (1) gas station
    - (2) filling station
    - (3) retail outlet
    - (4) large fleet depot

#### Chapter 4: Status quo of development of China's AdBlue industry and forecast

- 4.1 development scale of AdBlue industry
  - 4.1.1 output scale of AdBlue
  - 4.1.2 production scale of AdBlue
  - 4.1.3 consumption scale of AdBlue
- 4.2 analysis of five-force competition of AdBlue industry
  - 4.2.1 upstream bargaining power of AdBlue
  - 4.2.2 downstream bargaining power of AdBlue
  - 4.2.3 threat of potential entrants of AdBlue
  - 4.2.4 threat of alternatives of AdBlue

4.2.5 status quo of market competition of AdBlue

#### 4.3 forecast of AdBlue industry

4.3.1 sales volume of diesel car and ownership

4.3.2 diesel consumption volume and forecast

4.3.3 forecast of AdBlue market capacity

4.3.4 forecast of AdBlue market revenue and profit

### Chapter 5: Forecast of AdBlue market capacity in China's big and medium-sized cities

#### 5.1 forecast of AdBlue market capacity in major cities in East China

##### 5.1.1 Shanghai

(1) implementation of national emission standards in Shanghai

(2) operation of national IV standard vehicle in Shanghai

(3) construction of sales channels of AdBlue in Shanghai

(4) status quo of AdBlue market demand in Shanghai

(5) forecast of AdBlue market capacity in Shanghai

1) diesel car ownership

2) diesel consumption volume

3) AdBlue market capacity

##### 5.1.2 Nanjing

(1) implementation of national emission standards in Nanjing

(2) implementation conditions of national IV emission standards in Nanjing

(3) forecast of AdBlue market capacity in Nanjing

1) diesel car ownership

2) diesel consumption volume

3) AdBlue market capacity

##### 5.1.3 Hangzhou

(1) implementation of national emission standards in Hangzhou

(2) implementation conditions of national IV emission standards in Hangzhou

(3) forecast of AdBlue market capacity in Hangzhou

1) diesel car ownership

2) diesel consumption volume

3) AdBlue market capacity

##### 5.1.4 Xiamen

(1) implementation of national emission standards in Xiamen

(2) implementation conditions of national IV emission standards in Xiamen

(3) forecast of AdBlue market capacity in Xiamen

1) diesel car ownership

2) diesel consumption volume

3) AdBlue market capacity

##### 5.1.5 Jinan

(1) implementation of national emission standards in Jinan

(2) implementation conditions of national IV emission standards in Jinan

(3) forecast of AdBlue market capacity in Jinan

1) diesel car ownership

2) diesel consumption volume

3) AdBlue market capacity

##### 5.1.6 Nanchang

(1) implementation of national emission standards in Nanjing

(2) implementation conditions of national IV emission standards in Nanjing

(3) forecast of AdBlue market capacity in Nanjing

1) diesel car ownership

2) diesel consumption volume

3) AdBlue market capacity

##### 5.1.7 Hefei

(1) implementation of national emission standards in Hefei

(2) implementation conditions of national IV emission standards in Hefei

(3) forecast of AdBlue market capacity in Hefei

1) diesel car ownership

2) diesel consumption volume

3) AdBlue market capacity

## 5.2 forecast of AdBlue market capacity in major cities in South China

### 5.2.1 Guangzhou

- (1) implementation of national emission standards in Guangzhou
- (2) operation of national IV standard vehicle in Guangzhou
- (3) construction of sales channels of AdBlue in Guangzhou
- (4) status quo of AdBlue market demand in Guangzhou
- (5) forecast of AdBlue market capacity in Guangzhou
  - 1) diesel car ownership
  - 2) diesel consumption volume
  - 3) AdBlue market capacity

### 5.2.2 Shenzhen

- (1) implementation of national emission standards in Shenzhen
- (2) implementation conditions of national IV emission standards in Shenzhen
- (3) forecast of AdBlue market capacity in Shenzhen
  - 1) diesel car ownership
  - 2) diesel consumption volume
  - 3) AdBlue market capacity

### 5.2.3 Zhuhai

- (1) implementation of national emission standards in Zhuhai
- (2) implementation conditions of national IV emission standards in Zhuhai
- (3) forecast of AdBlue market capacity in Zhuhai
  - 1) diesel car ownership
  - 2) diesel consumption volume
  - 3) AdBlue market capacity

### 5.2.4 Nanning

- (1) implementation of national emission standards in Nanning
- (2) implementation conditions of national IV emission standards in Nanning
- (3) forecast of AdBlue market capacity in Nanning
  - 1) diesel car ownership
  - 2) diesel consumption volume
  - 3) AdBlue market capacity

### 5.2.5 Haikou

- (1) implementation of national emission standards in Haikou
- (2) implementation conditions of national IV emission standards in Haikou
- (3) forecast of AdBlue market capacity in Haikou
  - 1) diesel car ownership
  - 2) diesel consumption volume
  - 3) AdBlue market capacity

## 5.3 forecast of AdBlue market capacity in major cities in North China

### 5.3.1 Beijing

- (1) implementation of national emission standards in Beijing
- (2) operation of national IV standard vehicle in Beijing
- (3) construction of sales channels of AdBlue in Beijing
- (4) status quo of AdBlue market demand in Beijing
- (5) forecast of AdBlue market capacity in Beijing
  - 1) diesel car ownership
  - 2) diesel consumption volume
  - 3) AdBlue market capacity

### 5.3.2 Tianjin

- (1) implementation of national emission standards in Tianjin
- (2) implementation conditions of national IV emission standards in Tianjin
- (3) forecast of AdBlue market capacity in Tianjin
  - 1) diesel car ownership
  - 2) diesel consumption volume
  - 3) AdBlue market capacity

### 5.3.3 Tangshan

- (1) implementation of national emission standards in Tangshan
- (2) implementation conditions of national IV emission standards in Tangshan
- (3) forecast of AdBlue market capacity in Tangshan

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.3.4 Taiyuan

- (1) implementation of national emission standards in Taiyuan
- (2) implementation conditions of national IV emission standards in Taiyuan
- (3) forecast of AdBlue market capacity in Taiyuan

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

### 5.4 forecast of AdBlue market capacity in major cities in Central China

#### 5.4.1 Wuhan

- (1) implementation of national emission standards in Wuhan
- (2) implementation conditions of national IV emission standards in Wuhan
- (3) forecast of AdBlue market capacity in Wuhan

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.4.2 Xiangfan

- (1) implementation of national emission standards in Xiangfan
- (2) implementation conditions of national IV emission standards in Xiangfan
- (3) forecast of AdBlue market capacity in Xiangfan

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.4.3 Changsha

- (1) implementation of national emission standards in Changsha
- (2) implementation conditions of national IV emission standards in Changsha
- (3) forecast of AdBlue market capacity in Changsha

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.4.4 Zhengzhou

- (1) implementation of national emission standards in Zhengzhou
- (2) implementation conditions of national IV emission standards in Zhengzhou
- (3) forecast of AdBlue market capacity in Zhengzhou

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

### 5.5 forecast of AdBlue market capacity in major cities in Southwest China

#### 5.5.1 Chengdu

- (1) implementation of national emission standards in Chengdu
- (2) implementation conditions of national IV emission standards in Chengdu
- (3) forecast of AdBlue market capacity in Chengdu

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.5.2 Chongqing

- (1) implementation of national emission standards in Chongqing
- (2) implementation conditions of national IV emission standards in Chongqing
- (3) forecast of AdBlue market capacity in Chongqing

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.5.3 Kunming

- (1) implementation of national emission standards in Kunming
- (2) implementation conditions of national IV emission standards in Kunming
- (3) forecast of AdBlue market capacity in Kunming

- 1) diesel car ownership

- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.5.4 Guiyang

- (1) implementation of national emission standards in Guiyang
- (2) implementation conditions of national IV emission standards in Guiyang
- (3) forecast of AdBlue market capacity in Guiyang

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

### 5.6 forecast of AdBlue market capacity in major cities in Northwest China

#### 5.6.1 Xi'an

- (1) implementation of national emission standards in Xi'an
- (2) implementation conditions of national IV emission standards in Xi'an
- (3) forecast of AdBlue market capacity in Xi'an

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.6.2 Lanzhou

- (1) implementation of national emission standards in Lanzhou
- (2) implementation conditions of national IV emission standards in Lanzhou
- (3) forecast of AdBlue market capacity in Lanzhou

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.6.3 Xining

- (1) implementation of national emission standards in Xining
- (2) implementation conditions of national IV emission standards in Xining
- (3) forecast of AdBlue market capacity in Xining

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.6.4 Yinchuan

- (1) implementation of national emission standards in Yinchuan
- (2) implementation conditions of national IV emission standards in Yinchuan
- (3) forecast of AdBlue market capacity in Yinchuan

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.6.5 Hohhot

- (1) implementation of national emission standards in Hohhot
- (2) implementation conditions of national IV emission standards in Hohhot
- (3) forecast of AdBlue market capacity in Hohhot

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

### 5.7 forecast of AdBlue market capacity in major cities in Northeast China

#### 5.7.1 Shenyang

- (1) implementation of national emission standards in Shenyang
- (2) implementation conditions of national IV emission standards in Shenyang
- (3) forecast of AdBlue market capacity in Shenyang

- 1) diesel car ownership
- 2) diesel consumption volume
- 3) AdBlue market capacity

#### 5.7.2 Changchun

- (1) implementation of national emission standards in Changchun
- (2) implementation conditions of national IV emission standards in Changchun
- (3) forecast of AdBlue market capacity in Changchun

- 1) diesel car ownership
- 2) diesel consumption volume

- 3) AdBlue market capacity
- 5.7.3 Harbin
  - (1) implementation of national emission standards in Harbin
  - (2) implementation conditions of national IV emission standards in Harbin
  - (3) forecast of AdBlue market capacity in Harbin
    - 1) diesel car ownership
    - 2) diesel consumption volume
    - 3) AdBlue market capacity

## Chapter 6: Analysis of competitors of China's AdBlue industry

### 6.1 Jiangsu Kelas Automobile Environmental Protection Technology Co., Ltd.

- 6.1.1 introduction of the company
- 6.1.2 analysis of the company's production scale
- 6.1.3 distribution of the company's business market
- 6.1.4 analysis of the company's competitiveness
- 6.1.5 analysis of advantages and disadvantages of the company's operation
- 6.1.6 the company's development strategy and planning

### 6.2 Tianjin Yuetai Petrochemical Technology Co., Ltd.

- 6.2.1 introduction of the company
- 6.2.2 analysis of the company's production scale
- 6.2.3 distribution of the company's business market
- 6.2.4 analysis of the company's competitiveness
- 6.2.5 the company's financial indicators
  - (1) the company's main business revenue
    - 1) analysis of the company's profitability capability
    - 2) analysis of the company's operation capability
  - (2) analysis of the company's solvency capability
  - (3) analysis of the company's development capability
- 6.2.6 analysis of advantages and disadvantages of the company's operation
- 6.2.7 the company's development strategy and planning

### 6.3 Beijing Yili Fine Chemicals Co., Ltd.

- 6.3.1 introduction of the company
- 6.3.2 analysis of the company's production scale
- 6.3.3 distribution of the company's business market
- 6.3.4 analysis of the company's competitiveness
- 6.3.5 the company's financial indicators
  - (1) the company's main business revenue
    - 1) analysis of the company's profitability capability
    - 2) analysis of the company's operation capability
  - (2) analysis of the company's solvency capability
  - (3) analysis of the company's development capability
- 6.3.6 analysis of advantages and disadvantages of the company's operation
- 6.3.7 the company's development strategy and planning

### 6.4 Liaoning Lundi Fine Chemicals Co., Ltd.

- 6.4.1 introduction of the company
- 6.4.2 analysis of the company's production scale
- 6.4.3 distribution of the company's business market
- 6.4.4 analysis of the company's competitiveness
- 6.4.5 the company's financial indicators
  - (1) the company's main business revenue
    - 1) analysis of the company's profitability capability
    - 2) analysis of the company's operation capability
  - (2) analysis of the company's solvency capability
  - (3) analysis of the company's development capability
- 6.4.6 analysis of advantages and disadvantages of the company's operation
- 6.4.7 the company's development strategy and planning

### 6.5 Yara Environmental Protection (Qingdao) Co., Ltd.

- 6.5.1 introduction of the company
- 6.5.2 analysis of the company's production scale
- 6.5.3 distribution of the company's business market

- 6.5.4 analysis of the company's competitiveness
- 6.5.5 analysis of advantages and disadvantages of the company's operation
- 6.5.6 the company's development strategy and planning

**there are another 10 enterprises**

## **Chapter 7: Investment environment of China's AdBlue industry and forecast of risks and opportunities**

### **7.1 analysis of investment environment of AdBlue industry**

- 7.1.1 policy environment
- 7.1.2 economic environment
- 7.1.3 social environment
- 7.1.4 technical environment

### **7.2 forecast of investment risks of AdBlue industry**

- 7.2.1 policy risk
- 7.2.2 risk of technical substitution
- 7.2.3 risk of market competition
- 7.2.4 other risks

### **7.3 forecast of investment opportunities of AdBlue industry**

- 7.3.1 forecast of investment opportunities of different sections of AdBlue industry
  - (1) forecast of investment opportunities in production section
  - (2) forecast of investment opportunities in sales channels
- 7.3.2 forecast of investment opportunities of different main participants of AdBlue industry
  - (1) forecast of investment opportunities in fertilizer enterprise
  - (2) forecast of investment opportunities in petrochemical enterprise
