

China Geotechnical Engineering Industry Development Prospect and Investment Strategic Planning Report, 2013-2017

目 录

CONTENTS

Chapter 1: Development Overview of Geotechnical Engineering Industry

1.1 Overview of Geotechnical Engineering Industry

1.1.1 Definition of Geotechnical Engineering Industry

1.1.2 Classification of Geotechnical Engineering Industry

(1) Exploration of Geotechnical Engineering

(2) Design of Geotechnical Engineering

(3) Construction of Geotechnical Engineering

(4) Monitoring and Supervision of Geotechnical Engineering

1.1.3 Development History of Geotechnical Engineering Industry

1.2 Analysis of Entry Barriers of Geotechnical Engineering Industry

1.2.1 Business Qualification Barriers

1.2.2 Equipment Barriers

1.2.3 Technology and Talent Barriers

1.2.4 Working Experience Barriers

1.2.5 Capital Strength Barriers

1.3 Analysis of Development Environment of Geotechnical Engineering Industry

1.3.1 Analysis of Policy Environment of Geotechnical Engineering Industry

(1) Competent Departments and Administrative Mechanism

(2) Main Laws, Regulations and Policies Related to Geotechnical Engineering Industry

(3) Impact of Laws, Regulations and Policies on Geotechnical Engineering Industry

(4) Explanation for Parts of “12th Five-year” Planning for Geotechnical Engineering

(5) Analysis of Impact of the “12th Five-year” Planning on Geotechnical Engineering Industry

1.3.2 Analysis of Economic Environment of Geotechnical Engineering Industry

(1) Analysis of Correlation between Geotechnical Engineering Industry and Economic Development

(2) Analysis of National Macro-economic Development Status

(3) Forecast for National Macro-economic Development Trend

Chapter 2: Analysis of Development Conditions of Global Geotechnical Engineering Industry

2.1 Development Overview of Global Geotechnical Engineering Industry

2.2 Development Analysis of Geotechnical Engineering Industry in Main Countries around the World

2.2.1 Development Analysis of Geotechnical Engineering Industry in Germany

(1) Overview of Germany Geotechnical Engineering

(2) Analysis of Germany Geotechnical Engineering System

(3) Analysis of Germany Geotechnical Engineering Market Status

(4) Analysis of Germany Geotechnical Engineering Development Trend

2.2.2 Development Analysis of Geotechnical Engineering Industry in USA

(1) Overview of USA Geotechnical Engineering

(2) Analysis of USA Geotechnical Engineering System

(3) Analysis of USA Geotechnical Engineering Market Status

(4) Analysis of USA Geotechnical Engineering Development Trend

2.2.3 Development Analysis of Geotechnical Engineering Industry in Japan

(1) Overview of Japan Geotechnical Engineering

(2) Analysis of Japan Geotechnical Engineering System

(3) Analysis of Japan Geotechnical Engineering Market Status

(4) Analysis of Japan Geotechnical Engineering Development Trend

2.3 Technology Trend and Market Prospects Forecast of Global Geotechnical Engineering Industry

2.3.1 Analysis of Technology Development Trend of Global Geotechnical Engineering Industry

2.3.2 Market Prospects Forecast for Global Geotechnical Engineering Industry

Chapter 3: Analysis of Development Conditions of China Geotechnical Engineering Industry

3.1 Analysis of Development Status of China Geotechnical Engineering Industry

- 3.1.1 Development Overview of China Geotechnical Engineering Industry
- 3.1.2 Demand Analysis of China Geotechnical Engineering
- 3.1.3 Construction Analysis of China Geotechnical Engineering
- 3.2 Analysis of Competition Conditions of China Geotechnical Engineering Industry**
 - 3.2.1 Analysis of Marketization Process of China Geotechnical Engineering Industry
 - 3.2.2 Analysis of Competitive Landscape of China Geotechnical Engineering Industry
 - 3.2.3 Analysis of Profit Level and Changes Trend of China Geotechnical Engineering Industry
- 3.3 Analysis of Operation Models of China Geotechnical Engineering Industry**
 - 3.3.1 Specialized Subcontracting Models of China Geotechnical Engineering
 - 3.3.2 Specialized EPC Models of China Geotechnical Engineering
- 3.4 Informalization Analysis of China Geotechnical Engineering Industry**
 - 3.4.1 GIS Applied Cases in Geotechnical Engineering
 - 3.4.2 GIS Development Trend in Geotechnical Engineering

Chapter 4: Analysis of Ground Treatment Technologies in China Geotechnical Engineering Industry

- 4.1 Ground Treatment Definition of China Geotechnical Engineering Industry**
 - 4.1.1 Ground Treatment Definition of Geotechnical Engineering Industry
 - 4.1.2 Analysis of Importance of Ground Treatment on Geotechnical Engineering Industry
- 4.2 Analysis of Ground Treatment Technologies for Geotechnical Engineering**
 - 4.2.1 Dynamic Compaction Technology for Geotechnical Engineering Ground Treatment
 - (1) Analysis of Dynamic Compaction Technology for Ground Treatment
 - (2) Analysis of Dynamic Compaction Replacement Technology for Ground Treatment
 - 4.2.2 Analysis of Preloading Technology for Geotechnical Engineering Ground Treatment
 - (1) Surcharge Preloading Technology for Ground Treatment
 - (2) Preloading Technology with Vertical Drains for Ground Treatment
 - 4.2.3 Analysis of Composite Foundation Treatment Technologies
 - (1) Analysis of Compacted Gravel Pile Technology for Ground Treatment
 - (2) Analysis of Lime-soil Pile Technology for Ground Treatment
 - (3) Analysis of Cement Soil Pile Technology for Ground Treatment
 - (4) Analysis of Cement Soil Pile Technology for Ground Treatment
 - (5) Analysis of Mixing Pile Technology for Ground Treatment
 - (6) CFG Pile Technology for Ground Treatment
 - 4.2.4 Analysis of Pile Foundation Technologies for Geotechnical Engineering
 - (1) Analysis of Precast Piling Technology for Ground Treatment
 - (2) Analysis of Cast-in-place Pile Technology for Ground Treatment
- 4.3 Development Overview of Dynamic Compaction Ground Treatment for China Geotechnical Engineering**
 - 4.3.1 Development History of Dynamic Compaction Ground Treatment for China Geotechnical Engineering

Engineering

- (1) The First Stage (A Initial Stage)
 - (2) The Second Stage (A Rapid Development Stage)
 - (3) The Third Stage (A Stage with Expanding Application Scope)
 - (4) The Fourth Stage (A Stage with Appearance of High Level Dynamic Compaction)
- 4.3.2 Development Status of Dynamic Compaction Ground Treatment for China Geotechnical Engineering
 - (1) Profile of Dynamic Compaction Treatment Technology
 - (2) Division of Dynamic Compaction Treatment by Energy Level
 - (3) Features of Dynamic Compaction Treatment Technology
- 4.3.3 Application Conditions of Dynamic Compaction Treatment for China Geotechnical Engineering
 - (1) Adaptability of Dynamic Consolidation Foundation Treatment
 - (2) Limitation of Dynamic Consolidation Foundation Treatment
- 4.3.4 Main Application Fields of Dynamic Compaction Treatment for China Geotechnical Engineering
 - (1) Analysis of Application Fields of High Energy Level Dynamic Compaction
 - (2) Analysis of Application Fields of Middle and Low Energy Level Dynamic Compaction

Chapter 5: Development Analysis of Sub-markets Belonging to China Geotechnical Engineering Industry

- 5.1 Analysis of China Geotechnical Engineering Exploration and Design Market**
 - 5.1.1 Mechanism and Standards for Geotechnical Engineering Exploration and Design Market
 - 5.1.2 Overall Development Overview of Geotechnical Engineering Exploration and Design Market
 - 5.1.3 Scale Analysis of Geotechnical Engineering Exploration and Design Market
 - 5.1.4 Competition of Geotechnical Engineering Exploration and Design Market

- 5.1.5 Challenges Faced by Geotechnical Engineering Exploration and Design Enterprises
- 5.1.6 Coping Measures Taken by Geotechnical Engineering Exploration and Design Enterprises
- 5.1.7 Development Strategies for Geotechnical Engineering Exploration and Design Enterprises

5.2 Analysis of China Geotechnical Engineering Construction Market

- 5.2.1 Mechanism and Standards for Geotechnical Engineering Construction Market
- 5.2.2 Overall Development Overview of Geotechnical Engineering Construction Market
- 5.2.3 Scale Analysis of Geotechnical Engineering Construction Market
- 5.2.4 Competition of Geotechnical Engineering Construction Market
- 5.2.5 Challenges and Coping Measures for Geotechnical Engineering Construction Enterprises
- 5.2.6 Development Strategies for Geotechnical Engineering Construction Enterprises

5.3 Analysis of Geotechnical Engineering Supervision Market

- 5.3.1 Mechanism and Standards for Geotechnical Engineering Supervision Market
- 5.3.2 Overall Development Overview of Geotechnical Engineering Supervision Market
- 5.3.3 Scale Analysis of Geotechnical Engineering Supervision Market
- 5.3.4 Competition of Geotechnical Engineering Supervision Market
- 5.3.5 Challenges Faced by Geotechnical Engineering Supervision Enterprises
- 5.3.6 Coping Measures Taken by Geotechnical Engineering Supervision Enterprises
- 5.3.7 Development Strategies for Geotechnical Engineering Supervision Enterprises

Chapter 6: Analysis of Market Segments Construction Demand and Trend of China Geotechnical Engineering Industry

6.1 Analysis of China Petrochemical Geotechnical Engineering Construction

- 6.1.1 Construction Environment Analysis of Petrochemical Geotechnical Engineering
- 6.1.2 Analysis of Petrochemical Geotechnical Engineering Enterprises
- 6.1.3 Demand Analysis of Petrochemical Geotechnical Engineering Construction
 - (1) Investment Completion of Petrochemical Industry
 - (2) Analysis of Fast Development Driving Factors to Future Petrochemical Engineering Industry
- 6.1.4 Key Petrochemical Geotechnical Engineering Construction Conditions
- 6.1.5 Development Planning and Trend of Petrochemical Geotechnical Engineering

6.2 Analysis of China Water Conservancy Geotechnical Engineering Construction

- 6.2.1 Construction Environment Analysis of Water Conservancy Geotechnical Engineering
- 6.2.2 Analysis of Water Conservancy Geotechnical Engineering Enterprises
- 6.2.3 Demand Analysis of Water Conservancy Geotechnical Engineering Construction
 - (1) Investment of Basic Water Conservancy Construction
 - (2) Investment of South-to-North Water Diversion Project
 - (3) Construction of Water Reservoir Engineering
 - (4) Explanation of Relation between NO. 1 Document and Water Conservancy Construction
 - (5) Construction Status of Erosion and Torrent Control Works
- 6.2.4 Key Water Conservancy Geotechnical Engineering Construction Conditions
 - (1) Key Geotechnical Engineering Construction Conditions for Water Conservancy
 - (2) Key Geotechnical Engineering Construction Conditions for Water Diversion
 - (3) Key Geotechnical Engineering Construction Conditions for Erosion and Torrent Control Works
- 6.2.5 Development Planning and Trend of Key Geotechnical Engineering for Water Conservancy

6.3 Analysis of China Harbor Geotechnical Engineering Construction

- 6.3.1 Construction Environment Analysis of Harbor Geotechnical Engineering
- 6.3.2 Analysis of Harbor Geotechnical Engineering Enterprises
- 6.3.3 Demand Analysis of Harbor Geotechnical Engineering Construction
- 6.3.4 Key Harbor Geotechnical Engineering Construction Conditions
- 6.3.5 Development Planning and Trend of Key Harbor Geotechnical Engineering

6.4 Analysis of China Railway Geotechnical Engineering Construction

- 6.4.1 Construction Environment Analysis of Railway Geotechnical Engineering
- 6.4.2 Analysis of Railway Geotechnical Engineering Enterprises
- 6.4.3 Demand Analysis of Railway Geotechnical Engineering Construction
- 6.4.4 Key Railway Geotechnical Engineering Construction Conditions
- 6.4.5 Development Planning and Trend of Key Railway Geotechnical Engineering

6.5 Analysis of China Road Geotechnical Engineering Construction

- 6.5.1 Construction Environment Analysis of Road Geotechnical Engineering
- 6.5.2 Analysis of Road Geotechnical Engineering Enterprises
- 6.5.3 Demand Analysis of Road Geotechnical Engineering Construction
- 6.5.4 Key Road Geotechnical Engineering Construction Conditions

6.5.5 Development Planning and Trend of Key Road Geotechnical Engineering

6.6 Analysis of China Electricity Geotechnical Engineering Construction

6.6.1 Construction Environment Analysis of Electricity Geotechnical Engineering

6.6.2 Analysis of Electricity Geotechnical Engineering Enterprises

6.6.3 Demand Analysis of Electricity Geotechnical Engineering Construction

6.6.4 Key Electricity Geotechnical Engineering Construction Conditions

6.6.5 Development Planning and Trend of Key Electricity Geotechnical Engineering
