

China New-type Urbanization Report (2016-2021), Construction Path and Investment Strategy

目 录

CONTENTS

Chapter 1: Background of China's new-type urbanization construction

- 1.1 analysis of development background of China's new-type urbanization construction
 - 1.1.1 analysis of impacts of lagged-behind urbanization of China
 - 1.1.2 analysis of development background of China's new-type urbanization
 - 1.1.3 analysis of challenges of new-type urbanization for China
- 1.2 analysis of the status quo of urbanization development level in China
 - 1.2.1 analysis of the development course of urbanization in China
 - 1.2.2 analysis of characteristics of China's urbanization development
 - 1.2.3 dynamic mechanism of the government in urbanization process
- 1.3 analysis of influence of Chinese new-type urbanization
 - 1.3.1 the impact of the new-type urbanization on China's economic growth
 - 1.3.2 the impact of the new-type urbanization on China's fiscal and monetary policy
- 1.4 analysis of policy framework for China's new-type urbanization construction
 - 1.4.1 analysis of previous policies of promoting urbanization
 - 1.4.2 related industrial policy planning of China's new-type urbanization
 - 1.4.3 institutional design and policy framework of new-type urbanization
- 1.5 forecast of China's future urbanization potential and space
 - 1.5.1 comparison of China's urbanization with the international
 - 1.5.2 the potential of rural population transformation base
 - 1.5.3 feasibility based on the urban population growth rate
 - 1.5.4 feasibility based on job offers for urban population

Chapter 2: Analysis of dynamic mechanism of China's new-type urbanization

- 2.1 impact of government regulation on urbanization construction
 - 2.1.1 analysis of the guiding role of government regulation on urbanization
 - 2.1.2 analysis of the promoting and supporting role of government regulation on urbanization
 - 2.1.3 analysis of the constraint role of government regulation on urbanization
- 2.2 impact of economic environment on urbanization construction
 - 2.2.1 analysis of the promoting role of economic strength on urbanization construction
 - 2.2.2 analysis of the promoting role of industrial development on urbanization construction
- 2.3 impact of the flow of production factors on urbanization construction
 - 2.3.1 analysis of the promoting role of capital investment on urbanization
 - 2.3.2 analysis of the promoting role of labor capital on urbanization
- 2.4 impact of natural environment on urbanization construction
 - 2.4.1 analysis of the impact of geographical conditions on urbanization
 - 2.4.2 analysis of the impact of natural resources on urbanization
 - 2.4.3 analysis of the impact of environmental conditions on urbanization
- 2.5 analysis of dynamic mechanism of different stages of urbanization
 - 2.5.1 analysis of dynamic mechanism of the start-up phase of urbanization
 - 2.5.2 analysis of dynamic mechanism of the take-off phase of urbanization
 - 2.5.3 analysis of dynamic mechanism of the growth phase of urbanization
 - 2.5.4 main driving factors of three phases of urbanization

Chapter 3: Envisages of new-type urbanization land reform programs

- 3.1 new-type urbanization land reform programs and evaluation
 - 3.1.1 the land reform program of nationalization and evaluation
 - 3.1.2 the land reform program of privatization and evaluation
 - 3.1.3 improve the collective-owned land reform program and evaluation
 - 3.1.4 programs of coexisting of various land ownerships and evaluation
- 3.2 land reform ideas to promote new-type urbanization and vision
 - 3.2.1 the overall vision of land system reform

3.2.2 the implementation phase of land system reform

Chapter 4: Analysis of collective-owned land transfer and land intensive utilization

4.1 analysis of collective-owned land circulation and policy deduction under urbanization

4.1.1 analysis of policy orientation of agricultural land transfer

4.1.2 analysis of policy orientation of collective-owned construction land

4.1.3 analysis of land ownership confirmation and scale operation of land transfer

4.1.4 analysis of collective-owned land transfer policy trends

4.2 analysis of regional intensive land use and urbanization

4.2.1 analysis of relationship of urbanization and construction land intensive use

4.2.2 analysis of evaluation system of regional intensive land use

Chapter 5: analysis of land finance and new-type urbanization land use

5.1 analysis of sources of land finance

5.1.1 analysis of model of making money from land sales

5.1.2 analysis of model of making money from land attachment

5.1.3 analysis of model of making money from land mortgage

5.2 analysis of development course of land finance

5.2.1 analysis of three "enclosure movements"

5.2.2 the key turning point of land finance

5.3 analysis of development scale of land finance

5.3.1 analysis of the scale of land for sales

5.3.2 analysis of the scale of land tax revenue

5.3.3 analysis of the scale of land revenue

5.4 development trends of construction land of new-type urbanization

5.4.1 analysis of the growth trends of urbanization

5.4.2 forecast of non-agricultural land demand

5.4.3 prediction of adequate supply of land

5.4.4 forecast of the growth rate of urban land price

Chapter 6: Analysis of local practice cases of collective-owned land circulation

6.1 farmland circulation : analysis of Chengdu Heming Village model

6.1.1 background

6.1.2 specific analysis

6.1.3 summary and comments
