

Analysis Report of Development Prospects and Investment Strategy Planning of China's Nuclear Technology Application Market (2022-2027)

目 录

CONTENTS

Chapter 1: Development Course and Current Situation of Nuclear Technology	
1.1 Concepts of Nuclear Technology and Nuclear Technology Application	
1.2 Development Course of Nuclear Technology	
1.3 Techniques and Methods of Nuclear Analysis	
1.4 Analysis of Radiation Processing Technology	
1.5 Development Analysis of Irradiation Accelerators	
1.6 Development Analysis of Isotope Instruments	
Chapter 2: Development Analysis of Global Nuclear Technology Application Market	
2.1 Development Cycle of Global Nuclear Technology Application Market	
2.2 Development Status of Global Nuclear Technology Application Market	
2.3 Development Structure of Global Nuclear Technology Application Market	
2.4 Prospects and Trends of Global Nuclear Technology Application Market	
2.5 Development Analysis of Nuclear Technology Application Market in Major Countries	
Chapter 3: Development Analysis of China's Nuclear Technology Application Market	
3.1 Development Course of China's Nuclear Technology Application Market	
3.2 Development Status of China's Nuclear Technology Application Market	
3.3 Development Status and Trend Analysis of China's Nuclear Energy Technology	
3.4 Main Problems in and Relevant Suggestions for China's Nuclear Technology Application Market	
Chapter 4: Application Status and Prospect Analysis of Nuclear Technology in Primary Industry	
4.1 Application Status and Prospect Analysis of Nuclear Technology in Agriculture	
4.2 Application Status and Prospect Analysis of Nuclear Technology in Forestry	
4.3 Application Status and Prospect Analysis of Nuclear Technology in Fishery	
Chapter 5: Application Status and Prospect Analysis of Nuclear Technology in Secondary Industry	
5.1 Application Status and Prospect Analysis of Nuclear Technology in Industrial Sector	
5.2 Application Status and Prospect Analysis of Nuclear Technology in Food Sector	
5.3 Application Status and Prospect Analysis of Nuclear Technology in Military Field	
Chapter 6: Application Status and Prospect Analysis of Nuclear Technology in Tertiary Industry	
6.1 Application Status and Prospect Analysis of Nuclear Technology in Medical and Health Sector	
6.2 Application Status and Prospect Analysis of Nuclear Technology in Environmental Field	
6.3 Application Status and Prospect Analysis of Nuclear Technology in Security Field	
Chapter 7: Case Analysis of Leading Enterprises at Home and Abroad in Nuclear Technology Application Market	
7.1 Case Analysis of Leading Enterprises Abroad in Nuclear Technology Application Market	
7.2 Case Analysis of Leading Enterprises at Home in Nuclear Technology Application Market	
Chapter 8: Investment Potential and Strategic Planning of China's Nuclear Technology Application Market	
8.1 Development Prospects of Nuclear Technology Application Market	
8.2 Development Trends of Nuclear Technology Application Market	
8.3 Investment Potential Analysis of Nuclear Technology Application Market	
8.4 Investment Status Analysis of Nuclear Technology Application Market	
8.5 Investment Strategy Planning of Nuclear Technology Application Market	

图表目录

Chart 1: Classification of Nuclear Technology Application	
Chart 2: Development Course of Nuclear Technology	
Chart 3: Types of Nuclear Analytical Techniques	
Chart 4: Features of Nuclear Analysis Techniques	
Chart 5: Classification of X-ray Fluorescence Analysis Techniques	
Chart 6: Classification of Activation Analysis	
Chart 7: Classification of Neutron Activation Analysis Techniques	
Chart 8: Advantages of Neutron Activation Analysis Techniques	
Chart 9: The Enterprise Echelon Distribution of China's Irradiation Accelerator Industry in.....2021	
Chart 10: Types of Industrial Irradiation Electron Accelerators	
Chart 11: Analysis of Irradiation Accelerator Application	
Chart 12: Overview of Global and China's Isotope Production and Supply	
Chart 13: Classification of Isotope Instruments - According to Basic Principles and Functions	
Chart 14: Classification of Isotope Instruments - According to the Types of Interaction with Materials Before the Ray Hitting the Detector	
Chart 15: Main Application Fields of Isotope Instruments	
Chart 16: Overview of the Application of China's Isotope Instruments	
Chart 17: Development Trend Analysis of Isotope Instruments	
Chart 18: Development Stages of Nuclear Technology Application Market	
Chart 19: Global Nuclear Power Generation and its Proportion, 2008-2021 (Unit: TWh, %)	
Chart 20: Changes in Global Nuclear Power Installed Capacity, 2008-2021 (Unit: GWe)	
Chart 21: Nuclear Power Generation of the World Top Ten Nuclear Power Generating Countries and the Proportion of Nuclear Power in their Power Generation in 2021 (Unit: TWh, %)	
Chart 22: New Global Nuclear Reactors Under Construction in 2021 (Unit: MWe)	
Chart 23: Phased-Out Global Nuclear Reactors in 2021 (Unit: MWe)	
Chart 24: IAEA's Ongoing Nuclear Technology Application Projects in Health Sector in.....2022	
Chart 25: IAEA's Ongoing Nuclear Technology Application Projects in Solving Environmental Problems in.....2022	
Chart 26: IAEA's Ongoing Nuclear Technology Application Projects in Water Resources in.....2022	
Chart 27: IAEA's Ongoing Nuclear Technology Application Projects in Food and Agriculture Sector in.....2022	
Chart 28: IAEA's Ongoing Nuclear Technology Application Projects in Industries in.....2022	
Chart 29: IAEA's Ongoing Nuclear Technology Application Projects in Nuclear Science in.....2022	
Chart 30: Segmented Fields of Nuclear Technology Application
