

China Supercapacitor Industry Report (2016–2021), Forecast and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Analysis of development environment of China's supercapacitor industry

1.1 overview of supercapacitor

- 1.1.1 definition of supercapacitor industry
- 1.1.2 classification of supercapacitor industry
- 1.1.3 analysis of principle of supercapacitor

1.2 analysis of performance of supercapacitor

- 1.2.1 performance index of supercapacitor
- 1.2.2 features of performance of supercapacitor
- 1.2.3 advantages of performance of supercapacitor
 - (1) comparison with electrostatic capacitor, cell in terms of performance
 - (2) comparison with mainstream battery in terms of performance
- 1.2.4 positioning of supercapacitor: complementary to lithium battery

1.3 analysis of external environment of supercapacitor industry

- 1.3.1 policy environment of supercapacitor industry
 - (1) analysis of management system of the industry
 - (2) analysis of main criteria of the industry
 - (3) interpretation of industrial policies of the industry
- 1.3.2 economic environment of supercapacitor industry
 - (1) correlation of the industry and economy
 - (2) operation of foreign economies
 - (3) forecast of domestic economic development
- 1.3.3 technology environment of supercapacitor industry
 - (1) analysis of activity of the technology of the industry
 - (2) R&D situation of leading technology companies

Chapter 2: Status quo and development trends of the global supercapacitor industry

2.1 status quo of the development of the global supercapacitor industry

- 2.1.1 overview of the development of the global supercapacitor industry
- 2.1.2 market scale of the global supercapacitor industry
- 2.1.3 competition pattern of the global supercapacitor industry

2.2 analysis of leading enterprises of the global supercapacitor industry

- 2.2.1 Maxwell Technologies
 - (1) introduction of the company's development
 - (2) analysis of structure and features of the company's products
 - (3) analysis of the company's R & D strength
 - (4) analysis of the company's situation
 - (5) analysis of the company's layout in China and performance
- 2.2.2 Elna
 - (1) introduction of the company's development
 - (2) analysis of structure and features of the company's products
 - (3) analysis of the company's situation
 - (4) analysis of the company's layout in China and performance
- 2.2.3 Panasonic
 - (1) introduction of the company's development
 - (2) analysis of the company's situation
 - (3) analysis of the company's layout in China and performance
 - (4) analysis of the company's latest developments
- 2.2.4 Nec-Tokin
 - (1) introduction of the company's development
 - (2) analysis of structure and features of the company's products

- (3) analysis of the company's R & D strength
- (4) analysis of the company's situation
- (5) analysis of the company's layout in China and performance

2.2.5 Esma

- (1) introduction of the company's development
- (2) analysis of the company's R & D strength
- (3) analysis of the company's layout in China and performance

2.2.6 Nesscap

- (1) introduction of the company's development
- (2) analysis of structure and features of the company's products
- (3) analysis of the company's R & D strength
- (4) analysis of the company's situation
- (5) analysis of the company's layout in China and performance

2.2.7 LS Mtron Ltd.

- (1) introduction of the company's development
- (2) analysis of the company's R & D strength
- (3) analysis of the company's situation
- (4) analysis of the company's layout in China and performance
- (5) analysis of the company's latest developments

2.3 development trends of the global supercapacitor industry

Chapter 3: Analysis of the development of China's supercapacitor industry

3.1 analysis of status quo of the development of China's supercapacitor industry

- 3.1.1 development stage of China's supercapacitor industry
- 3.1.2 market scale of China's supercapacitor industry
- 3.1.3 supply and demand of China's supercapacitor industry
- 3.1.4 operation efficiency of China's supercapacitor industry

3.2 analysis of market of subdivided products of China's supercapacitor

- 3.2.1 features of the structure of products of supercapacitor industry
- 3.2.2 analysis of market of coin-type supercapacitor
 - (1) main features of coin-type supercapacitor
 - (2) application demand of coin-type supercapacitor
 - (3) competition pattern of coin-type supercapacitor
 - (4) forecast of coin-type supercapacitor
- 3.2.3 analysis of market of wound-type supercapacitor
 - (1) main features of wound-type supercapacitor
 - (2) competition pattern of wound-type supercapacitor
- 3.2.4 analysis of market of large supercapacitor
 - (1) main features of large supercapacitor
 - (2) competition pattern of large supercapacitor
 - (3) forecast of large supercapacitor

3.3 analysis of five force model of China's supercapacitor industry

- 3.3.1 analysis of the bargaining power of the upstream industry
- 3.3.2 analysis of the bargaining power of the downstream industry analysis
- 3.3.3 analysis of competition within the industry
- 3.3.4 analysis of threat of alternatives
- 3.3.5 analysis of threat of new entrants of the industry
- 3.3.6 analysis of conclusion of competition of the industry

3.4 competitiveness of domestic and foreign-owned enterprises of China's supercapacitor industry

- 3.4.1 analysis of advantages and disadvantages of competition of domestic enterprises
 - (1) competitive advantages
 - (2) competitive disadvantages
- 3.4.2 comparative analysis of competitiveness of domestic and foreign-owned enterprises
 - (1) comparison of status quo of technology of domestic and foreign-owned enterprises
 - (2) comparison of product prices of domestic and foreign-owned enterprises
- 3.4.3 prediction of the trends of competitiveness of domestic and foreign-owned enterprises

Chapter 4: Analysis of market of raw materials of China's supercapacitor industry

4.1 analysis of supercapacitor industry chain

- 4.1.1 composition of supercapacitor industry chain
- 4.1.2 features of cost structure of supercapacitor industry

4.2 analysis of market of raw materials of supercapacitor industry

4.2.1 analysis of market of electrode material of supercapacitor

- (1) proportion of electrode material in supercapacitor
- (2) characteristics of electrode material of supercapacitor
- (3) analysis of market supply and demand situation of electrode material
- (4) analysis of major suppliers of electrode material

4.2.2 analysis of market of electrolyte of supercapacitor

- (1) proportion of electrolyte in supercapacitor
- (2) performance requirements of electrolyte in supercapacitor
- (3) analysis of market supply and demand situation of electrolyte
- (4) analysis of major suppliers of electrolyte

4.2.3 analysis of market of diaphragm of supercapacitor

- (1) proportion of diaphragm in supercapacitor
- (2) performance requirements of diaphragm in supercapacitor
- (3) analysis of market supply and demand situation of diaphragm
- (4) analysis of major suppliers of diaphragm

Chapter 5: Analysis of technology development of China's supercapacitor industry

5.1 production process of supercapacitor

5.2 research progress of electrode material of supercapacitor

5.2.1 carbon material

- (1) activated carbon (AC)
- (2) activated carbon fiber (ACF)
- (3) carbon aerogels (CAGs)
- (4) carbon nanotubes (CNTs)
- (5) graphite

5.2.2 transition metal oxides

- (1) precious metal oxide
- (2) base metal oxides

5.2.3 composite electrode material

5.2.4 conductive polymer electrode material

- (1) polyaniline electrode material
- (2) polypyrrole electrode material
- (3) polythiophene electrode material

5.3 research progress of electrolyte of supercapacitor

5.4 development trends of supercapacitor technology

5.4.1 problems of supercapacitor technology

- (1) innovation of electrode material
- (2) problem with matching combination
- (3) problem with slow discharge control
- (4) problem with high resistance
- (5) problem with less volume

5.4.2 development trends of technology of supercapacitor industry

Chapter 6: Forecast of downstream application demand of China's supercapacitor industry

6.1 distribution pattern of downstream application of supercapacitor industry

6.2 forecast of demand of supercapacitor in new energy automobile industry

6.2.1 analysis of development status quo and trends of new energy automobile industry

- (1) support policies of new energy automobile industry
- (2) development status quo of new energy automobile industry
- (3) development trends of new energy automobile industry

6.2.2 application of supercapacitor in new energy vehicles

6.2.3 examples and results of application of supercapacitor in automobile

6.2.4 forecast of market scale of supercapacitor in new energy automobile industry

6.3 forecast of demand of supercapacitor in urban rail transit industry

6.3.1 status quo of development of urban rail transit industry

6.3.2 status quo of application of supercapacitor in urban rail transit industry

6.3.3 analysis of market scale of supercapacitor in urban rail transit

6.3.4 forecast of market of supercapacitor in urban rail transit

6.4 forecast of demand of supercapacitor in industrial field

6.4.1 analysis of status quo of development of related industries

(1) analysis of status quo of development of smart meter industry
