1.1.2 Concept Comparison and System Framework of Industrial Internet
1.1.3 Panorama of Industrial Internet Industrial Chain
1.1.4 Business Model of Industrial Internet
1.2 Driving Factors of Industrial Internet Industry
1.2.1 Driving factors of Industrial Internet Development
1.2.2 Policy Environment of Industrial Internet Industry
1.2.3 Impact of Covid-19 on Industrial Internet
1.2.4 Opportunities and Threats to Industrial Internet Development
Chapter 2: Development of Industrial Internet
2.1 Development Status of Global Industrial Internet
2.1.1 Development of Global Industrial Internet
2.1.2 Development of Major Products in Industrial Internet
2.1.3 Development of Industrial Internet in Major Countries
2.1.4 Development Prospects of Global Industrial Internet
2.2 Current Situation of China’s Industrial Internet Development
2.2.1 Development Profile of China’s Industrial Internet
2.2.2 Scale and Contribution of China’s Industrial Internet Industry
2.2.3 Development of Five Core Industries of China’s Industrial Internet
2.2.4 Major Hardware Product Markets in China’s Industrial Internet
2.2.5 Development of Talented Person of China’s Industrial Internet
Chapter 3: Industrial Internet Industrial System
3.1 "Network" Development of Industrial Internet Industry
3.1.1 Brief Analysis of Industrial Internet System Framework
3.1.2 Internal Network Development of Factory
3.1.3 External Network Development of Factory
3.1.4 Development of Industrial Internet Application Support System
3.2 "Data" Development of Industrial Internet Industry
3.2.1 Overview of Industrial Internet Big Data
3.2.2 Overall Market Development of Industrial Big Data
3.2.3 Application of Industrial Big Data in Intelligent Production
3.2.4 Application of Industrial Big Data in Network Collaboration
3.2.5 Application of Industrial Big Data in Personalized Customization
3.2.6 Application of Industrial Big Data in Service Extension
3.3 "Security" Development of Industrial Internet Industry
3.3.1 Industrial Internet Security System
3.3.2 Development of Industrial Equipment Security Market
3.3.3 Development of Industrial Network Security Market
3.3.4 Development of Industrial Control Security Market
3.3.5 Development of Industrial Application Security Market
3.3.6 Development of Industrial Data Security Market
(1) Industrial Internet Platform Framework
3.4 Industrial Internet Platform Building at Supply Side
3.4.1 Current Situation of Industrial Internet Platform Building
3.4.2 Competition Pattern of Industrial Internet Platforms
3.4.3 Case Study on Key Industrial Internet Platforms
3.4.4 Inadequacies of Industrial Internet Platform Building

3.5 Industrial Internet Platform Application at Demand Side
3.5.1 Industrial Internet Platform Application
3.5.2 Development of Mechanical Internet Market
3.5.3 Development of Energy Internet Market
3.5.4 Development of Electronic Internet Market
3.5.5 Development of Building Material Internet Market
3.5.6 Development of Transportation Equipment Internet Market
3.5.7 Development of Petrochemical Internet Market
3.5.8 Development of Steel and Iron Internet Market
3.5.9 Development of Costume Internet Market
3.6 Cases and Prospects of Industrial Internet
3.7 Case study on Leading Enterprises in China’s Industrial Internet Industry
3.7.1 Case Study on Leading Enterprises in Industrial Network Field
