

China Separation Equipment Industry Report (2016–2021), Market Demands and Investment Forecast Analysis

目 录

CONTENTS

Chapter 1: Review of separation equipment industry

1.1 definition of separation equipment industry

- 1.1.1 basic concepts of the industry
- 1.1.2 classification of products of the industry

1.2 characteristics of separation equipment industry

- 1.2.1 production mode of the industry
 - (1) standard
 - (2) customization
 - (3) order
- 1.2.2 entry barriers of the industry
 - (1) R & D and technical barriers
 - (2) performance barrier
 - (3) barrier of patented technology
- 1.2.3 cyclical characteristics of the industry
- 1.2.4 regional characteristics of the industry

1.3 analysis of the upstream industry of separation equipment

- 1.3.1 introduction of industry chain of the industry
- 1.3.2 analysis of raw materials industry
 - (1) analysis of development of steel industry
 - 1) operation of steel market and price trend
 - 2) operation of casting market and price trend
 - 3) operation of forging market and price trend
 - (2) analysis of development of polypropylene industry
 - 1) market supply of polypropylene
 - 2) market demand for polypropylene
 - (3) analysis of development of rubber industry
 - 1) status quo of rubber market
 - 2) price trend of rubber
 - (4) analysis of development of non-ferrous metal industry
- 1.3.3 analysis of universal parts manufacturing industry
 - (1) analysis of development of pump industry
 - 1) status quo of development of pump industry
 - 2) development trends of pump industry
 - (2) analysis of development of valve industry
 - 1) status quo of development of valve market
 - 2) characteristics of procurement of valve industry
 - 3) analysis of market supply of valve
 - 4) development trends of of valve market
 - (3) analysis of development of compressor industry
 - (4) analysis of development of conveyor industry
 - (5) analysis of development of dosing device industry
 - (6) analysis of development of filter cloth industry
 - (7) analysis of development of cylinder industry
 - (8) analysis of development of hydraulic parts industry

Chapter 2: Analysis of development environment of China's separation equipment industry

2.1 policy environment of separation equipment industry

- 2.1.1 management system of the industry
- 2.1.2 policies and regulations of the industry
 - (1) summary of standards of the industry

(2) related policies of the industry

2.1.3 development planning of the industry

2.2 economic environment of separation equipment industry

2.2.1 the international economic situation

(1) status quo of the international macro economy

(2) forecast of the international macro economy

2.2.2 the domestic economic situation

(1) status quo of the domestic macro economy

(2) trend of the domestic economy

2.2.3 impact of economic trend on the industry

2.3 social environment of separation equipment industry

2.3.1 situation of China's energy and environment

2.3.2 support of energy saving policies

2.3.3 investment in energy saving and environmental protection

2.4 trade environment of separation equipment industry

2.4.1 foreign trade situation of the industry

2.4.2 strategy of enterprise to avoid risks

2.5 technical environment of separation equipment industry

2.5.1 analysis of progress of separation technology

(1) solid-liquid separation technology

(2) liquid-liquid separation technology

(3) gas-liquid separation technology

(4) gas-solid separation technology

2.5.2 technical level of the industry and characteristics

2.5.3 research results and new products of the industry

2.5.4 analysis of development trends of industry technology

Chapter 3: Supply and demand of separation equipment industry and forecast

3.1 analysis of development of the international separation equipment industry

3.1.1 supply and demand of the industry

3.1.2 competitive landscape of the industry

3.1.3 development trends of the industry

3.2 summary of development of China's separation equipment industry

3.2.1 overview of development of the industry

3.2.2 characteristics of development of the industry

3.2.3 influencing factors of the industry

(1) analysis of favorable factors

(2) analysis of unfavorable factors

3.3 status quo of supply and demand of China's separation equipment industry

3.3.1 scale of supply of the industry

(1) scale of yield of the industry

(2) scale of output value of the industry

(3) scale of export of the industry

3.3.2 scale of demand of the industry

(1) consumption quantity of the industry

(2) scale of sales of the industry

(3) scale of import of the industry

3.3.3 supply and demand balance of the industry

3.4 forecast of supply and demand of China's separation equipment industry

3.4.1 forecast of supply of the industry

(1) forecast of yield of the industry

(2) forecast of output value of the industry

3.4.2 forecast of demand of the industry

(1) forecast of sales volume of the industry

(2) forecast of sales revenue of the industry

3.5 development trends of China's separation equipment industry

3.5.1 research and development of efficient filter media

(1) filter cloth

(2) ceramic filter media

3.5.2 development of multifunctional integrated components

3.5.3 development of composite filter technology and equipment

3.5.4 large-scale, energy saving and automatic equipment

Chapter 4: Analysis of subdivided markets of separation equipment industry

4.1 structural characteristics of products of separation equipment industry

4.1.1 structural characteristics of products of the industry

4.1.2 comparison of characteristics of different products

4.2 status quo and development trend of filter market

4.2.1 overview of filter market

(1) development course of filter

(2) application demand of filter

(3) pattern of filter market

(4) trends of filter market

4.2.2 analysis of development of filter press market

(1) brief overview of filter press

(2) supply and demand of filter press market

1) sales volume of filter press

2) scale of export of filter press

3) scale of import of filter press

(3) analysis of membrane filter press market

1) main advantages of membrane filter press market

2) status quo of application of membrane filter press

3) trends of membrane filter press market

(4) competitive landscape of filter press market

(5) analysis of application demands of filter press

1) market demand in environmental protection

2) market demand in chemical industry

3) market demand in food industry

4) market demand in mineral processing industry

5) market demand in bio-pharmaceutical industry

6) market demand in filter press parts

7) market demand of export of filter press

(6) market capacity of filter press industry

(7) development trends of filter press industry

4.2.3 analysis of development of vacuum filter market

(1) brief overview of vacuum filter

(2) application demand of vacuum filter

(3) subdivided markets of vacuum filter

1) drum filter

2) disc filter

3) horizontal belt filter

(4) pattern of vacuum filter market

(5) development trends of vacuum filter

4.2.4 analysis of development of belt press machine market

(1) brief overview of belt press machine

(2) application demand of belt press machine

(3) pattern of belt press machine market

(4) technology progress and development trends of belt press machine

4.2.5 analysis of development of composite field filter market

(1) analysis of decanter market

(2) analysis of electric filter market

(3) analysis of centrifugal filter market

4.3 status quo and development trend of centrifuge market

4.3.1 brief overview of centrifuge

(1) centrifugal separation

(2) main features of centrifuge

(3) category of centrifuge products

4.3.2 analysis of development of centrifuge market

(1) development process of centrifuge industry

(2) analysis of application demands of centrifuge

- (3) analysis of import and export of centrifuge
- 4.3.3 analysis of subdivided centrifuge markets
 - (1) analysis of industrial centrifuge market
 - 1) filter centrifuge
 - 2) centrifuge
 - 3) separator
 - (2) analysis of laboratory centrifuge market
 - 1) preparation centrifuge
 - 2) analytical centrifuge
- 4.3.4 progress of centrifuge and forecast
 - (1) application of new materials
 - 1) application of FRP materials
 - 2) application of engineering plastics
 - 3) use of carbide
 - (2) some new centrifuges
 - 1) disc stack centrifuge
 - 2) new horizontal spiral centrifuge
 - (3) development trends of centrifuge market

4.4 status quo and development trend of separator market

- 4.4.1 summary of separator market
 - (1) description of separator
 - (2) application demand of separator
- 4.4.2 analysis of subdivided markets of separator
 - (1) analysis of gravity settler market
 - (2) analysis of inertial separator market
 - (3) analysis of cyclone separator market
 - (4) analysis of filter separator market
 - (5) analysis of other separator markets
- 4.4.3 development trends of separator market

Chapter 5: Analysis of demand potential of separation equipment industry

5.1 characteristics of downstream application of separation equipment

- 5.1.1 distribution of application fields of products
- 5.1.2 analysis of characteristics of application of products
 - (1) characteristics of demand in traditional areas
 - (2) characteristics of demand in emerging areas

5.2 analysis of demand potential in the field of environmental protection

- 5.2.1 analysis of development of environmental protection industry
 - (1) status quo of development of environmental protection industry
 - (2) operation of leading enterprises
- 5.2.2 demand for application in the field of environmental protection
 - (1) overall application situation
 - (2) traditional application fields
 - 1) industrial wastewater sludge
 - 2) industrial solid waste
 - (3) emerging application fields
 - 1) urban sewage sludge
 - 2) water sludge
 - 3) dredged
- 5.2.3 typical customers in the field of environmental protection
- 5.2.4 procurement requirements in the field of environmental protection
- 5.2.5 demand potential in the field of environmental protection

5.3 analysis of demand potential in mineral processing industry

- 5.3.1 analysis of development of mineral processing industry
 - (1) scale of development of mining industry
 - (2) scale of development of mineral processing industry
 - (3) operation of leading enterprises of the industry
- 5.3.2 demand for application in mineral processing industry
 - (1) overall application situation
 - (2) traditional application fields

- 1) non-ferrous metals
- 2) metal tailings
- 3) coal and tailings
- (3) emerging non-metallic mineral fields
- 5.3.3 typical customers in mineral processing industry
- 5.3.4 procurement requirements in mineral processing industry
- 5.3.5 demand potential in mineral processing industry

5.4 analysis of demand potential in chemical industry

- 5.4.1 analysis of development of chemical industry
 - (1) scale of development of chemical industry
 - (2) operation of leading enterprises
- 5.4.2 demand for application in chemical industry
 - (1) overall application demand
 - (2) traditional application fields
 - (3) emerging application fields
- 5.4.3 typical customers in chemical industry
- 5.4.4 procurement requirements in chemical industry
- 5.4.5 demand potential in chemical industry

5.5 analysis of demand potential in food industry

- 5.5.1 analysis of development of food industry
 - (1) scale of development of food industry
 - (2) operation of leading enterprises
- 5.5.2 demand for application in food industry
 - (1) overall application situation
 - (2) traditional application fields
 - (3) emerging application fields
- 5.5.3 typical customers in food industry
- 5.5.4 procurement requirements in food industry
- 5.5.5 demand potential in food industry

5.6 analysis of demand potential in bio-pharmaceutical industry

- 5.6.1 analysis of development of bio-pharmaceutical industry
 - (1) scale of development of bio-pharmaceutical industry
 - (2) operation of leading enterprises of the industry
- 5.6.2 demand for application in bio-pharmaceutical industry
 - (1) traditional application fields
 - (2) emerging application fields
- 5.6.3 typical customers in bio-pharmaceutical industry
- 5.6.4 procurement requirements in bio-pharmaceutical industry
- 5.6.5 demand potential in bio-pharmaceutical industry

5.7 analysis of potential of demand for export of separation equipment

- 5.7.1 international competitiveness of domestic products
- 5.7.2 forecast of the international market demand
- 5.7.3 forecast of export of domestic products

Chapter 6: Competition pattern and strategy of separation equipment industry

6.1 analysis of competition pattern of separation equipment industry

- 6.1.1 analysis of five-force model of the industry
 - (1) competition among existing enterprises
 - (2) analysis of bargaining power of suppliers
 - (3) analysis of bargaining power of downstream customers
 - (4) threat of potential entrants to the industry
 - (5) threat of alternatives of the industry
- 6.1.2 analysis of investment structuring of the industry
 - (1) trend of investment structuring of the industry
 - (2) characteristics of investment structuring of the industry
 - (3) trends of investment structuring of the industry

6.2 analysis of competitive strategy of multinational companies in China

- 6.2.1 ANDRITZ
 - (1) brief introduction of the company's development
 - (2) analysis of the company's product structure and positioning

- (3) analysis of the company's operation
- (4) analysis of the company's investment in China
- (5) research of the company's competitive strategy in China

6.2.2 SIEMENS

- (1) brief introduction of the company's development
- (2) analysis of the company's product structure and positioning
- (3) analysis of the company's operation
- (4) analysis of the company's investment in China
- (5) research of the company's competitive strategy in China

6.2.3 DIEMME

- (1) brief introduction of the company's development
- (2) analysis of the company's product structure and positioning

6.3 construction of competitive strategy of separation equipment industry

6.3.1 analysis of marketing strategy of the industry

- (1) marketing mode of the industry
- (2) marketing platform of the industry
- (3) marketing strategy of the industry

6.3.2 analysis of competition strategy of the industry

- (1) diversification strategy
- (2) differentiation strategy
- (3) cooperation strategy

6.3.3 evaluation of competition strategy of the industry

6.4 countermeasures of implementation of competitive strategy of separation equipment industry

6.4.1 develop an effective management model

6.4.2 balance marketing and internal management

6.4.3 establish technical innovation mechanism

6.4.4 promote the accumulation and optimization of human resources

6.4.5 promote the effective integration of resources

Chapter 7: Business model and strategy of separation equipment industry

7.1 analysis of transformation and upgrading of manufacturing industry

7.1.1 background of transformation and upgrading of manufacturing industry

7.1.2 main ways of upgrading of manufacturing industry

- (1) from export to domestic sales
- (2) from OEM to own brands
- (3) from low-end to high-end
- (4) from manufacturing to service
- (5) integration of industrial chain resources
- (6) from extensive management to fine management

7.1.3 service-oriented manufacturing is a new competitive weapon

- (1) typical characteristics of service-oriented manufacturing
- (2) analysis of value of service-oriented manufacturing

1) value for enterprise

2) macro value

(3) path selection of service-oriented manufacturing

1) customer experience

2) develop the concept of customer service

3) enhance the manufacturing capacity

4) combination of products and services

(4) operation mode of service-oriented manufacturing

(5) industry practice of service-oriented manufacturing

7.2 analysis of business model of separation machinery industry

7.2.1 overview of operation mode of the industry

7.2.2 analysis of traditional manufacturing mode of the industry

(1) analysis of stand-alone production mode

1) characteristics of business model

2) analysis of typical enterprises

(2) analysis of stand-alone and supporting mode

1) characteristics of business model

2) analysis of typical enterprises

- 7.2.3 system integration service model of the industry
 - (1) overview of system integration service model
 - (2) advantages of system integration service model
 - (3) benefits of system integration service model
 - (4) reference of typical enterprises' operation mode
 - 1) Andritz
 - 2) Siemens
 - 3) IndyMac
 - 4) Xingyuan Filter
 - 5) Baillette filter

7.3 Separation machinery manufacturing enterprise service-oriented strategy

- 7.3.1 analysis of necessity of restructuring of the industry
 - (1) in terms of demand for products
 - (2) in terms of value chain
 - (3) in terms of competition
- 7.3.2 analysis of strategy of enterprise service-oriented manufacturing
 - (1) basis for the implementation of service-oriented manufacturing
 - (2) strategy of the implementation of service-oriented manufacturing

Chapter 8: Investment opportunities of separation equipment industry and recommendations

8.1 SWOT analysis of separation equipment industry

- 8.1.1 analysis of opportunities of industry (O)
- 8.1.2 analysis of treats of the industry (T)

8.2 analysis of investment potential of separation equipment industry

- 8.2.1 analysis of investment opportunities of the industry
 - (1) review of investment environment of the industry
 - (2) analysis of investment opportunities of the industry
- 8.2.2 analysis of investment value of the industry
 - (1) forecast of profitability capability of the industry
 - (2) analysis of investment value of the industry

8.3 warning of risk of investment of separation equipment industry

- 8.3.1 policy risk of the industry
- 8.3.2 risk of competition of the industry
- 8.3.3 risk of operation of the industry
- 8.3.4 other risks of the industry

8.4 major investment strategies of separation equipment industry

- 8.4.1 analysis of investment type of the industry
- 8.4.2 analysis of investment region of the industry
- 8.4.3 analysis of investment method of the industry
- 8.4.4 ways to avoid risks of the industry

Chapter 9: Analysis of operation of leading enterprises of separation equipment industry

9.1 analysis of the overall development of enterprises

- 9.1.1 ranking of scale of separation equipment enterprises
 - (1) ranking of scale of production
 - (2) ranking of sales volume
 - (3) ranking of total profit
- 9.1.2 analysis of innovation capability of separation equipment enterprises
- 9.1.3 ranking of comprehensive competitiveness of separation equipment enterprises
 - (1) description of principal component analysis
 - (2) evaluation index of comprehensive competitiveness of enterprises
 - (3) overall competitiveness ranking of enterprises

9.2 case study of operation of leading enterprises

- 9.2.1 Shandong Jingjin Environmental Protection Inc.
 - (1) brief introduction of the company's development
 - (2) the company's products and technical level
 - (3) application area of the company's products
 - (4) analysis of the company's sales channels and network
 - (5) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability

- 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (6) analysis of advantages and disadvantages of the company's operation
 - (7) the company's investment, mergers and acquisitions
 - (8) analysis of the company's latest development trend
- 9.2.2 Zhongda Bright Filter Press Co.,Ltd.
- (1) brief introduction of the company's development
 - (2) the company's products and technical level
 - (3) application area of the company's products
 - (4) analysis of the company's sales channels and network
 - (5) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (6) analysis of advantages and disadvantages of the company's operation
 - (7) analysis of the company's latest development trend
- 9.2.3 Hengshui Haijiang Filter Press Group Co., Ltd.
- (1) brief introduction of the company's development
 - (2) the company's products and technical level
 - (3) application area of the company's products
 - (4) analysis of the company's sales channels and network
 - (5) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (6) analysis of advantages and disadvantages of the company's operation
 - (7) analysis of the company's latest development trend
- 9.2.4 Guangzhou Guangzhong Enterprise Group Corporation
- (1) brief introduction of the company's development
 - (2) the company's products and technical level
 - (3) application area of the company's products
 - (4) analysis of the company's sales channels and network
 - (5) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (6) analysis of advantages and disadvantages of the company's operation
- 9.2.5 Haishen Machinery & Electric General Works (Xiangshan)
- (1) brief introduction of the company's development
 - (2) the company's products and technical level
 - (3) application area of the company's products
 - (4) analysis of the company's sales channels and network
 - (5) analysis of the company's operation
 - 1) analysis of capabilities of production and marketing
 - 2) analysis of profitability capability
 - 3) analysis of operation capability
 - 4) analysis of solvency capability
 - 5) analysis of development capability
 - (6) analysis of advantages and disadvantages of the company's operation
 - (7) analysis of the company's latest development trend

there are another 25 enterprises
