

China Construction Labor Industry Report (2013-2018), Market Prospect and Investment Strategy Planning

目 录

CONTENTS

Chapter 1: Scope of Chinese construction labor industry in the report

- 1.1 concepts of construction labor industry
- 1.2 scope of research in the report

Chapter 2: Analysis of development status quo of China's construction labor industry

- 2.1 overview of China's construction labor industry
- 2.2 analysis of development scale of China's construction labor industry
 - 2.2.1 analysis of the number of enterprises
 - 2.2.2 analysis of practitioners
 - 2.2.3 analysis of revenues
 - 2.2.4 analysis of operation efficiency
- 2.3 survey on the supply and the flow of the Chinese construction workers
 - 2.3.1 analysis of the development scale of migrant workers
 - 2.3.2 survey of basic information of migrant workers
 - 2.3.3 analysis of exporter of migrant workers
 - 2.3.4 analysis of sources of migrant workers of various regions
 - 2.3.5 geographical distribution of the flow of migrant workers
 - 2.3.6 distribution of employment fields of migrant workers
 - 2.3.7 analysis of the income situation of migrant workers
 - 2.3.8 situation of protection of the interests of migrant workers

- 2.4 analysis of the problems of Chinese construction labor industry

Chapter 3: Analysis of construction of general contracting and professional contracting construction companies

3.1 analysis of operation and construction projects of general contracting construction companies

- 3.1.1 analysis of overall business conditions of general contracting construction companies
 - (1) analysis of total output value
 - (2) analysis of operation profits
 - (3) analysis of losses
- 3.1.2 analysis of contracts of general contracting construction companies
- 3.1.3 completion of contracted projects of general contracting construction companies
 - (1) analysis of completion of contracted projects
 - (2) analysis of receivables from projects
- 3.1.4 analysis of housing construction of general contracting construction companies
 - (1) analysis of housing construction area
 - (2) analysis of area of bidding contract
 - (3) analysis of area of construction completion
- 3.1.5 analysis of productivity of general contracting construction companies
 - (1) analysis of construction labor productivity
 - (2) analysis of housing construction area per capita
 - (3) analysis of housing completion area per capita
- 3.1.6 analysis of different types of housing construction of general contracting construction companies

3.2 analysis of operation and construction projects of professional contracting construction companies

- 3.2.1 analysis of overall business conditions of professional contracting construction companies
 - (1) analysis of total output value
 - (2) analysis of operation profits
 - (3) analysis of losses
- 3.2.2 analysis of contracts of professional contracting construction companies
- 3.2.3 completion of contracted projects of professional contracting construction companies

- (1) analysis of completion of contracted projects
- (2) analysis of receivables from projects
- 3.2.4 analysis of housing construction of professional contracting construction companies
 - (1) analysis of housing construction area
 - (2) analysis of area of bidding contract
 - (3) analysis of area of construction completion
- 3.2.5 analysis of productivity of professional contracting construction companies
 - (1) analysis of construction labor productivity
 - (2) analysis of housing construction area per capita
 - (3) analysis of housing completion area per capita
- 3.2.6 analysis of different types of housing construction of professional contracting construction companies

Chapter 4: Analysis of market demand of Chinese construction labor industry and forecast

4.1 analysis of market demand of housing project construction labor and forecast

- 4.1.1 contracts of housing engineering construction companies
- 4.1.2 project completion of housing engineering construction companies
- 4.1.3 analysis of housing engineering construction of housing engineering construction companies
- 4.1.4 completion of various types of houses of housing engineering construction companies
 - (1) analysis of various types of housing area
 - (2) analysis of various types of housing value
- 4.1.5 forecast of demand of housing project construction labor
 - (1) analysis of construction investment
 - (2) analysis of labor demand

4.2 analysis of market demand of railway, tunnel and bridge construction labor and forecast

- 4.2.1 contracts of railway, tunnel and bridge construction companies
- 4.2.2 project completion of railway, tunnel and bridge construction companies
- 4.2.3 analysis of housing construction of railway, tunnel and bridge construction companies
- 4.2.4 completion of various types of housing of railway, tunnel and bridge construction companies
 - (1) analysis of various types of housing area
 - (2) analysis of various types of housing value
- 4.2.5 forecast of demand of railway, tunnel and bridge construction labor
 - (1) analysis of construction investment
 - (2) analysis of labor demand

4.3 analysis of market demand of water conservancy and harbor construction labor and forecast

- 4.3.1 contracts of water conservancy and harbor construction companies
- 4.3.2 project completion of water conservancy and harbor construction companies
- 4.3.3 analysis of housing construction of water conservancy and harbor construction companies
- 4.3.4 completion of various types of housing of water conservancy and harbor construction

companies

- (1) analysis of various types of housing area
- (2) analysis of various types of housing value
- 4.3.5 forecast of demand of water conservancy and harbor construction labor
 - (1) analysis of construction investment
 - (2) analysis of labor demand

4.4 analysis of market demand of mining construction labor and forecast

- 4.4.1 contracts of mining construction companies
- 4.4.2 project completion of mining construction companies
- 4.4.3 analysis of housing construction of mining construction companies
- 4.4.4 completion of various types of housing of mining construction companies
 - (1) analysis of various types of housing area
 - (2) analysis of various types of housing value
- 4.4.5 forecast of demand of mining construction labor
 - (1) analysis of mining investment in fixed assets
 - (2) analysis of labor demand of mining projects

4.5 analysis of market demand of string and pipeline construction labor and forecast

- 4.5.1 contracts of string and pipeline construction companies
- 4.5.2 project completion of string and pipeline construction companies
- 4.5.3 analysis of housing construction of string and pipeline construction companies
- 4.5.4 completion of various types of housing of string and pipeline construction companies

- (1) analysis of various types of housing area
- (2) analysis of various types of housing value
- 4.5.5 forecast of demand of string and pipeline construction labor
 - (1) analysis of string and pipeline investment in fixed assets
 - 1) the construction of power lines
