

# China Environmental Monitoring Instrument Industry Production & Marketing Demand and Investment Forecast Report, 2013–2017

## 目 录

### CONTENTS

#### Chapter 1: Research Thinking and Methods of Report

##### 1.1 Definition of Research Scope in the Report

1.1.1 Definition of Environmental Monitoring Instrument Industry

1.1.2 Classification of Environmental Monitoring Instrument Industry

##### 1.2 Research Thinking and Methods of Report

1.2.1 Overview of Research Thinking

1.2.2 Profile of Research Methods

##### 1.3 Data Source and Statistical Coverage

1.3.1 Statistical Departments and Statistical Coverage

1.3.2 Statistical Methods and Data Categories

#### Chapter 2: Development Background of Environmental Monitoring Instrument Industry

##### 2.1 Development Status and Trend of Environmental Protection Industry

2.1.1 China Environment Situation Status

2.1.2 Strategic Position of Environmental Protection Industry

##### 2.2 Position of Environmental Monitoring in Environmental Protection Industry

2.2.1 Functions and Classification of Environmental Monitoring

2.2.2 Analysis of Features of Environmental Monitoring

2.2.3 Overview of Analytical Methods for Environmental Monitoring

##### 2.3 Construction of Environmental Monitoring System

2.3.1 Overview of Environmental Monitoring System

2.3.2 Construction Status of Environmental Monitoring

2.3.3 Standardization Construction of Environmental Monitoring Stations

2.3.4 Analysis of China Environmental Monitoring Capability

##### 2.4 Development Policies for Environmental Monitoring Instrument Industry

2.4.1 Competent Departments in the Industry

2.4.2 Laws and Regulations Related to Industry

2.4.3 Industrial Policies of Industry

##### 2.5 Technological Progress of Environmental Monitoring Instrument Industry

2.5.1 Overall Technological Progress in the Industry

2.5.2 Development Application of New Technologies

(1) R&D and Industrialization of Auto Monitoring System for Greenhouse Gas

(2) Auto Monitoring System for Organic Pollutant in the Air Features of Regional Environment

(3) R&D of FTIR spectrometer

(4) Portable Dust Analyzer

(5) Online Monitoring System Technologies for Dangerous Substance - Heavy Metal in Water

Quality

(6) Ammonia Slip Monitoring System

2.5.3 Development Trend for Technology in the Industry

#### Chapter 3: Development of Environmental Monitoring Instrument Industry

##### 3.1 Overall Development Situation

3.1.1 Development Overview

3.1.2 Development Features

3.1.3 Factors to Impact Development of Industry

(1) Advantages

(2) Disadvantages

##### 3.2 Analysis of Production Volume of Industry

3.2.1 Accumulated Production Situation

3.2.2 Monthly Production Situation

3.2.3 Regional Distribution of Output

3.3 Analysis of Balance between Supply and Demand of Industry	
3.3.1 Analysis of Total Supply Situation	
(1) Analysis of Total Output Value	
(2) Analysis of Finished Products	
3.3.2 Analysis of Regional Supply Situation	
(1) Top 10 Regions with Respect to Total Output Value	
(2) Top 10 Regions with Respect to Finished Products	
3.3.3 Analysis of Total Demand Situation	
(1) Analysis of Sales Value	
(2) Analysis of Sales Revenue	
3.3.4 Analysis of Regional Demand Situation	
(1) Top 10 Regions with Respect to Sales Value	
(2) Top 10 Regions with Respect to Sales Revenue	
3.3.5 Analysis of Production and Marketing Ratio	
3.4 Analysis of Operation Situation in.....	2012
3.4.1 Analysis of Industry Size	
3.4.2 Analysis of Capital/Labor-intensive Degree	
3.4.3 Analysis of Production and Marketing	
3.4.4 Analysis of Cost Structure	
3.4.5 Analysis of Profits and Loss	

## Chapter 4: Analysis of Competitive Landscape of Environmental Monitoring Instrument Industry

4.1 Analysis of Five-force Mode for Industry	
4.1.1 Internal Competitive Landscape in the Industry	
(1) Main Business for Key Companies	
(2) Market Shares of Key Companies	
4.1.2 Upstream Bargaining Power	
4.1.3 Downstream Bargaining Power	
4.1.4 Threats of Substitute	
4.1.5 Threats of Potential Entrants	
4.2 Competition between Domestic-funded and Foreign Funded Companies	
4.2.1 Competitive Landscape of Domestic/Foreign-funded Companies	
4.2.2 Competition of Foreign-funded Companies in China	
(1) Germany Simens	
(2) Switzerland ABB	
(3) Thermo Fisher Scientific Inc.	
(4) HACH	
(5) Shimadzu	
(6) SICK AG	
4.2.3 Competitiveness Comparison between Domestic and Foreign Companies	
4.3 Analysis of Merger and Restructuring/Integration in the Industry	
4.3.1 Cases of Merger and Restructuring/Integration in the Industry	
4.3.2 Motives for Merger and Restructuring/Integration in the Industry	
4.3.3 Features of Merger and Restructuring/Integration in the Industry	
4.3.4 Trend for Merger and Restructuring/Integration in the Industry	
4.4 Competition Trend Forecast of Industry in the Future	

## Chapter 5: Analysis of Environmental Gas Monitoring System Market - A Segment Part of Environmental Monitoring Instrument Industry

5.1 Overall Situation of Environmental Gas Monitoring System Market	
5.1.1 Construction of Environmental Gas Monitoring Stations	
5.1.2 Development of Environmental Gas Monitoring System Market	
5.1.3 Competitive Landscape of Environmental Gas Monitoring System Market	
5.2 Analysis of Exhaust Gas Pollutant Source Monitoring System Market	
5.2.1 Demand of Exhaust Gas Pollutant Source Monitoring	
(1) Emission of Exhaust Gas	
1) SO <sub>2</sub> Emission	
2) Dust Emission	
3) Industrial Dust Emission	
(2) Standards and Regulations for Exhaust Emission	

- (3) Exhaust Gas Pollutant Source Monitoring Projects
  - (4) Quantity of Key Exhaust Gas Monitoring Companies
- 5.2.2 Supply and Demand Status of Exhaust Gas Pollutant Source Monitoring System
- (1) Installation Size
  - (2) Output Value Size
- 5.2.3 Competitive Landscape of Exhaust Gas Pollutant Source Monitoring System Market
- (1) Quantity of Manufacturing Companies
  - (2) Competition between Domestic-funded and Foreign-funded Companies
  - (3) Competitiveness of Leading Companies
- 5.2.4 Bidding Direction for Exhaust Gas Pollutant Source Monitoring System
- 5.3 Analysis of Environmental Air Quality Monitoring System**
- 5.3.1 Demand for Environmental Air Quality Monitoring
- (1) Environmental Air Quality Conditions
    - 1) Overall Conditions
    - 2) Situation in Cities above Prefecture-Level
    - 3) Key Cities
  - (2) Standards for Environmental Air Quality
  - (3) Environmental Air Quality Monitoring Projects
  - (4) Quantity and Distribution of Environmental Air Monitoring Stations
    - 1) Requirement of Quantity for Establishing Air Monitoring Station
    - 2) Quantity of Environmental Air Monitoring Sites
    - 3) Distribution of Environmental Air Quality Monitoring Sites
- 5.3.2 Supply and Demand Status of Environmental Air Quality Monitoring System
- (1) Construction Size
  - (2) Demand Capacity
    - 1) Market Capacity of Big and Medium-Sized Cities
    - 2) Market Capacity of Regions above County-Level
    - 3) Replacement
    - 4) Rural Monitoring Sites and Greenhouse Gas Monitoring
- 5.3.3 Competitive Landscape of Environmental Air Quality Monitoring System
- (1) Profile of Major Manufacturing Companies
  - (2) Market Shares of Leading Companies
- 5.3.4 Bidding Direction for Environmental Air Quality Monitoring System
- 5.4 Market Prospects Forecast for Environmental Air Quality Monitoring System**
- 5.4.1 Market Prospects Forecast for Exhaust Gas Pollutant Source Monitoring System
- 5.4.2 Market Prospects Forecast for Environmental Air Quality Monitoring System
- 5.4.3 Market Prospect Forecasts for Environmental Gas Monitoring Market

## Chapter 6: Analysis of Environmental Water Quality Monitoring System - A Segment Part of Environmental Monitoring Instrument Industry

- 6.1 Overall Market Situation of Environmental Water Quality Monitoring System**
- 6.1.1 Construction and Distribution of Environmental Water Quality Monitoring Stations
- 6.1.2 Market Size of Environmental Water Quality Monitoring System
- 6.1.3 Competitive Landscape of Environmental Water Quality Monitoring System
- 6.2 Analysis of Environmental Water Quality Monitoring System Market**
- 6.2.1 Demand for Waste Water Pollution Source Monitoring
- (1) Emission of Waste Water and Pollutants
    - 1) Emission of Waste Water
    - 2) Emission of COD
    - 3) Emission of Ammonia Nitrogen
  - (2) Emission Standards for Waste Water and Pollutants
  - (3) Monitoring Factors of Waste Water Source
  - (4) Quantity of Key National Waste Water Monitoring Companies
  - (5) Quantity of Key Companies Monitored by Waste Water Treatment Factories
- 6.2.2 Status of Waste Water Pollution Source Monitoring System
- (1) Installation Size
  - (2) Output Value Size
- 6.2.3 Competitive Landscape of Waste Water Pollution Source Monitoring System
- (1) Quantity of Manufacturing Companies
  - (2) Competition between Domestic-funded and Foreign-funded Companies

- (3) Competitiveness of Leading Companies
- 6.2.4 Bidding Direction for Waste Water Pollution Source Monitoring System

### 6.3 Surface Water Monitoring System Market

- 6.3.1 Analysis of Demand of Surface Water Monitoring
  - (1) Environmental Quality Conditions for Surface Water
    - 1) Environment for Water in Rivers
    - 2) Environment for Water in Lakes/ Reservoir
    - 3) Environment for Water in Key Water Conservancy Projects
    - 4) Water Quality of Drinking Water Source for Key Cities
    - 5) Compliance Conditions for Key Water Function Zones
    - 6) Water Quality Conditions for Inland Fishery Industry
  - (2) Environmental Quality Standards for Surface Water
    - (3) Surface Water Monitoring Projects and Frequency
    - (4) Construction of Water Quality Auto Monitoring Stations
    - (5) Quantity and Distribution of Surface Water Monitoring Section
- 6.3.2 Supply and Demand Status of Surface Water Monitoring System
  - (1) Installation Quantity
  - (2) Market Capacity
- 6.3.3 Competitive Landscape of Surface Water Monitoring System
- 6.3.4 Bidding Direction for Surface Water Monitoring System

### 6.4 Market Prospects Forecast for Surface Water Monitoring System

- 6.4.1 Market Prospects Forecast for Waste Water Source Monitoring Instrument
- 6.4.2 Market Prospects Forecast for Surface Water Monitoring Instrument
- 6.4.3 Market Prospects Forecast for Environmental Water Quality

## Chapter 7: Analysis of Other Product Market Segments - Parts of Environmental Monitoring Instrument Industry

### 7.1 Analysis of Noise and Sound Monitoring Equipment Market

- 7.1.1 Demand for Noise and Vibration Monitoring Equipment
  - (1) Noise and Vibration Pollution Status
    - 1) Noise Pollution Status
    - 2) Sound Pollution Status
  - (2) Control Standards and Regulations for Noise and Vibration
  - (3) China Environmental Noise Monitoring System
- 7.1.2 Monitoring Technology Routes for Environmental Noise
  - (1) Technology Route
  - (2) Monitoring Projects and Frequency
  - (3) Monitoring Methods
- 7.1.3 Development of Noise and Vibration Monitoring Market
  - (1) Market Development Situation
  - (2) Market Competitive Landscape
  - (3) Latest R&D Situation
  - (4) Market Development Prospects

### 7.2 Analysis of Radioactive Monitoring Instrument Market

- 7.2.1 Radioactive Environment Situation
  - (1) Source of Radioactivity
  - (2) Distribution of Radionuclide
  - (3) China Radioactive Environment Status
- 7.2.2 Monitoring Technology Route for Radioactive Environment
  - (1) Technology Route
  - (2) Monitoring Projects and Frequency
- 7.2.3 Radioactive Monitoring Instrument Market Status
  - (1) Development Status of China Nuclear Power
    - 1) Construction of Nuclear Station
    - 2) Capacity for Installation of Nuclear Power Machines
  - (2) Demand Status of Radioactive Monitoring Instrument
  - (3) Major Radioactive Monitoring Instrument Companies
- 7.2.4 Demand Prospect Forecast for Radioactive Monitoring Instrument

### 7.3 Analysis of Solid Waste Monitoring Instrument Market

- 7.3.1 Solid Waste Discharge Situation

- (1) Major Sources of Solid Waste
- (2) Discharge Situation of Solid Waste
- 7.3.2 Monitoring Technology Route for Solid Waste
  - (1) Technology Route
  - (2) Monitoring Content
  - (3) Monitoring Frequency
  - (4) Monitoring Analytical Methods
  - (5) Analysis of Pollution Control in the Process of Solid Waste Treatment
- 7.3.3 Solid Waste Monitoring Instrument Market Status
- 7.3.4 Market Prospects for Solid Waste Monitoring
- 7.4 Analysis of Soil Pollution Monitoring Instrument Market**
