

China Petroleum Drilling Special Equipment Industry Report of Market Demand Forecast and Investment Strategy Planning, 2016-2021

目 录

CONTENTS

Chapter 1: Summary of development of petroleum drilling equipment industry

1.1 summary of petroleum drilling equipment industry

1.1.1 concepts and definitions

1.1.2 main product categories

1.1.3 equipment and products needed in the drilling phase

1.1.4 analysis of industry chain

1.2 statistical standard of petroleum drilling equipment industry

1.2.1 industry statistics and statistical departments

1.2.2 statistical methods

1.2.3 types of industry information

1.3 analysis of market environment of petroleum drilling equipment industry

1.3.1 analysis of policy environment

(1) regulatory system

(2) development policy and planning

(3) national standards of petroleum drilling equipment

(4) summary of policy environment and its impact on petroleum drilling equipment industry

1.3.2 analysis of economic environment

(1) GDP

(2) GDP growth

1) analysis of its impact on the industry

(3) fixed assets investment

1) investment in fixed assets

2) analysis of its impact on the industry

(4) industrial added value

1) situation of industrial added value

2) analysis of its impact on the industry

(5) petroleum production

1) petroleum production situation

2) analysis of its impact on the industry

1.3.3 analysis of technical environment

(1) analysis of industry patents

(2) analysis of foreign petroleum drilling technology innovation

(3) development trend of new technology of domestic petroleum drilling equipment

Chapter 2: Analysis of Chinese petroleum drilling equipment industry development in...2012

2.1 analysis of Chinese petroleum drilling equipment industry development in.....2012

2.1.1 overall profile of Chinese petroleum drilling equipment industry

2.1.2 main features of Chinese petroleum drilling equipment industry

2.1.3 analysis of operation of petroleum drilling equipment manufacturing industry

(1) analysis of operation performance

(2) analysis of profitability capacity

(3) analysis of operation capacity

(4) analysis of solvency capacity

(5) analysis of development capacity

2.2 analysis of economic indicators of Chinese petroleum drilling equipment industry in.....2012

2.2.1 main factors of economic performance of petroleum drilling equipment industry

2.2.2 analysis of economic indicators of petroleum drilling equipment manufacturing industry

2.2.3 analysis of economic indicators of enterprises of different scale

2.2.4 analysis of economic indicators of enterprises of different nature

2.3 analysis of supply and demand balance of Chinese petroleum drilling equipment industry in.....2012

2.3.1 analysis of nationwide supply of petroleum drilling equipment industry

(1) analysis of national petroleum drilling equipment industry output

(2) analysis of finished products of the national petroleum drilling equipment industry

2.3.2 analysis of regional supply of petroleum drilling equipment industry

(1) analysis of top 10 regions in output value

(2) analysis of top 10 regions in pre-finished products

2.3.3 analysis of demand for national petroleum drilling equipment industry

(1) analysis of sales value of national petroleum drilling equipment industry

(2) analysis of sales revenue of national petroleum drilling equipment industry

2.3.4 analysis of regional demand of petroleum drilling equipment industry

(1) analysis of top 10 regions in sales value

(2) analysis of top 10 regions in sales revenue

2.3.5 analysis of sales rate of national petroleum drilling equipment industry

2.4 analysis of operation of Chinese petroleum drilling equipment industry in 2013 January-March

2.4.1 analysis of operation performance

2.4.2 analysis of profitability capacity

2.4.3 analysis of operation capacity

2.4.4 analysis of solvency capacity

2.4.5 analysis of development capacity

Chapter 3: Analysis of import and export markets of China petroleum drilling equipment industry in 2011年以来

3.1 summary of import and export situation of Chinese petroleum drilling equipment industry

3.2 analysis of Chinese export market of petroleum drilling equipment industry

3.2.1 overall export

3.2.2 export structure

3.3 analysis of Chinese import market of petroleum drilling equipment industry in.....2012

3.3.1 overall import

3.3.2 import structure

3.4 prospects and recommendations of import and export situation of petroleum drilling equipment industry in 2016-2021

3.4.1 prospects and recommendations of import situation of petroleum drilling equipment industry

3.4.2 prospects and recommendations of export situation of petroleum drilling equipment industry

Chapter 4: Analysis of development of related industries of Chinese petroleum drilling equipment industry in 2012

4.1 raw materials - analysis of operating status of steel industry

4.1.1 analysis of industry association

4.1.2 enterprise quantity

4.1.3 production situation

4.1.4 demand situation

4.1.5 profitability situation

4.1.6 supply and demand balance

4.1.7 analysis of product price of market segments

4.1.8 development trends and prospects

4.1.9 influence on petroleum drilling equipment industry

4.2 raw materials - analysis of operating status of ferrous metal forging industry

4.2.1 analysis of industry association

4.2.2 enterprise quantity

4.2.3 production situation

4.2.4 demand situation

4.2.5 profitability situation

4.2.6 supply and demand balance

4.2.7 analysis of product price of market segments

4.2.8 development trends and prospects

4.2.9 influence on petroleum drilling equipment industry

4.3 demand industries - analysis of operating status of petroleum and gas exploration industry

4.3.1 analysis of industry association

4.3.2 analysis of exploration scale

- 4.3.3 production situation
- 4.3.4 demand situation
- 4.3.5 profitability situation
- 4.3.6 supply and demand balance
- 4.3.7 analysis of petroleum price
- 4.3.8 development trends and prospects of petroleum and gas exploration industry
- 4.3.9 influence on petroleum drilling equipment industry

Chapter 5: Analysis of market competition of petroleum drilling equipment industry

5.1 analysis of international market competition

- 5.1.1 area pattern of market competition
- 5.1.2 position of market competition
- 5.1.3 structure of market competition
- 5.1.4 analysis of equipment application
- 5.1.5 trends of market competition

5.2 analysis of competition in the domestic market

- 5.2.1 overview of domestic petroleum drilling equipment industry competition
- 5.2.2 analysis of different types of enterprises in industry competition in.....2012
 - (1) characteristics of different types of enterprises
 - 1) analysis of industry economic concentration
- 5.2.3 analysis of competition of different areas of the industry in.....2012
 - (1) general characteristics of the regional structure
 - 1) analysis of regional industry concentration
- 5.2.4 analysis of multinational companies' investment in China
 - (1) The United States National Petroleum well Varco (NOV)
 - (2) the company's operating conditions
 - 1) analysis of the company's development in China
 - 1. U.S. Drilling Systems, Inc. (MSP / DRILEXINC)
 - 2. ABB American Viggo Gray Petroleum Equipment Co., Ltd.
- 5.2.5 analysis of competition trends in the industry

Chapter 6: Analysis of main products of Chinese petroleum drilling equipment industry in

6.1 characteristics of structure of main industry products

6.2 characteristics of main industry market

- 6.2.1 analysis of onshore petroleum drilling equipment market
