

China Magnesium Alloy Industry Report of Market Prospects & Investment Strategy Planning, 2016-2021

目 录

CONTENTS

Chapter 1: Analysis of development environment of China magnesium alloy industry

1.1 Basic concepts of magnesium alloy industry

- 1.1.1 the definition and characteristics of magnesium alloys
- 1.1.2 the performance advantages of magnesium alloy processing

1.2 Analysis of policy environment of magnesium alloy industry

- 1.2.1 authorities in charge and regulatory regime
- 1.2.2 the laws and regulations and industrial policies
 - (1) analysis of the relevant laws and regulations of magnesium alloy industry
 - (2) analysis of -related industrial policies of magnesium alloy industry

1.3 Analysis of economic environment of magnesium alloy industry

- 1.3.1 the international macroeconomic trend analysis
- 1.3.2 the domestic macroeconomic trend analysis
- 1.3.3 the impact of the macroeconomic environment on the industry

1.4 Analysis of technical environment of magnesium alloy industry

- 1.4.1 analysis of patent applications
- 1.4.2 quantity changes of patent disclosures
- 1.4.3 analysis of patent applicants
- 1.4.4 analysis of popular technology

Chapter 2: Analysis of manufacturing development of magnesium alloy products

2.1 Introduction of magnesium alloy chain

2.2 market analysis of magnetite and original magnesium

- 2.2.1 magnesium mineral analysis
- 2.2.2 magnetite reserves and distribution
- 2.2.3 the exploitation of magnetite
- 2.2.4 market supply of the original magnesium
 - (1) production quantity analysis
 - (2) analysis of original magnesium smelters
 - (3) layout of magnesium smelting industry
 - (4) import and export analysis of original magnesium
 - (5) the market demand for original magnesium
 - (6) price trend analysis of original magnesium

2.3 Analysis of the development of metal casting industry

- 2.3.1 analysis of the metal casting process
- 2.3.2 operating conditions of the metal casting industry
- 2.3.3 analysis of metal casting equipment research and development
- 2.3.4 the latest technology trends of metal casting
- 2.3.5 the development direction of the metal casting
- 2.3.6 the development of magnesium alloy casting market

Chapter 3: Situation analysis of magnesium alloy industry development in China

3.1 market size of magnesium alloy industry

- 3.1.1 the development background
- 3.1.2 the production quantity of magnesium alloys
- 3.1.3 import and export of magnesium alloys
- 3.1.4 analysis of the consumer demand of magnesium alloys

3.2 analysis of recycling of magnesium alloy scrap

- 3.2.1 economic Analysis
- 3.2.2 sorting analysis
- 3.2.3 the need for refined recycling

3.3 market competition of magnesium alloy industry

- 3.3.1 the existing competition of enterprises industry
- 3.3.2 the threat of potential entrants
- 3.3.3 the bargaining power of suppliers
- 3.3.4 the bargaining power of purchasers
- 3.3.5 alternatives threat
- 3.3.6 competition summary

Chapter 4: Analysis of key areas of Chinese magnesium alloy industry

4.1 analysis of development of Shanxi magnesium alloy industry

- 4.1.1 analysis of reserves in Shanxi
- 4.1.2 analysis of the development status of magnesium alloy industry in Shanxi Province
 - (1) the development scale
 - (2) the operating conditions
 - (3) production base construction
 - (4) major enterprises of magnesium alloy
- 4.1.3 analysis of development plan of Shanxi's magnesium alloy industry

4.2 analysis of development of Shanxi magnesium alloy industry

- 4.2.1 analysis of reserves in Shanxi
- 4.2.2 analysis of the development status of magnesium alloy industry in Shanxi Province
 - (1) the development scale
 - (2) the operating conditions
 - (3) production base construction
 - (4) major enterprises of magnesium alloy
- 4.2.3 analysis of development plan of Shanxi's magnesium alloy industry

4.3 analysis of development of Ningxia magnesium alloy industry

- 4.3.1 analysis of reserves in Ningxia
- 4.3.2 analysis of the development status of magnesium alloy industry in Ningxia Province
 - (1) the operating conditions
 - (2) major enterprises of magnesium alloy
- 4.3.3 analysis of development plan of Ningxia's magnesium alloy industry

4.4 analysis of development of Xingjiang magnesium alloy industry

- 4.4.1 analysis of reserves in Xingjiang
- 4.4.2 analysis of the development status of magnesium alloy industry in Xingjiang Province
 - (1) the development scale
 - (2) major enterprises of magnesium alloy
- 4.4.3 analysis of development plan of Xingjiang's magnesium alloy industry

4.5 analysis of development of Inner Mongolia magnesium alloy industry

- 4.5.1 analysis of reserves in Inner Mongolia
- 4.5.2 analysis of the development status of magnesium alloy industry in Inner Mongolia Province
 - (1) the development scale
 - (2) production base construction
 - (3) major enterprises of magnesium alloy
- 4.5.3 analysis of development plan of Inner Mongolia's magnesium alloy industry

4.6 analysis of development of Jiangsu magnesium alloy industry

- 4.6.1 analysis of the development status of magnesium alloy industry in Jiangsu Province
 - (1) the operating conditions
 - (2) major enterprises of magnesium alloy
- 4.6.2 analysis of development forecast for Jiangsu's magnesium alloy industry

4.7 analysis of development of Shandong magnesium alloy industry

- 4.7.1 analysis of the development status of magnesium alloy industry in Shandong Province
 - (1) the development scale
 - (2) the operating conditions
 - (3) production base construction
 - (4) major enterprises of magnesium alloy
- 4.7.2 analysis of development forecast for Shandong's magnesium alloy industry

4.8 analysis of development of Henan magnesium alloy industry

- 4.8.1 analysis of reserves in Henan
- 4.8.2 analysis of the development status of magnesium alloy industry in Henan Province
 - (1) the development scale
 - (2) the operating conditions

- (3) Production base construction
- (4) major enterprises of magnesium alloy
- 4.8.3 analysis of development plan of Henan's magnesium alloy industry
- 4.9 analysis of development of Qinghai magnesium alloy industry**
- 4.9.1 analysis of reserves in Qinghai
- 4.9.2 analysis of the development status of magnesium alloy industry in Qinghai Province
 - (1) the development scale
 - (2) the operating conditions
 - (3) major enterprises of magnesium alloy
- 4.9.3 analysis of development plan of Qinghai's magnesium alloy industry
- 4.10 analysis of development of Chongqing magnesium alloy industry**
- 4.10.1 analysis of reserves in Chongqing
- 4.10.2 analysis of the development status of magnesium alloy industry in Chongqing Province
 - (1) the development scale
 - (2) the operating conditions
 - (3) Production base construction
 - (4) major enterprises of magnesium alloy
- 4.10.3 analysis of development forecast for Chongqing's magnesium alloy industry
- Chapter 5: Demand analysis of main application areas of magnesium alloy products**
- 5.1 Demand analysis of application of magnesium alloy products in automobile manufacturing**
- 5.1.1 analysis of application of magnesium alloys in the automotive industry
- 5.1.2 analysis of the market scale of China automobile industry
- 5.1.3 analysis of the usage scale in the automotive industry
- 5.1.4 demand forecast for the application of magnesium alloys in automotive industry
- 5.2 Demand analysis of application of magnesium alloy products in electronic equipment manufacturing**
- 5.2.1 analysis of application of magnesium alloys in the electronic equipment industry
- 5.2.2 analysis of the market scale of China electronic equipment industry
- 5.2.3 analysis of the usage scale in the electronic equipment industry
- 5.2.4 demand forecast for the application of magnesium alloys in electronic equipment industry
- 5.3 Demand analysis of application of magnesium alloy products in aviation equipment manufacturing**
- 5.3.1 analysis of application of magnesium alloys in the aviation equipment industry
- 5.3.2 analysis of the market scale of China aviation equipment industry
- 5.3.3 analysis of the usage scale in the aviation equipment industry
- 5.3.4 demand forecast for the application of magnesium alloys in aviation equipment industry
- 5.4 Demand analysis of application of magnesium alloy products in medical equipment manufacturing**
- 5.4.1 usage of magnesium alloy in the manufacture of medical devices
- 5.4.2 analysis of the operating status of China medical equipment industry
- 5.4.3 the practical application magnesium alloy products in medical devices
- Chapter 6: Analysis of operation of leading enterprises of China magnesium alloy industry**
- 6.1 Nanjing Yunhai Special Metals Co., Ltd.**
- 6.1.1 introduction of company development
