

# China Lubricating Oil Industry Report (2016–2021), Market Demand Forecast and Investment Strategic Planning

## 目 录

### CONTENTS

#### Chapter 1: Overview of development of China's lubricating oil industry

- 1.1 definition and classification of lubricating oil industry
  - 1.1.1 concept and definition of the industry
  - 1.1.2 categories of main products of the industry
  - 1.1.3 analysis of the industry chain
  - 1.1.4 position of the industry in the national economy
- 1.2 statistical standard of lubricating oil industry
  - 1.2.1 statistical offices and statistical caliber of lubricating oil industry
  - 1.2.2 statistical methods of lubricating oil industry
  - 1.2.3 types of data of lubricating oil industry
- 1.3 analysis of policy environment of the industry
  - 1.3.1 regulatory system of the industry
  - 1.3.2 relevant policies and standards of the industry
  - 1.3.3 development planning of the industry
- 1.4 analysis of economic environment of the industry
  - 1.4.1 status quo of China's macroeconomic environment
    - (1) China's GDP growth
    - (2) analysis of changes in fixed asset investment
  - 1.4.2 forecast of China's macroeconomic outlook
  - 1.4.3 analysis of impact of economic environment on the industry

#### Chapter 2: Analysis of the development of lubricating oil industry

- 2.1 analysis of the development of China's lubricating oil industry
  - 2.1.1 overview of the overall development of China's lubricating oil industry
  - 2.1.2 main features of the development of China's lubricating oil industry
  - 2.1.3 analysis of operation of lubricating oil industry
    - (1) analysis of operation efficiency of the industry
    - (2) analysis of profitability capability of the industry
    - (3) analysis of operation capability of the industry
    - (4) analysis of solvency capability of the industry
    - (5) analysis of development capacity of the industry
- 2.2 analysis of economic indicators of lubricating oil industry
  - 2.2.1 factors influencing main economic efficiency of lubricating oil industry
  - 2.2.2 analysis of economic indicators of lubricating oil industry
  - 2.2.3 analysis of economic indicators of enterprise of different scales
    - (1) large enterprise
    - (2) medium-sized enterprise
    - (3) small enterprise
    - (4) analysis of changes of economic indicators of enterprise of different scales
  - 2.2.4 analysis of economic indicators of enterprise of different nature
    - (1) state-owned enterprise
    - (2) collective enterprise
    - (3) stock cooperative enterprise
    - (4) joint-stock enterprise
    - (5) private enterprise
    - (6) foreign-owned and Hong Kong, Macao and Taiwan-funded enterprise
    - (7) analysis of changes of economic indicators of enterprise of different nature
  - 2.2.5 analysis of economic indicators of enterprise of different regions
- 2.3 analysis of supply and demand balance of lubricating oil industry
  - 2.3.1 analysis of supply situation of national lubricating oil industry

- (1) analysis of output value of national lubricating oil industry
- (2) analysis of finished products of national lubricating oil industry
- 2.3.2 analysis of supply situation of lubricating oil industry in various regions
  - (1) analysis of top 10 regions ranking in output value
  - (2) analysis of top 10 regions ranking in finished products
- 2.3.3 analysis of demand situation of the national lubricating oil industry
  - (1) analysis of sales value of national lubricating oil industry
  - (2) analysis of sales revenue of national lubricating oil industry
- 2.3.4 analysis of demand situation of lubricating oil industry in various regions
  - (1) analysis of top 10 regions ranking in sales value
  - (2) analysis of top 10 regions ranking in sales revenue
- 2.3.5 analysis of production and sales rate of the national lubricating oil industry
- 2.4 analysis of import and export of lubricating oil industry**
  - 2.4.1 analysis of review of import and export of lubricating oil industry
  - 2.4.2 analysis of export situation of lubricating oil industry
    - (1) the overall export situation of the industry from Nov 2009 to Nov.....2013
    - (2) structure of export products of the industry from Nov 2009 to Nov.....2013
  - 2.4.3 analysis of import situation of lubricating oil industry
    - (1) the overall import situation of the industry from Nov 2009 to Nov.....2013
    - (2) structure of import products of the industry from Nov 2009 to Nov.....2013

### Chapter 3: Analysis of market competition of lubricating oil industry

- 3.1 analysis of the international market competition of the industry**
  - 3.1.1 supply situation of the international lubricating oil market
  - 3.1.2 demand situation of the international lubricating oil market
    - (1) analysis of the total amount of lubricating oil demand
    - (2) structure of regional demand of lubricating oil
  - 3.1.3 analysis of competition of the international lubricating oil market
  - 3.1.4 development trends of the international lubricating oil market
  - 3.1.5 investment layout of multinational company in China market
    - (1) analysis of investment layout of Royal Dutch Shell Petroleum in China
    - (2) analysis of investment layout of British Petroleum in China
    - (3) analysis of investment layout of Exxon Mobil in China
    - (4) analysis of investment layout of Caltex in China
    - (5) analysis of investment layout of Total Petroleum in China
    - (6) analysis of investment layout of German FUCHS Group in China
    - (7) analysis of investment layout of Chevron in China
    - (8) analysis of investment layout of Castrol in China
    - (9) analysis of investment layout of South Korean SK Corporation in China
  - 3.1.6 analysis of competition strategy of multinational company in China
  - 3.1.7 development impact of multinational company's access to the lubricating oil industry
- 3.2 analysis of domestic market competition of the industry**
  - 3.2.1 analysis of market scale of domestic lubricating oil industry
    - (1) domestic oil consumption
    - (2) domestic oil production
  - 3.2.2 internal competition pattern of domestic lubricating oil industry
  - 3.2.3 analysis of bargaining power of domestic lubricating oil industry
    - (1) analysis of the bargaining power of the upstream industry
    - (2) analysis of the bargaining power of the downstream industry
  - 3.2.4 threats facing domestic lubricating oil industry
    - (1) threat of new entrants of the industry
    - (2) threat of alternatives of the industry
- 3.3 analysis of brand competition of China's lubricating oil industry**
  - 3.3.1 brand competition pattern of China's lubricating oil industry
  - 3.3.2 brand structure of China's lubricating oil industry
    - (1) international brand camp
    - (2) GuoZiHao brand camp
    - (3) local brand camp
    - (4) OEM brand camp
- 3.4 analysis of investment, merger, reorganization and integration of the industry**

- 3.4.1 overview of investment, merger, reorganization and integration of lubricating oil industry
  - (1) status quo of investment, merger, reorganization of the international lubricating oil industry
  - (2) trends of investment, merger, reorganization of the international lubricating oil companies
- 3.4.2 investment, merger, reorganization and integration of domestic lubricating oil companies
  - (1) status quo of investment, merger, reorganization of domestic lubricating oil industry
  - (2) judgment of features of investment, merger, reorganization of lubricating oil industry

## Chapter 4: Analysis of upstream industry of lubricating oil industry

### 4.1 analysis of the development of lubricant base oil

- 4.1.1 classification of lubricant base oil
- 4.1.2 production process of lubricant base oil
  - (1) traditional production process
  - (2) hydrotreating process
  - (3) catalytic dewaxing process
  - (4) isodewaxing process
  - (5) synthetic lubricant technology
  - (6) comparison of various production processes
- 4.1.3 analysis of the global lubricant base oil market
  - (1) analysis of the global market demand for lubricant base oil
  - (2) development direction for the global lubricant base oil market
- 4.1.4 analysis of development of China's base oil market
- 4.1.5 analysis of China's import and export of base oil
- 4.1.6 analysis of domestic base oil market prices
  - (1) domestic base oil market prices
  - (2) analysis of the reasons for the domestic base oil price changes

### 4.2 analysis of the development of lubricant additives

- 4.2.1 classification of lubricant additives
- 4.2.2 analysis of the development of the global lubricant additives market
  - (1) market scale of lubricant additives
  - (2) distribution pattern of lubricant additives
  - (3) competition pattern of lubricant additives
- 4.2.3 analysis of the development of domestic lubricant additives market
  - (1) overview of domestic lubricant additives industry
  - (2) production of domestic lubricant additives
  - (3) competition pattern of domestic lubricant additives
- 4.2.4 demand trends of lubricant additives industry
- 4.2.5 development direction of lubricant additives industry

## Chapter 5: Analysis of market of major products of lubricating oil industry

### 5.1 features of product structure of the industry

### 5.2 analysis of market of products of the industry

- 5.2.1 analysis of market of engine oil
- 5.2.2 analysis of market of gear oil
- 5.2.3 analysis of market of hydraulic oil
- 5.2.4 analysis of market of transformer oil
- 5.2.5 analysis of market of lubricating grease
- 5.2.6 analysis of market of antifreeze liquid

### 5.3 analysis of market price of products of the industry

- 5.3.1 status quo of market price of lubricating oil products
- 5.3.2 trends of market price of lubricating oil products
- 5.3.3 main factors affecting the price of lubricating oil products

### 5.4 analysis of product technology of the industry

- 5.4.1 technical environment facing lubricating oil industry
- 5.4.2 status quo of development of technology of domestic and foreign lubricating oil industry
  - (1) status quo of development of technology of foreign lubricating oil industry
  - (2) status quo of development of technology of domestic lubricating oil industry
- 5.4.3 analysis of technological innovation of China's lubricating oil industry
  - (1) technology research and development
  - (2) ways to improve the technical integration ability
  - (3) status quo of technology integration and development of domestic lubricating oil industry

- (4) technology transfer and secondary innovation of lubricating oil industry
- 5.4.4 development trends of domestic and foreign lubricating oil industry technology
  - (1) biotech lubricating oil products are increasingly popular
  - (2) application of nano-materials and technology in the lubricating oil field

## Chapter 6: Forecast of demand for China's lubricating oil industry

### 6.1 forecast of demand for lubricating oil for automobile

- 6.1.1 analysis of status quo of development and development trends of the automobile industry
  - (1) status quo of development of the automobile industry
  - (2) development trends of the automobile industry
- 6.1.2 status quo of demand for lubricating oil for automobile
- 6.1.3 forecast of demand for lubricating oil for automobile
