

China Automated Warehouse Industry Investment Demand and Development Prospect Report, 2013–2017

目 录

CONTENTS

Chapter 1: Business Model and Environment of China Automated Warehouse Industry

1.1 Overview of Automated Warehouse Industry

- 1.1.1 Definition of Automated Warehouse
- 1.1.2 Characteristics of Automated Warehouse
- 1.1.3 Classification of Automated Warehouse
- 1.1.4 Advantages and Disadvantages of Automated Warehouse
- 1.1.5 Applicability of Automated Warehouse

1.2 Business Model of Automated Warehouse

- 1.2.1 System Structure of Automated Warehouse
- 1.2.2 Primary Operation Structure of Automated Warehouse
- 1.2.3 Operation Progress of Automated Warehouse
 - (1) Operation Progress of Being Put-in-Storage
 - (2) Operation Progress of Being Put-out-of-Storage
 - (3) Operation Progress of Selection
 - (4) Final Check

1.3 Development Environment of Automated Warehouse Industry

- 1.3.1 Policy Environment of Automated Warehouse Industry
- 1.3.2 Economic Environment of Automated Warehouse Industry
 - (1) Status and Forecast of International Macro-Economic Environment
 - (2) Status and Forecast of China Domestic Macro-Economic Environment
 - (3) Foreign Investment in China
 - (4) Coordination of Economic Environment and the Industry
- 1.3.3 Technology Environment of Automated Warehouse Industry
 - (1) Development of RFID Technology
 - 1) Public Amount of RFID Technical Patents
 - 2) Analysis of RFID Technical Patent Applicants
 - 3) Structure of RFID Technical Patents
 - (2) Development of Emulation Technique
 - 1) Public Amount of Emulation Technique Patents
 - 2) Analysis of Emulation Technique Patent Applicants
 - 3) Structure of Emulation Technique Patents

Chapter 2: Experiences of Foreign Automated Warehouse in Typical Countries

2.1 Overview of Foreign Automated Warehouse Industry

- 2.1.1 Development Progress of Automated Warehouse Industry
- 2.1.2 Development Status of Foreign Automated Warehouse

2.2 Development of Automated Warehouse in Typical Countries

- 2.2.1 Development of Automated Warehouse in America
- 2.2.2 Development of Automated Warehouse in Japan
- 2.2.3 Development of Automated Warehouse in Europe

2.3 Typical Automated Warehouse Corporations in Foreign Countries

- 2.3.1 Muratec
 - (1) Development Briefing of Muratec
 - (2) Operation Status of Muratec
 - (3) Automated Warehouse Equipment of Muratec

2.4 R&D Status of Automated Warehouse Technology at Home and Abroad

- 2.4.1 Development Progress of Automated Warehouse Technology
- 2.4.2 R&D Status of Automated Warehouse Design at Home and Abroad
- 2.4.3 Status of Automated Warehouse Technology in China
- 2.4.4 Development Trend of Automated Warehouse Technology in China

Chapter 3: Development Status of China Automated Warehouse Industry

3.1 Development Status of China Automated Warehouse Industry

- 3.1.1 Development Phase of Automated Warehouse Industry
- 3.1.2 Development Status of Automated Warehouse Industry
 - (1) Development Status of Automated Warehouse Industry
 - (2) Products Proportion of Automated Warehouse
- 3.1.3 Application Fields of Automated Warehouse Industry
- 3.1.4 Competition Status of Automated Warehouse Industry
- 3.1.5 Existing Problems of Automated Warehouse Industry

3.2 Regional Development of China Automated Warehouse

- 3.2.1 Development of Automated Warehouse in Eastern Region
 - (1) Economic Growth in Eastern Region
 - (2) Transportation Condition in Eastern Region
 - (3) Logistics Scale in Eastern Region
 - (4) Development Status of Automated Warehouse in Eastern Region
 - (5) Investment Trend of Automated Warehouse in Eastern Region
 - (6) Forecast of Automated Warehouse Demand in Eastern Region
- 3.2.2 Development of Automated Warehouse in Central Region
 - (1) Economic Growth in Central Region
 - (2) Transportation Condition in Central Region
 - (3) Logistics Scale in Central Region
 - (4) Goods Sources in Central Region
 - (5) Development Status of Automated Warehouse in Central Region
 - (6) Investment Trend of Automated Warehouse in Central Region
 - (7) Forecast of Automated Warehouse Demand in Central Region
- 3.2.3 Development of Automated Warehouse in Western Region
 - (1) Economic Growth in Western Region
 - (2) Transportation Condition in Western Region
 - (3) Logistics Scale in Western Region
 - (4) Goods Sources in Western Region
 - (5) Development Status of Automated Warehouse in Western Region
 - (6) Investment Trend of Automated Warehouse in Western Region
 - (7) Forecast of Automated Warehouse Demand in Western Region

3.3 Development of the Supporting Equipment to Automated Warehouse in China

- 3.3.1 Development of Automated Warehouse Goods Shelf
 - (1) Market Size of Goods Shelf Industry
 - (2) Development Characteristics of Goods Shelf Industry
 - (3) Development of Goods Shelf Manufacturers
 - (4) Regional Distribution Structure of Goods Shelf Industry
 - (5) Development Prospects of Goods Shelf Industry
 - 1) Development Trend of Goods Shelf Industry
 - 2) Demand Forecast of Goods Shelf during 2013-2017
- 3.3.2 Development of Automated Warehouse Tray
 - (1) Development Status of Tray Industry
 - (2) Development of Tray Manufacturers
 - (3) Demand Forecast of Automated Warehouse Tray
- 3.3.3 Development of Automated Warehouse AGV
 - (1) Overall Development of AGV Industry
 - (2) Development Status of Automated Warehouse AGV
 - (3) Development of AGV Manufacturers
- 3.3.4 Development of Automated Warehouse Transportation and Selection Equipment
 - (1) Overall Development of Transportation and Selection Equipment
 - (2) Application Fields of Transportation and Selection Equipment

3.4 Business Model of China Automated Warehouse Industry

- 3.4.1 Analysis of Cost-Leading Business Model
 - (1) Definition of Cost-Leading Business Model
 - (2) Application Cases of Cost-Leading Business Model
 - (3) Evaluation of Cost-Leading Business Model
 - (4) Highlight of Cost-Leading Business Model to the Industry

- 3.4.2 Analysis of Differentiation Business Model
 - (1) Definition of Differentiation Business Model
 - (2) Application Cases of Differentiation Business Model
 - (3) Evaluation of Differentiation Business Model
 - (4) Highlight of Differentiation Business Model to the Industry
- 3.4.3 Analysis of Focused Business Model
 - (1) Definition of Focused Business Model
 - (2) Application Cases of Focused Business Model
 - (3) Evaluation of Focused Business Model
 - (4) Development Integrating Degree of Focused Business Model and the Industry
 - (5) Highlight of Focused Business Model to the Industry

Chapter 4: Application Status and Demand Forecast of China Automated Warehouse

4.1 Demand Overview of China Automated Warehouse

4.2 Demand Status and Forecast of Automated Warehouse to Tobacco Industry

- 4.2.1 Development Status of China Tobacco Industry
 - (1) Market Operation Status of Tobacco Industry
 - 1) Production and Growth Rate of Cigarette
 - 2) Sales Volume and the Structure of Cigarette
 - (2) Imports and Exports of Tobacco Industry
 - 1) Imports Market of Tobacco Industry
 - 2) Exports Market of Tobacco Industry
 - (3) Investment Status of Tobacco Industry
 - (4) Operation Status of Tobacco Industry
- 4.2.2 Application Range of Automated Warehouse in Tobacco Industry
- 4.2.3 Development Status of Automated Warehouse in Tobacco Industry
 - (1) Overall Market Size of Tobacco Logistics Engineering
 - (2) Application Status of Automated Warehouse in Tobacco Industry
- 4.2.4 Demand Forecast of Automated Warehouse in Tobacco Industry

4.3 Demand Status and Forecast of Automated Warehouse to Pharmaceuticals Industry

- 4.3.1 Development Status of China Pharmaceuticals Industry
- 4.3.2 Application Range of Automated Warehouse in Pharmaceuticals Industry
- 4.3.3 Development Status of Automated Warehouse in Pharmaceuticals Industry
