

# China Public Libraries Report (2016–2021), Operation, Management and Development Models

## 目 录

### CONTENTS

#### Chapter 1: Research background of public library

##### 1.1 definition, function and role of public library

- 1.1.1 definition and nature of public library
- 1.1.2 the basic functions of public library
- 1.1.3 the important role of public library
  - (1) the role in construction of urban culture
  - (2) the role in the construction of public cultural service system

##### 1.2 analysis of policy environment of public library development

- 1.2.1 changes of public library policy since the new century
  - (1) change to the "public cultural service system "
  - (2) change to the " open for free"
- 1.2.2 interpretation of new policies of public library
  - (1) interpretation of " public library service standards"
  - (2) interpretation of " cultural and technological development plan of Ministry of Culture during the twelfth-five year period"
  - (3) interpretation of "construction plan of national municipal public cultural facilities "
  - (4) interpretation of " implementation plan of public electronic reading room construction plan "

##### 1.3 analysis of social environment of public library development

- 1.3.1 overview of the status and development of cultural industry
  - (1) the status of cultural industry
  - (2) development of cultural industry
- 1.3.2 analysis of household income and consumer culture
  - (1) analysis of urban and rural incomes
  - (2) analysis of residents' cultural consumption
  - (3) analysis of survey on residents' reading habits

#### Chapter 2: Development of public library

##### 2.1 development scale of public library

- 2.1.1 public library institutions and scale of practitioners
- 2.1.2 collection scale of public library
- 2.1.3 facility size of public library

##### 2.2 funding and expenditure of public library

- 2.2.1 funding of public library
- 2.2.2 expenditure of public library

##### 2.3 main business activities of public library

- 2.3.1 lending conditions of public library
- 2.3.2 organization of seminar of public library
- 2.3.3 organization of exhibition of public library
- 2.3.4 organization of training of public library

##### 2.4 development of public library in various regions

- 2.4.1 the number of public libraries and comparison of reserves in various regions
- 2.4.2 comparison of public library facilities in various regions
- 2.4.3 comparison of main business activities of public library in various regions

##### 2.5 assessment and grading of public library

- 2.5.1 criteria for assessment and grading of public library
- 2.5.2 results of assessment and grading of public library

#### Chapter 3: Development of digital public library

##### 3.1 the necessity for public library to accelerate its construction of digitization

- 3.1.1 the impact of information technology development on readers

- 3.1.2 the impact of digital library on traditional library
- 3.1.3 the significance of construction of digital public library

### **3.2 key technologies and ideas of digital library construction**

- 3.2.1 key technologies of digital library construction
  - (1) information collection and transfer technology
  - (2) organization technology of information
  - (3) retrieval technology of information
  - (4) information security technology
- 3.2.2 resource development strategy of digital library
  - (1) construction strategy of information resources of digital library
  - (2) standardization of digital library and digital storage strategy
  - (3) classification index of digital library and search strategy
- 3.2.3 service construction of digital library
  - (1) analysis of service system of digital library
  - (2) direction of service innovation of digital library

### **3.3 construction strategy of digital reading system of digital library**

- 3.3.1 concept and characteristics of digital reading
- 3.3.2 advantages and disadvantages of digital reading
- 3.3.3 problems of digital reading
- 3.3.4 measures of public library to deal with digital reading
  - (1) strengthen digital reading guide
  - (2) change the way of knowledge construction
  - (3) accelerate digital collections
  - (4) construct mobile library system

### **3.4 construction plan of nationwide digital library service system**

- 3.4.1 existing foundation
  - (1) the initial formation of a nationwide library service system
  - (2) environment of national information infrastructure gradually improves
  - (3) increasingly diverse ways to get information and knowledge
  - (4) domestic exploration and practice of digital libraries are basically ready
- 3.4.2 construction contents during the twelfth-five year period
  - (1) construction of standardized hardware platforms
  - (2) construction of an open software platform for interconnection
  - (3) construction of resource-sharing system
  - (4) construction of service platforms covering all media
  - (5) construction of standard systems based on the life cycle of digital resources
  - (6) construction of highly integrated business management platform

## **Chapter 4: Analysis of impact of free opening of public library**

### **4.1 the significance and challenges of free opening of public library**

- 4.1.1 main content of free opening of public library
- 4.1.2 the significance of free opening of public library
- 4.1.3 challenges of free opening of public library
  - (1) funding gap
  - (2) increased workload
  - (3) management is more difficult

### **4.2 analysis of investigation and results of free opening of public library**

- 4.2.1 respondent and survey content
- 4.2.2 analysis of survey results
  - (1) analysis of awareness of free opening of public library
  - (2) analysis of service change after the introduction of free public library
  - (3) analysis of frequency of using services of free public library
  - (4) analysis of acceptable charged services
  - (5) analysis of problems of free public library service
  - (6) analysis of outlook for free public library service

### **4.3 recommendations for free opening of public library services**

- 4.3.1 establish institutionalized policy protection mechanism
- 4.3.2 attach importance to service network construction in grass-root public libraries
- 4.3.3 raise public awareness through publicity
- 4.3.4 effectively solve the problems of free opening

4.3.5 expand services and foster service brands

## Chapter 5: Strategies for construction and use of public library resources

### 5.1 construction content and recommendations for public library literature resources

5.1.1 contents and principles of construction of literature resources

- (1) contents of construction of literature resources
- (2) principles of construction of literature resources

5.1.2 relations should be well dealt with during literature resource construction

- (1) the relationship between key literature and general literature
- (2) the relationship between quantity and quality
- (3) the relationship between varieties and replicas
- (4) the relationship between current demand and future demand

5.1.3 suggestions for reasonable construction of literature resources

- (1) scientific literature resource configuration
- (2) reasonable procurement of copies of literature resources
- (3) develop growth targets for literature information resource

### 5.2 necessity of integration of public library information resources and implementation path

5.2.1 significance of integration of public library information resources

- (1) in favor of readers' use of information resources
- (2) help build the competitiveness of library services

5.2.2 implementation paths of integration of public library information resources

- (1) based on OPAC
- (2) based on cross- database search
- (3) based on resource navigation
- (4) based on hyperlinks

5.2.3 issues should be noted during the process of integration of public library information resources

- (1) focus on integrating information content
- (2) focus on protecting intellectual property rights

### 5.3 status quo of sharing of public library information resource and development strategies

5.3.1 overview of sharing of public library information resource

- (1) overview of national public library information resource sharing
- (2) overview of regional public library information resource sharing

5.3.2 new characteristics of public library to launch sharing at the current stage

5.3.3 development strategies of sharing of public library information resource

- (1) establish norms of sharing mechanism
- (2) further expand and strengthen the scope and intensity of sharing
- (3) focus on regional sharing system at the current stage
- (4) establish the model of cross-system sharing
- (5) take full advantage of cultural sharing to launch services

## Chapter 6: Analysis of public library services

### 6.1 analysis of traditional services of public library

6.1.1 analysis of lending service of public library

- (1) overview of the development of public library lending service
- (2) improvement strategy for public library lending service
- (3) improvement strategies for public library service of lending audiovisual information

6.1.2 analysis of public library reference service
