

China Sewage Treatment Industry Market Research and Investment Forecast Report, 2013–2017

目 录

CONTENTS

Chapter 1: Overview Development of China Sewage Treatment Industry

1.1 Overviews Related to Sewage Treatment Industry

- 1.1.1 Definition of Sewage Treatment
- 1.1.2 Classification of Sewage Treatment
- 1.1.3 Domain Areas of Sewage Treatment
- 1.1.4 Development History of Sewage Treatment

1.2 Entry and Exit Barriers of Sewage Treatment Industry

- 1.2.1 Analysis of Industry Policy Barriers
- 1.2.2 Analysis of Industry Regional Barriers
- 1.2.3 Analysis of Industry Capital Barriers
- 1.2.4 Analysis of Industry Technology Barriers

1.3 Competition Structure Analysis of Sewage Treatment Industry

- 1.3.1 Bargaining Power Analysis of Upstream Suppliers
- 1.3.2 Analysis of Current Competition among Industry Enterprises
- 1.3.3 Bargaining Power Analysis of Downstream Users
- 1.3.4 Analysis of Industry New Entrants
- 1.3.5 Analysis of Industry Substitutes Threats
- 1.3.6 Summary of Industry Current Competitive Characteristics

1.4 Characteristics Analysis of Sewage Treatment Industry

- 1.4.1 Life Cycle Analysis of Sewage Treatment Industry
- 1.4.2 Profit Modes Analysis of Sewage Treatment Industry
- 1.4.3 Profit Factors Analysis of Sewage Treatment Industry

Chapter 2: Market Environment Analysis of China Sewage Treatment Industry

2.1 Policy Environment Analysis of Sewage Treatment Industry

- 2.1.1 Policy Summary Related to Industry
- 2.1.2 Analysis of Industry Key Policies and Major Events
 - (1) National Integrated Water Resources Planning
 - (2) Interim Measures for Urban Sewage Treatment Performance
 - (3) Notice on Strengthening the Urban Sewage Treatment Plant Sludge Pollution Prevention and Control Work
 - (4) Notice on Investment and Financing Policy Suggestions of Supporting Circular Economy Development

- (5) National Pollution Groundwater Prevention Plan (2011–2020)
- 2.1.3 “Twelfth Five-year” Development Plan
- 2.1.4 Analysis of Industry Future Development Trend
 - (1) Industry Policy Development Trend
 - (2) Analysis of Industry Policy Mainstream
 - (3) Analysis of Environment Tax Collection Plan

2.2 Economic Environment Analysis of Sewage Treatment Industry

- 2.2.1 Analysis of Domestic Macroeconomic Operation
 - (1) Analysis of Domestic GDP Growth
 - (2) Analysis of Industrial Economic Growth
 - (3) Fixed Asset Investment Situation
 - (4) Analysis of CPI
 - (5) Purchasing Managers Index (PMI)
- 2.2.2 Analysis of Financial Operation and Monetary Policy
 - (1) Analysis of Financial Operational Situation
 - (2) Analysis of PBOC Monetary Policy
- 2.2.3 Effects of Macroeconomic Operation on Sewage Treatment Industry

2.3 Social Environment Analysis of Sewage Treatment Industry

- 2.3.1 Social Environment Overview of Industry Development
- 2.3.2 Industry Specific Social Environment Analysis

2.4 Technology Environment Analysis of Sewage Treatment Industry

- 2.4.1 Explanation of Major Industry Technological Terms
- 2.4.2 Analysis of Industry Production Processing Skills
 - (1) Analysis of Production Flow Process
 - (2) Analysis of Industry Technology Routes
 - (3) Comparison Analysis with Foreign Technologies

Chapter 3: Industrial Chain Analysis of China Sewage Treatment Industry

3.1 Industrial Chain Overview of Sewage Treatment Industry

- 3.1.1 Brief Introduction of Industrial Industry
- 3.1.2 Overview of Upstream Fields of Industry
- 3.1.3 Overview of Downstream Fields of Industry

3.2 Upstream Industry Analysis of Sewage Treatment Industry

- 3.2.1 Analysis of China Water Resources Status
- 3.2.2 Analysis of Running Water Production and Supply Industries
- 3.2.3 Analysis of Domestic Waste Water Discharge
 - (1) Analysis of Urban and Rural Waste Water Discharge Volume
 - (2) Analysis of Living and Industrial Waste Water Discharge Volume

3.3 Operational Conditions Analysis of Sewage Treatment Industry

- 3.3.1 Development Overview of Sewage Treatment Industry
- 3.3.2 Operational Modes Analysis of Sewage Treatment Industry
- 3.3.3 Investment Analysis of Sewage Treatment Facilities
 - (1) Distribution Situation Analysis of Sewage Treatment Plants
 - (2) Operational Analysis of Sewage Treatment Projects in.....2010
 - (3) Treatment Capability Analysis of Sewage Treatment Plants
 - (4) Investment Status Analysis of Sewage Treatment Facilities
 - (5) Load Condition Analysis of Sewage Treatment Plants
 - (6) Standard Situation of Sewage Treatment Plants
- 3.3.4 Analysis of Projects of Sewage Treatment Industry in Progress
 - (1) Analysis of Projects of Sewage Treatment Industry in Progress in All Provinces
 - (2) Processing Analysis of Projects of Sewage Treatment Industry in Progress in All Provinces
 - (3) Operational Mode of Projects of Sewage Treatment Industry in Progress in All Provinces
- 3.3.5 Analysis of Sewage Treatment Fees
 - (1) Price Analysis of Sewage Treatment in Major Cities
 - (2) Influencing Analysis of Sewage Treatment Price Changes
 - (3) Forecast for Sewage Treatment Price Changes

3.4 Operational Analysis of Sewage Treatment and Water Reuse Markets

- 3.4.1 Development Overview of Sewage Treatment and Water Reuse Industries
 - (1) Overall Information on Industry Development
 - (2) Major Characteristics of Industry Development
- 3.4.2 Operational Situation Analysis of Sewage Treatment and Water Reuse Industries
 - (1) Analysis of Industry Costs
 - (2) Analysis of Industry Operational Benefit
 - (3) Analysis of Industry Profitability
 - (4) Analysis of Industry Operational Capability
 - (5) Analysis of Industry Debt-paying Ability
 - (6) Analysis of Industry Development Capability
- 3.4.3 Economic Index Analysis of Sewage Treatment and Water Reuse Industries
 - (1) Influencing Factors Analysis of Major Economic Benefit
 - (2) Analysis of Industry Major Economic Operational Index
 - (3) Economic Index Analysis of Enterprises with Different Sizes
 - (4) Economic Index Analysis of Enterprises with Different Types
 - (5) Economic Index Analysis of Enterprises in Different Regions
- 3.4.4 Supply and Demand Situation Analysis of Sewage Treatment and Water Reuse Industries
 - (1) Supply Situation Analysis of National Sewage Treatment Industry
 - (2) Supply Situation Analysis of Regional Sewage Treatment Industry
 - (3) Demand Situation Analysis of National Sewage Treatment Industry

- (4) Demand Situation Analysis of Regional Sewage Treatment Industry
- (5) Production and Marketing Rate Analysis of National Sewage Treatment Industry

3.5 Development Analysis of Water Reuse Market

- 3.5.1 Development Overview of Water Reuse Market
 - (1) Concept and Application Areas of Reuse Water
 - (2) Necessity of Promoting Utilization of Reuse Water
 - (3) Feasibility of Promoting Utilization of Reuse Water
 - (4) Development Strategies Analysis of Water Reuse Utilization
- 3.5.2 Cases Analysis of Foreign Reuse Water Utilization
 - (1) Case Analysis of USA Reuse Water Utilization
 - (2) Case Analysis of Japan Reuse Water Utilization
 - (3) Case Analysis of Israel Reuse Water Utilization
 - (4) Experiential Learning of Foreign Countries Reuse Water Utilization
- 3.5.3 Development Analysis of Water Reuse Industry
 - (1) Analysis of Domestic Fresh Water Resource Status
 - (2) Domestic Water Distribution Situation
 - (3) Analysis of Domestic Water Price Changes
- 3.5.4 Investment Analysis of Water Reuse Market
 - (1) Investment Status Analysis of Water Reuse Industry
 - (2) Production Cost Analysis of Water Reuse Industry
 - (3) Profit Structure Analysis of Water Reuse Industry
 - (4) Major Project Analysis of Water Reuse Industry
 - (5) Investment Size Forecast of Water Reuse Industry

Chapter 4: Competitive Landscape Analysis of China Sewage Treatment Industry

4.1 Analysis of Industry Overall Market Competition Situation

4.2 Analysis of International Market Competition Situation

- 4.2.1 Development Situation of International Sewage Treatment Market
- 4.2.2 Competition Situation Analysis of International Sewage Treatment Market
- 4.2.3 Development Trend Analysis of International Sewage Treatment Market
- 4.2.4 Investment Layout of Multinationals in China
- 4.2.5 Competitive Strategies Analysis of Multinationals in China

4.3 Competition Situation Analysis of Industry Domestic Market

- 4.3.1 Competition Status Analysis of Domestic Sewage Treatment Industry
- 4.3.2 Market Size Analysis of Domestic Sewage Treatment Industry
- 4.3.3 Competitive Landscape Analysis of Domestic Sewage Treatment Industry
- 4.3.4 Potential Threats Analysis of Domestic Sewage Treatment Industry

4.4 Characteristics Analysis of Different Types of Enterprises in Industry

- 4.4.1 Characteristics Situation of Different Types of Enterprises
- 4.4.2 Analysis of Industry Economic Types in Industry

Chapter 5: Analysis of Major Market Segmentation of Sewage Treatment Industry

5.1 Development Analysis of Industrial Sewage Market

- 5.1.1 Analysis of Sewage Treatment Market of Electricity Industry
 - (1) Development Situation and Trend of Electricity Industry
 - (2) Analysis of Sewage Treatment Status of Electricity Industry
 - (3) Effects of Electricity Industry Sewage Pollution on Sewage Treatment Industry
 - (4) Development Planning of Sewage Treatment of Electricity Industry
- 5.1.2 Analysis of Sewage Treatment Market of Steel Industry
- 5.1.3 Analysis of Sewage Treatment Market of Steel Industry
 - (1) Development Situation and Trend of Steel Industry
 - (2) Analysis of Sewage Treatment Status of Steel Industry
 - (3) Effects of Steel Industry Sewage Pollution on Sewage Treatment Industry
 - (4) Development Planning of Sewage Treatment of Steel Industry
- 5.1.4 Analysis of Sewage Treatment Market of Chemical Industry
 - (1) Development Situation and Trend of Chemical Industry
 - (2) Analysis of Sewage Treatment Status of Chemical Industry
 - (3) Effects of Chemical Industry Sewage Pollution on Sewage Treatment Industry
 - (4) Development Planning of Sewage Treatment of Chemical Industry
- 5.1.5 Analysis of Sewage Treatment Market of Petrochemical Industry
 - (1) Development Situation and Trend of Petrochemical Industry

- (2) Analysis of Sewage Treatment Status of Petrochemical Industry
- (3) Effects of Petrochemical Industry Sewage Pollution on Sewage Treatment Industry
- (4) Development Planning of Sewage Treatment of Petrochemical Industry
- 5.1.6 Analysis of Sewage Treatment Market of Textile Industry
 - (1) Development Situation and Trend of Textile Industry
 - (2) Analysis of Sewage Treatment Status of Textile Industry
 - (3) Effects of Textile Industry Sewage Pollution on Sewage Treatment Industry
 - (4) Development Planning of Sewage Treatment of Textile Industry
- 5.1.7 Analysis of Sewage Treatment Market of Paper Making Industry
 - (1) Development Situation and Trend of Paper Making Industry
 - (2) Analysis of Sewage Treatment Status of Paper Making Industry
 - (3) Effects of Paper Making Industry Sewage Pollution on Sewage Treatment Industry
 - (4) Development Planning of Sewage Treatment of Paper Making Industry
- 5.1.8 Analysis of Sewage Treatment Market of Electroplating Industry
 - (1) Development Situation and Trend of Electroplating Industry
 - (2) Analysis of Sewage Treatment Status of Electroplating Industry
 - (3) Effects of Electroplating Industry Sewage Pollution on Sewage Treatment Industry
 - (4) Development Planning of Sewage Treatment of Electroplating Industry
- 5.1.9 Analysis of Sewage Treatment Market of PCB Industry
 - (1) Development Situation and Trend of PCB Industry
 - (2) Analysis of Sewage Treatment Status of PCB Industry
 - (3) Effects of PCB Industry Sewage Pollution on Sewage Treatment Industry
 - (4) Development Planning of Sewage Treatment of PCB Industry

5.2 Analysis of Sanitary Sewage Treatment Market

- 5.2.1 Analysis of Foreign Sanitary Sewage Treatment Situation
 - (1) USA Sanitary Sewage Treatment Situation
 - (2) UK Sanitary Sewage Treatment Situation
 - (3) Singapore Sanitary Sewage Treatment Situation
- 5.2.2 Analysis of Sanitary Sewage Treatment Development Status
 - (1) Analysis of Water Quality in Key Regions
 - (2) Analysis of National Urban Sanitary Sewage Treatment Rate
 - (3) China Urban Sewage Treatment Market Problems
 - (4) Analysis of Urban Sanitary Sewage Treatment Standards and Technologies
- 5.2.3 Development Analysis of Sanitary Sewage Treatment Technologies
 - (1) Control of COD Monitoring Analysis Conditions
 - (2) Operational Management Marketization of Sewage Treatment Facilities
 - (3) Status and Development of Sewage Underground Injection Technology
 - (4) Application of Automated Control System
 - (5) New Progress of Urban Sanitary Sewage Treatment Technology
- 5.2.4 Prospects and Development Direction of Sanitary Sewage Treatment Industry
 - (1) Development Prospects of Urban Sanitary Sewage Treatment Industry
 - (2) Development Directions of Urban Sanitary Sewage Treatment Plants

Chapter 6: Technology Development and Equipment Market Analysis of China Sewage Treatment Industry

6.1 Design Analysis of Sewage Treatment Projects

- 6.1.1 Basic Condition of Sewage Treatment Project Design
- 6.1.2 Size and Techniques Selection of Sewage Treatment Project Design
- 6.1.3 Leading Techniques Analysis of Modern Urban Sanitary Sewage Treatment

6.2 Technology Analysis of Sewage Treatment Industry

- 6.2.1 Development Analysis of Foreign Sewage Treatment and Water Reuse Technologies
 - (1) Development Analysis of Foreign MBR Sewage Treatment Technologies
 - (2) Progress Analysis of Foreign Water Reuse Technology
 - (3) Sludge Composting Technology Situation of Japan Sewage Treatment Industry
 - (4) Singapore Sewage Reuse Technology Situation
- 6.2.2 Analysis of Domestic Sewage Treatment Technology Status
 - (1) Analysis of Active Sludge Treatment Technology
 - (2) Chemically Enhanced Biological Phosphorus Removal Technology for Sewage Treatment
 - (3) Process for Sewage Treatment Using Intermittently Decanted Extended Aeration Technology
 - (4) Rotating Contact Oxidation Sewage Treatment Technology

- (5) Continuous Cycle Aeration System
- (6) SPR Phosphorus Removal Technology for Urban Sewage
- (7) A/O Bio-filter Sewage Treatment Technology Process
- (8) MBFB Technology
- (9) Biological Aerated Filters Sewage Treatment Technology Process

6.2.3 Progress Analysis of Domestic Sewage Treatment Technology

6.3 Development Analysis of Domestic Sewage Reuse Technology

6.3.1 Application of MBR Technology in Water Recycling

- (1) Advantages of MBR in Sewage Reuse
 - 1) High Quality Water Characteristic of MBR
 - 2) Stable Effluent of MBR
 - 3) Appropriate MBR Technology Routes for Sewage Treatment Plant Upgrading
- (2) Analysis of MBR Technology Process
- (3) Analysis of MBR Operational Cost
- (4) Forecast for MBR Market Size

6.3.2 Application Analysis of Electrosorption Technology in Waste Reuse

- (1) Application Status of Domestic and Foreign Electrosorption Technology
- (2) Technology Process and Key Points of Electrosorption Technology
- (3) Application Areas Analysis of Electrosorption Technology
- (4) Advantages of Electrosorption Technology in Water Reuse

6.3.3 Application Analysis of Double Membrane Sewage Reuse Technology

- (1) Process Analysis of Double Membrane Sewage Reuse Technology
- (2) Treatment Effect Analysis of Double Membrane Sewage Reuse Technology
- (3) Economic Effect Analysis of Double Membrane Sewage Reuse Technology

6.3.4 Application Analysis of Miniature Biological Technology in Water Reuse

6.3.5 Water Reuse Technology Comparison and Development Trend Analysis

6.4 Development Analysis of Sewage Treatment Equipment Industry

6.4.1 Development Status of Domestic Sewage Treatment Equipment

6.4.2 Existing Problems in Domestic Sewage Treatment Equipment Industry

6.4.3 Modernization Measures of Domestic Sewage Treatment Equipment

6.4.4 Development Opportunity Analysis of Domestic Sewage Treatment Equipment Industry

Chapter 7: Development Potential Analysis of Sewage Treatment Industry in China Key Regions

7.1 Regional Development Characteristics of Sewage Treatment Industry

7.2 Regional Market Potential Analysis of Sewage Treatment Industry

7.2.1 Potential Analysis of Beijing Sewage Treatment Market

- (1) Supporting Policies of Beijing Sewage Treatment Industry
- (2) Analysis of Beijing Development Size and Benefit
- (3) Analysis of Beijing Sewage Pollution Volume
- (4) Analysis of Beijing Sewage Treatment Projects
- (5) Investment Analysis of Beijing Water Reuse Projects
- (6) Production and Marketing Analysis of Beijing Sewage Treatment and Water Reuse

7.2.2 Potential Analysis of Jiangsu Sewage Treatment Market

- (1) Supporting Policies of Jiangsu Sewage Treatment Industry
- (2) Analysis of Jiangsu Development Size and Benefit
- (3) Analysis of Jiangsu Sewage Pollution Volume
- (4) Analysis of Jiangsu Sewage Treatment Projects
- (5) Investment Analysis of Jiangsu Water Reuse Projects
- (6) Production and Marketing Analysis of Jiangsu Sewage Treatment and Water Reuse

7.2.3 Potential Analysis of Zhejiang Sewage Treatment Market

- (1) Supporting Policies of Zhejiang Sewage Treatment Industry
- (2) Analysis of Zhejiang Development Size and Benefit
- (3) Analysis of Zhejiang Sewage Pollution Volume
- (4) Analysis of Zhejiang Sewage Treatment Projects
- (5) Investment Analysis of Zhejiang Water Reuse Projects
- (6) Production and Marketing Analysis of Zhejiang Sewage Treatment and Water Reuse

7.2.4 Potential Analysis of Guangdong Sewage Treatment Market

- (1) Supporting Policies of Guangdong Sewage Treatment Industry
- (2) Analysis of Guangdong Development Size and Benefit

- (3) Analysis of Guangdong Sewage Pollution Volume
- (4) Analysis of Guangdong Sewage Treatment Projects
- (5) Investment Analysis of Guangdong Water Reuse Projects
- (6) Production and Marketing Analysis of Guangdong Sewage Treatment and Water Reuse
- 7.2.5 Potential Analysis of Sichuan Sewage Treatment Market
 - (1) Supporting Policies of Sichuan Sewage Treatment Industry
 - (2) Analysis of Sichuan Development Size and Benefit
 - (3) Analysis of Sichuan Sewage Pollution Volume
 - (4) Analysis of Sichuan Sewage Treatment Projects
 - (5) Investment Analysis of Sichuan Water Reuse Projects
 - (6) Production and Marketing Analysis of Sichuan Sewage Treatment and Water Reuse
- 7.2.6 Potential Analysis of Fujian Sewage Treatment Market
 - (1) Supporting Policies of Fujian Sewage Treatment Industry
 - (2) Analysis of Fujian Development Size and Benefit
 - (3) Analysis of Fujian Sewage Pollution Volume
 - (4) Analysis of Fujian Sewage Treatment Projects
 - (5) Investment Analysis of Fujian Water Reuse Projects
 - (6) Production and Marketing Analysis of Fujian Sewage Treatment and Water Reuse

Chapter 8: Major Enterprises Operational Cases Analysis of China Sewage Treatment Industry

8.1 Overall Development Situation Analysis of Sewage Treatment Plants

- 8.1.1 Enterprise Size of Sewage Treatment Industry
- 8.1.2 Industrial Output Value of Sewage Treatment Industry
- 8.1.3 Sales Revenue and Profit of Sewage Treatment Industry

8.2 Leading Enterprises Cases Analysis of Sewage Treatment Industry

- 8.2.1 Operational Situation Analysis of Tianjin Capital Environmental Protection Co., Ltd
 - (1) Brief Analysis of Enterprise Development
 - (2) Analysis of Major Economic Index
 - (3) Analysis of Enterprise Profitability
 - (4) Analysis of Enterprise Operational Capability
 - (5) Analysis of Enterprise Debt-paying Ability
 - (6) Analysis of Enterprise Development Capability
 - (7) Analysis of Enterprise Main Business
 - (8) Enterprise Marketing Channels and Network
 - (9) Analysis of Enterprise Operational Advantages and Disadvantages
 - (10) Analysis of Enterprise Operational Strategies and Development Strategies
- 8.2.2 Operational Situation Analysis of Beijing Capital Co., Ltd.
 - (1) Brief Analysis of Enterprise Development
 - (2) Analysis of Major Economic Index
 - (3) Analysis of Enterprise Profitability
 - (4) Analysis of Enterprise Operational Capability
 - (5) Analysis of Enterprise Debt-paying Ability
 - (6) Analysis of Enterprise Development Capability
 - (7) Analysis of Enterprise Main Business
 - (8) Enterprise Marketing Channels and Network
 - (9) Analysis of Enterprise Operational Advantages and Disadvantages
 - (10) Analysis of Enterprise Investment, Merger and Reform/Restructuring
 - (11) Analysis of Enterprise Operational Strategies and Development Strategies
 - (12) Analysis of Enterprise Latest Development Trend
