

China Hydroelectricity Industry Report (2016–2021), Market Outlook and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Analysis of development environment of China's hydropower industry

1.1 definition and characteristics of hydropower industry

- 1.1.1 definition of hydroelectricity industry
- 1.1.2 characteristics of hydroelectricity industry

1.2 analysis of policy environment of hydroelectricity industry

- 1.2.1 interpretation of related "Twelfth Five Year Plan" of hydroelectric industry
 - (1) interpretation of "Twelfth Five Year Plan" of Energy Development
 - (2) interpretation of "Twelfth Five Year Plan" of renewable energy development
 - (3) interpretation of "Twelfth Five Year Plan" of Hydropower Development
- 1.2.2 analysis of hydropower tariff reform
 - (1) analysis of hydro tariff pricing policy
 - (2) problems of current price formation mechanism of hydropower
 - (3) analysis of hydro tariff reform direction
 - (4) analysis of impact of hydroelectricity tariff reform

1.3 analysis of economic environment of hydroelectricity industry

- 1.3.1 analysis of GDP growth
- 1.3.2 analysis of structure of energy consumption
- 1.3.3 analysis of newly-added installed capacity
- 1.3.4 analysis of growth in power generation
- 1.3.5 analysis of growth in electricity consumption
- 1.3.6 impact of economic environment on the industry

1.4 analysis of technical environment of hydroelectricity industry

- 1.4.1 analysis of the latest technological developments of hydropower industry
- 1.4.2 analysis of future technology development of hydropower industry

Chapter 2: Analysis of China's water resources reserves and utilization

2.1 overall situation of water resources

- 2.1.1 reserves and distribution of water resources
- 2.1.2 analysis of the overall use of water resources
- 2.1.3 impact of river runoff on hydroelectricity

2.2 water resources of important rivers and utilization

- 2.2.1 water resources of Yangtze River and utilization
 - (1) water resources of the Yangtze River and utilization
 - (2) water resources of the upper reaches of the Yangtze River and utilization
 - (3) water resources of the middle reaches of the Yangtze River and utilization
- 2.2.2 water resources of Yellow River and utilization
 - (1) water resources of the Yellow River and utilization
 - (2) water resources of the upper reaches of the Yellow River and utilization
 - (3) water resources of the middle reaches of the Yellow River and utilization
 - (4) development trends of hydroelectricity development of the Yellow River
- 2.2.3 water resources of Pearl River and utilization
 - (1) water resources of the Pearl River and utilization
 - (2) water resources of major reaches of the Pearl River and utilization
- 2.2.4 water resources of Haihe River and utilization
- 2.2.5 water resources of Huaihe River and utilization
- 2.2.6 water resources of other important rivers and utilization
 - (1) water resources of the Nujiang River and utilization
 - (2) water resources of the Lancang River and utilization
 - (3) water resources of the Dulong River and utilization
 - (4) water resources of the Brahmaputra River and utilization

- (5) water resources of the Heilongjiang River and utilization
- (6) water resources of the Tumen River system and utilization
- (7) water resources of the Yalu River system and utilization
- (8) water resources of the Liaohe River system and utilization
- (9) water resources of rivers of southeast coast and utilization

Chapter 3: Analysis of status quo of development of China's hydroelectricity industry

3.1 analysis of operation of hydroelectricity industry

- 3.1.1 analysis of overview of development of hydroelectricity industry
- 3.1.2 analysis of economic indicators of hydroelectricity industry
- 3.1.3 hydropower installed capacity and power generation volume

3.2 analysis of supply and demand balance of hydroelectricity industry

- 3.2.1 analysis of supply of the national hydroelectricity industry
 - (1) analysis of total output value of the national hydroelectricity industry
 - (2) analysis of finished products of the national hydroelectricity industry
- 3.2.2 analysis of demand of hydroelectricity industry in various regions
- 3.2.3 analysis of demand of the national hydroelectricity industry
 - (1) analysis of sales value of the national hydroelectricity industry
 - (2) analysis of sales revenue of the national hydroelectricity industry
- 3.2.4 analysis of demand of hydroelectricity industry in various regions
 - (1) analysis of the top 10 regions ranking in sales value
 - (2) analysis of the top 10 regions ranking in sales revenue
- 3.2.5 analysis of sales-output ratio of the national hydroelectricity industry

Chapter 4: Analysis of operation of China's other power generation industries

4.1 analysis of operation of thermal power industry

- 4.1.1 analysis of installations of thermal power industry
- 4.1.2 analysis of scale of thermal power industry
- 4.1.3 analysis of supply of thermal power industry
- 4.1.4 analysis of demand of thermal power industry
- 4.1.5 analysis of profit of thermal power industry
- 4.1.6 analysis of supply and demand balance of hydroelectricity industry
- 4.1.7 analysis of financial indicators of thermal power industry
- 4.1.8 analysis of characteristics of operation of thermal power industry and trends

4.2 analysis of operation of nuclear power industry

- 4.2.1 analysis of installed capacity of nuclear power industry
- 4.2.2 analysis of scale of nuclear power industry
- 4.2.3 analysis of supply of nuclear power industry
- 4.2.4 analysis of demand of nuclear power industry
- 4.2.5 analysis of profit of nuclear power industry
- 4.2.6 analysis of supply and demand balance of nuclear power industry
- 4.2.7 analysis of financial indicators of nuclear power industry
- 4.2.8 analysis of status quo of operation of nuclear power industry and trends

4.3 analysis of operation of wind power industry

- 4.3.1 analysis of installations of wind power industry
- 4.3.2 analysis of scale of wind power industry
- 4.3.3 analysis of supply of wind power industry
- 4.3.4 analysis of demand of wind power industry
- 4.3.5 analysis of profit of wind power industry
- 4.3.6 analysis of supply and demand balance of wind power industry
- 4.3.7 analysis of characteristics of operation of wind power industry and trends

4.4 analysis of operation of solar power industry

- 4.4.1 analysis of installations of solar power industry
- 4.4.2 analysis of scale of solar power industry
- 4.4.3 analysis of supply of solar power industry
- 4.4.4 analysis of demand of solar power industry
- 4.4.5 analysis of profit of solar power industry
- 4.4.6 analysis of supply and demand balance of solar power industry
- 4.4.7 analysis of characteristics of operation of solar power industry and trends

Chapter 5: Analysis of competitiveness and pattern of China's hydropower industry

5.1 analysis of competitiveness of hydroelectricity

- 5.1.1 analysis of global competitiveness of hydroelectricity
 - (1) comparative analysis of the global hydropower installed capacity
 - (2) comparative analysis of the proportion of the world's hydropower installed capacity
 - (3) comparative analysis of the proportion of the world's hydroelectric capacity
- 5.1.2 analysis of competitiveness of hydropower cost
 - (1) comparative analysis of construction costs of different power generation methods
 - (2) comparative analysis of operation costs of different power generation methods
- 5.1.3 analysis of competitiveness of hydroelectric power prices
 - (1) analysis of principles of electricity pricing
 - 1) competitive advantages of hydro prices
- 5.1.4 analysis of competition of hydroelectric profitability
 - (1) comparative analysis of the gross profit margin of main power generation methods
 - (2) comparative analysis of sales margins of main power generation methods
 - (3) comparison of cost margin of main power generation methods
- 5.2 analysis of competition pattern of hydroelectricity industry**
 - 5.2.1 analysis of competition of hydropower equipment manufacturers
 - 5.2.2 analysis of operation of hydro developers
 - (1) analysis of echelon of hydro developers
 - (2) analysis of operation of hydropower developers
 - 5.2.3 investment barriers of hydroelectricity industry
 - 5.2.4 analysis of competition of hydropower industry
 - (1) competition within the industry
 - (2) bargaining power of the upstream
 - (3) bargaining power of the downstream
 - (4) threat of new entrants
 - (5) threat of substitutes
 - (6) summary of competition

Chapter 6: Analysis of development of China's hydropower industry in key areas

- 6.1 overall situation of hydroelectricity industry in key areas**
 - 6.1.1 extent of development of water resources in key areas
 - 6.1.2 analysis of operation of hydroelectricity in key areas
- 6.2 analysis of development of hydropower industry in Sichuan**
 - 6.2.1 hydropower resources in Sichuan
 - 6.2.2 hydropower construction in Sichuan
 - 6.2.3 hydroelectric development and investment policy in Sichuan
 - 6.2.4 hydropower projects of continued construction and under construction in Sichuan
 - 6.2.5 analysis of operation of hydropower industry in Sichuan
 - 6.2.6 development trends of hydropower industry in Sichuan
- 6.3 analysis of development of hydropower industry in Yunnan**
 - 6.3.1 water resources in Yunnan
 - 6.3.2 hydropower construction in Yunnan
 - 6.3.3 hydroelectric development and investment policy in Yunnan
 - 6.3.4 hydropower projects under construction in Yunnan
 - 6.3.5 analysis of operation of hydropower industry in Yunnan
 - 6.3.6 development trends of hydropower industry in Yunnan
- 6.4 analysis of development of hydropower industry in Guizhou**
 - 6.4.1 water resources and construction in Guizhou
 - 6.4.2 hydropower projects of under construction and for approval in Guizhou
 - 6.4.3 analysis of operation of hydropower industry in Guizhou
- 6.5 analysis of development of hydropower industry in Guangxi**
 - 6.5.1 water resources in Guangxi
 - 6.5.2 hydropower construction in Guangxi
 - 6.5.3 hydroelectric development and investment policy in Guangxi
 - 6.5.4 analysis of operation of hydropower industry in Guangxi
- 6.6 analysis of development of hydropower industry in Hubei**
 - 6.6.1 water resources in Hubei
 - 6.6.2 hydropower construction in Hubei
 - 6.6.3 hydroelectric development and investment policy in Hubei
 - 6.6.4 analysis of operation of hydropower industry in Hubei

6.7 analysis of development of hydropower industry in Hunan

- 6.7.1 hydropower resources in Hunan
- 6.7.2 hydropower construction in Hunan
- 6.7.3 hydroelectric development and investment policy in Hunan
- 6.7.4 analysis of operation of hydropower industry in Hunan

Chapter 7: Analysis of operation of leading enterprises of China's hydroelectricity industry

7.1 analysis of development of hydroelectricity business of big five power groups

- 7.1.1 analysis of development of hydropower business of China Power Investment Corporation
 - (1) analysis of brief introduction of development of China Power Investment Corporation
 - (2) analysis of business scope of China Power Investment Corporation
 - (3) analysis of operation performance of China Power Investment Corporation
 - (4) analysis of development strategy of power of China Power Investment Corporation
- 7.1.2 analysis of development of hydropower business of China Guodian Corporation
 - (1) analysis of brief introduction of development of China Guodian Corporation
 - (2) analysis of operation performance of China Guodian Corporation
 - (3) analysis of development of hydropower business of China Guodian Corporation
 - (4) development and construction of hydropower of China Guodian Corporation
- 7.1.3 analysis of development of hydropower business of China Huadian Corporation
 - (1) analysis of brief introduction of development of China Huadian Corporation
 - (2) analysis of operation performance of China Huadian Corporation
 - (3) analysis of development of hydropower business of China Huadian Corporation
 - (4) analysis of development strategy of power of China Huadian Corporation
- 7.1.4 analysis of development of hydropower business of China Huaneng Corporation
 - (1) analysis of brief introduction of development of China Huaneng Corporation
 - (2) analysis of operation performance of China Huaneng Corporation
 - (3) analysis of development of hydropower business of China Huaneng Corporation
 - (4) analysis of development strategy of power of China Huaneng Corporation
- 7.1.5 analysis of development of hydropower business of China Datang Corporation
 - (1) analysis of brief introduction of development of China Datang Corporation
 - (2) analysis of operation performance of China Datang Corporation
 - (3) analysis of management and operation mode of China Datang Corporation
 - (4) analysis of development of hydropower business of China Datang Corporation
 - (5) analysis of development strategy of power of China Datang Corporation

7.2 analysis of operation of other leading hydroelectricity enterprises

- 7.2.1 China Three Gorges Corporation
 - (1) brief introduction of the company's development
 - (2) analysis of the parent company's financial indicators
 - 1) analysis of the company's capabilities of production and marketing
 - 2) analysis of the company's profitability capability
 - 3) analysis of the company's solvency capability
 - 4) analysis of the company's operation capability
 - 5) analysis of the company's development capability
 - (3) analysis of financial indicators of China Yangtze Power Co., Ltd.
 - 1) analysis of major economic indicators
 - 2) analysis of the company's profitability capability
 - 3) analysis of the company's operation capability
 - 4) analysis of the company's solvency capability
 - 5) analysis of the company's development capability
 - (4) analysis of the company's organizational structure
 - (5) analysis of the company's development targets
 - (6) analysis of advantages and disadvantages of the company
 - (7) analysis of the company's latest development trend
- 7.2.2 Ertan Hydropower Development Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability

- (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's main business
 - (9) analysis of the company's development strategy and planning
 - (10) analysis of advantages and disadvantages of the company
 - (11) analysis of the company's latest development trend
- 7.2.3 Yellow Upstream Hydropower Development Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's organizational structure
 - (4) analysis of the company's main business
 - (5) analysis of the company's development strategy and planning
 - (6) analysis of advantages and disadvantages of the company
 - (7) analysis of the company's latest development trend
- 7.2.4 Wu Ling Power Corporation
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's business operation
 - (9) analysis of the company's development strategy and planning
 - (10) analysis of advantages and disadvantages of the company
- 7.2.5 Shuikou Power Group Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's main business
 - (8) analysis of the company's development strategy and planning
 - (9) analysis of advantages and disadvantages of the company
- 7.2.6 Xiaolangdi Water Control Project Management Center of Ministry of Water Resources
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's main duties
 - (9) analysis of advantages and disadvantages of the company
 - (10) analysis of the company's latest development trend
- 7.2.7 Guizhou Wujiang Hydropower Development Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's main business
 - (9) analysis of the company's development strategy and planning
 - (10) analysis of advantages and disadvantages of the company
 - (11) analysis of the company's latest development trend
- 7.2.8 SDIC Yunnan Dachaoshan Hydropower Co., Ltd.

- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's main business
 - (9) analysis of advantages and disadvantages of the company
 - (10) analysis of the company's latest development trend
- 7.2.9 Fujian Mianhuatan Hydropower Development Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's development strategy and planning
 - (9) analysis of advantages and disadvantages of the company
- 7.2.10 Yunnan Huaneng Manwan Power Plant
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company
- 7.2.11 Hanjiang Water Resources and Hydropower (Group) Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's development strategy and planning
 - (8) analysis of advantages and disadvantages of the company
 - (9) analysis of the company's latest development trend
- 7.2.12 Fujian Mindong Electric Power Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's major economic indicators
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company
 - (8) analysis of the company's latest development trend
- 7.2.13 Sichuan Baozhushi Hydropower Plant of China Huadian Corporation
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's main business
 - (9) analysis of advantages and disadvantages of the company
- 7.2.14 Datang Yantan Hydroelectric LLC
- (1) brief introduction of the company's development

- (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's main business
 - (9) analysis of advantages and disadvantages of the company
 - (10) analysis of the company's latest development trend
- 7.2.15 Wanjiazhai Water Control Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's development strategy and planning
 - (9) analysis of advantages and disadvantages of the company
 - (10) analysis of the company's latest development trend
- 7.2.16 Heilongjiang Lianhua Hydropower Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of advantages and disadvantages of the company
- 7.2.17 Sichuan Minjiang River Water Power Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's major economic indicators
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's development strategy and planning
 - (8) analysis of advantages and disadvantages of the company
 - (9) analysis of the company's latest development trend
- 7.2.18 Chongqing Wujiang Electric Power Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's main business
 - (9) analysis of advantages and disadvantages of the company
- 7.2.19 Guangxi Guiguan Electric Power Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company
- 7.2.20 Sichuan Futang Hydro Limited
- (1) brief introduction of the company's development

- (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's project management
 - (8) analysis of the company's main business
 - (9) analysis of advantages and disadvantages of the company
- 7.2.21 Baishan Power Plant
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's main business
 - (8) analysis of advantages and disadvantages of the company
- 7.2.22 Dahua Hydropower Plant of Guangxi Guiguan Power Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's main business
 - (8) analysis of advantages and disadvantages of the company
- 7.2.23 Grand Canyon Power Plant of Gansu Small Three Gorges Hydropower Development Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's main business
 - (8) analysis of advantages and disadvantages of the company
- 7.2.24 Guangdong Xingfengjiang Electric Power Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's main business
 - (9) analysis of advantages and disadvantages of the company
- 7.2.25 Yunnan Lubuge Power Plant
- (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company
- 7.2.26 Chongqing Three Gorges Water Power (Group) Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's major economic indicators
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability

- (6) analysis of the company's development capability
- (7) analysis of advantages and disadvantages of the company
- (8) analysis of the company's latest development trend
- 7.2.27 Mindong Hydropower Development Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's main business
 - (9) analysis of advantages and disadvantages of the company
 - (10) analysis of the company's latest development trend
- 7.2.28 Sichuan Huaneng Kangding Hydropower Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company
- 7.2.29 CPI Gansu Hexi Hydropower Development Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of advantages and disadvantages of the company
- 7.2.30 Sichuan Huaneng Baoxinghe Power International, Inc.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's capabilities of production and marketing
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's development strategy and planning
 - (8) analysis of advantages and disadvantages of the company

Chapter 8: Forecast of investment China's hydroelectricity industry and suggestions

8.1 analysis of characteristics of investment of hydroelectricity industry

8.2 analysis of characteristics of investment of hydroelectricity industry

8.2.1 analysis of profit model of hydroelectricity industry

8.3 analysis of development prospect of hydroelectricity industry

8.3.1 analysis of profit factor of hydroelectricity industry

8.3.2 forecast of development of hydroelectricity industry

- (1) forecast of installed capacity
- (2) forecast of generation volume

8.4 analysis of investment of hydroelectricity industry

8.4.1 analysis of scale of investment of hydroelectricity industry

8.4.2 analysis of key projects of hydropower industry during the "twelfth-five-year" period

- (1) analysis of construction of large hydropower bases during the "twelfth-five-year" period
- (2) analysis of five large hydropower bases needed to be promoted during the "twelfth-five-year" period

period

- 1) analysis of hydropower base in Jinsha River
- 2) analysis of hydropower base in Dadu River
- 3) analysis of hydropower base in Lancang River
- 4) analysis of hydropower base in Nujiang River

- 5) analysis of hydropower base in Yalong River
- (3) analysis of construction of pumped storage power station during the "twelfth-five-year" period
- (4) analysis of West to East Project during the "twelfth-five-year" period
- 8.4.3 suggestions for investment of hydroelectricity industry
- 8.4.4 analysis of opportunity of investment of hydroelectricity industry
- 8.4.5 analysis of risks of investment of hydroelectricity industry
