

China New Type Building Materials Industry Indepth Research and Investment Strategic Planning Report, 2013-2017

目 录

CONTENTS

Chapter 1: Summary of development of new type building materials industry

1.1 definition of new type building materials industry

1.1.1 definition of new type building materials

1.1.2 classification of new type building materials

1.2 industry chain of new type building materials industry

Chapter 2: Analysis of development environment of new type building materials industry

2.1 analysis of policy environment of new type building materials industry

2.1.1 major policies of new type building materials industry

2.1.2 related planning of new type building materials industry

2.2 analysis of economic environment of new type building materials industry

2.2.1 analysis of domestic GDP growth

2.2.2 impact of economic environment on the industry

2.3 analysis of social environment of new type building materials industry

2.4 social factors of new type building materials industry

2.4.1 social factors affecting development trends of the industry

2.5 analysis of technical environment of new type building materials industry

2.5.1 analysis of technical terms of new type building materials industry

2.5.2 analysis of technology patent applications of new type building materials

2.5.3 development trends of technology of new type building materials industry

Chapter 3: Analysis of status quo of development of new type building materials industry

3.1 analysis of status quo of development of new type building materials industry

3.1.1 life cycle of new type building materials industry

3.1.2 scale of sales and output of new type building materials industry

3.1.3 major products of new type building materials industry

(1) analysis of output of gypsum board

(2) analysis of waterproof membrane market

(3) analysis of output of refractories

3.1.4 trends of product structure of new type building materials

3.2 analysis of competition of new type building materials industry

3.2.1 analysis of competitive intensity of new type building materials industry

(1) competition among existing enterprises of the industry

(2) threat of potential entrants to the industry

(3) bargaining power of suppliers of the industry

(4) bargaining power of purchasers of the industry

(5) analysis of threat of substitutes of the industry

3.3 summary of competitive strength of the industry

3.3.1 market concentration of new type building materials industry

(1) market concentration of refractory industry

(2) market concentration of waterproof building materials industry

(3) market concentration of lightweight building materials industry

(4) market concentration of heat insulation materials market

Chapter 4: Analysis of operation of sub industries of new type building materials industry

4.1 analysis of development of refractory products manufacturing industry

4.1.1 analysis of development of refractory products manufacturing industry

(1) overview of overall development of refractory products manufacturing industry

(2) analysis of operation of refractory products manufacturing industry

4.1.2 analysis of economic indicators of refractory products manufacturing industry

(1) analysis of economic indicators of the industry

- (2) analysis of economic indicators of enterprises of different scale
- (3) analysis of economic indicators of enterprises of different nature
- (4) analysis of economic indicators of enterprises of different region

4.2 analysis of supply and demand balance of refractory products manufacturing industry

- 4.2.1 analysis of supply of national refractory products manufacturing industry
- 4.2.2 analysis of supply of refractory products manufacturing industry in various regions
- 4.2.3 analysis of demand of national refractory products manufacturing industry
- 4.2.4 analysis of demand of refractory products manufacturing industry in various regions
- 4.2.5 analysis of sales-output rate of national refractory products manufacturing industry

4.3 analysis of development of lightweight building materials manufacturing industry

- 4.3.1 analysis of potential threats of lightweight building materials manufacturing industry
- (1) overview of the overall development of lightweight construction materials manufacturing

industry

- (2) analysis of operation efficiency of lightweight construction materials manufacturing

industry

- 4.3.2 analysis of economic indicators of lightweight construction materials manufacturing industry

- (1) analysis of economic indicators of the industry
- (2) analysis of economic indicators of enterprises of different scale
- (3) analysis of economic indicators of enterprises of different nature
- (4) analysis of economic indicators of enterprises of different region

- 4.3.3 analysis of supply and demand balance of lightweight construction materials manufacturing

industry

- (1) analysis of supply of national lightweight construction materials manufacturing industry
- (2) analysis of supply of lightweight construction materials manufacturing industry in various

regions

- (3) analysis of demand of national lightweight construction materials manufacturing industry
- (4) analysis of demand of lightweight construction materials manufacturing industry in various

regions

- (5) analysis of sales-output rate of national lightweight construction materials manufacturing

industry

4.4 analysis of development of waterproof building materials manufacturing industry

- 4.4.1 analysis of development of waterproof building materials manufacturing industry
- (1) overview of the overall development of waterproof building materials manufacturing industry
- (2) analysis of operation of waterproof building materials manufacturing industry

- 4.4.2 analysis of economic indicators of waterproof building materials manufacturing industry

- (1) analysis of economic indicators of the industry
- (2) analysis of economic indicators of enterprises of different scale
- (3) analysis of economic indicators of enterprises of different nature
- (4) analysis of economic indicators of enterprises of different region

- 4.4.3 analysis of supply and demand balance of waterproof building materials manufacturing

industry

- (1) analysis of supply of national waterproof building materials manufacturing industry
- (2) analysis of supply of waterproof building materials manufacturing industry in various

regions

- (3) analysis of demand of national waterproof building materials manufacturing industry
- (4) analysis of demand of waterproof building materials manufacturing industry in various

regions

- (5) analysis of sales-output rate of national waterproof building materials manufacturing

industry

4.5 analysis of development of thermal and acoustic insulation materials manufacturing industry

- 4.5.1 analysis of development of thermal and acoustic insulation materials manufacturing industry
- (1) overview of the overall development of thermal and acoustic insulation materials

manufacturing industry

- (2) analysis of operation of thermal and acoustic insulation materials manufacturing industry

- 4.5.2 analysis of economic indicators of thermal and acoustic insulation materials manufacturing

industry

- (1) analysis of economic indicators of the industry
- (2) analysis of economic indicators of enterprises of different scale
- (3) analysis of economic indicators of enterprises of different nature

(4) analysis of economic indicators of enterprises of different region

4.5.3 analysis of supply and demand balance of thermal and acoustic insulation materials manufacturing industry

(1) analysis of supply of national thermal and acoustic insulation materials manufacturing industry

(2) analysis of supply of thermal and acoustic insulation materials manufacturing industry in various regions

(3) analysis of demand of national thermal and acoustic insulation materials manufacturing industry

(4) analysis of demand of thermal and acoustic insulation materials manufacturing industry in various regions

(5) analysis of sales-output rate of national thermal and acoustic insulation materials manufacturing industry

Chapter 5: Analysis of market prospect of new type building materials industry

5.1 analysis of correlation between construction industry and real estate industry

5.2 analysis of market supply of real estate industry

5.2.1 analysis of investment of development of real estate industry

5.2.2 analysis of scale of development of real estate industry

5.2.3 analysis of supply and demand balance of real estate industry

5.2.4 correlation between real estate and new type building materials

5.3 analysis of supply and demand of commercial housing market

5.3.1 analysis of supply and demand of commercial housing market

(1) analysis of investment boom in residential housing in the context of policy

(2) analysis of development of commercial housing by real estate enterprise

1) overall situation of development of commercial housing across the country

2) comparative analysis of development of commercial housing in various regions

(3) analysis of sales of commercial housing by real estate enterprise

1) overall situation of trading of commercial housing across the country

2) comparative analysis of trading of commercial housing in various regions

(4) analysis of growth trend of transaction price of commercial housing

5.3.2 analysis of commercial housing market in Beijing

(1) situation of completion of commercial housing investment

(2) analysis of the development and construction of commercial housing

(3) analysis of sales of commercial housing

5.3.3 analysis of commercial housing market in Shanghai

(1) situation of completion of commercial housing investment

(2) analysis of the development and construction of commercial housing

(3) analysis of sales of commercial housing

5.3.4 analysis of commercial housing market in Guangzhou

(1) analysis of the development and construction of commercial housing

(2) analysis of sales of commercial housing

5.3.5 analysis of commercial housing market in Shenzhen

(1) analysis of investment of commercial real estate project

(2) analysis of new supply of commercial housing

(3) analysis of sales of commercial housing

5.3.6 analysis of commercial housing market in Tianjin

(1) situation of completion of commercial housing investment

(2) analysis of the development and construction of commercial housing

(3) analysis of sales of commercial housing

5.3.7 analysis of commercial housing market in Chongqing

(1) situation of completion of commercial housing investment

(2) analysis of the development and construction of commercial housing

(3) analysis of sales of commercial housing

5.3.8 analysis of commercial housing market in Hangzhou

(1) situation of completion of commercial housing investment

(2) analysis of new supply of commercial housing

(3) analysis of sales of commercial housing

5.3.9 analysis of commercial housing market in Suzhou

(1) situation of completion of commercial housing investment

- (2) analysis of new supply of commercial housing
- (3) analysis of sales of commercial housing
- 5.3.10 analysis of commercial housing market in Shenyang
 - (1) analysis of the development and construction of commercial housing
 - (2) analysis of sales of commercial housing
- 5.3.11 analysis of supply and demand of commercial housing market
 - (1) situation of completion of commercial housing investment
 - (2) analysis of the development and construction of commercial housing
 - (3) analysis of sales of commercial housing
- 5.3.12 analysis of commercial housing market in Qingdao
 - (1) situation of completion of real estate investment
 - (2) analysis of the development and construction of commercial housing
 - (3) analysis of sales of commercial housing
- 5.4 analysis of supply and demand of commercial and service housing market**
 - 5.4.1 analysis of supply and demand of national commercial and service housing market
 - (1) analysis of investment of commercial and service housing of real estate industry
 - (2) analysis of sales area of commercial and service housing of real estate industry
 - (3) analysis of sales amount of commercial and service housing of real estate industry
 - (4) analysis of sales price of commercial and service housing of real estate industry
 - 5.4.2 analysis of commercial and service housing market in Shanghai
 - (1) situation of completion of commercial and service housing investment
 - (2) analysis of new supply of commercial and service housing
 - (3) analysis of sales of commercial and service housing
 - 5.4.3 analysis of commercial and service housing market in Beijing
 - (1) situation of completion of commercial and service housing investment
 - (2) analysis of new supply of commercial and service housing
 - (3) analysis of sales of commercial and service housing
 - 5.4.4 analysis of commercial and service housing market in Tianjin
 - (1) situation of completion of commercial and service housing investment
 - (2) analysis of new supply of commercial and service housing
 - (3) analysis of sales of commercial and service housing
 - 5.4.5 analysis of commercial and service housing market in Chongqing
 - (1) situation of completion of commercial and service housing investment
 - (2) analysis of new supply of commercial and service housing
 - (3) analysis of sales of commercial and service housing
 - 5.4.6 analysis of commercial and service housing market in Shenzhen
 - (1) situation of completion of commercial and service housing investment
 - (2) supply of high-end commercial and service property management
 - (3) analysis of sales of commercial and service housing
 - 5.4.7 analysis of commercial and service housing market in Shenyang
 - (1) situation of completion of commercial and service housing investment
 - (2) development and construction of commercial and service housing
 - (3) analysis of sales of commercial and service housing
- 5.5 analysis of investment and construction of public buildings**
 - 5.5.1 analysis of investment and construction of medical buildings
 - (1) analysis of area stock of medical buildings
 - (2) analysis of incremental area of medical buildings
 - (3) driving factors of construction of medical buildings
 - 1) analysis of service demand of medical institutions
 - 2) analysis of health expenses
 - 5.5.2 analysis of investment and construction of recreational and sports buildings
 - (1) status quo of investment and construction of recreational and sports buildings
 - (2) analysis of scale of construction of recreational and sports buildings
 - 5.5.3 analysis of investment and construction of exhibition buildings
 - (1) scale of construction quantity of exhibition buildings
 - (2) distribution of construction quantity of exhibition buildings which have been built
 - (3) scale of construction area of exhibition buildings
 - (4) distribution of construction area of exhibition buildings which have been built
 - (5) distribution of exhibition area of exhibition buildings which have been built

- (6) situation of construction of exhibition buildings in major cities
 - 1) status quo of construction of exhibition venues in Beijing
 - 2) status quo of construction of exhibition venues in Shanghai
 - 3) status quo of construction of exhibition venues in Guangzhou
 - 4) status quo of construction of exhibition venues in Hangzhou
 - 5) status quo of construction of exhibition venues in Shenzhen

5.6 analysis of market prospect of new type building materials industry

- 5.6.1 correlation between new type building materials and investment of construction industry
- 5.6.2 forecast of market prospect of new type building materials industry

Chapter 6: Analysis of characteristics of investment of new type building materials industry and recommendations

6.1 analysis of entry barriers of new type building materials industry

- 6.1.1 technical barrier of new type building materials industry
- 6.1.2 talent barrier of new type building materials industry

6.2 analysis of risks of investment of new type building materials industry

- 6.2.1 risk of macro economic fluctuation
- 6.2.2 policy risk of the industry
- 6.2.3 risk of product structure
- 6.2.4 analysis of suggestions for investment of new type building materials industry
- 6.2.5 select regional markets of new type building materials
- 6.2.6 select product markets of new type building materials

Chapter 7: Analysis of operation of major enterprises of new type building materials industry

7.1 analysis of the overall development of new type building materials enterprises

7.2 analysis of operation of new type building materials manufacturers

7.2.1 Beijing New Building Material Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's major financial indicators
- (3) analysis of the company's profitability capability
- (4) analysis of the company's operation capability
- (5) analysis of the company's solvency capability
- (6) analysis of the company's development capability
- (7) analysis of the company's product structure and developments of new type building materials
- (8) analysis of advantages and disadvantages of the company's operation
- (9) analysis of the company's latest development trend

7.2.2 Puyang Refractories (Group) Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's major financial indicators
- (3) analysis of the company's solvency capability
- (4) analysis of the company's operation capability
- (5) analysis of the company's profitability capability
- (6) analysis of the company's development capability
- (7) analysis of the company's product structure and developments of new type building materials
- (8) analysis of advantages and disadvantages of the company's operation
- (9) analysis of the company's investment, merger and restructuring
- (10) analysis of the company's latest development trend

7.2.3 Baoye Industry Group Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's major financial indicators
- (3) analysis of the company's solvency capability
- (4) analysis of the company's operation capability
- (5) analysis of the company's profitability capability
- (6) analysis of the company's development capability
- (7) analysis of the company's product structure and developments of new type building materials
- (8) analysis of advantages and disadvantages of the company's operation
- (9) analysis of the company's latest development trend

7.2.4 Beijing Oriental Yuhong Waterproof Technology Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's major financial indicators

- (3) analysis of the company's solvency capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and developments of new type building materials
 - (8) analysis of advantages and disadvantages of the company's operation
 - (9) analysis of the company's investment, merger and restructuring
 - (10) analysis of the company's latest development trend
- 7.2.5 Beijing Jingyeda New type building materials Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's major financial indicators
 - (3) analysis of the company's solvency capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and developments of new type building materials
 - (8) analysis of advantages and disadvantages of the company's operation
- 7.2.6 Beijing Solidl New type building materials Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's organizational structure
 - (3) analysis of the company's operation
 - (4) analysis of the company's product structure and developments of new type building materials
 - (5) analysis of advantages and disadvantages of the company's operation
- 7.2.7 Shandong Longxin New type building materials Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's major financial indicators
 - (3) analysis of the company's solvency capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and developments of new type building materials
 - (8) analysis of advantages and disadvantages of the company's operation
- 7.2.8 Sichuan Guodong Construction Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's major financial indicators
 - (3) analysis of the company's solvency capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and developments of new type building materials
 - (8) analysis of advantages and disadvantages of the company's operation
 - (9) analysis of the company's latest development trend
- 7.2.9 Wuhu Conch Profiles and Science Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's major financial indicators
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and new product developments
 - (8) analysis of advantages and disadvantages of the company's operation
 - (9) analysis of the company's latest development trend
- 7.2.10 Zhejiang Dilong New Material Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's major financial indicators
 - (3) analysis of the company's solvency capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's development capability

- (7) analysis of the company's product structure and developments of new type building materials
- (8) analysis of advantages and disadvantages of the company's operation
- (9) analysis of the company's latest development trend
- 7.2.11 Hubei Sanxia New type building materials Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's major financial indicators
 - (3) analysis of the company's solvency capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and developments of new type building materials
 - (8) analysis of advantages and disadvantages of the company's operation
- 7.2.12 Shandong Luyang Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's major financial indicators
 - (3) analysis of the company's solvency capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and developments of new type building materials
 - (8) analysis of advantages and disadvantages of the company's operation
 - (9) analysis of the company's latest development trend
- 7.2.13 China Fiberglass Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's major financial indicators
 - (3) analysis of the company's solvency capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and developments of new type building materials
 - (8) analysis of advantages and disadvantages of the company's operation
 - (9) analysis of the company's latest development trend
- 7.2.14 Yantai Wanhua Polyurethane Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's major financial indicators
 - (3) analysis of the company's solvency capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and developments of new type building materials
 - (8) analysis of advantages and disadvantages of the company's operation
 - (9) analysis of the company's latest development trend
- 7.2.15 Zhejiang Dongliang New Material Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's major financial indicators
 - (3) analysis of the company's solvency capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and new product developments
 - (8) the company's sales channels and network
 - (9) analysis of advantages and disadvantages of the company's operation
 - (10) analysis of the company's latest development trend
- 7.3 analysis of operation of China's new type building materials design enterprises**
 - 7.3.1 China New type building materials Industry Hangzhou Design & Research Institute
 - (1) brief introduction of the company's development
 - (2) analysis of the company's organizational structure
 - (3) analysis of the company's operation
 - (4) analysis of the company's main business and qualification

- (5) in-depth analysis of the company's design projects
- (6) analysis of the company's human resources
- (7) analysis of advantages and disadvantages of the company's operation
- (8) analysis of the company's latest development trend
- 7.3.2 Beijing Institute of Architectural Design of New Materials
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's main business and qualification
 - (4) in-depth analysis of the company's design projects
 - (5) analysis of advantages and disadvantages of the company's operation
- 7.3.3 Tianjin Architectural Design and Research Institute of New type building materials
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's main business and qualification
 - (4) analysis of the company's human resources
 - (5) analysis of advantages and disadvantages of the company's operation
- 7.3.4 Guangxi Building Research Institute
 - (1) brief introduction of the company's development
 - (2) analysis of the company's organizational structure
 - (3) analysis of the company's operation
 - (4) analysis of the company's main business and qualification
 - (5) in-depth analysis of the company's design projects
 - (6) analysis of the company's human resources
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 7.3.5 Henan Building Materials Research and Design Institute Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's organizational structure
 - (3) analysis of the company's operation
 - (4) analysis of the company's main business and qualification
 - (5) in-depth analysis of the company's design projects
 - (6) analysis of the company's human resources
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 7.3.6 Suzhou Sinoma Building Materials Design and Research Institute Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's organizational structure
 - (3) analysis of the company's operation
 - (4) analysis of the company's main business and qualification
 - (5) analysis of the company's human resources
