

China Industrial Design Industry Report (2016–2021), Development Model and Forecast

目 录

CONTENTS

Chapter 1: Summary of the industrial design industry

1.1 definition of industrial design industry

- 1.1.1 basic concepts
- 1.1.2 definition of the report
- 1.1.3 classification of the report

Chapter 2: Analysis of development environment of China industrial design industry

2.1 analysis of policy environment of industrial design industry

- 2.1.1 policy environment at national level
- 2.1.2 policy environment at local level

2.2 analysis of economic environment of the industrial design industry

2.2.1 The country's economic growth slows down, which has brought new opportunities for the industrial design

- 2.2.2 industrial design services for services of industrial volume production

2.3 analysis of technology environment of the industrial design industry

2.3.1 analysis of patents of industrial design industry

- (1) analysis of the number of patent applications of the industry
- (2) changes of the number of patent discloses of the industry
- (3) analysis of patent applicants of the industry
- (4) analysis of top technologies of the industry

2.3.2 industrial design technology of information age - CAID technology

- (1) basic content
 - 1) basic connotation of CAID
 - 2) CAID and innovative design
- (2) development status quo of CAID technology
 - 1) research on computer-aided modeling techniques
 - 2) research on human-computer interaction techniques of CAID
 - 1. research on intelligent technology of CAID
 - 3) research on application of CAID in high-tech
 - 4) industrial design module of the commercialization of software
- (3) development trends of CAID technology
 - 1) the development of modern industrial design
 - 1. key technical issues of CAID remain to be resolved
 - 2) development trends of CAID

Chapter 3: Overview of development of China industrial design industry and problems

3.1 analysis of necessity of development of the industrial design industry

- 3.1.1 to accelerate the construction of an innovative country
- 3.1.2 to promote cultural industry as a supporting industry of the national economy
- 3.1.3 to upgrade economic structure adjustment of industrial restructuring
- 3.1.4 to realize the road of innovation in manufacturing

3.2 analysis of development of China's industrial design industry

- 3.2.1 overview of the overall development of the industry
- 3.2.2 regional distribution of development of the industry
 - (1) overview of development of industrial design industry in Beijing
 - (2) overview of development of industrial design industry in Guangdong Province
 - (3) overview of development of industrial design industry in Shanghai
 - (4) overview of development of industrial design industry in Zhejiang
 - (5) overview of development of industrial design industry in Jiangsu Province
- 3.2.3 characteristics of development of the industry
 - (1) characteristics of industrial design

- (2) characteristics of industrial design industry
- 3.2.4 factors affecting the development of the industry
 - (1) favorable factors
 - (2) unfavorable factors
- 3.3 analysis of development of China industrial design industry
 - 3.3.1 analysis of education of China industrial design
 - 3.3.2 analysis of policies of China's industrial design industry
 - 3.3.3 analysis of intermediaries regarding China industrial design
 - 3.3.4 analysis of companies of Chinese industrial design
- 3.4 analysis of competition patterns of China industrial design industry

Chapter 4: Demand of subdivided products of industrial design industry and development trends

- 4.1 analysis of transportation design industry
 - 4.1.1 development overview
 - 4.1.2 competition pattern
 - 4.1.3 development mode
 - 4.1.4 development trends and prospects
- 4.2 analysis of electronics design industry
 - 4.2.1 development overview
 - 4.2.2 competition pattern
 - 4.2.3 development mode
 - 4.2.4 development trends and prospects
- 4.3 analysis of equipment and instrument design industry
 - 4.3.1 development overview
 - 4.3.2 competition pattern
 - 4.3.3 development mode
 - 4.3.4 development trends and prospects
- 4.4 analysis of appliance design industry
 - 4.4.1 development overview
 - 4.4.2 competition pattern
 - 4.4.3 standard process
 - 4.4.4 development trends and prospects
- 4.5 analysis of design industry for daily good
 - 4.5.1 development overview
 - 4.5.2 competition pattern
 - 4.5.3 standard process
 - 4.5.4 development trends and prospects
- 4.6 analysis of furniture design industry
 - 4.6.1 development overview
 - 4.6.2 competition pattern
 - 4.6.3 development mode
 - 4.6.4 development trends and prospects
- 4.7 analysis of toy design industry
 - 4.7.1 development overview
 - 4.7.2 competition pattern
 - 4.7.3 development mode
 - 4.7.4 development trends and prospects
- 4.8 analysis of fashion design industry
 - 4.8.1 development overview
 - 4.8.2 competition pattern
 - 4.8.3 development mode
 - 4.8.4 development trends and prospects

Chapter 5: Development trends of international industrial design industry and reference

- 5.1 overview of industrial design industry of typical countries or regions
 - 5.1.1 analysis of development of industrial design industry in America
 - 5.1.2 analysis of development of industrial design industry in Europe
 - 5.1.3 analysis of development of industrial design industry in Japan
- 5.2 analysis of typical companies of international industrial design
 - 5.2.1 Ziba Design Company

- 5.2.2 U.S. IDEO Design and Product Development Company
- 5.2.3 American Teague Design Firm
- 5.2.4 Frog Design Company
- 5.2.5 UK design consultancy Fitch
