

China Flame Retardant Industry Report (2016–2021), Market Demand Forecast and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Background of research of China' s flame retardant industry

1.1 background and methods of research

- 1.1.1 analysis of background of research
- 1.1.2 main statistical indicators

1.2 related characteristics of retardant

- 1.2.1 concept of retardant
- 1.2.2 role of retardant
- 1.2.3 performance of retardant
- 1.2.4 classification of retardant

1.3 analysis of flame retardant industry chain

- 1.3.1 introduction of flame retardant industry chain
 - 1.3.2 analysis of market supply and demand and price of phenol
 - (1) production capacity and output of phenol
 - (2) capacity expansion plans of phenol
 - (3) analysis of market demand for phenol
 - (4) analysis of import and export of phenol
 - (5) analysis of market price of phenol
 - (6) forecast of market of phenol
 - 1.3.3 analysis of market supply and demand and price of toluene
 - (1) production capacity and output of toluene
 - (2) competitive landscape of market of toluene
 - (3) analysis of market demand for toluene
 - (4) analysis of import and export of toluene
 - (5) analysis of market price of toluene
 - 1.3.4 analysis of market supply and demand and price of bisphenol A
 - (1) production capacity and output of bisphenol A
 - (2) competitive landscape of bisphenol A
 - (3) analysis of market demand for bisphenol A
 - 1) apparent consumption volume
 - 2) the structure of demand
 - (4) analysis of import and export of bisphenol A
 - (5) analysis of market price of bisphenol A
 - (6) forecast of market of bisphenol A
 - 1.3.5 analysis of market supply and demand and price of propylene oxide
 - (1) production capacity and output of propylene oxide
 - (2) competitive landscape of propylene oxide
 - (3) analysis of market demand for propylene oxide
 - 1) apparent consumption volume
 - 2) the structure of demand
 - (4) analysis of import and export of propylene oxide
 - (5) analysis of market price of propylene oxide
 - (6) forecast of market of propylene oxide
- ##### 1.4 analysis of market environment of flame retardant industry
- 1.4.1 policy environment
 - (1) management system
 - (2) standards and regulations
 - (3) development policy
 - 1) national policies to encourage its development
 - 2) policies for flame retardants for building

- 3) policies for flame retardants for textile
- 1.4.2 trade environment
 - (1) trade barriers of international flame retardant industry
 - (2) trade situation of flame retardant industry
 - (3) REACH Act and its impact on the industry
 - 1) introduction of REACH Act
 - 2) registration procedure of REACH Act
 - 3) registration fee of REACH Act
 - 4) impact of REACH Act on the industry
 - 5) flame retardant industry measures for REACH Act
 - (4) CLP Act and its impact on the industry
 - (5) WEEE Directive and its impact on the industry
 - (6) RoHS Directive and its impact on the industry
 - 1) main contents of RoHS Directive
 - 2) provisions for PBDEs in RoHS Directive
 - 3) assessment of the dangers of flame retardants in RoHS Directive
 - 4) impact of RoHS Directive on the flame-retardant plastic

Chapter 2: Analysis of status quo of development of international flame retardant industry

2.1 status quo of development of international flame retardant industry

- 2.1.1 overview of development of international flame retardant industry
- 2.1.2 standards and regulations of international flame retardant industry

2.2 analysis of competition of the global flame retardant market

- 2.2.1 scale and competition of the global flame retardant market
 - (1) statistics of consumption volume of the global flame retardant
 - (2) regional distribution of consumption of the global flame retardant
 - (3) competitive landscape of the global flame retardant market
 - (4) structure of consumer product of the global flame retardant
 - 1) structure of consumption volume
 - 2) structure of sales volume
- 2.2.2 analysis of flame retardant market in major countries
 - (1) analysis of flame retardant market in North America
 - 1) consumption volume and forecast
 - 2) consumption structure
 - (2) analysis of flame retardant market in Europe
 - 1) consumption volume and forecast
 - 2) consumption structure
 - (3) analysis of flame retardant market in Japan
 - 1) consumption volume and forecast
 - 2) consumption structure
 - (4) analysis of flame retardant market in other countries
 - 1) consumption volume and forecast
 - 2) consumption structure

2.3 analysis of operation of major international flame retardant enterprises

- 2.3.1 American Albemarle Corporation
 - (1) overview of the company's development
 - (2) analysis of the company's operation
 - (3) the company's competitive advantage
 - (4) the company's product structure
 - (5) the company's investment layout in China
- 2.3.2 American Chemtura Corporation
 - (1) overview of the company's development
 - (2) analysis of the company's operation
 - (3) the company's competitive advantage
 - (4) the company's investment layout in China
- 2.3.3 Israeli Chemical Company
 - (1) overview of the company's development
 - (2) analysis of the company's operation
 - (3) the company's competitive advantage

- (4) the company' s investment layout in China
- 2.3.4 German Kline & Company
 - (1) overview of the company' s development
 - (2) analysis of the company' s operation
 - (3) the company' s competitive advantage
 - (4) the company' s new product developments
 - (5) the company' s investment layout in China
- 2.3.5 Swiss Ciba-Geigy Corp
 - (1) overview of the company' s development
 - (2) analysis of the company' s operation
 - (3) the company' s competitive advantage
 - (4) the company' s new product developments
 - (5) the company' s investment layout in China
- 2.3.6 American Huber Group
 - (1) overview of the company' s development
 - (2) analysis of the company' s operation
 - (3) the company' s competitive advantage
 - (4) the company' s investment layout in China
- 2.3.7 American Supresta
 - (1) overview of the company' s development
 - (2) analysis of the company' s operation
 - (3) the company' s competitive advantage
 - (4) the company' s new product developments
 - (5) the company' s investment layout in China

Chapter 3: Status quo of operation of China' s flame retardant industry

3.1 overview of development of flame retardant industry

- 3.1.1 status quo of development of flame retardant industry
- 3.1.2 problems of flame retardant industry
- 3.1.3 development strategy of flame retardant industry

3.2 analysis of market of flame retardant industry

- 3.2.1 the supply situation of flame retardant industry
 - (1) production capacity of China' s flame retardant
 - (2) major enterprises of China' s flame retardant
- 3.2.2 market scale of flame retardant industry
- 3.2.3 product structure of flame retardant industry

3.3 operation of flame retardant industry

- 3.3.1 profit level of flame retardant industry
- 3.3.2 operational efficiency of flame retardant industry
- 3.3.3 development capability of flame retardant industry

3.4 analysis of import and export of flame retardant industry

- 3.4.1 summary of import and export situation of flame retardant industry
- 3.4.2 analysis of export market of flame retardant industry
 - (1) analysis of export of flame retardant industry
 - 1) overall export of the industry
 - 2) structure of export products of the industry
 - (2) analysis of export of flame retardant industry in.....2013
 - 1) overall export of the industry
 - 2) structure of export products of the industry
- 3.4.3 analysis of import market of flame retardant industry
 - (1) analysis of import of flame retardant industry
 - 1) overall import of the industry
 - 2) structure of import products of the industry
 - (2) analysis of import of flame retardant industry in.....2013
 - 1) overall import of the industry
 - 2) structure of import products of the industry

Chapter 4: Analysis of status quo of technology of China' s flame retardant industry

4.1 production process of flame retardant industry

- 4.1.1 production process of major retardant products
 - (1) production process of flame retardant BDP

- (2) production process of flame retardant TBC
- (3) production process of flame retardant TEP
- (4) production process of flame retardant TPP
- (5) production process of flame retardant TCPP
- (6) production process of flame retardant TDCP
- 4.1.2 synthetic methods of phosphate flame retardant
 - (1) pentoxide method
 - (2) dichlorine polycondensation
 - (3) polymer alcohol and phosphate
 - (4) phosphorus trichloride and phosphorus oxychloride polycondensation

4.2 progress of research of flame retardant industry

- 4.2.1 new flame retardant technology
 - (1) anti-smoke technology
 - (2) cross-linking technology
 - (3) ultrafine technology
 - (4) macromolecules technology
 - (5) microencapsulation technology
 - (6) surface modification technology
 - (7) complex collaborative technology
- 4.2.2 progress of research of organophosphorus flame retardant
 - (1) progress of research of phosphate flame retardant
 - 1) phosphorus-containing phosphate flame retardant
 - 2) nitrogen-containing phosphate ester flame retardant
 - 3) halogen-containing phosphate ester flame retardant
 - 4) phosphate polymer flame retardant
 - (2) progress of research of phosphonate flame retardant
 - (3) progress of research of phosphine oxide flame retardant
 - (4) progress of research of phosphinate flame retardant
 - (5) progress of research of organophosphate flame retardant
 - (6) progress of research of other organic phosphorus flame retardants
- 4.2.3 progress of research of intumescent flame retardant
 - (1) mechanism of intumescent flame retardant
 - (2) progress of research of intumescent flame retardant
- 4.2.4 progress of research of silicone flame retardant
 - (1) mechanism of silicone flame retardant
 - (2) progress of research of silicone flame retardant
 - (3) progress of research of retardant modified silane coupling agent

4.3 research trends of flame retardant industry

- 4.3.1 R & D success of China's lock flame retardant
- 4.3.2 R & D trends of China's environmental protection flame retardant
 - (1) Chemtura launched a green polymer flame retardant
 - (2) LANXESS launched retardant of polyurethane insulation materials

4.4 analysis of patents of flame retardant industry

- 4.4.1 quantity of patent applications of flame retardant industry
 - (1) yearly trend of quantity of patent applications
 - (2) yearly trend of quantity of patent disclosures
 - (3) patent output scale index warning
 - (4) patent output quality index warning
- 4.4.2 patent applicant of flame retardant industry
 - (1) share of patent applicant
 - (2) application trend of applicants
- 4.4.3 structure of patent of flame retardant industry

Chapter 5: Status quo and forecast of market of China's phosphorus flame retardant

5.1 analysis of development of phosphate rock industry

- 5.1.1 distribution of phosphate rock resources
 - (1) distribution of the world's phosphate rock resources
 - (2) quality distribution of the world's phosphate rock
 - (3) distribution of China's phosphate rock resources
 - (4) quality distribution of China's phosphate rock

- 5.1.2 production of phosphate rock
 - (1) distribution of the world' s producers of phosphate rock
 - (2) trend of output of China' s phosphate rock
 - (3) quantity of China' s manufacturers of phosphate rock
 - (4) production yield of China' s manufacturers of phosphate rock
- 5.1.3 consumption of phosphate rock
 - (1) regional distribution of the world's imports of phosphate rock
 - (2) constituents of the world' s phosphate rock downstream consumption
 - (3) constituents of China' s phosphate rock downstream consumption
- 5.1.4 trend of phosphate rock prices
- 5.2 analysis of development of phosphorus chemical industry**
 - 5.2.1 overview of development of phosphorus chemical industry
 - (1) product yield of phosphorus chemical industry
 - (2) regional distribution of phosphorus chemical industry
 - (3) quantity of enterprises of phosphorus chemical industry
 - 5.2.2 yield of phosphate industry
 - 5.2.3 analysis of market of phosphate products
 - (1) analysis of market of phosphate
 - (2) analysis of market of STPP
 - (3) analysis of market of hexametaphosphate
- 5.3 overview of phosphorus flame retardant market**
 - 5.3.1 market scale of phosphorus flame retardant
 - 5.3.2 market status of phosphorus flame retardant
 - 5.3.3 major enterprises of phosphorus flame retardant
 - 5.3.4 main products of phosphorus flame retardant
 - 5.3.5 application areas of phosphorus flame retardant
 - 5.3.6 application progress of phosphorus flame retardant
 - (1) application of flame retardant epoxy resin
