

China Institution of Property-right Exchange Development Model and Investment Strategy Planning Report, 2013-2017

目 录

CONTENTS

Chapter 1: Development Environment for Institution of Property-right Exchange in China

1.1 Relevant Concepts Related to Property-right Transaction

- 1.1.1 Definition of Property-right Transaction
- 1.1.2 Definition of Property Exchange Market
- 1.1.3 Major Forms of Property-right Transaction for Enterprise
- 1.1.4 Contrast for Major Capital Markets
 - (1) Features and Functions of Security Exchange
 - (2) Features and Functions of SEM Board
 - (3) Features and Functions of Property-right Exchange Market
- 1.1.5 Subjects for Indirect Behavior in Property-right Transaction
 - (1) Property-right Exchange Market and Property-right Broker
 - (2) Property-right Exchange Market and Auction Institution
 - (3) Property-right Exchange Market and Lawyer Firm
 - (4) Property-right Exchange Market and Investment Bank
 - (5) Property-right Exchange Market and Other Intermediary Service Institution

1.2 Analysis of Life Cycle for Property-right Transaction Industry

1.3 Analysis of External Environment for Property-right Transaction Industry

- 1.3.1 Analysis of Economic Environment
 - (1) Analysis of Domestic Economic Growth
 - (2) Analysis of Development of Financial Market
 - (3) Analysis of Development of Stock Market
- 1.3.2 Analysis of Policy Environment
 - (1) Law on State-Owned Assets of Enterprises
 - 1) Background of Policy Releasing
 - 2) Major Contents of Policy
 - 3) Impact of Policy
 - (2) Administrative Measures for the Transfer of State-owned Assets of Financial Enterprises
 - 1) Background of Policy Releasing
 - 2) Major Contents of Policy
 - 3) Impact of Policy
 - (3) Guidelines on Risk Management of M&A Loans of Commercial Banks
 - 1) Background of Policy Releasing
 - 2) Major Contents of Policy
 - 3) Impact of Policy

1.4 Role of Property-right Transaction Played in National Economy

- 1.4.1 Provide State-owned Asset Inventory with A Channel for Entry and Exit
- 1.4.2 Optimize Structure of State-owned Asset Inventory
- 1.4.3 Improve the Transparency of Property-right Exchange Market
- 1.4.4 Create A bridge of Reorganizing State-owned Asset for Private and Foreign Capital

1.5 Development Impact of Property-right Transaction Industry

- 1.5.1 Relation between Economic Growth and Property-right Transaction
- 1.5.2 Impact of Economic Factors on Property-right Exchange Market
- 1.5.3 Impact of System Resources on Property-right Exchange Market
- 1.5.4 Impact of Natural Resources on Property-right Exchange Market
- 1.5.5 Impact of Operating Models on Property-right Exchange Market
- 1.5.6 Impact of Human Resources on Property-right Exchange Market

Chapter 2: Analysis of Market Panorama of China Property-right Exchange Market

2.1 Analysis of Origin of Property-right Exchange Market

- 2.1.1 Analysis of Origin of Property-right Exchange Market

- (1) Starting Stage of Analysis of Property-right Exchange Market
- (2) Initial Establishment Stage of Property-right Exchange Market
- (3) Development Stage of Analysis of Origin of Property-right Exchange Market
- (4) Clean-up and Rectification Stage of Property-right Exchange Market
- (5) Further Standard and Development Stage of Property-right Exchange Market
- 2.1.2 Procedures for Enterprise Entering Transaction Market
- 2.1.3 Means of Property-right Transaction for Enterprise
 - (1) Reorganization Forms for Enterprises with Different Property-right Subjects
 - 1) Analysis of Reorganization Forms for Property-right Transferor
 - 2) Analysis of Reorganization Forms for Property-right Transferee
 - (2) Selection for Property-right Object of Enterprise Entering the Market
 - 1) By the Scope of Property-right Transaction
 - 2) By Ways to Deal for Property-right Transaction at Price
- 2.1.4 Analysis of Subject and Object in Property-right Transaction Market
 - (1) Analysis of Subject Status of Property-right Transaction
 - (2) Analysis of Object Innovation of Property-right Transaction
- 2.2 Development Status of Property-right Exchange Market**
 - 2.2.1 Analysis of Transaction Volume of Property-right Market
 - 2.2.2 Analysis of Market Share of Property-right Exchange Market
 - 2.2.3 Analysis of Growth of Property-right Transaction Volume
 - 2.2.4 Analysis of Transaction Fields for Property-right Exchange Market
 - 2.2.5 Analysis of Market Structure of Property-right Transaction
 - (1) Market Concentration
 - (2) Geographic Attributes of Property-right Transaction
 - 2.2.6 Analysis of Cross-border Property Transaction
- 2.3 Basic Pattern of Property Transaction Market**
 - 2.3.1 Analysis of National Property-right Exchange Market
- 2.4 Analysis of Regional Property-right Exchange Market**
 - 2.4.1 Analysis of Provincial Property-right Exchange Market
- 2.5 Analysis of Competition for Property-right Exchange Market**
 - 2.5.1 Analysis of Regional Competition for Property-right Exchange Market
 - (1) Features of Property-right Exchange Market
 - (2) Analysis of Market Monitoring
 - (3) Market Growth Situation
 - (4) Analysis of Exit Barrier
 - 2.5.2 Analysis of Competition for Potential Entrants
 - 2.5.3 Analysis of Competition for Substitutes
 - 2.5.4 Analysis of Bargaining Power of Suppliers
 - 2.5.5 Analysis of Bargaining Power of Buyers
- 2.6 Analysis of Supply and Demand of Property-right Exchange Market**
 - 2.6.1 Analysis of Supply of Property-right Exchange Market
 - (1) Reform of State-owned Enterprise Provides Object Resources for Transaction
 - (2) Decrease of State-owned Shares Provides Important Object Resources
 - (3) Transfer of Property Right Provides Object Resources
 - 2.6.2 Analysis of Demand of Property-right Exchange Market
 - (1) Analysis of State-owned Enterprise Reorganization of Market Demand Momentum
 - (2) Growth of Private Enterprise and Personnel Savings of Market Demand Momentum
 - (3) Analysis of Foreign Investors of Market Demand Momentum
- 2.7 Analysis of Business for Property-right Exchange Market**
 - 2.7.1 Analysis of Non-performing Asset Business
 - (1) Analysis of Buyer
 - 1) Investor in SOE (State-owned Enterprise)
 - 2) Investor in Private-owned Enterprise
 - 3) Investor in Foreign-funded Enterprise
 - 4) Investment Fund
 - (2) Buyer's Intention to Invest
 - (3) Buyer's Expectation for Investing
 - (4) Analysis of Seller
 - (5) Analysis of Transaction Situation of Non-performing Assets

- (6) Market Satisfaction
- 2.7.2 Analysis of Financial Equity Transaction Business
 - (1) Overview of Financial Equity Transaction Business
 - (2) Supply of Financial Equity Transaction Business
 - 1) Impact of Stock Market on Financial Asset Transaction
 - 2) Impact of Relevant Policies and Regulations on Financial Asset Transaction
 - 3) Impact of Macro-economic Environment on Market Supply
 - (3) Demand and Expectation for Financial Equity Transaction Business
- 2.7.3 Analysis of M&A Loans

2.8 Problems in Property-right Exchange Market

- 2.8.1 Function Weakness in Property-right Exchange Market
 - (1) Property-right Transaction Can't Be Standardized
 - (2) Pricing Mechanism of Property-right Transaction Can't Be Formed at a Reasonable Way
 - (3) Market Monitoring System of Property-right Transaction Market Is Unsound
 - (4) Behavior of Property-right Transaction Is Non-standard
 - (5) Service System of Property-right Exchange Market Is Imperfect
- 2.8.2 Deficiency of Property-right Exchange Market in System
 - (1) Unclear Definition for Nature of Property-right Exchange Market
 - (2) Role of Government Played in Property-right Exchange Market
 - (3) No Risk Investment Mechanism of "Capital Poll"
 - (4) Disable Competition Mechanism in Property-right Exchange Market
 - (5) Nature of Administrative Land Governed by Transaction Market
- 2.8.3 Restriction to Develop Property-right Exchange Market
 - (1) Restriction Impact on Governmental Attribute of Transaction Market
 - (2) Restriction Impact on Transfer of State-owned Property-right in Transaction Market
 - (3) Restriction Impact on Transaction Models for Property-right Exchange Market
 - (4) Restriction Impact on Land Possession Management Mechanism for Transaction Market

2.9 Strategies and Suggestions for Developing Property-right Exchange Market

- 2.9.1 Make Sure the Functional Orientation of China Property-right Exchange
- 2.9.2 Establish A Complete and Unified Property-right Market System
- 2.9.3 Strengthen the Regulation and Management for Innovating Property-right Transaction Business
- 2.9.4 Set up An Administration Office for Property-right Transaction

Chapter 3: Analysis of Product Segments of China Property-right Exchange Market

3.1 Analysis of Intellectual Property Transaction Market

- 3.1.1 Basic Features of Intellectual Property Transaction Market
 - (1) Rational Choice
 - (2) Power Division
 - (3) Non-obligatory Feature
 - (4) Uncertainty
- 3.1.2 Analysis of Major Transaction Forms for Intellectual Property Transaction
 - (1) Auction-oriented Intellectual Property Transaction
 - (2) Bidding-oriented Intellectual Property Transaction
 - (3) Negotiated Intellectual Property Transaction
 - (4) Trustee-oriented Intellectual Property Transaction
 - (5) M&A-oriented Intellectual Property Transaction
 - (6) Assuming Liability-oriented Intellectual Property Transaction
 - (7) Contract-oriented Intellectual Property Transaction
 - (8) Alliance-oriented Intellectual Property Transaction
 - (9) Electronic Intellectual Property Transaction
- 3.1.3 Analysis of Intellectual Property Market Segments
- 3.1.4 Development Status of Intellectual Property Transaction Market
- 3.1.5 Major Problems in Intellectual Property Transaction Market
 - (1) Low Degree of Intermediary Service System
 - (2) Backward Transaction Mechanism for Intellectual Property Market
- 3.1.6 Analysis of Innovation Path for Intellectual Property Transaction Market
 - (1) Construct A Cross-regional Intermediary Service System
 - (2) Advance the Innovation for Means of Intellectual Property Transaction
- 3.1.7 Major Risks Confronted by Intellectual Property Transaction
 - (1) Political and Legal Risks in Intellectual Property Transaction

- (2) Market Operation Risks in Intellectual Property Transaction
- (3) Social and Media Transaction Risks in Intellectual Property Transaction
- (4) Operation and Management Risks in Intellectual Property Transaction
- (5) Risks in Intellectual Property Transaction Itself
- 3.1.8 Risk Control Process and Measures for Intellectual Property Exchange
 - (1) Analysis of Risk Control Process for Intellectual Property Exchange
 - (2) Major Control Measures for Intellectual Property Exchange
- 3.2 Analysis of Technology Property Right Transaction Market**
 - 3.2.1 Analysis of Technology Property Right Transaction Status
 - (1) Analysis of Volume of Technology Property Right Transaction
 - (2) Analysis of Region of Technology Property Right Transaction
 - (3) Distribution of Technology Property Right Transaction Industry
 - (4) Economic Organization Forms and Methods for Technology Property Right Transaction
 - (5) Case Study of Technology Property Right Transaction - Take An Example of CHTF
 - 3.2.2 Operating Models for Technology Property Right Transaction Market
 - (1) Origin of Technology Property Right Market
 - (2) Major Operating Models for Technology Property Right Transaction Market
 - 1) Analysis of Shanghai Model
 - 2) Analysis of Shenzhen Model
 - 3) Analysis of Zhongguancun Model
 - 4) Analysis of Wuhan Model
 - 5) Analysis of Guangzhou Model
 - 3.2.3 Problems in Transacting Technology Property Right
 - (1) Incomplete Technology Property Right Transaction
 - (2) Imperfect Technology Property Right Transaction
 - 3.2.4 Operation Mechanism Design for Technology Property Right Transaction
 - (1) Reputation Mechanism for Technology Property Right Transaction
 - (2) Signaling Mechanism for Technology Property Right Transaction
 - (3) Intermediary Mechanism for Technology Property Right Transaction
 - (4) Risk and Safeguard Mechanism for Technology Property Right Transaction
- 3.3 Analysis of Tourism Property Transaction Market**
 - 3.3.1 Definition of Tourism Property
 - 3.3.2 Function of Tourism Property Transaction Market
 - 3.3.3 Major Models for Tourism Property Transaction
 - (1) Medium and Long-term Loan Assure Cash Flow
 - (2) M&A Loan Supports Tourism Enterprise
 - (3) Asset Securitization Expands Financing Channel
 - (4) Bring in Social Capital

Chapter 4: Analysis of Development Models for China Property-right Exchange Market

- 4.1 Analysis of Mechanism for Property-right Exchange Market**
 - 4.1.1 Classification of Institutions in Property-right Exchange Market
 - 4.1.2 Analysis of Mechanism for Property-right Exchange Market
 - (1) Classification by Operating Model
 - (2) Classification by Time Nodes
- 4.2 Analysis of Operating Mechanism for Market Integration of Property-right Transaction**
 - 4.2.1 Definition of Operating Mechanism for Market Integration of Property-right Transaction
 - 4.2.2 What Criteria Applied in Operating Mechanism of Market Integration
 - (1) Criteria of Optimization of Resource Allocation
 - (2) Criteria of Optimization of Industrial Structure
 - (3) Improve Multilevel Criteria of Property-right Exchange Market
 - 4.2.3 Analysis of Framing Property-right Exchange Market
 - (1) Analysis of Designing Total Framework
 - (2) Analysis of Positioning Multilevel Functions
 - 1) National Network-oriented Property-right Exchange Market
 - 2) Regional and Specialist Cooperated/Allied Property-right Exchange Union Market
 - 3) Provincial and City-level Property-right Exchange
 - 4) Property-right Exchange Branches in Province or City
 - (3) Relation among All Levels of Exchange Markets
 - 4.2.4 Design Operating Mechanism for Property-right Exchange Market

- (1) Analysis of Information Mechanism
- (2) Analysis of Price Mechanism
- (3) Analysis of Transaction Mechanism
- (4) Analysis of Monitoring Mechanism

4.3 Analysis of E-commerce Model for Property-right Exchange Market

- 4.3.1 Analysis of Traditional E-commerce Model
- 4.3.2 Analysis of E-commerce Development in Property-right Exchange Market
 - (1) Analysis of Commerce Process in Property-right Exchange Market
 - (2) Analysis of E-commerce Process in Property-right Exchange Market
 - (3) Analysis of E-commerce's Subject Matter in Property-right Exchange Market
- 4.3.3 Analysis of E-commerce Model for Property-right Exchange Market
 - (1) What Exchanges Are Suitable for Developing in E-commerce Model
 - (2) Relation between E-commerce Online and Offline in Property-right Exchange Market
 - (3) Risk Prevention for E-commerce Model in Property-right Exchange Market
 - (4) Trade Promotion for E-commerce Model in Property-right Exchange Market
 - (5) Information Pool of Differentiated Services and Buyer Resources
- 4.3.4 Analysis of E-commerce Model in Future Property-right Exchange Market
 - (1) Single-exchange Model
 - (2) Multi-exchange Model
 - (3) National Unified E-commerce Platform Model

4.4 Analysis of Integrated Operation for Property-right Transaction Business

- 4.4.1 Limitation for Property-right Transaction Model in Nowadays
- 4.4.2 Operating Mechanism for Integrated Transaction Model
- 4.4.3 Major Features of Integrated Transaction Model
- 4.4.4 Practical Value of Integrated Transaction Model
- 4.4.5 Prospects and Problems for Integrated Transaction Model

Chapter 5: Analysis of Development of Regional Property-right Exchange Market in China

5.1 Analysis of Development Models for Regional Property-right Exchange Market

- 5.1.1 Analysis of External Administration for Regional Property-right Exchange Market
 - (1) Establish Institutions Governed by the Government
 - (2) Governmental Joint Management Mechanism
- 5.1.2 Analysis of Internal Administration for Regional Property-right Exchange Market
 - (1) Internal Administration Status of Exchange Market
 - (2) Administration for Divisionalized Property-right Exchange Market
 - (3) Administration for Corporate Property-right Exchange Market
- 5.1.3 Development Model for Major Regional Property-right Exchange Markets in China
 - (1) Models Applied in Major Regional Property-right Exchange Markets at Present Stage
 - (2) Changjiang Assets and Equity Exchange Union Market
 - 1) Background of Establishing Regional Union Market
 - 2) Transaction Volume of Regional Union Market
 - 3) Operating Model for Regional Union Market
 - (3) North China Assets and Equity Exchange Union Market
 - 1) Background of Establishing Regional Union Market
 - 2) Transaction Volume of Regional Union Market
 - 3) Operating Model for Regional Union Market
 - (4) Yellow River Assets and Equity Exchange Union Market
 - 1) Background of Establishing Regional Union Market
 - 2) Transaction Volume of Regional Union Market
 - 3) Operating Model for Regional Union Market
 - (5) West China Assets and Equity Exchange Union Market
 - 1) Background of Establishing Regional Union Market
 - 2) Transaction Volume of Regional Union Market
 - 3) Operating Model for Regional Union Market

5.2 Analysis of Development Model for Shanghai Property-right Exchange Market

- 5.2.1 Development History of Property-right Exchange Market
- 5.2.2 Driving Force for Property-right Market
 - (1) Market Positioning by Government
 - (2) Provide Policy Support and Source Guarantee
 - 1) Award the Monopoly Position to

- 2) Expand Size of Market Relying on Policy
- 3) Integrate All Resources Possessed by Government
- 5.2.3 Development Features of Property-right Exchange Market
 - (1) Diversification of Property-right Exchange Market
 - (2) Standardization of Property-right Exchange Market
- 5.2.4 Weaknesses and Strategies of Property-right Exchange Market
 - (1) Major Problems in Exchange Market
 - (2) Improve Service System for Exchange Market
- 5.3 Analysis of Development Model for Guangdong Property-right Exchange Market**
 - 5.3.1 Development History of Property-right Exchange Market
 - 5.3.2 Measures for Guangdong Integrating Property-right Exchange Market
 - 5.3.3 A Role Played by Provincial Institution of Property-right Exchange in Course of Integration
 - 5.3.4 Major Problems in Guangdong Property-right Exchange Market
 - 5.3.5 Competitiveness for Guangdong Property-right Exchange Market
 - 5.3.6 Selection of Integrated Strategy for Guangdong Property-right Exchange Market
 - (1) Principle of Strategy Selection
 - (2) Analysis of Integrated Strategy Goal
 - (3) Route to Realize Integrated Strategy
 - 5.3.7 Measures for Implementing Integrated Strategy in Guangdong Property-right Exchange Market
- 5.4 Analysis of Development Model for Guangxi Property-right Exchange Market**
 - 5.4.1 Development History of Property-right Exchange Market
 - 5.4.2 Development Status of Property-right Exchange Market
 - (1) Analysis of Business Types in Property-right Exchange Market
 - (2) Analysis of Transaction Means of Property-right Exchange Market
 - (3) Analysis of Transaction Situation of Property-right Exchange Market
 - 5.4.3 Analysis of Major Problem in Property-right Exchange Market
 - (1) Positioning of Property-right Exchange Market
 - (2) Marketization of Property-right Transaction
 - (3) Narrow Scope of Property-right Transaction
 - (4) Problems in Property-right Transaction Project
 - 5.4.4 Development Strategies and Suggestions for Property-right Exchange Market

Chapter 6: Analysis of Innovation Routes for China Property-right Exchange Market

6.1 Innovation for Trading Varieties in Property-right Exchange Market

- 6.1.1 Structural Weakness of Current Trading Varieties in Property-right Exchange Market
- 6.1.2 Reposition Trading Varieties in Property-right Exchange Market
- 6.1.3 Innovation of Trading Varieties in Property-right Exchange Market
 - (1) Equity Trusteeship of Non-listed Company
 - (2) PE Investment Fund
 - (3) Asset Securitization

6.2 Transaction Means Innovation for Property-right Exchange Market

- 6.2.1 Analysis of Transaction Means Innovation for Property-right Exchange Market
- 6.2.2 Analysis of Call Auction Mechanism
- 6.2.3 Analysis of Market Maker Quote-driven Mechanism
 - (1) Connotation of Market Maker Rule
 - 1) Definition of Market Maker Rule
 - 2) Market Maker Rule and Quote-driven Mechanism
 - 3) Operating Mechanism of Market Maker Rule
 - (2) Analysis of Necessity and Feasibility
 - 1) Necessity for Property-right Market Bringing in Market Maker Rule
 - 2) Feasibility for Property-right Market Bringing in Market Maker Rule
 - (3) Design for Mechanism Solution
 - 1) Securitization of Property-right
 - 2) Selection for Transaction Mechanism
 - 3) Operation Means of Market Maker Rule
 - 4) Mechanism Design for Market Maker Rule
 - (4) Obstacles for Bringing in Mechanism and Its Solutions
 - 1) Major Obstacles for Bringing Market Maker Rule in Property-right Market
 - 2) Solutions to Bring in Market Maker Rule in Property-right Market
 - (5) Case Study - Market Maker Transaction Model for Tianjin Equity Exchange (TEE)

- 1) Background of Establishing Market Maker Transaction Model
- 2) Operation Status of Market Maker Transaction Model
- 3) Market Maker Mechanism Design for TEE
 1. Market Entry
 2. Training & Testing
 3. Mechanism Monitoring
 4. Pricing Model
 5. Business Evaluation

6.3 Analysis of Pricing Mechanism Innovation for Property-right Exchange Market

- 6.3.1 Pricing Status of China Property-right Market
- 6.3.2 Problems in Property-right Pricing Mechanism
- 6.3.3 Contrast and Selection for Asset Pricing Means Abroad
- 6.3.4 Development Strategies for Pricing Mechanism Applied in China Property-right Transaction

6.4 Analysis of Statistical Mechanism Innovation for Property-right Exchange Market

- 6.4.1 Statistical Status of China Property-right Market
- 6.4.2 Statistical Weakness of China Property-right Market
- 6.4.3 Enlightenment from Statistics of China Securities Market
- 6.4.4 Statistical Work Innovation for China Property-right Transaction

6.5 Innovation of Institutions and Organization of Property-right

- 6.5.1 Forms of Institutions and Organization of Property-right
- 6.5.2 Enlightenment from Corporate System Reform of Security Exchange
- 6.5.3 Innovation of Institutions and Organizations of Property-right Exchange

6.6 Innovation of Market Monitoring System for Property-right Exchange Market

- 6.6.1 Monitoring Status and Problem of Property-right Exchange Market
- 6.6.2 Monitoring Experiential Learning from Financial Markets Home and Abroad
- 6.6.3 Suggestions for Establishing and Improving Monitoring Mechanism for Property-right Exchange

Market

Chapter 7: Development Strategies for Institutions of Private Property-right Exchange in China

7.1 Background of Non-state-owned Property-right Exchange Mechanism

- 7.1.1 Non-state-owned Nature of Private Property-right Transaction
- 7.1.2 Baseline of Private Property-right Exchange Mechanism
- 7.1.3 Specification and Requirements for Private Property-right Transaction
- 7.1.4 Specification for Private Property-right Transaction Process

7.2 Transaction Mechanism for Institution of Private Property-right Exchange

- 7.2.1 Definition of “Dual-track” Exchange Mechanism
- 7.2.2 Feasibility of Exchange Mechanism
- 7.2.3 Strategy for Designing Private Property-right Exchange Mechanism

7.3 Development Strategy for Institution of Private Property-right Exchange

- 7.3.1 Necessity of Differentiated Strategy for Institution of Private Property-right Exchange
 - (1) Monopoly Pattern Formed in Property-right Exchange Market
 - (2) Institutions of State-owned Property-right Exchange Have the Say
 - (3) Homogenization Doesn't Match Long-term Development of Private Institution
- 7.3.2 Analysis of Differentiated Strategy for Institution of Private Property-right Exchange
 - (1) Differentiation Should Match Non-standard Market
 - (2) Differentiation Should Match Market at Every Stage
- 7.3.3 Innovation Direction for Institution of Private Property-right Exchange
 - (1) Demand of Enterprise in Incubator for Service
 - (2) Demand of Enterprise at Starting-up Stage for Service
 - (3) Demand of Enterprise at Growth Stage for Service
 - (4) Demand of Enterprise at Mature Stage for Service
 - (5) Demand of Enterprise at Post-mature Stage for Service

Chapter 8: Development Model for Major Institutions of Property-right Exchange in China

8.1 Development Model for China Beijing Equity Exchange Group

- 8.1.1 CBEEG History
- 8.1.2 CBEEG Main Business Scope
- 8.1.3 CBEEG Business Framework
- 8.1.4 CBEEG Financing Capability
 - (1) Market Volume

- (2) Quantity and Size of Listed Companies
- (3) Financing Capability
- 8.1.5 CBEEG Completed Projects
 - (1) Corporate State-owned Property-right Transaction
 - (2) Material Object and Prelisting State-owned Asset Project
 - (3) All Kinds of Specialist Exchange Platform
 - (4) Dynamic Quotation Project
- 8.1.6 CBEEG Business Innovation
- 8.1.7 CBEEG Operating Model
- 8.2 Development Model for Shanghai United Asset and Equity Exchange**
 - 8.2.1 Development of Shanghai United Asset and Equity Exchange
 - 8.2.2 SUAEE Establishment Background
 - (1) Development History
 - (2) Main Business
 - (3) Principles Followed
 - (4) Main Functions
 - 8.2.3 SUAEE Administration Mechanism
 - (1) Governmental Supervision Mechanism
 - (2) Internal Corporate Governance
 - (3) Membership Mechanism
