China Magnetic Applications Equipment Industry Development Prospects Forecast and Transformation & Upgrading Report

目 录

CONTENTS

Chapter 1: Overview of Magnetic Application Equipment Industry
1.1 Definition of Magnetic Application Equipment Industry
1.1.1 Basic Concept of Industry
1.1.2 Product Categories of Industry
1.2 Specialty of Magnetic Application Equipment Industry
1.2.1 Cyclical Feature
1.2.2 Regional Feature
1.2.3 Seasonal Feature
1.3 Upstream Parts in Magnetic Application Equipment Industry
1.3.1 Profile of Industrial Chain
1.3.2 Magnetic Material Markets
(1) NdFeB Market
(2) Ferrite Market
1.3.3 Operation of Metal Markets
(1) Operation of Steel Market
(2) Operation of Aluminum Market
(3) Operation of Copper Market
1.3.4 Analysis of Auxiliary Markets
(1) Cable Market
(2) Insulted Material Market
(3) Motor Market
(4) Speed Reducer Market
Chapter 2: Development Environment for Magnetic Application Equipment Industry
2.1 Policy Environment for Magnetic Application Equipment Industry
2.1.1 Administration Mechanism
2.1.2 Technical Standard
2.1.3 Major Policies Related to Industry
2.2 Economic Environment for Magnetic Application Equipment Industry
2.2.1 Foreign Economic Situation
(1) Foreign Economic Status
(2) Foreign Economic Trend
2.2.2 Domestic Economic Situation
(1) Domestic Economic Status
(2) Domestic Economic Trend
2.3 Social Environment for Magnetic Application Equipment Industry
2.3.1 China Energy Environment Situation
2.3.2 Support from Energy-saving and Pollution-reduction Policies
2.3.3 Energy-saving and Pollution-reduction Impact on the Industry
2.4 Technology Environment for Magnetic Application Equipment Industry
2.4.1 Technical Level and Features
2.4.2 R&D Achievement and New Product
2.4.3 Development Trend for Technology in the Industry
Chapter 3: Development Status and Trend of Magnetic Application Equipment Industry
3.1 Development of International Magnetic Application Equipment Industry
3.1.1 Development Overview of International Market
3.1.2 Competitive Landscape for International Market
3.1.3 Development Trend for International Market
3.2 Development of China Magnetic Application Equipment Industry
3.2.1 Development Overview of Domestic Market

3.2.2 Development Size of Domestic Market
3.2.3 Operation Benefit of Domestic Market
3.2.4 Development Factors of Influencing the Industry
(1) Advantages
(2) Disadvantages
3.3 Competitive Landscape for China Magnetic Application Equipment Industry
3.3.1 Entry Barriers to Industry
3.3.2 Five-force Model for Industry
(1) Competition in Current Enterprises
(2) Bargaining Power of Suppliers
(3) Bargaining Power of Downstream Customers
(4) Threat of Potential Entrants
(5) Threat of Substitutes
3.3.3 Multinationals' Competition in China
(1) ABB Switzerland Ltd.
(2) DANIELI-ROTELEC
(3) Shinko Electric Co., Ltd.
(4) Nippon Steel Corporation
(5) ConCast Switzerland
3.4 Cluster of China Magnetic Application Equipment Industry
3.4.1 Regional Distribution of Industry
3.4.2 Industry Development in Major Industries
(1) Yueyang, Hunan Province
(2) Weifang, Shandong Province
(3) Fushun, Anshan and Dalian, Liaoning Province
(4) Zhenjiang, Jiangsu Province
3.5 Development Trend for China Magnetic Application Equipment Industry
Chapter 4: Analysis of Major Product Markets in Magnetic Application Equipment Industry
4.1 Development Status and Trend for
4.1.1 Overview of Magnetic Iron Remover
(1) Major Features of Magnetic Iron Remover
(2) Product Categories of Magnetic Iron Remover
(3) Major Usages of Magnetic Iron Remover
4.1.2 Development of Magnetic Iron Remover Market
(1) Magnetic Iron Remover Market Overview
(2) Magnetic Iron Remover Market Size
(3) Magnetic Iron Remover Market Pattern
4.1.3 Market Segments of Magnetic Iron Remover
(1) Classification by Magnetic Source
1) Electromagnetic Iron Remover
2) Permanent-Magnetic Iron Remover
(2) Classification by Magnetic Strength
1) Common Magnetic Iron Remover
2) Super Magnetic Iron Remover
4.1.4 Application Demand for Magnetic Iron Remover
(1) Application in Metallurgy Industry
(2) Application in Site Selection for Coal Plant
(3) Application in Mining Industry
(4) Application in Electrical Plant
(5) Application in Ceramics Industry
(6) Application in Cement Industry
(7) Application in Garbage Treatment
(8) Application in Other Fields
4.1.5 Development Trend for Magnetic Iron Remover
(1) Forecast for Market Capacity
(2) Future Development Trend for Industry
1) Fined Iron Removal
2) High Magnet and High Gradient
3) Energy-saving

4) Controlled Automation
5) Develop High-power Iron Remover
6) Research and Produce New-type Magnetic Iron Remover
4.2 Development Status and Trend of Magnetic Separator
4.2.1 Development of Magnetic Separator Market
(1) Overview of Magnetic Separator
(2) Market Size of Magnetic Separator
(3) Market Pattern of Magnetic Separator
(4) Technology Progress of Magnetic Separator
1) Development of Modern
2) New Technology Trend for Magnetic Separator
4.2.2 Product Market Classification by Magnetic Strength
(1) Low-Intensity Magnetic Separator Market
1) Dry Low-Intensity Magnetic Separator
2) Wet Low-Intensity Magnetic Separator
(2) Middle-Intensity Magnetic Separator
(3) High-Intensity Magnetic Separator
1) Dry High-Intensity Magnetic Separator
2) Wet High-Intensity Magnetic Separator
(4) High Gradient Magnetic Separator
1) High Gradient Electromagnetic Separator
2) High Gradient Permanent Magnetic Separator
3) Superconductive Magnetic Iron Remover
4.2.3 Product Market Classification by Magnetic Source
(1) Permanent-Magnetic Separator
1) Performance of Permanent-Magnetic Separator
2) Application Demand for Permanent-Magnetic Separator
3) Research Progress of Permanent-Magnetic Separator
4) Major Problems in Permanent-Magnetic Separator
5) Development Prospects for Permanent-Magnetic Separator
(2) Electromagnetic Separator Market
1) Application Status of Electromagnetic Separator
2) Market Pattern of Electromagnetic Separator
3) Development Trend for Electromagnetic Separator
4.2.4 Downstream Demand for Magnetic Separator
(1) Application in Mineral Processing
1) Magnetic Separation of Iron Ore
2) Magnetic Separation of Manganese Ore
3) Magnetic Separation of Non-ferrous and Rare Metal Ore
4) Recycling of Rare Earth and Rare/Precious Metal
(2) Application in Environmental Protection
1) Application in Waste Water Treatment
2) Application in Waste Solid Treatment
3) Application in Waste Gas Treatment
(3) Application in Other Fields
1) Application in Chemical Industry
2) Application in Medical Science
3) Application in Biology
4) Application in Energy
4.2.5 Development Trend for Magnetic Separator Market
(1) Prospect Forecast for Magnetic Separator Market
(2) Development Trend for Magnetic Separator Market
1) Equipment Refinement
2) Equipment Specialization
3) Equipment Large-scalization
4) Equipment Updating
5) Equipment Automation
4.3 Development Status and Trend for Magnetic Stirrer Market
4.3.1 Development Status of Magnetic Stirrer Market

(1) Basic Concept of Magnetic Stirrer
(2) Application Status of Magnetic Stirrer
(3) Application Benefit of Magnetic Stirrer
(4) Market Size of Magnetic Stirrer
4.3.2 Development of Electromagnetic Stirrer (EMS) Market
(1) Development of EMS Technology
1) Foreign Technical Development History
2) Domestic Technical Development History
(2) Application of EMS Technology
1) Application in Continuous Steel Casting
2) Application in Aluminum Smelting
3) Key Problems in Application
(3) Overall Market Information of EMS
1) EMS Market Overview
2) EMS Market Pattern
3) EMS R&D Situation
4) EMS Market Trend EMS
(4) Analysis of Steel Continuous Casting EMS Integrated System
1) Configuration of Steel Continuous Casting EMS Integrated System
2) Market Demand for Steel Continuous Casting EMS Integrated System
3) Competitive Landscape of Steel Continuous Casting EMS Integrated System
4) Forecast for Domestic Continuous Casting EMS Market
5) Forecast for International Continuous Casting EMS Market
4.3.3 Development of Permanent Magnetic Stirrer Market
(1) Development of Permanent Magnetic Stirrer Technology
1) Advantages of Permanent Magnetic Stirrer Technology
2) Energy-saving of Permanent Magnetic Stirrer Technology
3) R&D Application of Permanent Magnetic Stirrer Technology
(2) Contrast between Permanent Magnetic Stirrer and Electromagnetic Stirrer
1) Stirring Principle and Effect
2) Price Contrast for Product
3) Energy Consumption Contrast for Product
4) Contrast for Cooling Method
5) Equipment Composition and Common Trouble Spot
(3) Development of Permanent Magnetic Stirrer Market
1) Development History of Permanent Magnetic Stirrer
2) Market Pattern of Permanent Magnetic Stirrer
3) R&D Situation of Permanent Magnetic Stirrer
4) Market Trend for Permanent Magnetic Stirrer
4.3.4 Prospect Forecast for Permanent Magnetic Stirrer Market
(1) Forecast for Overall Market Size
(2) Prospect Forecast for Permanent Magnetic Stirrer
1) Prospect Forecast for Electromagnetic Stirrer
2) Prospect Forecast for Permanent Magnetic Stirrer
4.4 Development Status and Trend for
4.4.1 Magnetic Lifting Equipment Market
(1) Overview of Magnetic Lifting Equipment
(2) Market Capacity of Magnetic Lifting Equipment
(3) Market Pattern of Magnetic Lifting Equipment
4.4.2 Market Segments of Magnetic Lifting Equipment
(1) Electromagnetic Lifting Equipment Market
1) Major Features of Electromagnetic Lifting Equipment
2) Application Status of Electromagnetic Lifting Equipment
(2) Permanent Magnet Lifting Equipment
1) Major Features of Permanent Magnet Lifting Equipment
2) Application Status of Permanent Magnet Lifting Equipment
(3) Permanent Magnet Electronic Control Lifting Equipment Market
1) Development History of Permanent Magnet Electronic Control Lifting Equipment
2) Application Status of Permanent Magnet Electronic Control Lifting Equipment

3) Market Trend for Permanent Magnet Electronic Control Lifting Equipment
4.4.3 Development Trend for Permanent Magnet Electronic Control Lifting Equipment Market
Chapter 5: Analysis of Demand Potentials for Magnetic Application Equipment Industry
5.1 Distribution of Downstream Applications of Magnetic Application Equipment Industry
5.2 Magnetic Application Equipment Demand Potentials for Coal Industry
5.2.1 Application of Magnetic Application Equipment
5.2.2 Demand Size of Magnetic Application Equipment
(1) Statistics of Coal Production in China s
(2) FAI for Coal Industry
(3) Equipment Purchases for Coal Industry
(4) Demand Size of Magnetic Application Equipment
5.2.3 Demand Forecast for Magnetic Application Equipment
(1) “Twelfth Five-year” Plan for Coal Industry
(2) Demand Forecast for Magnetic Application Equipment
5.3 Magnetic Application Equipment Demand Potentials for Steel Industry
5.3.1 Application of Magnetic Application Equipment
(1) Application Demand for Steel Industry
(2) Case Study of Steel Industry
5.3.2 Demand Size of Magnetic Application Equipment
(1) Statistics of Steel Production in China
(2) FAI for Steel Industry
(3) Equipment Purchases for Steel Industry
(4) Demand Size of Magnetic Application Equipment
5.3.3 Demand Prospect Forecast for Magnetic Application Equipment
(1) “Twelfth Five-year” Plan for Steel Industry
(2) Demand Forecast for Magnetic Application Equipment
5.4 Magnetic Application Equipment Demand Potentials for Non-ferrous Metal Industry
5.4.1 Application of Magnetic Application Equipment
5.4.2 Demand Size of Magnetic Application Equipment
(1) Statistics of Non-ferrous Metal Production in China
(2) FAI for Non-ferrous Metal Industry
(3) Equipment Purchases for Non-ferrous Metal Industry
(4) Demand Size of Magnetic Application Equipment
5.4.3 Demand Prospect Forecast for Magnetic Application Equipment
(1) “Twelfth Five-year” Plan for Non-ferrous Metal Industry
(2) Demand Prospect Forecast for Magnetic Application Equipment
5.5 Magnetic Application Equipment Demand Potentials for Cement Industry
5.5.1 Application of Magnetic Application Equipment
5.5.2 Demand Size of Magnetic Application Equipment
(1) Statistics of Cement Production in China
(2) FAI for Cement Industry
(3) Equipment Purchases for Cement Industry
(4) Demand Size of Magnetic Application Equipment
5.5.3 Demand Prospect Forecast for Magnetic Application Equipment
(1) “Twelfth Five-year” Plan for Cement Industry
(2) Demand Prospect Forecast for Magnetic Application Equipment
5.6 Magnetic Application Equipment Demand Potentials for Environmental Protection Industry
5.6.1 Development Status of China Environmental Protection Industry
(1) Development Status of Waste Water Treatment Industry
(2) Development Status of Waste Solid Treatment Industry
(3) Development Status of Waste Gas Treatment Industry
5.6.2 Demand Potentials for Magnetic Application Equipment in China
(1) Application Case of Magnetic Application Equipment in China
(2) Application Potentials for Magnetic Application Equipment in China
1) Development Prospects for Environmental Protection Industry
2) Demand Forecast for Magnetic Application Equipment
5.7 Magnetic Application Equipment Demand Potentials for Pharmaceutical Industry
5.7.1 Development Status of Pharmaceutical Industry in China
5.7.2 Application Potentials for Magnetic Application Equipment in China

(1) Prospect Forecast for Developing Pharmaceutical Industry
(2) Demand Forecast for Magnetic Application Equipment
5.8 Magnetic Application Equipment Demand Potentials for Other Industries
5.8.1 Magnetic Application Equipment Demand Potentials for Electricity Industry
(1) Development Status of Electricity Industry
(2) Application of Magnetic Application Equipment
(3) Demand Prospects for Magnetic Application Equipment
5.8.2 Magnetic Application Equipment Demand Potentials for Transport Industry
(1) Development Status of Transport Industry
(2) Application of Magnetic Application Equipment
(3) Demand Prospects for Magnetic Application Equipment
5.8.3 Magnetic Application Equipment Demand Potentials for Chemical Industry
(1) Development Status of Chemical Industry
(2) Application of Magnetic Application Equipment
(3) Demand Prospects for Magnetic Application Equipment
5.8.4 Magnetic Application Equipment Demand Potentials for Food Industry
(1) Development Status of Food Industry
(2) Application of Magnetic Application Equipment
(3) Demand Prospects for Magnetic Application Equipment
5.8.5 Magnetic Application Equipment Demand Potentials for Ceramics Industry
(1) Development Status of Ceramics Industry
(2) Application of Magnetic Application Equipment
(3) Demand Prospects for Magnetic Application Equipment
5.8.6 Magnetic Application Equipment Demand Potentials for Military Industry
5.9 Export Potentials for Magnetic Application Equipment Industry
5.9.1 International Competitiveness of China Magnetic Application Equipment
5.9.2 International Market Demand for Magnetic Application Equipment
5.9.3 Export Prospect Forecast for Magnetic Application Equipment
5.10 “Twelfth Five-year” Demand Forecast for Magnetic Application Equipment
Chapter 6: Research on Transformation Upgrading and Strategy for Magnetic Application Equipment Industry
6.1 Transformation/Upgrading Background and Paths for China Manufacturing Industry
6.1.1 Transformation/Upgrading Background for China Manufacturing Industry
6.1.2 Major Paths for China Manufacturing Industry
(1) Transformation of Corporate Profit Model
(2) Transformation of Corporate Positioning
(3) Transformation of Corporate Operation Model
6.1.3 Basic Conditions Should Be Equipped with Corporate Transformation and Upgrading
6.2 Urgency and Priority of Transforming and Upgrading Magnetic Application Equipment Industry
6.2.1 Urgency of Industry Transformation and Upgrading
(1) Challenges Confronted by Industry Development
1) Insufficient Self-Innovation Capability
2) Lack of R&D Basis and Public R&D Test Platform
3) Product Level Improvement Restrained by Base Material and Basic Process
4) Difficulties in Promoting and Applying for Self-innovated Product
(2) Industry Transformation and Upgrading Is Imminent
6.2.2 Priority of Industry Transformation and Upgrading
(1) Design Informationization
(2) Equipment Intelligence
(3) Process Automation
(4) Management Modernization
(5) Vigorously Develop High-end Magnetic Application Equipment
6.3 Key Factors and Strategies of Transforming and Upgrading Magnetic Application Equipment Industry
6.3.1 Key Factors of Industry Transformation and Upgrading
(1) Close Relation between Transformation/Upgrading and Corporate Self-innovation
(2) Research on Influencing Factors of Corporate Self-innovation
(3) Other Influencing Factors of Corporate Transformation and Upgrading
6.3.2 Research on Strategy for Industry Transformation and Upgrading
(1) Strategy Selection for Industry Transformation and Upgrading

1) from Export to Domestic Sales
2) from OEM to OBM
3) from Low-end to High-end
4) from Manufacturing to Service
5) Integrating Industrial Chain Resources
6) from Extensive Operation to Refined Operation
(2) Risk Control for Industry Transformation and Upgrading
1) Potential Risks in Industry Transformation and Upgrading
2) Risk Control for Industry Transformation and Upgrading
Chapter 7: Investment and Suggestions for Magnetic Application Equipment Industry
7.1 SWOT Analysis of Magnetic Application Equipment Industry
7.1.1 Advantages
7.1.2 Disadvantages
7.1.3 Opportunities
7.1.4 Threats
7.2 Investment Potentials for Magnetic Application Equipment Industry
7.2.1 Investment Opportunities for Industry
(1) Investment Environment Overview
(2) Investment Opportunities
7.2.2 Investment Value for Industry
(1) Forecast for Profitability
(2) Investment Value
7.3 Investment Risk Warning for Magnetic Application Equipment Industry
7.3.1 Policy Risk
7.3.2 Competition Risk
7.3.3 Operation Risk
7.3.4 Other Risks
7.4 Major Investment Strategies for Magnetic Application Equipment Industry
7.4.1 Investment Categories
7.4.2 Investment Regions
7.4.3 Investment Means
7.4.4 Methods of Avoiding Risk
Chapter 8: Analysis of Operation of Leading Enterprises in Magnetic Application Equipment Industry
8.1 Overall Development Information
8.1.1 Ranking of Magnetic Application Equipment Enterprises by Size
(1) Ranking of Production Size
(2) Ranking of Sales Size
(3) Ranking of Total Profit
8.1.2 Innovation Capability of Magnetic Application Equipment Enterprise
8.1.3 Comprehensive Competitiveness Ranking of Magnetic Application Equipment Enterprise
(1) Explanation of Principle Component Analysis Method
(2) Assessment Index of Corporate Comprehensive Competitiveness
(3) Ranking of Corporate Comprehensive Competitiveness
