# China Construction Quality Testing Industry Indepth Market Research and Competitive Strategy Report, 2013-2017

## 目 录

*CONTENTS*

Chapter 1: Overview of China Construction Quality Testing Industry
1.1 Definition of Construction Quality Testing Industry
1.1.1 Definition of Construction Quality Testing Industry
1.1.2 Content of Construction Quality Testing Industry
1.1.3 Institutions of Construction Quality Testing Industry
(1) Definition of Quality Testing Institutions
(2) Status of Quality Testing Institutions
(3) Relationship between the Institutions and other Institutions
(4) Responsibility and Obligation of Quality Testing Institutions
1.2 Characteristics of Construction Quality Testing Industry
1.2.1 Analysis of Industry Nature
1.2.2 Regional Characteristics of the Industry
1.2.3 Periodicity of the Industry
Chapter 2: Development Environment of China Construction Quality Testing Industry
2.1 Analysis of Policy Environment
2.1.1 Administrative Departments of the Industry
2.1.2 Supervision System of the Industry
2.1.3 Policies and Laws of the Industry
2.2 Analysis of Economic Environment
2.2.1 Development Status of National Economy
(1) Analysis of GDP Growth
(2) Analysis of Fixed Capital Investment
2.2.2 Development Forecast of National Economy
2.2.3 Influence of National Economic Development to the Industry
2.3 Analysis of the Industry Environment
2.3.1 Development Trend of Construction Industry
(1) Output Value Growth of Construction Industry
(2) Operating Benefit of Construction Industry
(3) Regional Structure of Construction Industry Development
2.3.2 Influence of the Industry Development to Construction Industry
2.4 Analysis of Social Environment
2.4.1 Security Problems of Construction Quality
2.4.2 Constant Growth of Quality awareness
2.4.3 Government Increases Supervision upon Construction Quality
2.5 Analysis of Technological Environment
2.5.1 Overall Status of the Industry Patented Technologies
2.5.2 Analysis of the Industry Patent Applicants
2.5.3 Analysis of the fields of Patent Technologies
Chapter 3: Development of Construction Quality Testing Industry at Home and Abroad
3.1 Development Experiences of Construction Quality Testing Industry at Home and Abroad
3.1.1 Status of Construction Quality Testing in Major Countries or Regions
(1) Status of Construction Quality Testing in Germany
(2) Status of Construction Quality Testing in British
(3) Status of Construction Quality Testing in France
(4) Status of Construction Quality Testing in America
(5) Status of Construction Quality Testing in Hong Kong
3.1.2 Development Experiences of Oversea Construction Quality Testing Industry
3.2 Development of Oversea Construction Quality Testing Institutions
3.2.1 Bureau Veritas Certification (BV for short)

(1) Overall Operation
(2) Structure of Earning Activities
(3) Structure of Earning Regions
3.2.2 Intertek
(1) Overall Operation
(2) Structure of Earning Activities
(3) Structure of Earning Regions
3.2.3 TüV Rheinland
(1) Overall Operation
(2) Structure of Earning Activities
(3) Structure of Earning Regions
3.2.4 Société Générale de Surveillance Holding S.A. (SGS for short)
(1) Overall Operation
(2) Structure of Earning Activities
(3) Structure of Earning Regions
**3.3 Development of Construction Quality Testing Industry in China**
3.3.1 Development History of Construction Quality Testing Industry
3.3.2 Development Characteristics of Construction Quality Testing Industry
3.3.3 Development Problems of Construction Quality Testing Industry
(1) Testing Level Can Not Meet the Demands
(2) Operating Mechanism Can Not Fit the Requirements
(3) Government Management of the Industry is Faced with Challenges
Chapter 4: Competitive Structure of China Construction Quality Testing Industry
**4.1 Development Scale of Construction Quality Testing Institution**
4.1.1 Quantity and Scale of Construction Quality Testing Institution
4.1.2 Income Scale of Construction Quality Testing Institution
**4.2 Competition Characteristics of Construction Quality Testing Institution**
4.2.1 Type Structure of Construction Quality Testing Institution
4.2.2 Regional Barriers of Construction Quality Testing Industry
4.2.3 Threats from Substitute Goods of Construction Quality Testing Industry
4.2.4 Bargaining Capability of Construction Quality Testing Institution
**4.3 Development of Third-party Construction Quality Testing Institution**
4.3.1 Necessity of Third-party Construction Quality Testing Institution
4.3.2 Advantages of Third-party Construction Quality Testing Institution
4.3.3 Development Status of Third-party Construction Quality Testing Institution
Chapter 5: Major Business Fields of China Construction Quality Testing Industry
**5.1 Analysis of Foundation Engineering Testing Market**
5.1.1 Major Content of Foundation Engineering Testing
5.1.2 Development Status of Foundation Engineering Industry
5.1.3 Competitive Structure of Foundation Engineering Testing Institutions
**5.2 Analysis of Main Structure Engineering Testing Market**
5.2.1 Major Content of Main Structure Engineering Testing
5.2.2 Development Status of Main Structure Engineering Industry
5.2.3 Competitive Structure of Main Structure Engineering Testing Institutions
**5.3 Analysis of Curtain Wall Engineering Testing Market**
5.3.1 Major Content of Curtain Wall Engineering Testing
5.3.2 Development Status of Curtain Wall Engineering Industry
5.3.3 Competitive Structure of Curtain Wall Engineering Testing Institutions
5.3.4 Technical Progress of Curtain Wall Engineering Testing
**5.4 Analysis of Steel Structure Engineering Testing Market**
5.4.1 Major Content of Steel Structure Engineering Testing
5.4.2 Development Status of Steel Structure Engineering Industry
5.4.3 Competitive Structure of Steel Structure Engineering Testing Institutions
5.4.4 Technical Progress of Steel Structure Engineering Testing
**5.5 Analysis of Indoor Environmental Quality Testing Market**
5.5.1 Air Pollution Status of Indoor Environment in China
5.5.2 Major Content of Indoor Environmental Quality Testing
5.5.3 Development Status of Indoor Environmental Quality Industry
5.5.4 Competitive Structure of Indoor Environmental Quality Testing Institutions

5.5.5 Technical Progress of Indoor Environmental Quality Testing
5.6 Analysis of Construction Intelligent Testing Market
5.6.1 Necessity of Construction Intelligent Testing
5.6.2 Construction Status of Intelligent Buildings
5.6.3 Quality Status of Intelligent Buildings
5.6.4 Testing Status of Intelligent Buildings
5.7 Analysis of Construction Energy Efficiency Inspection Market
5.7.1 Construction Status of Energy Saving Buildings
5.7.2 Status of Construction Energy Efficiency Inspection
5.7.3 Technical Progress of Construction Energy Efficiency Inspection
5.8 Analysis of other Testing Fields
5.8.1 Analysis of Waterproof Material Testing Market
(1) Development Status of Waterproof Material Industry
(2) Quality Status of Waterproof Material
(3) Testing Status of Waterproof Material
5.8.2 Analysis of Wall Material Testing Market
(1) Development Status of Wall Material Industry
(2) Quality Status of Wall Material
(3) Testing Status of Wall Material
5.8.3 Analysis of Windows and Doors Testing Market
(1) Development Status of Windows and Doors Industry
(2) Quality Status of Windows and Doors
(3) Testing Status of Windows and Doors
Chapter 6: Market Demand of China Construction Quality Testing Industry
6.1 Analysis of Highway Engineering Quality Testing Market
6.1.1 Construction Status of Highway Investment
(1) Scale of Highway Investment
(2) Operating Mileage of the Highway
6.1.2 Status of Highway Engineering Quality
6.1.3 Status of Highway Engineering Test Detection
6.1.4 Prospect of Highway Engineering Test Detection
6.2 Analysis of Railway Engineering Quality Testing Market
6.2.1 Construction Status of Railway Investment
(1) Scale of Railway Investment
(2) Operating Mileage of the Railway
6.2.2 Status of Railway Engineering Quality
6.2.3 Status of Railway Engineering Test Detection
6.2.4 Prospect of Railway Engineering Test Detection
6.3 Analysis of Housing Construction Engineering Quality Testing Market
6.3.1 Status of Real Estate Industry
(1) Interpretation of Real Estate Control Policies
(2) Development and Investment of Commercial Housing
(3) Sales of Commercial Housing Market
(4) Price of Commercial Housing
6.3.2 Status of Building Construction Engineering Quality
6.3.3 Status of Building Construction Engineering Quality Testing
6.3.4 Prospect of Building Construction Engineering Quality Testing
6.4 Analysis of Hydraulic Engineering Quality Testing Market
6.4.1 Investment and Construction Status of Hydraulic Engineering
(1) Investment Scale of Hydraulic Engineering
(2) Construction Status of Key Hydraulic Engineering
6.4.2 Status of Hydraulic Engineering Quality
6.4.3 Status of Hydraulic Engineering Quality Testing
6.4.4 Prospect of Hydraulic Engineering Quality Testing
6.5 Analysis of Rail Transport Engineering Quality Testing Market
6.5.1 Construction Status of Rail Transport Investment
(1) Scale of Rail Transport Investment
(2) Operating Mileage of the Rail Transport
6.5.2 Status of Rail Transport Engineering Quality

6.5.3 Status of Rail Transport Engineering Test Detection
6.5.4 Prospect of Rail Transport Engineering Test Detection
**6.6 Analysis of Municipal Engineering Quality Testing Market**
6.6.1 Construction Status of Municipal Investment
(1) Scale of Public Facilities Investment
(2) Construction Status of Key Public Facilities
6.6.2 Status of Municipal Engineering Quality
6.6.3 Status of Municipal Engineering Test Detection
6.6.4 Prospect of Municipal Engineering Test Detection
**6.7 Analysis of other Types of Construction Quality Testing Markets**
6.7.1 Petroleum Engineering Quality Testing Market
(1) Investment and Construction Status of Petroleum Engineering
(2) Status of Petroleum Engineering Quality Testing
(3) Prospect of Petroleum Engineering Quality Testing
6.7.2 Metallurgical Engineering Quality Testing Market
(1) Investment and Construction Status of Metallurgical Engineering
(2) Status of Metallurgical Engineering Quality Testing
(3) Prospect of Metallurgical Engineering Quality Testing
6.7.3 Electric Power Engineering Quality Testing Market
(1) Investment and Construction Status of Electric Power Engineering
(2) Status of Electric Power Engineering Quality Testing
(3) Prospect of Electric Power Engineering Quality Testing
Chapter 7: Development Potential of Regional Construction Quality Testing Industry
**7.1 Development Potential of Construction Quality Testing Industry in Beijing**
7.1.1 Policies and Laws of Construction Quality Testing
7.1.2 Development Trend of Regional Construction Industry
7.1.3 Security Status of Construction Quality
7.1.4 Charging Standard of Construction Quality Testing
7.1.5 Major Institutions of Construction Quality Testing
7.1.6 Development Potentials of Construction Quality Testing
**7.2 Development Potential of Construction Quality Testing Industry in Shanghai**
7.2.1 Policies and Laws of Construction Quality Testing
7.2.2 Development Trend of Regional Construction Industry
7.2.3 Security Status of Construction Quality
7.2.4 Charging Standard of Construction Quality Testing
7.2.5 Major Institutions of Construction Quality Testing
7.2.6 Development Potentials of Construction Quality Testing
**7.3 Development Potential of Construction Quality Testing Industry in Tianjin City**
7.3.1 Policies and Laws of Construction Quality Testing
7.3.2 Development Trend of Regional Construction Industry
7.3.3 Security Status of Construction Quality
7.3.4 Charging Standard of Construction Quality Testing
7.3.5 Major Institutions of Construction Quality Testing
7.3.6 Development Potentials of Construction Quality Testing
**7.4 Development Potential of Construction Quality Testing Industry in Zhejiang Province**
7.4.1 Policies and Laws of Construction Quality Testing
7.4.2 Development Trend of Regional Construction Industry
7.4.3 Security Status of Construction Quality
7.4.4 Charging Standard of Construction Quality Testing
7.4.5 Major Institutions of Construction Quality Testing
7.4.6 Development Potentials of Construction Quality Testing
**7.5 Development Potential of Construction Quality Testing Industry in Shandong Province**
7.5.1 Policies and Laws of Construction Quality Testing
7.5.2 Development Trend of Regional Construction Industry
7.5.3 Security Status of Construction Quality
7.5.4 Charging Standard of Construction Quality Testing
7.5.5 Major Institutions of Construction Quality Testing
7.5.6 Development Potentials of Construction Quality Testing
**7.6 Development Potential of Construction Quality Testing Industry in Guangdong Province**

7.6.1 Policies and Laws of Construction Quality Testing
7.6.2 Development Trend of Regional Construction Industry
7.6.3 Security Status of Construction Quality
7.6.4 Charging Standard of Construction Quality Testing
7.6.5 Major Institutions of Construction Quality Testing
7.6.6 Development Potentials of Construction Quality Testing
**7.7 Development Potential of Construction Quality Testing Industry in Hunan Province**
7.7.1 Policies and Laws of Construction Quality Testing
7.7.2 Development Trend of Regional Construction Industry
7.7.3 Security Status of Construction Quality
7.7.4 Charging Standard of Construction Quality Testing
7.7.5 Major Institutions of Construction Quality Testing
7.7.6 Development Potentials of Construction Quality Testing
**7.8 Development Potential of Construction Quality Testing Industry in Sichuan Province**
7.8.1 Policies and Laws of Construction Quality Testing
7.8.2 Development Trend of Regional Construction Industry
7.8.3 Security Status of Construction Quality
7.8.4 Charging Standard of Construction Quality Testing
7.8.5 Major Institutions of Construction Quality Testing
7.8.6 Development Potentials of Construction Quality Testing
**7.9 Development Potential of Construction Quality Testing Industry in Chongqing City**
7.9.1 Policies and Laws of Construction Quality Testing
7.9.2 Development Trend of Regional Construction Industry
7.9.3 Security Status of Construction Quality
7.9.4 Charging Standard of Construction Quality Testing
7.9.5 Major Institutions of Construction Quality Testing
7.9.6 Development Potentials of Construction Quality Testing
**7.10 Development Potential of Construction Quality Testing Industry in Guangxi Province**
7.10.1 Policies and Laws of Construction Quality Testing
7.10.2 Development Trend of Regional Construction Industry
7.10.3 Security Status of Construction Quality
7.10.4 Charging Standard of Construction Quality Testing
7.10.5 Major Institutions of Construction Quality Testing
7.10.6 Development Potentials of Construction Quality Testing
Chapter 8: Investment Prospect and Risks Analysis of Construction Quality Testing Industry
**8.1 Development Prospect Forecast of Construction Quality Testing Industry**
8.1.1 Development Trend of the Industry
8.1.2 Development Opportunities and Threats
8.1.3 Development Forecast of the Industry
**8.2 Investment Barriers of Construction Quality Testing Industry**
8.2.1 Barrier of Qualification for the Industry
8.2.2 Barrier of Talents and Technology
8.2.3 Barrier of Fixed Capital Investment
8.2.4 Barrier of Corporation Brands
**8.3 Investment Risks of Construction Quality Testing Industry**
8.3.1 Risk of Macro-economy Fluctuation
8.3.2 Risk of National Policy Fluctuation
8.3.3 Risk of Industry and Market Competition
8.3.4 Risk of Shortage of Highly-competent People
8.3.5 Quality Testing Accident Affects Corporations' Reputation
**8.4 Investment Suggestions to Construction Quality Testing Industry**
8.4.1 Latest Investment Trend of the Industry
8.4.2 Investment Opportunities of the Industry
8.4.3 Major Investment Suggestions to the Industry
