

China Coal Trade Industry Report (2016–2021), Development Prospect and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Summary of development of coal trade industry

1.1 concept and features of coal trade

1.1.1 concept of coal trade

1.1.2 market characteristics of coal trade

1.2 analysis of market environment of coal trade industry

1.2.1 analysis of policy environment of coal trade industry

1.2.2 analysis of economic environment of coal trade industry

(1) analysis of the international macroeconomic environment

1) status quo of the international macroeconomic situation

2) forecast of the international macroeconomy

(2) analysis of the domestic macroeconomic environment

1) status quo of the domestic macroeconomic situation

2) forecast of the domestic macroeconomy

1.3 analysis of opportunities and threats of China's coal trade industry

Chapter 2: International coal trade patterns and market outlook

2.1 overall situation of the international coal trade market

2.1.1 overview of the international coal resources

(1) global coal reserves

(2) global distribution of coal resources

(3) analysis of global coal production and sales

1) coal output

2) coal consumption volume

2.1.2 status quo of the international coal trade

(1) total coal trade volume

(2) coal price trends

(3) operation method of coal trade

(4) settlement method of coal trade

2.1.3 status quo of the international trade of coal assets

(1) total value of the international trade of coal assets

(2) major coal asset selling countries

2.2 analysis of market of the international coal trade circle

2.2.1 Pacific coal trade circle

(1) analysis of coal output and export volume of major exporting regions

1) Australia

2) Indonesia

3) Vietnam

(2) analysis of coal consumption and import volume of major importing regions

1) Japan

2) South Korea

3) India

4) Taiwan

2.2.2 Atlantic coal trade circle

(1) analysis of coal output and export volume of major exporting regions

1) South Africa

2) Columbia

3) Canada

4) Russia

5) United States

(2) analysis of coal consumption and import volume of major importing regions

- 1) United Kingdom
- 2) Germany
- 3) Spain

2.3 analysis and forecast of market of subdivided products of the international coal trade

2.3.1 analysis and forecast of the international coking coal market

(1) analysis of the international coking coal market

- 1) analysis of coking coal trade
- 2) analysis of coking coal exporters
- 3) analysis of coking coal importers
- 4) analysis of coking coal prices

(2) forecast of the international coking coal

2.3.2 analysis and forecast of the international thermal coal market

(1) analysis of the international steam coal market

- 1) analysis of steam coal trade
- 2) analysis of steam coal exporters
- 3) analysis of steam coal importers
- 4) analysis of steam coal prices

(2) forecast of the international steam coal

2.4 forecast of supply and demand of the international coal trade market

2.4.1 forecast of export volume of the international major coal exporters

2.4.2 forecast of import volume of the international major coal importers

Chapter 3: China's coal trade patterns and market outlook

3.1 analysis of China's coal supply and demand balance

3.1.1 analysis of scale of coal supply

- (1) analysis of coal reserves
 - 1) analysis of the scale of reserves
 - 2) the distribution of varieties of coal reserves
 - 3) the regional distribution of coal reserves
- (2) analysis of coal output

3.1.2 analysis of scale of coal demand

- (1) analysis of national raw coal sales
- (2) analysis of the apparent consumption volume of coal
- (3) analysis of structure of coal consumption
 - 1) structure of coal consumption
 - 2) coal demand in the four major coal-consuming fields

3.1.3 analysis of supply and demand balance of coal

- (1) analysis of production and sales rate of coal
- (2) analysis of coal inventory
 - 1) social inventory
 - 2) port inventory
 - 3) plant inventory

3.2 overall situation of China's import and export trade of coal

3.2.1 overall situation of import and export of coal

3.2.2 features of import and export trade of coal

3.2.3 status quo of coal export and market outlook

- (1) analysis of coal export volume
- (2) analysis of the flow of coal export
 - 1) analysis of China's coal export to Japan
 1. analysis of China's coal export to South Korea
 2. analysis of China's coal export to Taiwan
 3. analysis of China's coal export to other regions
- (3) analysis of export volume and price of subdivided products of coal
 - 1) export volume and price of anthracite
 - 2) export volume and price of coking coal
 - 3) export volume and price of thermal coal
- (4) market outlook of China's coal export

3.2.4 status quo of China's coal import and market outlook

- (1) analysis of volume of coal import
- (2) prices of coal import

- (3) analysis of sources of coal import
 - 1) analysis of China' s import of Indonesian coal
 - 1. analysis of China' s import of Australian coal
 - 2. analysis of China' s import of Vietnamese coal
 - 3. analysis of China' s import of Mongolian coal
 - 4. analysis of China' s import of Russian coal
- (4) analysis of import volume and price of subdivided products of coal
 - 1) import volume and price of anthracite
 - 2) import volume and price of coking coal
 - 3) import volume and price of steam coal
- (5) market outlook of China' s coal import

3.3 analysis of factors influencing China' s coal import and export trade

- 3.3.1 the economic situation at home and abroad
- 3.3.2 strategy of energy internationalization
- 3.3.3 coal import and export policy
- 3.3.4 domestic coal supply and demand
- 3.3.5 changes of the international coal prices
- 3.3.6 changes of the international dry bulk shipping market
- 3.3.7 other factors such as weather disasters

Chapter 4: Status quo of development and forecast of coal trade transport industry

4.1 status quo and forecast of the international seaborne coal trade market

- 4.1.1 analysis of the international dry bulk shipping market
 - (1) factors influencing the dry bulk freight
 - (2) analysis of freight of dry bulk transport ship
 - 1) analysis of freight of panamax
 - 2) analysis of freight of Capesize
 - (3) forecast of dry bulk shipping price trend
 - (4) trade risks brought by price volatility of dry bulk shipping trade
- 4.1.2 analysis of the global seaborne coal market
 - (1) analysis of coal seaborne trade volume
 - (2) analysis of the supply and demand of coal capacity
- 4.1.3 introduction of the major international coal ports
 - (1) Pwcs-kooragang
 - (2) Electro-Coal Transfer
 - (3) Richards Bay Port
 - (4) West - Gulf Shores
 - (5) Ciudad Bolivar Port
 - (6) Antwerp
 - (7) Port of Rotterdam
 - (8) Bristol Harbor

4.2 status quo and forecast of China' s coal shipping market

- 4.2.1 analysis of China' s dry bulk shipping market
 - (1) China' s coastal (bulk) freight index
 - (2) factors influencing China' s coastal (bulk) freight index
 - (3) analysis of China' s coal shipping fleet
- 4.2.2 analysis of China' s port transport market
 - (1) analysis of coal port traffic
 - (2) coal throughput of coastal ports
 - (3) analysis of China' s major coal ports' capacity and development
 - 1) Qinhuangdao Port
 - 2) Tianjin Port
 - 3) Jingtang Port
 - 4) Rizhao Port
 - 5) Lianyungang Port
 - 6) Huanghua Port
 - 7) Shanghai Port
 - 8) Ningbo Port
 - 9) Guangzhou Port
- 4.2.3 forecast of China' s coal seaborne market

4.3 analysis of other modes of transport of China's coal trade

4.3.1 analysis of development of coal rail transport

- (1) analysis of the coal rail transport market
 - 1) average daily coal loading
 - 2) coal rail traffic
 - 3) price of coal rail transport
 - (2) analysis of the pattern of railway transportation of coal
 - (3) analysis of flow of coal railway transportation
 - 1) analysis of flow of railway transportation of coal of "3 wests"
 - 2) analysis of flow of railway transportation of coal of other regions
 - (4) analysis of coal rail transport lines
 - 1) analysis of 3 large coal transport railway corridors
 - 2) analysis of coal transportation capacity of the Datong-Qinhuangdao railway
 - 3) analysis of Shenchhi-Shenshuo line and lines in central and southern Shanxi
 - 4) analysis of transportation capacity of Shaanxi and Inner Mongolia railways
 - 5) analysis of coal transportation capacity of passenger line
 - (5) forecast of railway transportation of coal
 - 1) problems of railway transportation of coal
 - 2) development planning of railway transportation of coal
 - 3) forecast of railway transportation of coal
- ##### 4.3.2 analysis of development of road transportation of coal
- (1) analysis of price of road transportation of coal
 - (2) analysis of adaptability of road transportation of coal
 - (3) forecast of road transportation of coal

Chapter 5: Analysis of China's coal trade industry in key regions

5.1 analysis of major coal export regions

- ##### 5.1.1 overall development of coal in "3 wests"
- (1) analysis of output of coal in "3 wests"
 - (2) analysis of export volume of coal in "3 wests"
- ##### 5.1.2 analysis of coal transportation in Shanxi
- (1) analysis of coal resource reserves in Shanxi
 - (2) distribution of coal resources in Shanxi
 - (3) overview of major types of coal in Shanxi
 - (4) analysis of production scale of coal in Shanxi
 - (5) analysis of sales scale of coal in Shanxi
 - (6) analysis of coal transportation in Shanxi
 - (7) "twelfth-five year plan" of coal in Shanxi
- ##### 5.1.3 analysis of coal transportation in Shaanxi
