

China Intelligent Building Industry Report (2016–2021), Development Prospect and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Concept of intelligent building and overview of its development

- 1.1 definition of intelligent building industry
 - 1.1.1 concept of intelligent building
 - 1.1.2 research object in the report
 - 1.1.3 intelligent building market
- 1.2 components of intelligent building system
- 1.3 overview of development of China's intelligent building
 - 1.3.1 development course of China's intelligent building
 - 1.3.2 unbalanced regional development of intelligent building
- 1.4 analysis of development of foreign intelligence building
 - 1.4.1 time distribution of foreign introduction of intelligent building
 - 1.4.2 difference of foreign understandings of intelligent building
 - 1.4.3 difference of foreign green building rating system
 - 1.4.4 foreign intelligent building enterprises' business in China

Chapter 2: Analysis of development environment of intelligent building

- 2.1 analysis of economic environment
 - 2.1.1 domestic macroeconomic situation and trends
 - 2.1.2 relationship between intelligent building and macroeconomy
- 2.2 analysis of policy environment
 - 2.2.1 departments in charge and regulatory regime of the industry
 - 2.2.2 major laws, regulations and policies of the industry
- 2.3 analysis of technical environment
 - 2.3.1 analysis of quantity of patent applications of intelligent building technology
 - 2.3.2 analysis of patent applicants of intelligent building technology
 - 2.3.3 analysis of development of hot intelligent building technologies

Chapter 3: Analysis of development of China's intelligent building industry

- 3.1 analysis of development of China's intelligent building industry
 - 3.1.1 analysis of corporate scale of intelligent building industry
 - 3.1.2 analysis of market scale of intelligent building industry
 - (1) overall market scale of intelligent building industry
 - (2) subdivided market scale of intelligent building industry
 - 1) market scale of public intelligent building
 - 2) market scale of industrial intelligent building
 - 3) market scale of residential intelligent building
 - 3.1.3 the proportion of intelligent building in new buildings
 - 3.1.4 obvious market regionalization of intelligent building enterprise
- 3.2 analysis of competition of China's intelligent building industry
 - 3.2.1 analysis of competitive landscape of intelligent building industry
 - 3.2.2 analysis of competitive strength of intelligent building industry
 - (1) analysis of competition within existing enterprises
 - (2) analysis of the bargaining power of upstream suppliers
 - (3) analysis of the bargaining power of downstream buyers
 - (4) analysis of the threat of new market entrants
 - (5) analysis of the threat of substitute products
 - 3.2.3 analysis of competitive trends of intelligent building industry

Chapter 4: Analysis of the development of subdivided markets of China's intelligent building

- 4.1 analysis of building automation system market
 - 4.1.1 introduction of building automation system and its applications

- 4.1.2 development course of building automation system
- 4.1.3 market scale of building automation system
 - (1) market scale of building automation system
 - (2) market scale of fire & security products
 - (3) market scale of low-voltage distribution products
 - (4) market scale of intelligent lighting products
- 4.1.4 market competitive position of building automation
 - (1) market competitive position of building automation system
 - (2) market competitive position of fire & security products
 - (3) market competitive position of low-voltage distribution products
 - (4) market competitive position of intelligent lighting products
- 4.1.5 analysis of cost of building automation project
- 4.1.6 market capacity of building automation system
- 4.2 analysis of security automation system market**
 - 4.2.1 introduction of security automation system
 - 4.2.2 analysis of security automation market
 - (1) market scale of video surveillance system
 - (2) market scale of access control intercom system
 - (3) market scale of anti-theft alarm system
 - 4.2.3 forecast of security automation market
 - (1) forecast of video surveillance system
 - (2) forecast of access control intercom system
 - (3) forecast of anti-theft alarm system

Chapter 5: Characteristics of investment of China's intelligent building industry

5.1 analysis of characteristics of investment of China's intelligent building industry

- 5.1.1 analysis of barriers to enter intelligent building industry
 - (1) qualification barrier
 - (2) technical barrier
 - (3) financial barrier
 - (4) experience barrier
 - (5) human resource barrier
 - (6) brand barriers
- 5.1.2 analysis of business model of intelligent building industry
- 5.1.3 analysis of profit factor of intelligent building industry

5.2 risks of investment of China's intelligent building industry

- 5.2.1 policy risk
- 5.2.2 technical risk
- 5.2.3 competition risk
- 5.2.4 risk of macroeconomic volatility
- 5.2.5 risk of related industries
