

China Internal Combustion Engine and Accessories Manufacturing Industry Transformation & Upgrading Report, 2013–2017

目 录

CONTENTS

Chapter 1: Development Overview of China Internal Combustion Engine and Accessories Manufacturing Industry

- 1.1 Industry Definition and Classification**
 - 1.1.1 Industry Concept and Definition
 - 1.1.2 Main Product Categories of Industry
 - 1.1.3 Position of Industry in National Economy
- 1.2 Industry Statistical Standards**
 - 1.2.1 Industry Statistical Departments and Statistical Coverage
 - 1.2.2 Industry Statistical Methods
 - 1.2.3 Industry Data Categories
- 1.3 Analysis of Industry Industrial Chain**
 - 1.3.1 Profile of Industry Industrial Chain
 - 1.3.2 Analysis of Main Raw Materials and Fuel Markets
 - (1) Analysis of Steel Market
 - 1) Operation and Price Trend of Steel Market
 - 2) Operation and Price Trend of Casting Market
 - 3) Operation and Price Trend of Forging Market
 - (2) Analysis of Non-ferrous Market
 - 1) Market Status of Non-ferrous
 - 2) Price Trend of Non-ferrous
 - (3) Analysis of Rubber Market
 - 1) Market Status of Rubber
 - 2) Price Trend of Rubber
 - (4) Price Trend of Diesel and Gasoline and Its Impact on Industry
 - 1) Price Trend of Diesel and Its Impact on Industry
 - 2) Price Trend of Gasoline and Its Impact on Industry
 - (5) Impact of Upstream Industries Development on Industry

Chapter 2: Analysis of Market Environment of Internal Combustion Engine and Accessories Manufacturing Industry

- 2.1 Analysis of Industry Policy Environment**
 - 2.1.1 Industry Management System
 - 2.1.2 Standards Related to Industry
 - 2.1.3 Policy Trends Related to Industry
 - 2.1.4 Industry Development Planning
 - 2.1.5 Overview of Policy Environment's Impact on Industry
- 2.2 Analysis of Industry Economic Environment**
 - 2.2.1 Analysis of International Macro-economic Environment
 - (1) International Macro-economy Status
 - (2) International Macro-economy Forecast
 - 2.2.2 Analysis of Domestic Macro-economic Environment
 - (1) GDP Growth
 - (2) Manufacturing Industry Operation Status
 - (3) Development Forecast of Domestic Macro-economy
 - 2.2.3 Overview of Economic Environment's Impact on Industry
- 2.3 Analysis of Industry Social Environment**
 - 2.3.1 Coordination between Industry Development and Social Economy
 - 2.3.2 Unbalanced Development Problems in Industry Development
 - 2.3.3 Overview of Social Environment's Impact on Industry
- 2.4 Analysis of Industry Trading Environment**

2.4.1 Development Status of Industry Trading Environment

2.4.2 Development Trend of Industry Trading Environment

Chapter 3: Analysis of Energy Saving and Emission Reduction of China Internal Combustion Engine and Accessories Manufacturing Industry

3.1 Analysis of Emission Status of Internal Combustion Engine

3.1.1 Emission Pollutants of Internal Combustion Engine and Its Damage

3.1.2 Emission Features of Internal Combustion Engine

(1) Emission Features of Gasoline Engine

(2) Emission Features of Diesel Engine

(3) Factors to Affect Features of Internal Combustion Engine

3.1.3 Laws and Standards Related to Internal Combustion Engine's Emission

(1) Laws and Regulations Related to Internal Combustion Engine's Emission

(2) Standards Related to Internal Combustion Engine's Emission

1) Emission Standards for European Motor Vehicles

2) Release and Implementation of National I、II、III、IV、V Standards

3) Emission Standard System for New Produced Motor Vehicles

4) Emission Standard System for In-use Motor Vehicles

3.2 Analysis of Emission Control Technology for Internal Combustion Engine

3.2.1 Emission Control Technology for Gasoline Engines

(1) Overview

1) Combustion Process of Gasoline Engine

2) Factors to Affect Gasoline Engine Combustion

(2) Main Technological Measures for Emission Control

1) Crank Chamber Emission Control

2) EVAP (Evaporative Emission Control System)

3) EFI (Electronic Fuel Injection)

4) Ignition Control

5) Combustion System Optimization

6) Emerging Combustion System

7) Improvement of Intake System

8) ERG (Exhaust Gas Recirculation)

3.2.2 Emission Control Technologies for Diesel Engines

(1) Overview

1) Differences and Similarities of Diesel Engine and Gasoline Engine Emission Control

Technologies

2) Main Routines for Exhaust Pollution Control of Diesel Engine

3) Strategic Technologies for Emission Control of Diesel Engine

(2) Diesel Combustion System Technology

(3) Diesel Fuel Injection System Technology

(4) Diesel Engine Intake and Exhaust System Technology

(5) EGR (Exhaust Gas Recirculation)

(6) Diesel Engine Electric Control Management Technology

3.2.3 Internal Combustion Engine Exhaust After-treatment Technology

(1) Overview

(2) Gasoline Engine Exhaust After-treatment Technology

1) TWC (Three Way Catalysts)

2) Lean Combustion NO Catalytic Converter

3) New-type After-treatment Technology

(3) Diesel Engine Exhaust After-treatment Technology

1) Oxidation Catalytic Converter

2) DPF (Diesel Particulate Filter) and Regenerative Technology

3) SCR (Selective Catalytic Reduction)

4) SNCR (Selective Non-Catalytic Reduction)

5) Direct Catalytic Decomposition Method

6) Four-Way Catalytic Converter

7) Plasma Application in Diesel Engine Emission

3.2.4 Low-emission Fuels and New Energy

(1) Improvement of Traditional Petroleum Fuel

1) Method to Improve Gasoline Quality

- 2) Method to Improve to Diesel Oil Quality
- (2) Development of New Low-emission Fuels
 - 1) LPG (Liquefied Petroleum Gas)
 - 2) CNG (Compressed Natural Gas)
 - 3) Methane
 - 4) Hydrogen Fuel

3.3 Energy Saving Analysis of Internal Combustion Engine

3.3.1 Background Analysis of Energy Saving for Internal Combustion Engine

- (1) Severe Energy Problems
- (2) National Energy Saving and Emission Reduction Targets
- (3) Consumption Conditions of Internal Combustion Engine

3.3.2 Energy Saving Technologies for Internal Combustion Engine

- (1) Energy Saving Technologies for Gasoline Engine
 - 1) Combustion System Improvement for Conventional Gasoline Engine
 - 2) Well-distributed Mixed Combustion System
 - 3) Well-distributed Pressure Combustion System
- (2) Energy Saving Technologies for Diesel Engine
 - 1) Combustion Chamber and 4-valve Technology
 - 2) Intercooled Supercharger and Variable Cross-section Supercharger
 - 3) Electronic Control

3.4 Analysis of Energy Saving and Emission Reduction Trend and Direction for Internal Combustion Engine

3.4.1 Analysis of Energy Saving and Emission Reduction Technology Trend for Internal Combustion Engine

- (1) What Key Technologies and Optimization Design Can Improve Production of Internal Combustion Engine
- (2) How to Develop Internal Combustion Engines with Comprehensive Combustion System
- (3) Supercharged Technology Should Develop towards Internal Combustion Engines with Small and Medium-sized Power
- (4) Dieselization of Internal Combustion Engine
- (5) Draw up and Continue to Improve Energy Saving and Emission Reduction Standards for Internal Combustion Engine

3.4.2 Analysis of Energy Saving and Emission Reduction Trend for Internal Combustion Engine

Chapter 4: Development Status and Supply and Demand Balance of China Internal Combustion Engine and Accessories Manufacturing Industry

4.1 Analysis of Industry Development Conditions

- 4.1.1 Overall Development Information of Industry
- 4.1.2 Main Development Features of Industry
- 4.1.3 Analysis of Industry Operational Conditions
 - (1) Analysis of Industry Operational Benefits
 - (2) Analysis of Industry Profitability
 - (3) Analysis of Industry Operational Capability
 - (4) Analysis of Industry Debt-paying Ability
 - (5) Analysis of Industry Development Capability

4.2 Analysis of Industry Economic Indicators

- 4.2.1 Major Economic Benefit Influencing Factors to Industry
- 4.2.2 Analysis of Industry Economic Indicators
- 4.2.3 Analysis of Economic Indicators of Enterprises with Different Sizes
- 4.2.4 Analysis of Economic Indicators of Enterprises with Different Economic Properties
- 4.2.5 Analysis of Economic Indicators of Enterprises in Different Regions

4.3 Analysis of Balance between Industry Supply and Demand

- 4.3.1 Analysis of Industry Supply Conditions
 - (1) Analysis of Industry Total Industrial Output Value
 - (2) Analysis of Industry Finished Products
- 4.3.2 Analysis of Industry Supply Conditions in Provinces and Cities
 - (1) Analysis of Top 10 Provinces/Cities with Highest Total Industrial Output Value
 - (2) Analysis of Top Provinces/Cities with Most Finished Products
- 4.3.3 Analysis of Industry Demand Conditions
 - (1) Analysis of Industry Sales Value

- (2) Analysis of Industry Sales Revenue
- 4.3.4 Analysis of Industry Demand Conditions in Provinces and Cities
 - (1) Analysis of Top 10 Provinces/Cities with Highest Sales Value
 - (2) Analysis of Top Provinces/Cities with Highest Sales Revenue
- 4.3.5 Analysis of Industry Production and Marketing Ratio

4.4 Analysis of Industry Import and Export Markets

- 4.4.1 Overview of Industry Import and Export
- 4.4.2 Analysis of Industry Export Market
 - (1) Overall Conditions of Industry Export
 - (2) Analysis of Industry Export Product Structure
- 4.4.3 Analysis of Import Market
 - (1) Overall Conditions of Industry Import
 - (2) Analysis of Industry Import Product Structure

Chapter 5: Analysis of Market Competitive Landscape of Internal Combustion Engine and Accessories Manufacturing Industry

5.1 Analysis of International Market Competition Conditions in Industry

- 5.1.1 Development Conditions of International Market
- 5.1.2 Analysis of Competitive Landscape of International Market
- 5.1.3 Analysis of Development Trend of International Market
- 5.1.4 Investment Layout of Multinationals in China's Market
 - (1) DEUTZ
 - 1) Enterprise Development Profile
 - 2) Main Enterprise Products and New Product Trends
 - 3) Analysis of Enterprise Technology Level
 - 4) Enterprise's Investment Layout in China
 - (2) AVL
 - 1) Enterprise Development Profile
 - 2) Main Enterprise Products and New Product Trends
 - 3) Analysis of Enterprise Technology Level
 - 4) Enterprise's Investment Layout in China
 - (3) CATERPILAR
 - 1) Enterprise Development Profile
 - 2) Main Enterprise Products and New Product Trends
 - 3) Analysis of Enterprise Technology Level
 - 4) Enterprise's Investment Layout in China
 - (4) Cummins
 - 1) Enterprise Development Profile
 - 2) Main Enterprise Products and New Product Trends
 - 3) Analysis of Enterprise Technology Level
 - 4) Enterprise's Investment Layout in China
 - (5) KUBOTA
 - 1) Enterprise Development Profile
 - 2) Main Enterprise Products and New Product Trends
 - 3) Analysis of Enterprise Technology Level
 - 4) Enterprise's Investment Layout in China
- 5.1.5 Analysis of Multinationals' Competitive Strategies in China

5.2 Analysis of Domestic Market Competitive Landscape in Industry

- 5.2.1 Analysis of Industry Overall Competitive Landscape
- 5.2.2 Analysis of Industry Bargaining Power
 - (1) Analysis of Bargaining Power in Upstream Industries
 - (2) Analysis of Bargaining Power in Downstream Industries
- 5.2.3 Analysis of Industry Potential Threats
 - (1) Threats of Industry New Entrants
 - (2) Threats of Industry Substitutes

5.3 Analysis of Industry M&A and Reconstruction

- 5.3.1 Overview of Industry M&A and Reconstruction
 - (1) M&A and Reconstruction Forms for Internal Combustion Engine and Accessories Manufacturing Enterprises
 - (2) M&A and Reconstruction Drivers for Internal Combustion Engine and Accessories Manufacturing

Enterprises

- 5.3.2 Investment, M&A and Reconstruction for Foreign-invested Enterprises
- 5.3.3 Investment, M&A and Reconstruction for Domestic Enterprises
- 5.3.4 Industry Investment, M&A and Reconstruction Trend

5.4 Competition Analysis of Enterprises with Different Economic Types

- 5.4.1 Features Condition of Enterprises with Different Economic Types
- 5.4.2 Concentration Analysis of Economic Types in Industry

5.5 Analysis of Regional Competition in Industry

- 5.5.1 Structure Features of Industry Overall Regions
- 5.5.2 Analysis of Yangtze River Delta Market
- 5.5.3 Analysis of Bohai Rim Market
- 5.5.4 Analysis of Guangxi Market

Chapter 6: Analysis of Product Segments of China Internal Combustion Engine and Accessories Industry

6.1 Main Product Structure Features in Industry

6.2 Analysis of Diesel Engine Market

6.2.1 Analysis of Single Cylinder Diesel Engine Market

- (1) Development History of Single Cylinder Diesel Engine
- (2) Analysis of Production and Marketing Scale of Single Cylinder Diesel Engine
 - 1) Overall Production and Marketing Conditions of Single Cylinder Diesel Engine
 - 2) Enterprise Production and Marketing Conditions of Single Cylinder Diesel Engine
 - 3) Analysis of Regional Concentration of Single Cylinder Diesel Engine
 - 4) Enterprise Export Conditions of Single Cylinder Diesel Engine
 - 5) Product Sales Structure of Single Cylinder Diesel Engine
 - 6) Development Trend of Single Cylinder Diesel Engine Market

6.2.2 Analysis of Small Bore Multi-cylinders Diesel Engine Market

- (1) Development Overview of Small Bore Multi-cylinders Diesel Engine Market
- (2) Analysis of Production and Marketing Scale of Small Bore Multi-cylinders Diesel Engine
 - 1) Overall Production and Marketing Conditions of Small Bore Multi-cylinders Diesel Engine
 - 2) Enterprise Production and Marketing Conditions of Small Bore Multi-cylinders Diesel Engine
- (3) Regional Distribution Conditions of Small Bore Multi-cylinders Diesel Engine
- (4) Production and Marketing Conditions of (2-4 Cylinder) Small Bore Multi-cylinders Diesel

Engine Market

- 1) Production and Marketing Conditions of Small Bore Multi-cylinders Diesel Engine with 2 Cylinders
- 2) Production and Marketing Conditions of Small Bore Multi-cylinders Diesel Engine with 3 Cylinders
- 3) Production and Marketing Conditions of Small Bore Multi-cylinders Diesel Engine with 4 Cylinders
- (5) Development Opportunities for Small Bore Multi-cylinders Diesel Engine Market

6.2.3 Analysis of Medium Multi-cylinders Diesel Engine Market

- (1) Development Overview of Medium Multi-cylinders Diesel Engine Market
 - 1) Product Output and Growth
 - 2) Production and Marketing Conditions of Major Manufacturing Enterprises
- (2) Development Features of Medium Multi-cylinders Diesel Engine Market
- (3) Development Trend of Medium Multi-cylinders Diesel Engine Market

6.3 Analysis of Gasoline Engine Market

6.3.1 Analysis of Multi-cylinder Gasoline Engine Market

- (1) Development Overview of Multi-cylinder Gasoline Engine Market
- (2) Problems in Product Development of Multi-cylinder Gasoline Engine
- (3) Development Trend of Multi-cylinder Gasoline Engine

6.3.2 Analysis of Universal Small Gasoline Engine Market

- (1) Development Overview of Universal Small Gasoline Engine Market
- (2) Regional Market Features of Universal Small Gasoline Engine
- (3) Challenges for Universal Small Gasoline Engine Industry

6.4 Analysis of Internal Combustion Engine Accessories Market

- 6.4.1 Fuel Injection System
- 6.4.2 Filter
- 6.4.3 Cooling Water Pump

- 6.4.4 Cylinder Jacket
- 6.4.5 Piston Ring
- 6.4.6 Electric Appliance of Internal Combustion Engine
- 6.4.7 Heater Exchanger
- 6.4.8 Valve Actuating Mechanism
- 6.4.9 Magneto
