

China Engineering Survey and Design Industry Indepth Research and Investment Strategy Planning Report, 2013–2017

目 录

CONTENTS

Chapter 1: Development Overview of Engineering Survey and Design Industry

1.1 Definition of Engineering Survey and Design Industry

1.2 Position of Engineering Survey and Design Industry

1.2.1 Industry's Guidance for Fixed Asset

1.2.2 Quality of Remarkably Improving Economic Growth in the Industry

1.2.3 Best Ways to Realize Sustainable Growth for Industry

1.2.4 Important Factors to Achieve National Innovative Strategy for Industry

1.3 Systems and Standards of Engineering Survey and Design Industry

1.3.1 Market Entry System of Engineering Survey and Design Industry

(1) Qualification Management Regulations of Construction Engineering Survey and Design Industry

(2) Management Regulations of Foreign Invested Construction Engineering Design Enterprises

(3) Qualification Standards of Engineering Survey by Level

(4) Qualification Standards of Engineering Design

1.3.2 Personal Professional Qualification System of Engineering Survey and Design Industry

(1) Regulations for Registered Architect

(2) Rules for the Implementation of Registered Architect

(3) Management Regulations for Survey and Design Registered Engineers

1.3.3 Standard Specification for Engineering Survey and Design Industry

(1) Standard Specification

(2) Existing Problems in the Course of Implementation of Standard Specification

(3) Major Solution Suggestions

1.3.4 Bidding Regulations for Engineering Survey and Design Industry

(1) Laws and Regulations on Administrative Invitation for Bid and Bid Submission

(2) Documents of Invitation for Bid for Road Engineering Survey and Design

(3) Measures of Invitation for Bid for Water Conservancy Engineering Survey and Design

1.4 Development Factors Analysis of Engineering Survey and Design Industry

1.4.1 Key Variables Analysis of Driving the Development of the Industry

1.4.2 Influencing Factors Analysis of Industry Macro-economy

(1) Influence of Investing System Reform

(2) Influence of Qualification Management

Chapter 2: Analysis of Engineering Survey and Design Industry Development Status

2.1 Overall Development Status of Engineering Survey and Design Industry

2.1.1 Overall Development Status of the Industry

2.1.2 Development Modes and Characteristics of Survey and Design Organizations

2.1.3 System Reform Status and Characteristics of Survey and Design Organizations

2.1.4 Internal Management Status and Characteristics of Survey and Design Organizations

(1) Brand Construction Status

(2) Analysis of Organization Mode

(3) Management Situation of Human Resources

(4) Construction Status of Informationalization

2.2 Competition Structure Analysis of Engineering Survey and Design Industry

2.2.1 Analysis of Competitors within the Industry

2.2.2 Bargaining Power of Suppliers

2.2.3 Bargaining Power of Customers

2.2.4 Analysis of Potential Competitors

2.2.5 Analysis of Substitute Threats

2.3 Merger and Reorganization Status of Engineering Survey and Design Industry

2.3.1 Merger and Reorganization Analysis of Engineering Survey and Design Industry

(1) Analysis of Domestic Enterprise Acquisition and Expansion

- (2) Analysis of Foreign Enterprises Acquisition and Expansion in China
- 2.3.2 Analysis of Major Acquisition and Expansion Modes
- 2.3.3 Selection Factors Analysis of Acquisition and Expansion Modes
 - (1) System Considerations
 - (2) Management Considerations
 - (3) Resource Considerations
 - (4) Government Considerations
 - (5) Risk Considerations
- 2.3.4 Six Trends Forecast for Industry Restructuring and Integration
 - (1) Relevant Entity Enterprises Combined by Central Design Academies
 - (2) Horizontal Merger Conducted by Design Academies for Realizing Scale Effect
 - (3) Mutual Merger and Penetration of Relevant Enterprises in Upstream and Downstream Industrial

Chain

- (4) Foreign Invested Enterprises Entering China's Market by Purchasing China's Design Academies
- (5) SMEs Realizing Integration and Expansion by Various Operational Modes

2.4 Major Problems in Engineering Survey and Design Industry

- 2.4.1 Industry Position and Technical Level Needing to Further Be Improved
- 2.4.2 Survey and Design Market Order Needing to Further Be Standardized
- 2.4.3 General Contracting and Project Management Regulations Needing to Be Optimized
- 2.4.4 Industry Technical Standard Management Needing to Be Strengthened
- 2.4.5 Industry Management System Needing to Be Improved
- 2.4.6 Industry Reform Development Needs to Be Deepened

Chapter 3: Market Segmentation Attractiveness of Engineering Survey and Design Industry

3.1 Analysis of Water Conservancy Survey and Design Market and Investment Opportunities

- 3.1.1 Analysis of Industry Policy
- 3.1.2 Market Development Size
 - (1) Fixed Asset Investment Structure of Water Conservancy Construction
 - (2) Planned Invested Capital Usage Constitution of Water Conservancy Construction
- 3.1.3 Market Competitive Landscape
- 3.1.4 Market Business Structure
- 3.1.5 Analysis of Market Capacity
- 3.1.6 Major Existing Problems
 - (1) Too Large Management Organizations but Too Weak Technical Power
 - (2) Old Management Facilities, and High Manual Degree Proportion in Observing Instrument
- 3.1.7 Market Prospects and Opportunities

3.2 Analysis of Electricity Survey and Design Market and Investment Opportunities

- 3.2.1 Analysis of Industry Policy
 - (1) Notice of Further Strengthening Eliminating Backward Capacity Work
 - (2) Notice of Plan on Renewable Resources Electricity Price Subsidiary and Cap-and-trade Scheme by National Development and Reform Commission, Jan. - Sep., 2010
- 3.2.2 Market Development Size
- 3.2.3 Market Competitive Landscape
- 3.2.4 Market Business Structure
- 3.2.5 Analysis of Market Capacity
- 3.2.6 Major Existing Problems
 - (1) Strong Government Monopoly, and Relatively Low Market Concentration
 - (2) Electricity Survey and Design Industry Market Showing Monopoly Competition Trend
 - (3) Incomplete System Reform of Electricity Survey and Design Industry
- 3.2.7 Market Prospects and Opportunities

3.3 Analysis of Petrol and Chemical Survey and Design Market and Investment Opportunities

- 3.3.1 Analysis of Industry Policy
 - (1) National Geological Exploration Planning
 - (2) National Mineral Resources Planning
 - (3) Protection Law of the People's Republic of China of Petroleum and Gas Pipelines
 - (4) Regulation for Several Questions of Xinjiang Crude Oil and Gas Resources Tax Reform
 - (5) Oil windfall Tax
- 3.3.2 Market Development Size
- 3.3.3 Market Competitive Landscape

- 3.3.4 Analysis of Market Capacity
- 3.3.5 Major Existing Problems
 - (1) Mining Royalty and Recourses Tax/Resources Compensation Fees
 - (2) Differences Among Different Cooperation Modes
- 3.3.6 Market Prospects and Opportunity
- 3.4 Analysis of Civil Construction Survey and Design Market and Investment Opportunity**
 - 3.4.1 Analysis of Industry Policy
 - (1) General Rules for Civil Construction Design
 - (2) Standard for Civil Construction Energy Saving Design
 - 3.4.2 Market Development Size
 - 3.4.3 Market Competitive Landscape
 - 3.4.4 Market Business Structure
 - 3.4.5 Analysis of Market Capacity
 - 3.4.6 Major Existing Problems
 - 3.4.7 Market Prospects and Opportunities
- 3.5 Analysis of Traffic Survey and Design Market and Investment Opportunities**
 - 3.5.1 Market Development Size
 - 3.5.2 Market Competitive Landscape
 - 3.5.3 Analysis of Market Capacity
 - 3.5.4 Major Existing Problems
 - 3.5.5 Market Prospects and Opportunities
- 3.6 Analysis of Municipal Engineering Survey and Design Market and Investment Opportunities**
 - 3.6.1 Analysis of Industry Policy
 - 3.6.2 Market Development Size
 - 3.6.3 Market Competitive Landscape
 - 3.6.4 Market Business Structure
 - 3.6.5 Analysis of Market Capacity
 - 3.6.6 Major Existing Problems
 - 3.6.7 Market Prospects and Opportunities
- 3.7 Analysis of Building Materials Engineering Survey and Design Market and Investment Opportunities**
 - 3.7.1 Analysis of Industry Policy
 - 3.7.2 Market Development Size
 - 3.7.3 Market Competitive Landscape
 - 3.7.4 Analysis of Market Capacity
 - 3.7.5 Major Existing Problems
 - 3.7.6 Market Prospects and Opportunities
- 3.8 Analysis of Analysis of Metallurgy Survey and Design Market and Investment Opportunities**
 - 3.8.1 Analysis of Industry Policy
 - 3.8.2 Market Development Size
 - 3.8.3 Market Competitive Landscape
 - 3.8.4 Analysis of Market Capacity
 - 3.8.5 Major Existing Problems
 - 3.8.6 Market Prospects and Opportunities
- 3.9 Analysis of Communication Design Market and Investment Opportunities**
 - 3.9.1 Analysis of Industry Policy
 - 3.9.2 Market Development Size
 - 3.9.3 Market Competitive Landscape
 - 3.9.4 Market Business Structure
 - 3.9.5 Analysis of Market Capacity
 - 3.9.6 Major Existing Problems
 - 3.9.7 Market Prospects and Opportunities
- 3.10 Analysis of Pharmaceutical Engineering Design Survey and Design Market and Investment Opportunities**
 - 3.10.1 Analysis of Industry Policy
 - 3.10.2 Market Development Size
 - 3.10.3 Market Competitive Landscape
 - 3.10.4 Market Business Structure
 - 3.10.5 Analysis of Market Capacity
 - 3.10.6 Major Existing Problems

3.10.7 Market Prospects and Opportunities

3.11 Analysis of Nuclear Industry Survey and Design Market and Investment Opportunities

3.11.1 Analysis of Industry Policy

3.11.2 Market Development Size

3.11.3 Market Competitive Landscape

3.11.4 Market Business Structure

3.11.5 Analysis of Market Capacity

(1) Analysis of Total Installed Capacity of Nuclear Power

(2) Analysis of Installed Planning of Nuclear Power

3.11.6 Major Existing Problems

(1) Improper Management of Customer Expectation

(2) Improper Service Marketing Communication

(3) Improper Internal Marketing Communication

3.11.7 Market Prospects and Opportunities

Chapter 4: Development Analysis of Regional Markets of Engineering Survey and Design Industry

4.1 Analysis of Shandong Engineering Survey and Design Industry

4.1.1 Analysis of Industry Operation Revenue

4.1.2 Analysis of Industry Total Profit

4.1.3 Analysis of Industry Enterprise Nature

4.1.4 Scientific Activity Investment of the Industry

4.1.5 Employment Size of the Industry

4.1.6 Structure Analysis of Industry Staff

4.2 Analysis of Inner Mongolia Engineering Survey and Design Industry

4.2.1 Industry Development Overview

4.2.2 Increasing Improvement of Survey and Design Technical Level

(1) Survey and Design System Further to Be Deepened, and the Market Order Further to Be Standardized

(2) Current Major Problems in Engineering Survey and Design Industry

4.3 Analysis of Hebei Engineering Survey and Design Industry

4.3.1 Development Status of Hebei Engineering Survey and Design Industry

(1) Competitive Trend of Survey and Design Market

(2) Operation Modes of Engineering Survey and Design Industry

4.3.2 Major Problems in Engineering Survey and Design Industry

(1) Energy Saving and Reduction of Survey and Design

(2) Technical Level of Survey and Design

(3) “Walking Out” Strategies for Survey and Design Enterprises

4.3.3 Solutions to Major Problems in Hebei Engineering Survey and Design Industry

(1) Drawing Up “Twelfth Five-year” Plan of the Industry

(2) Promoting Enterprise Management System and Mechanism Innovation

(3) Promoting Engineering Survey and Design Technology Innovation and Excellence-creating

(4) Strengthening Talent Team Construction

4.4 Analysis of Shaanxi Engineering Survey and Design Industry

4.4.1 Analysis of Industry Operation Revenue

4.4.2 Analysis of Industry Total Profit

4.4.3 Analysis of Industry Enterprise Nature

4.4.4 Scientific Activity Investment of the Industry

4.4.5 Employment Size of the Industry

4.4.6 Structure Analysis of Industry Staff

4.4.7 Major Problems in the Industry

4.5 Analysis of Jiangsu Engineering Survey and Design Industry

4.5.1 Development Size of Engineering Survey and Design Industry

4.5.2 Operation Revenue of Engineering Survey and Design Industry

4.5.3 Excellent Projects of Engineering Survey and Design Industry

4.6 Development Analysis of Fujian Engineering Survey and Design Industry

4.6.1 Size of Engineering Survey and Design Industry

4.6.2 Economic Types of Survey and Design Organizations

4.6.3 Employees of Fujian Engineering Survey and Design Industry

(1) Major Distribution Situation

- (2) Registered Personnel Category
- (3) Job Position Distribution
- 4.6.4 Analysis of Finished Contracted Amount of Fujian Engineering Survey and Design Industry
 - (1) Financial Situation Analysis of Fujian Survey and Design Organizations
 - (2) Scientific Activity Fees of Fujian Survey and Design Organizations

4.7 Development Analysis of Hainan Engineering Survey and Design Industry

- 4.7.1 Industry Size of Engineering Survey and Design Industry
- 4.7.2 Economic Types of Hainan Survey and Design Organizations
- 4.7.3 Operation Revenue of Engineering Survey and Design Industry
- 4.7.4 “Walking Out” Strategies for Hainan Engineering Survey and Design Industry
- 4.7.5 Problems Hainan Engineering Survey and Design Industry Facing
- 4.7.6 Development Suggestions for Hainan Engineering Survey and Design Industry

Chapter 5: Benchmark Enterprises Operational Analysis of Engineering Survey and Design Industry

5.1 Leading Enterprises Analysis of Water Conservancy Survey and Design Industry

- 5.1.1 Operational Situation Analysis of Hydro China Corporation
 - (1) Enterprise Development Size
 - (2) Enterprise Organization Structure
 - (3) Enterprise Main Business and Qualification
 - (4) Enterprise Technology and R&D Capability
 - (5) Enterprise Human Resources
 - (6) Enterprise Engineering Performance
 - (7) Analysis of Enterprise Operational Advantages and Disadvantages
 - (8) Enterprise Latest Development Trend
- 5.1.2 Operational Situation Analysis of China Water Resources Northeastern Design and Research Co., Ltd.
 - (1) Enterprise Development Size
 - (2) Enterprise Organization Structure
 - (3) Enterprise Main Business and Qualification
 - (4) Enterprise Technology and R&D Capability
 - (5) Enterprise Human Resources
 - (6) Enterprise Engineering Performance
 - (7) Analysis of Enterprise Operational Advantages and Disadvantages
 - (8) Enterprise Latest Development Trend
- 5.1.3 Operational Situation Analysis of China Water Resources Pearl River Planning Surveying and Designing Co., Ltd.
 - (1) Enterprise Development Size
 - (2) Enterprise Organization Structure
 - (3) Enterprise Main Business and Qualification
 - (4) Enterprise Technology and R&D Capability
 - (5) Enterprise Human Resources
 - (6) Enterprise Engineering Performance
 - (7) Analysis of Enterprise Operational Advantages and Disadvantages
 - (8) Enterprise Latest Development Trend
- 5.1.4 Operational Situation Analysis of Changjiang Institute of Survey, Design and Research
 - (1) Enterprise Development Size
 - (2) Enterprise Organization Structure
 - (3) Enterprise Main Business and Qualification
 - (4) Enterprise Technology and R&D Capability
 - (5) Enterprise Human Resources
 - (6) Enterprise Engineering Performance
 - (7) Analysis of Enterprise Operational Advantages and Disadvantages
 - (8) Enterprise Latest Development Trend
- 5.1.5 Operational Situation Analysis of Yellow River Engineering Consulting Co., Ltd.
 - (1) Enterprise Development Size
 - (2) Enterprise Organization Structure
 - (3) Enterprise Main Business and Qualification
 - (4) Enterprise Technology and R&D Capability
 - (5) Enterprise Human Resources

- (6) Enterprise Engineering Performance
- (7) Analysis of Enterprise Operational Advantages and Disadvantages
- (8) Enterprise Latest Development Trend

5.2 Leading Enterprises Analysis of Electricity Survey and Design Industry

5.2.1 Operational Situation Analysis of China Power Engineering Consulting Group Corporation

- (1) Enterprise Development Size
- (2) Enterprise Organization Structure
- (3) Enterprise Main Business and Qualification
- (4) Enterprise Technology and R&D Capability
- (5) Enterprise Human Resources
- (6) Enterprise Engineering Performance
- (7) Analysis of Enterprise Operational Advantages and Disadvantages
- (8) Enterprise Latest Development Trend

5.2.2 Operational Situation Analysis of State Nuclear Electric Power Planning Design % Research Institute

- (1) Enterprise Development Size
- (2) Enterprise Organization Structure
- (3) Enterprise Main Business and Qualification
- (4) Enterprise Technology and R&D Capability
- (5) Enterprise Human Resources
- (6) Enterprise Engineering Performance
- (7) Analysis of Enterprise Operational Advantages and Disadvantages
- (8) Enterprise Latest Development Trend

5.2.3 Operational Situation Analysis of Beijing Electric Power Design Institute

- (1) Enterprise Development Size
- (2) Enterprise Organization Structure
- (3) Enterprise Main Business and Qualification
- (4) Enterprise Technology and R&D Capability
- (5) Enterprise Human Resources
- (6) Enterprise Engineering Performance
- (7) Analysis of Enterprise Operational Advantages and Disadvantages

5.2.4 Operational Situation Analysis of Zhejiang Electric Power Design Institute

- (1) Enterprise Development Size
- (2) Enterprise Organization Structure
- (3) Enterprise Main Business and Qualification
- (4) Enterprise Technology and R&D Capability
- (5) Enterprise Human Resources
- (6) Enterprise Engineering Performance
- (7) Analysis of Enterprise Operational Advantages and Disadvantages

5.2.5 Operational Situation Analysis of Shanghai Electric Power Design Institute Co., Ltd.

- (1) Enterprise Development Size
- (2) Enterprise Organization Structure
- (3) Enterprise Main Business and Qualification
- (4) Enterprise Technology and R&D Capability
- (5) Enterprise Human Resources
- (6) Enterprise Engineering Performance
- (7) Analysis of Enterprise Operational Advantages and Disadvantages

5.3 Leading Enterprises Analysis of Petroleum and Chemical Survey and Design Industry

5.3.1 Operational Situation Analysis of Huadong Design Branch of China Petroleum Engineering & Construction Corporation

- (1) Enterprise Development Size
- (2) Enterprise Organization Structure
- (3) Enterprise Main Business and Qualification
- (4) Enterprise Technology and R&D Capability
- (5) Enterprise Human Resources
- (6) Enterprise Engineering Performance
- (7) Analysis of Enterprise Operational Advantages and Disadvantages
- (8) Enterprise Latest Development Trend
