

# China Amorphous Metal Transformer Industry Report (2016–2021), Market Demand Forecast and Investment Strategic Planning

## 目 录

### CONTENTS

#### Chapter 1: Analysis of development environment of China's amorphous metal transformer industry

##### 1.1 definition of amorphous metal transformer

##### 1.2 features of amorphous metal transformer

###### 1.2.1 features of amorphous metal transformer

###### 1.2.2 comparison of performance between amorphous metal transformer and silicon steel transformer

(1) in terms of power loss

(2) in terms of consolidated cost

(3) in terms of noise levels

(4) in terms of reliability

##### 1.3 analysis of development environment of amorphous metal transformer industry

###### 1.3.1 policy environment of the industry

(1) related standards of the industry

(2) government policy of the industry

(3) related planning of the industry

###### 1.3.2 economic environment of the industry

(1) analysis of GDP trend

(2) analysis of the trend of industrial output

(3) analysis of relationship between GDP, industrial output and amorphous metal transformer

industry

###### 1.3.3 analysis of patent of amorphous metal transformer

(1) analysis of patent applications of the industry

(2) analysis of patent applicants of the industry

(3) analysis of the most popular techniques of the industry

#### 1.4 analysis of development opportunities and threats of China's amorphous metal transformer industry

#### Chapter 2: Analysis of raw materials market of China's amorphous metal transformer industry

##### 2.1 classification and characteristics of amorphous metal

###### 2.1.1 classification of amorphous metal

###### 2.1.2 features of amorphous metal

###### 2.1.3 advantages and disadvantages of amorphous metal materials

###### 2.1.4 analysis of applications of amorphous metal

(1) application in brazing

(2) application in transformers

(3) application in hydrogen storage materials

##### 2.2 analysis of amorphous metal strip market

###### 2.2.1 overview of development of amorphous metal strip

(1) development of international amorphous metal strip

(2) development of domestic amorphous metal strip

###### 2.2.2 scale of supply of amorphous metal strip market

###### 2.2.3 demand of amorphous metal strip market

###### 2.2.4 competitive landscape of amorphous metal strip market

###### 2.2.5 analysis of cost structure of amorphous metal strip

###### 2.2.6 price trend of amorphous metal strip market

###### 2.2.7 analysis of technological development of amorphous metal strip

(1) analysis of the quantity of patent applications of the industry

(2) analysis of patent applicants of the industry

(3) analysis of the most popular technology of the industry

**Chapter 3: Analysis of development of China's amorphous metal transformer industry****3.1 analysis of development of international amorphous metal transformer industry**

- 3.1.1 analysis of development of international amorphous metal transformer industry
  - (1) analysis of development of amorphous metal transformer industry in the United States
  - (2) analysis of development of amorphous metal transformer industry in Europe
  - (3) analysis of development of amorphous metal transformer industry in Japan
  - (4) analysis of development of amorphous metal transformer industry in India
  - (5) analysis of development of amorphous metal transformer industry in South East Asia and South

Asia

- 3.1.2 competition of international amorphous metal transformer market
- 3.1.3 analysis of international market demand for amorphous metal transformer
- 3.1.4 development experience of international amorphous metal transformer industry

**3.2 overview of development of China's amorphous metal transformer industry**

- 3.2.1 development course of amorphous metal transformer industry
- 3.2.2 constraints of promotion of amorphous metal transformer
  - (1) supply of amorphous metal strip is limited
  - (2) design and manufacturing of amorphous metal core have difficulties
    - 1) noise levels of amorphous metal transformer are large
    - 2) promotion price issue of amorphous metal transformer
- 3.2.3 development trends of amorphous metal transformer industry

**3.3 analysis of market of China's amorphous metal transformer industry**

- 3.3.1 analysis of development of amorphous metal transformer industry
  - (1) analysis of corporate scale
  - (2) analysis of supply and demand of the industry
- 3.3.2 analysis of profitability capability of amorphous metal transformer industry
  - (1) analysis of total profit of the industry
  - (2) analysis of profitability of product of the industry
  - (3) analysis of profitability of assets of the industry
- 3.3.3 analysis of competition of amorphous metal transformer market

**3.4 analysis of technology of China's amorphous metal transformer**

- 3.4.1 production process of amorphous metal transformer
- 3.4.2 manufacturing difficulties of amorphous metal transformer
- 3.4.3 analysis of key technologies of amorphous metal transformer
- 3.4.4 problems during the design of amorphous metal transformer
- 3.4.5 development trends of technology of amorphous metal transformer

**3.5 analysis of economy of China's amorphous metal transformer**

- 3.5.1 losses of transmission line
- 3.5.2 energy-saving effect of amorphous metal transformer
- 3.5.3 manufacturing cost of amorphous metal transformer
- 3.5.4 operational cost of amorphous metal transformer
- 3.5.5 payback period of amorphous metal transformer
- 3.5.6 economic benefit of amorphous metal transformer

**Chapter 4: Analysis of subdivided markets of China's amorphous metal transformer industry****4.1 analysis of market demand of transformation of China's stock distribution network transformer**

- 4.1.1 analysis of cumulative installed capacity of electricity
- 4.1.2 analysis of market scale of power transformer
- 4.1.3 analysis of demand for amorphous metal transformer and strip in stock transformation market

**4.2 analysis of market demand of China's newly-added distribution network transformer**

- 4.2.1 investment and construction of distribution network
- 4.2.2 analysis of newly installed capacity of electricity
- 4.2.3 analysis of demand for new amorphous metal transformer and strip

**4.3 analysis of market demand of China's amorphous metal transformer in wind power**

- 4.3.1 investment and construction of wind power industry
- 4.3.2 analysis of installations of wind power industry
- 4.3.3 analysis of synchronization of wind power industry
- 4.3.4 analysis of demand for amorphous metal transformer and strip in wind power

**4.4 analysis of market demand of China's amorphous metal transformer in optoelectronic field**

- 4.4.1 investment and construction of PV industry
  - (1) key projects completed in 2012年以来

- (2) key projects under construction and for proposal in 2012年以来
- 4.4.2 analysis of installations of PV industry
- 4.4.3 analysis of synchronization of PV industry
- 4.4.4 analysis of demand for amorphous metal transformer and strip in optoelectronic field

## Chapter 5: Analysis of operation of major enterprises of China's amorphous metal transformer industry

### 5.1 case study of China's amorphous metal strip and core suppliers

#### 5.1.1 Hitachi Metals, Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's business scope
- (3) analysis of the company's operation
- (4) analysis of the company's technical development
- (5) analysis of the company's development trend in China

#### 5.1.2 Antai Technology Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's product structure and new product developments
- (3) analysis of the company's sales channels and network
- (4) analysis of the company's major economic indicators
- (5) analysis of the company's solvency capability
- (6) analysis of the company's operation capability
- (7) analysis of the company's profitability capability
