

China Electric Car Industry Indepth Research and Investment Strategy Planning Report, 2013-2017

目 录

CONTENTS

Chapter 1: Development Overview of China Electric Car Industry

1.1 Concepts Related to Electric Car

- 1.1.1 Definition of Electric Car
- 1.1.2 Classification of Electric Car
- 1.1.3 Strengths and Weaknesses of Electric Car
 - (1) Strengths of Electric Car
 - (2) Weaknesses of Electric Car
- 1.1.4 Profit of Electric Car
 - (1) Social Profit
 - (2) Economic Profit

1.2 Development Background of Electric Car

- 1.2.1 Necessity for Electric Car
 - (1) Consumption Structure Distribution of Energy
 - (2) Distribution of Energy Consumption Structure
 - (3) More Attention Paid to Environment Problem
 - (4) Oil Import Dependence Boosts
- 1.2.2 Economy of Electric Car
 - (1) Contrast between Electric Car and Fuel Car
 - (2) Contrast for All Kinds of New Energy Cars

1.3 Analysis of Electric Car Industrial Chain

- 1.3.1 Profile of Electric Car Industrial Chain
- 1.3.2 Core Parts of Electric Car
 - (1) Constitution of Inventory-driven Factors
 - (2) Power Battery
 - (3) Electric Drive System
- 1.3.3 Charging Device
 - (1) Charging Station
 - (2) Battery Change Model
- 1.3.4 Mineral Resources
 - (1) Lithium
 - (2) Rare Earth
 - (3) Magnesium Alloys
- 1.3.5 Development of Industrial Chain Market
 - (1) Restraints of Industrial Chain
 - (2) Development Thinking on Industrial Chain

Chapter 2: Development Environment for China Electric Car Industry

2.1 Policies for Electric Car Industry

- 2.1.1 Explanation of Policies Related to Electric Car Industry
- 2.1.2 Introduction to Major Standards for Electric Car Industry
- 2.1.3 Explanation of Development Planning for Electric Car Industry

2.2 Social Environment for Electric Car Industry

- 2.2.1 Electric Car Can Ease Oil Shortage
- 2.2.2 Electric Car Can Improve Urban Atmospheric Environment
- 2.2.3 Rising of Refined Oil Promotes Industry Development
- 2.2.4 Electric Car Enhances Car's International Competitiveness

2.3 Economic Conditions of Electric Car Industry

- 2.3.1 International Macro-economic Environment
 - (1) US Economic Environment
 - (2) Japan Economic Environment

- (3) EU Economic Environment
- (4) New Emerging Countries' Economic Environment
- 2.3.2 Domestic Macro-economic Environment
 - (1) Development Overview of Domestic Economy
 - (2) Latest Financial Policy Trend
- 2.3.3 Major Economic Indicators
 - (1) Urban and Rural FAI
 - (2) Industrial Added Value
 - (3) PMI
 - (4) Domestic PPI
 - (5) Domestic CPI
 - (6) RMB Exchange Rate Trend

2.4 Technologies for Electric Car Industry

- 2.4.1 Electric Car Patent Information
 - (1) National-level Patent Technology
 - (2) Corporate-level Patent Technology
- 2.4.2 Core Technologies for Electric Car
 - (1) Motor & Speed Controller
 - (2) Traction Battery Technology for Electric Car
 - (3) Car Charger for Electric Car
- 2.4.3 Test & Examination Technologies for Electric Car
 - (1) US Test & Examination Technologies for Electric Car
 - (2) Europe Test & Examination Technologies for Electric Car
 - (3) Japan Test & Examination Technologies for Electric Car
 - (4) China Test & Examination Technologies for Electric Car

Chapter 3: Development of International Electric Car Industry

3.1 Development of Electric Car in Major Regions and Countries

- 3.1.1 Development of Electric Car in US
- 3.1.2 Development of Electric Car in Europe
- 3.1.3 Development of Electric Car in Japan
- 3.1.4 Development of Electric Car in S Korea

3.2 Development of Major International Electric Car Corporations

- 3.2.1 Development of Nissan Electric Car
- 3.2.2 Development of Toyota Electric Car
- 3.2.3 Development of Chrysler Electric Car
- 3.2.4 Development of GM Electric Car

3.3 Development of International Electric Car's Enlightenment on China

- 3.3.1 Development Overview of International Electric Car
- 3.3.2 Development Strategies for International Electric Car
- 3.3.3 Development of International Electric Car's Enlightenment on China

Chapter 4: Development of China Electric Car Industry

4.1 Development of China Electric Car Industry

- 4.1.1 Industrial Layout of Electric Car
- 4.1.2 Types of Electric Car
- 4.1.3 Production & Sales of Electric Car
- 4.1.4 Application Situation of Electric Car
- 4.1.5 Explore Realization Paths for Electric Car

4.2 Development of Electric Coach

- 4.2.1 Development Overview of Electric Coach
- 4.2.2 Competition for Electric Coach
- 4.2.3 Major Electric Bus Manufacturers
 - (1) Electrification Trend for Urban Electric Bus
 - (2) Operation Situation of Electric Bus
 - (3) Major Electric Bus Manufacturers
- 4.2.4 Development of Electric Tourist Bus
 - (1) Development Scale of Tourism Industry
 - (2) Operation Situation of Tourist Bus
 - (3) Operation Conditions of Electric Tourist Bus
 - (4) Electric Tourist Bus Manufacturers

4.3 Development of Electric Sedan

- 4.3.1 Economy of Electric Sedan
- 4.3.2 Development of Private Electric Car
 - (1) Production of Private Electric Car
 - (2) Sales of Private Electric Car
 - (3) Competition for Private Electric Car
- 4.3.3 Development of Electric Taxi
 - (1) Operation Situation of Electric Taxi
 - (2) Operation Tendency for Electric Taxi
 - (3) Electric Taxi Manufacturers

4.4 Analysis of Demonstration Operation Strategy Model for Electric Car

- 4.4.1 Demonstration Operation Model for Electric Car
 - (1) Government-led Model
 - (2) R&D-based Corporation-led Model
 - (3) Associated Corporation-led Model
 - (4) Professional Corporation-led Model
- 4.4.2 Contrast for Electric Car Demonstration Operation Models
 - (1) Strengths and Weaknesses of Government-led Model
 - (2) Strengths and Weaknesses of R&D-based Corporation-led Model
 - (3) Strengths and Weaknesses of Associated Corporation-led Model
 - (4) Strengths and Weaknesses of Professional Corporation-led Model
- 4.4.3 Analysis of Life Cycle of Electric Car Demonstration Operation
 - (1) Start-up Stage of Electric Car Demonstration Operation
 - (2) Growth Stage of Electric Car Demonstration Operation
 - (3) Mature Stage of Electric Car Demonstration Operation
 - (4) Recession Stage of Electric Car Demonstration Operation
- 4.4.4 Conceive Electric Car Demonstration Operation Strategy Models
 - (1) Start-up Stage - Government & R&D-based Corporation-led Model
 - (2) Growth Stage - Associated Corporation-led Model
 - (3) Recession Stage - Professional Corporation-led Model

Chapter 5: Analysis of Development of Different Types of Electric Cars in China

5.1 Development of Hybrid Electric Car

- 5.1.1 Hybrid Electric Car - A Mainstream of Current Development
- 5.1.2 Product Classification of Hybrid Electric Car
- 5.1.3 Global Hybrid Electric Car Market
- 5.1.4 China Hybrid Electric Car Market
 - (1) Production & Sales Scale of Hybrid Electric Car
 - (2) Features of Hybrid Electric Car Market
 - (3) Structure of Hybrid Electric Car Market
 - (4) Application Structure of Hybrid Electric Car
 - (5) Market Competition of Hybrid Electric Car
 - (6) Subsidy for Hybrid Electric Car
- 5.1.5 Prospects Forecast for China Hybrid Electric Car Market
 - (1) Forecast for Scale of Hybrid Electric Car Market
 - (2) Forecast for Structure of Hybrid Electric Car Market
 - (3) Forecast for Application Structure of Hybrid Electric Car

5.2 Development of Blade Electric Car

- 5.2.1 Blade Electric Car - A Development Trend in Future
- 5.2.2 Development Bottlenecks for Blade Electric Car
 - (1) No Enough Standard for Blade Electric Car's Technology
 - (2) Imperfect Supporting Policy for Blade Electric Car
 - (3) Imperfect Facility for Blade Electric Car
- 5.2.3 Development Status of Blade Electric Car
 - (1) R&D and Production Situation of Blade Electric Car
 - (2) Operation Situation of Blade Electric Car
 - (3) Subsidy for Blade Electric Car
- 5.2.4 Prospects Forecast for Developing Blade Electric Car
- 5.2.5 FORWARD's Development Suggestions for Blade Electric Car

5.3 Development of Fuel Cell Car

- 5.3.1 Fuel Cell Car - A Final Goal for Development in Future
- 5.3.2 Development Status of Fuel Cell Car
 - (1) R&D and Production of Fuel Cell Car
 - (2) Operation Situation of Fuel Cell Car
- 5.3.3 Prospects Forecast for Developing Fuel Cell Car
- 5.3.4 FORWARD's Development Suggestions for Fuel Cell Car

Chapter 6: Analysis of Key Regional Electric Car Markets in China

6.1 Development Trend and Planning of Electric Car in North China

- 6.1.1 Development Trend and Planning of Electric Car in Beijing
 - (1) Policies Related to Electric Car in Beijing
 - (2) Development Status of Electric Car in Beijing
 - (3) Development Planning for Electric Car in Beijing
 - (4) Prospects Forecast for Beijing Electric Car Market
- 6.1.2 Development Trend and Planning of Electric Car in Tianjin
 - (1) Policies Related to Electric Car in Tianjin
 - (2) Development Status of Electric Car in Tianjin
 - (3) Development Planning for Electric Car in Tianjin
 - (4) Prospects Forecast for Tianjin Electric Car Market
- 6.1.3 Development Trend and Planning of Electric Car in Hebei
 - (1) Policies Related to Electric Car in Hebei
 - (2) Development Status of Electric Car in Hebei
 - (3) Development Planning for Electric Car in Hebei
 - (4) Prospects Forecast for Hebei Electric Car Market
- 6.1.4 Development Trend and Planning of Electric Car in Shanxi
 - (1) Policies Related to Electric Car in Shanxi
 - (2) Development Status of Electric Car in Shanxi
 - (3) Development Planning for Electric Car in Shanxi
 - (4) Prospects Forecast for Shanxi Electric Car Market

6.2 Development Trend and Planning of Electric Car in Northeast China

- 6.2.1 Development Trend and Planning of Electric Car in Liaoning
 - (1) Policies Related to Electric Car in Liaoning
 - (2) Development Status of Electric Car in Liaoning
 - (3) Development Planning for Electric Car in Liaoning
 - (4) Prospects Forecast for Liaoning Electric Car Market
- 6.2.2 Development Trend and Planning of Electric Car in Jilin
 - (1) Policies Related to Electric Car in Jilin
 - (2) Development Status of Electric Car in Jilin
 - (3) Development Planning for Electric Car in Jilin
 - (4) Prospects Forecast for Jilin Electric Car Market
- 6.2.3 Development Trend and Planning of Electric Car in Heilongjiang
 - (1) Policies Related to Electric Car in Heilongjiang
 - (2) Development Status of Electric Car in Heilongjiang
 - (3) Development Planning for Electric Car in Heilongjiang
 - (4) Prospects Forecast for Heilongjiang Electric Car Market

6.3 Development Trend and Planning of Electric Car in East China

- 6.3.1 Development Trend and Planning of Electric Car in Shanghai
 - (1) Policies Related to Electric Car in Shanghai
 - (2) Development Status of Electric Car in Shanghai
 - (3) Development Planning for Electric Car in Shanghai
 - (4) Prospects Forecast for Shanghai Electric Car Market
- 6.3.2 Development Trend and Planning of Electric Car in Jiangsu
 - (1) Policies Related to Electric Car in Jiangsu
 - (2) Development Status of Electric Car in Jiangsu
 - (3) Development Planning for Electric Car in Jiangsu
 - (4) Prospects Forecast for Jiangsu Electric Car Market
- 6.3.3 Development Trend and Planning of Electric Car in Zhejiang
 - (1) Policies Related to Electric Car in Zhejiang
 - (2) Development Status of Electric Car in Zhejiang
 - (3) Development Planning for Electric Car in Zhejiang

- (4) Prospects Forecast for Zhejiang Electric Car Market
- 6.3.4 Development Trend and Planning of Electric Car in Anhui
 - (1) Policies Related to Electric Car in Anhui
 - (2) Development Status of Electric Car in Anhui
 - (3) Development Planning for Electric Car in Anhui
 - (4) Prospects Forecast for Anhui Electric Car Market
- 6.3.5 Development Trend and Planning of Electric Car in Fujian
 - (1) Policies Related to Electric Car in Fujian
 - (2) Development Status of Electric Car in Fujian
 - (3) Development Planning for Electric Car in Fujian
 - (4) Prospects Forecast for Fujian Electric Car Market
- 6.3.6 Development Trend and Planning of Electric Car in Jiangxi
 - (1) Policies Related to Electric Car in Jiangxi
 - (2) Development Status of Electric Car in Jiangxi
 - (3) Development Planning for Electric Car in Jiangxi
 - (4) Prospects Forecast for Jiangxi Electric Car Market
- 6.3.7 Development Trend and Planning of Electric Car in Shandong
 - (1) Policies Related to Electric Car in Shandong
 - (2) Development Status of Electric Car in Shandong
 - (3) Development Planning for Electric Car in Shandong
 - (4) Prospects Forecast for Shandong Electric Car Market
- 6.4 Development Trend and Planning of Electric Car in Central China**
 - 6.4.1 Development Trend and Planning of Electric Car in Henan
 - (1) Policies Related to Electric Car in Henan
 - (2) Development Status of Electric Car in Henan
 - (3) Development Planning for Electric Car in Henan
 - (4) Prospects Forecast for Henan Electric Car Market
 - 6.4.2 Development Trend and Planning of Electric Car in Hubei
 - (1) Policies Related to Electric Car in Hubei
 - (2) Development Status of Electric Car in Hubei
 - (3) Development Planning for Electric Car in Hubei
 - (4) Prospects Forecast for Hubei Electric Car Market
 - 6.4.3 Development Trend and Planning of Electric Car in Hunan
 - (1) Policies Related to Electric Car in Hunan
 - (2) Development Status of Electric Car in Hunan
 - (3) Development Planning for Electric Car in Hunan
 - (4) Prospects Forecast for Hunan Electric Car Market
- 6.5 Development Trend and Planning of Electric Car in South China**
 - 6.5.1 Development Trend and Planning of Electric Car in Guangdong
 - (1) Policies Related to Electric Car in Guangdong
 - (2) Development Status of Electric Car in Guangdong
 - (3) Development Planning for Electric Car in Guangdong
 - (4) Prospects Forecast for Guangdong Electric Car Market
