

# China New Energy Industry Park Development Model and Investment Strategy Planning Report, 2013-2017

## 目 录

### CONTENTS

#### Chapter 1: Environment Analysis of the Development of China New Energy Industry Park

- 1.1 Definition and Classification of New Energy Industry Park
  - 1.1.1 Definition of New Energy Industry Park
  - 1.1.2 Classification of New Energy Industry Park
- 1.2 Policy Environment Analysis of the Development of New Energy Industry Park
  - 1.2.1 Development Policies of New Energy Industry
  - 1.2.2 Development Planning of New Energy Industry
  - 1.2.3 Analysis of China Land Policy, 2009-2012
- 1.3 Economic Environment Analysis of the Development of New Energy Industry Park
  - 1.3.1 Development Correlation Analysis of New Energy Industry Park and Economy
  - 1.3.2 Development Status of China Macro-economy
    - (1) Analysis of Domestic GDP Growth
    - (2) Industrial and Agricultural Industries Economic Growth Situation
    - (3) Fixed Asset Investment Situation
  - 1.3.3 Development Prospects of China Macro-economy
- 1.4 Financial Environment Analysis of the Development of New Energy Industry Park
  - 1.4.1 Operation Analysis of Domestic Credit Environment
  - 1.4.2 Transition Trend of Domestic Financing Structure
  - 1.4.3 Market-base Reform Prospects for Interest Rate
  - 1.4.4 Effects of Credit Austerity Measure by People's Bank of China (PBOC)
  - 1.4.5 Forecast for PBOC's Monetary Policy
- 1.5 Environment Analysis of Development Land of New Energy Industry Park
  - 1.5.1 Approved Construction Land Use Scale in Domestic
  - 1.5.2 Construction Land Supply and Demand Situation in Domestic
  - 1.5.3 Construction Land Transfer Situation in Domestic
  - 1.5.4 Land Price Analysis in Key Cities
  - 1.5.5 Land Mortgage Situation in Key Cities

#### Chapter 2: Development Status and Trend Analysis of China New Energy Industry

- 2.1 Development Status and Trend of Solar Energy Industry
  - 2.1.1 Development Status of Solar Energy Industry
  - 2.1.2 Existing Problems in Solar Energy Industry
  - 2.1.3 Development Trend of Solar Energy Industry
  - 2.1.4 Growth of Solar Energy Industry
- 2.2 Development Status and Trend of Wind Power Industry
  - 2.2.1 Development Status of Wind Power Industry
  - 2.2.2 Existing Problems in Wind Power Industry
  - 2.2.3 Development Trend of Wind Power Industry
  - 2.2.4 Growth of Wind Power Industry
- 2.3 Development Status and Trend of Nuclear Power Industry
  - 2.3.1 Development Status of Nuclear Power Industry
  - 2.3.2 Existing Problems in Nuclear Power Industry
  - 2.3.3 Development Trend of Nuclear Power Industry
  - 2.3.4 Growth of Nuclear Power Industry
- 2.4 Development Status and Trend of Biomass Energy Industry
  - 2.4.1 Development Status of Biomass Energy Industry
  - 2.4.2 Existing Problems in Biomass Energy Industry
  - 2.4.3 Development Trend of Biomass Energy Industry
  - 2.4.4 Growth of Biomass Energy Industry
- 2.5 Development Status and Trend of Ocean Energy Industry

- 2.5.1 Development Status of Ocean Energy Industry
- 2.5.2 Existing Problems in Ocean Energy Industry
- 2.5.3 Development Trend of Ocean Energy Industry
- 2.5.4 Growth of Ocean Energy Industry

## **2.6 Development Status and Trend of New-energy Automobile Industry**

- 2.6.1 Development Status of New-energy Automobile Industry
- 2.6.2 Existing Problems in New-energy Automobile Industry
- 2.6.3 Development Trend of New-energy Automobile Industry
- 2.6.4 Growth of New-energy Automobile Industry

# **Chapter 3: Development Situation Analysis of China New Energy Industry Park**

## **3.1 Development Analysis of New Energy Industry Park**

- 3.1.1 Development Stages of New Energy Industry Clusters
  - (1) Gathering Stage of Industry Elements
  - (2) Development Stage of Industrial Chain
  - (3) Construction Stage of Regional Creation Network
- 3.1.2 Development Overview of New Energy Industry Park
- 3.1.3 Ranking Situation of New Energy Industry Park

## **3.2 Development Status Analysis of Top 100 New Energy Industry Parks**

- 3.2.1 Distribution Pattern of Top 100 New Energy Industry Parks
  - (1) Distribution Pattern of Top 100 New Energy Industry Parks by Region
  - (2) Distribution Pattern of Top 100 New Energy Industry Parks by Province
  - (3) Distribution Pattern of Top 100 New Energy Industry Parks by Industry
- 3.2.2 Comprehensive Strength Analysis of Top 100 New Energy Industry Parks
  - (1) Established Time Analysis of Top 100 New Energy Industry Parks
  - (2) Park Grade, Infrastructure, Supporting Facilities and Management Service
  - (3) Preferential Policies of Developing New Energy for Top 100 New Energy Industry Parks
    - 1) Characteristics of New Energy Enterprises in Top 100 New Energy Industry Parks
- 3.2.3 Development Characteristics of Top 100 New Energy Industry Parks

## **3.3 Development Analysis of Segment New Energy Industry Parks**

- 3.3.1 Development Analysis of Solar Energy Industry Parks
  - (1) Development Status of Solar Energy Industry Parks
  - (2) Development Prospects of Solar Energy Industry Parks
- 3.3.2 Development Analysis of Wind Power Industry Parks
  - (1) Development Status of Wind Power Industry Parks
  - (2) Development Prospects of Wind Power Industry Parks
- 3.3.3 Development Analysis of Other New Energy Industry Parks

## **3.4 Development Trend and Strategic Suggestions of New Energy Industry Park**

- 3.4.1 Problems New Energy Industry Park Facing
- 3.4.2 Development Trend Analysis of New Energy Industry Park
- 3.4.3 Development Strategic Suggestions for New Energy Industry Park

# **Chapter 4: Management Mode Analysis of China New Energy Industry Park**

## **4.1 Management Mode of New Energy Industry Park**

- 4.1.1 Government-oriented Management Mode
- 4.1.2 Enterprise-oriented Management Mode
- 4.1.3 Combination Management Mode of Government and Enterprise

## **4.2 Drawbacks of New Energy Industry Park Management Mode**

- 4.2.1 Unclear Legal Position of Industry Park and Management Committee
- 4.2.2 Unsound Leader System of Management Committee
- 4.2.3 Unfulfilled Administrative Permission of Management Committee
- 4.2.4 Unscientific Industry Park Organization Setting

## **4.3 Innovation of Management Mode for New Energy Industry Park**

- 4.3.1 Making Clear Legal Position of Industry Park and Management Committee
- 4.3.2 Implementing “Closed” Management System
- 4.3.3 Constructing Industry Parks As Base with Combination of Industry, Education and Research

# **Chapter 5: Development Mode and Experiential Learning of Global New Energy Industry Cluster**

## **5.1 Development Mode of Global New Energy Industry Cluster**

- 5.1.1 Development Mode of Scotland New Energy Industry Cluster
- 5.1.2 Development Mode of Abu Dhabi New Energy Industry Cluster

- 5.1.3 Development Mode of California New Energy Industry Cluster
- 5.1.4 Development Mode of Nordrhein-Westfalen New Energy Industry Cluster

## 5.2 Development Experience Analysis of Global Typical Industry Parks

- 5.2.1 Development Experience Analysis of USA Silicon Valley
  - (1) Overview of USA Silicon Valley
  - (2) Development Measures of USA Silicon Valley
  - (3) Development Experience of USA Silicon Valley
- 5.2.2 Development Experience Analysis of Hsinchu Science and Industrial Park in Taiwan, China
  - (1) Overview of Hsinchu Science and Industrial Park
  - (2) Development Measures of Hsinchu Science and Industrial Park
  - (3) Development Experience of Hsinchu Science and Industrial Park

## 5.3 Development Experiential Learning of Global New Energy Industry Cluster

- 5.3.1 Strengthening Leadership
- 5.3.2 Innovating System and Mechanism
- 5.3.3 Depending on Feature Advantages
- 5.3.4 Fostering Leading Enterprises
- 5.3.5 Intensifying Technology Innovation
- 5.3.6 Valuing Brand Promotion

## Chapter 6: Investment and Financing Mode Analysis of China New Energy Industry Park Construction

### 6.1 Investment Analysis of New Energy Industry Park

- 6.1.1 Market Risks
- 6.1.2 Operation Risks
- 6.1.3 Policy Risks
- 6.1.4 Talent and Technology Risks
  - (1) Investment Size of New Energy Industry Park

### 6.2 Investment and Financing Mode for Enterprises in the Course of Entering Industry Park

- 6.2.1 Investment and Financing Mode Based on Manager Synergy for Enterprises in the Course of Entering Industry Park
  - (1) Mode of Investment Companies Loan Guarantee
  - (2) “Factoring” Mode in Chongqing
  - (3) Land Asset Securitization Model
  - (4) Trust Financing Mode

- 6.2.2 Investment and Financing Condition Analysis of Industry Park Manager Synergy

### 6.3 Investment and Financing Mode of New Energy Industry Park Infrastructure Construction

- 6.3.1 Infrastructure Classification of New Energy Industry Park
- 6.3.2 Investment and Financing Mode of New Energy Industry Park Hardware Infrastructure Construction
  - (1) Basic Investment and Financing Ways of Industry Park Hardware Infrastructure Construction
    - 1) Loan of Commercial Banks
    - 2) Rolling Development Mode
    - 3) Financing Development by Region
    - 4) Industry Investment Fund
    - 5) Project Financing
  - (2) Important Tools for Investment and Financing of Industry Park Hardware Infrastructure Construction
- 6.3.3 Investment and Financing Mode of New Energy Industry Park Public Service Platform Construction
  - (1) Concept and Classification of Industry Park Public Service Platform
  - (2) Abstract of Establishment, Investment and Financing Ways to Industry Park Public Service Platform
    - 1) Establishment Mode Mainly Financed by the Government
    - 2) Mode of Led by Enterprises and Financed by the Government
    - 3) Establishment Mode Depending on Leading Enterprises
    - 4) PPP Mode of Government and Enterprises
  - (3) Recommendation of Establishment, Investment and Financing Modes Matching with Industry Park Public Service Platform
