

China Mobile Payment Industry Report (2016-2021), Market Prospect and Investment Strategy Planning

目 录

CONTENTS

Chapter 1: Analysis of development environment of China mobile payment industry

1.1 the main categories of mobile payment

- 1.1.1 classification by business scenarios of mobile payment
- 1.1.2 classification by operation models of mobile payment
- 1.1.3 classification by access methods of mobile payment
- 1.1.4 classification by business models of mobile payment

1.2 drivers for mobile payment industry

- 1.2.1 drivers for mobile payment market
 - (1) analysis of online shopping market
 - (2) analysis of changes of users' payment habits
- 1.2.2 drivers for mobile payment policies
 - (1) technology standards for mobile payment
 - (2) license issuance of mobile payment
- 1.2.3 drivers of mobile payment technology
 - (1) updates of mobile payment technology
 - (2) analysis of advantages and disadvantages of mobile payment technology
- 1.2.4 drivers for mobile payment infrastructure
 - (1) payment network construction
 - (2) POS terminal construction

1.3 policy environment of mobile payment industry

- 1.3.1 analysis of regulators of the mobile payment industry
 - (1) MIIT policies
 - (2) CBRC policies
- 1.3.2 policy of support of "Twelfth Five Year Plan"
- 1.3.3 other related policies for mobile payment industry
- 1.3.4 the impact of mobile payment standard on the industry
- 1.3.5 the impact of license issuance on the industry
 - (1) situation of third-party payment license issuance
 - (2) influence of third-party payment license issuance

Chapter 2: Analysis of development of the global mobile payment industry

2.1 analysis of the global mobile payment industry

- 2.1.1 status quo of market of global mobile payment industry
 - (1) analysis of global market scale
 - (2) status quo of regional industrial development
 - (3) situation of competition and acquisition of industry chain
 - (4) analysis of global investment merger
- 2.1.2 trends of layout of global mobile payment giants
 - (1) layout progress of Apple
 - (2) layout progress of Google Inc.
 - (3) layout progress of ISIS Company
- 2.1.3 forecast of market of global mobile payment industry

2.2 analysis of development of Japan's mobile payment industry

- 2.2.1 analysis of sharing models of Japan's mobile payment industry
- 2.2.2 competition of Japan's mobile payment industry
- 2.2.3 development status quo of Japan's mobile payment industry
- 2.2.4 analysis of operators of Japan's mobile payment industry
- 2.2.5 development trends of Japan's mobile payment industry
- 2.2.6 experience of Japan to develop mobile payment industry

2.3 analysis of development of South Korean mobile payment industry

- 2.3.1 background factors of South Korean mobile payment industry
- 2.3.2 analysis of implementation methods of South Korean mobile payment industry
- 2.3.3 policy environment of South Korean mobile payment industry
- 2.3.4 development status quo of South Korean mobile payment industry
- 2.3.5 analysis of operators of South Korean mobile payment industry
- 2.3.6 development models of South Korean mobile payment industry
- 2.3.7 experience of South Korean to develop its mobile payment industry
- 2.4 analysis of development of European mobile payment industry**
 - 2.4.1 analysis of basis of development of European mobile payment industry
 - 2.4.2 research on European consumers' willingness on mobile payment
 - 2.4.3 policy environment of European mobile payment industry
 - 2.4.4 development status quo of European mobile payment industry
 - 2.4.5 analysis of operators of European mobile payment industry
- 2.5 analysis of development of the American mobile payment industry**
 - 2.5.1 development course of the American mobile payment industry
 - 2.5.2 analysis of implementation methods of the American mobile payment industry
 - 2.5.3 research on American consumers' willingness on mobile payment
 - 2.5.4 development status quo of the American mobile payment industry
 - 2.5.5 analysis of operators of the American mobile payment industry
 - 2.5.6 characteristics of development of the American mobile payment industry
- 2.6 reference of global mobile payment industry to China**
 - 2.6.1 analysis of ways of government support
 - 2.6.2 analysis of strategic positioning
 - 2.6.3 analysis of market positioning
 - 2.6.4 analysis of control of the industry chain

Chapter 3: Analysis of development of Chinese mobile payment industry

- 3.1 analysis of structure of mobile payment industrial chain**
 - 3.1.1 introduction of mobile payment industrial chain
 - 3.1.2 composition of mobile payment industrial chain
 - 3.1.3 characteristics and trends of mobile payment industrial chain
- 3.2 analysis of scale of the development of mobile payment**
 - 3.2.1 user scale of mobile payment industry
 - 3.2.2 market scale of mobile payment industry
- 3.3 analysis of business model of mobile payment industry**
 - 3.3.1 business models of the global mobile payment industry
 - (1) business model of Japanese mobile payment industry
 - (2) business model of South Korea mobile payment industry
 - (3) business model of European mobile payment industry
 - 3.3.2 business models of domestic mobile payment industry
 - (1) business model of mobile operator-led
 - (2) analysis of dominant business model of financial institutions
 - (3) model of third-party payment service provider
 - (4) operation models of banks and operators
 - 3.3.3 comparison of characteristics of mobile payment business models
- 3.4 analysis of profit models of mobile payment industry**
 - 3.4.1 profit models of the global mobile payment industry and applications
 - (1) model of exclusive sharing of trading commissions and its application
 - (2) model of sharing of trading commissions and its application
 - (3) model of financial institutions-led and its application
 - (4) model of third-party-led and its application
 - 3.4.2 profit models of Chinese mobile payment industry
 - 3.4.3 analysis of profit dimension of China mobile payment industry
 - (1) profit dimension of base value
 - (2) profit dimension of value added services
- 3.5 analysis of mobile payment device manufacturing market**
 - 3.5.1 analysis of mobile payment chip manufacturing market
 - (1) analysis of main products of mobile payment chip
 - (2) forecast of capacity of mobile payment chip market
 - (3) competition of mobile payment chip makers

- (4) prospects of mobile payment chip manufacturing market
- 3.5.2 analysis of payment platform design and security service market
 - (1) analysis of main products of payment platform design and security service
 - (2) competition of payment platform design and safety service providers
 - (3) prospects of payment platform design and safety services market
- 3.5.3 analysis of POS machine manufacturing market
 - (1) analysis of major products of POS machine manufacturing market
 - (2) forecast of capacity of POS machine manufacturing market
 - (3) competition of POS manufacturers
 - (4) analysis of POS machine manufacturing market

Chapter 4: Analysis of ecosystem of Chinese mobile payment industry

4.1 analysis of body relations of Chinese mobile payment industry

- 4.1.1 analysis of competition of operators
- 4.1.2 analysis of competition of financial institutions
- 4.1.3 analysis of competition of third party payment platforms
- 4.1.4 analysis of third-party competition and cooperation

4.2 analysis of development of mobile payment business of operators

- 4.2.1 analysis of China Mobile's mobile payment business development
 - (1) overview of China Mobile's mobile payment business development
 - (2) the process of China Mobile to promote mobile payment services
- 4.2.2 analysis of China Unicom's mobile payment business development
 - (1) overview of China Unicom's mobile payment business development
 - (2) the process of China Unicom to promote mobile payment services
- 4.2.3 analysis of China Telecom's mobile payment business development
 - (1) overview of China Telecom's mobile payment business development
 - (2) the process of China Telecom to promote mobile payment services
- 4.2.4 analysis of operators' investment, mergers and restructuring

4.3 analysis of development of mobile banking business of financial institutions

- 4.3.1 definition of mobile banking service
- 4.3.2 comparative analysis of mobile banking and online banking
- 4.3.3 gap between domestic and international mobile banking service
- 4.3.4 analysis of new business models of mobile banking
- 4.3.5 charges for financial institutions' mobile banking service
- 4.3.6 the process of financial institutions to promote mobile banking service
- 4.3.7 analysis of development trends of mobile banking service

4.4 analysis of development of UnionPay mobile payment service

- 4.4.1 overview of development of UnionPay mobile payment services
- 4.4.2 the process of UnionPay to promote mobile payment service

4.5 analysis of development of mobile payment service of third-party payment platforms

- 4.5.1 overview of development of mobile payment service of third-party payment platforms
- 4.5.2 cooperation trends of mobile payment service of third-party payment platforms
- 4.5.3 the process of third-party payment platforms to promote mobile payment service
 - (1) the process of Paypal to promote mobile payment service
 - (2) the process of other third-party platforms to promote mobile payment service
- 4.5.4 analysis of investment, merger and restructuring of third-party payment platforms

Chapter 5: Analysis of technology and security protection of Chinese mobile payment industry

5.1 overview of development of mobile payment industry technology

- 5.1.1 main technology roadmap of domestic mobile payment
- 5.1.2 analysis of status quo of domestic RFID technology
- 5.1.3 analysis of remote payment technology
 - (1) SMS mobile payment system
 - (2) USSD mobile payment system
 - (3) WAP mobile payment system
 - (4) J2ME mobile payment system
 - (5) IVR mobile payment system
- 5.1.4 analysis of proximity payment technology
 - (1) NFC technical standards
 - (2) SIMpass technical standards

(3) RF-SIM card technical standards

5.1.5 prospects of applications of different payment technologies

5.2 analysis of NFC technology of mobile payment industry

5.2.1 features of NFC technology

5.2.2 NFC' s three operating modes

5.2.3 function mode of NFC phone

5.2.4 barriers to enter NFC technology

5.2.5 application type of NFC technology
