

China Eco-industrial Park Circular Economy Development Modes and Investment Planning Report, 2013–2017

目 录

CONTENTS

Chapter 1: Development Background of China Eco-industrial Park

1.1 Concepts Related to Eco-industrial Park

- 1.1.1 Definition of Eco-industrial Park
- 1.1.2 Features of Eco-industrial Park
- 1.1.3 Types of Eco-industrial Park
- 1.1.4 Basic Structure of Eco-industrial Park

1.2 Concepts Related to Circular Economic Mode

- 1.2.1 Definition of Circular Economy
- 1.2.2 4R Principles of Circular Economy
- 1.2.3 Practical Level of Circular Economy
 - (1) Corporate Level (Small Circular)
 - (2) Regional Level (Medium Circular)
 - (3) Social Level (Large Circular)

1.3 Analysis of Construction Benefits of Eco-industrial Park

- 1.3.1 Economic Benefits of Eco-industrial Park
- 1.3.2 Social Benefits of Eco-industrial Park
- 1.3.3 Environment Benefits of Eco-industrial Park

1.4 Construction and Planning Content of Eco-industrial Park

- 1.4.1 Goals and Responsibilities for Park Construction
- 1.4.2 Steps and Methods of Park Planning
- 1.4.3 Technical Requirements for Park Construction

1.5 Analysis of Construction Risks for Eco-industrial Park

- 1.5.1 Management Risks for Eco-industrial Park
- 1.5.2 Operating Risks for Eco-industrial Park
- 1.5.3 Survival Risks for Eco-industrial Park

Chapter 2: Analysis of Policy Environment for Construction of China Eco-industrial Park

2.1 Analysis of Policy Environment for Construction of Eco-industrial Park

- 2.1.1 Basic Laws and Regulations Related to Eco-industrial Park
- 2.1.2 Financial Supporting Policies for Eco-industrial Park
- 2.1.3 Tax Preferential Policies for Eco-industrial Park
- 2.1.4 Talent Fostering Policies for Eco-industrial Park
- 2.1.5 Land Supply Policies for Eco-industrial Park
- 2.1.6 “Twelfth Five-year” Plan for Circular Economy

2.2 Analysis of Land Utilization Environment for Eco-industrial Park

- 2.2.1 Land Environment for Eco-industrial Park
 - (1) Size of Approved Construction Land in Domestic
 - (2) Supply Situation of Construction Land in Domestic
 - (3) Transfer Situation of Construction Land in Domestic
 - (4) Analysis of Land Price in Key Cities
 - (5) Land Mortgage Situation in Key Cities
- 2.2.2 Land Layout and Impact of Eco-industrial Park
 - (1) Analysis of Industrial Land Layout and Impact
 - (2) Analysis of Residential Land Layout and Impact
 - (3) Analysis of Public Construction Land Layout and Impact
- 2.2.3 Land Price Trend for Eco-industrial Park
- 2.2.4 Analysis of Land Demand of Eco-industrial Park

2.3 Analysis of Economic Environment of Eco-industrial Park Construction

- 2.3.1 Analysis of International Macro-economic Operation
- 2.3.2 Analysis of Domestic Macro-economic Operation

- (1) Analysis of Domestic GDP Growth
- (2) Analysis of Industrial Economic Growth
- (3) FAI
- (4) Total Retail Sales of Consumer Goods
- (5) Import and Export Volume and Growth
- (6) Manufacturing PMI
- (7) Non-manufacturing PMI
- 2.3.3 Prospects Forecast for Domestic Macro-economy
- 2.3.4 Impact of Macro-economy on Eco-industrial Park

Chapter 3: Analysis of Construction and Investment/Financing of China Eco-industrial Park Projects

3.1 Comparison between Foreign and Domestic Eco-industrial Parks

- 3.1.1 Comparison of Development Modes for Eco-industrial Park
- 3.1.2 Comparison of Symbiosis Types for Eco-industrial Park
- 3.1.3 Comparison of Management Ways for Eco-industrial Park

3.2 Enlightenment of Construction of Foreign Eco-industrial Park on China

- 3.2.1 Enlightenment on Planning of Eco-industrial Park
- 3.2.2 Enlightenment on Construction of Park's Management
- 3.2.3 Enlightenment on Network Cultivation of Eco-industry
- 3.2.4 Enlightenment on Development of Scientific Innovation

3.3 Basic Information of Project Construction of Domestic Eco-industrial Park

- 3.3.1 Features of Parts of Eco-industrial Parks
- 3.3.2 Project Construction Progress of Eco-industrial Park
 - (1) Built National-level Eco-industrial Park
 - (2) Planned Eco-industrial Park
 - (3) Ecological Reconstructed Industrial Park
- 3.3.3 Regional Distribution of Eco-industrial Park
 - (1) Industry-based Eco-industrial Park
 - (2) Comprehensive Eco-industrial Park
 - (3) Vein Industry-based Eco-industrial Park

3.4 Investing Factors of Domestic Eco-industrial Park for Investors

- 3.4.1 Position of Eco-industrial Park
- 3.4.2 Distance between Eco-industrial Park and Customers
- 3.4.3 Customer Service of Eco-industrial Park
- 3.4.4 Infrastructure of Eco-industrial Park
- 3.4.5 Distance between Eco-industrial Park and Supplier
- 3.4.6 Price of Eco-industrial Park and Preferential Policies
- 3.4.7 Human Resources of Eco-industrial Park

3.5 Analysis of Development Modes for Domestic Eco-industrial Park

- 3.5.1 Industrial Real Estate Developer's Development Modes
- 3.5.2 Government's Independent Development Modes
- 3.5.3 Comprehensive Development Modes

3.6 Analysis of Development Cost of Domestic Eco-industrial Park

- 3.6.1 Upfront Fees of Eco-industrial Park Project
- 3.6.2 Land Compensation Fees of Eco-industrial Park
- 3.6.3 Municipal Construction Fees of Eco-industrial Park
- 3.6.4 Land Expropriation Taxation and Fees of Eco-industrial Park

3.7 Analysis of Investment of Domestic Eco-industrial Park

- 3.7.1 Investment Size of Eco-industrial Park
- 3.7.2 Investment Risks of Eco-industrial Park
- 3.7.3 Investment Structure of Eco-industrial Park
- 3.7.4 Investment Benefits of Eco-industrial Park

3.8 Analysis of Financing of Domestic Eco-industrial Park

- 3.8.1 Financing Features of Eco-industrial Park
- 3.8.2 Financing Structure of Eco-industrial Park
- 3.8.3 Financing Size of Eco-industrial Park
- 3.8.4 Financing Distribution of Eco-industrial Park
 - (1) Financing Situation of Industry-related Eco-industrial Park
 - (2) Financing Situation of Reconstructed Eco-industrial Park

3.8.5 Financing Strategies for Eco-industrial Park

Chapter 4: Analysis of Circular Economy System Construction for China Eco-industrial Park**4.1 Analysis of Circular Economy Development Mode for Eco-industrial Park**

4.1.1 Analysis of Construction Modes for Eco-industrial Park

- (1) Reconstructed Eco-industrial Park Mode
- (2) New-type Eco-industrial Park Mode
- (3) New Mixed Eco-industrial Park

4.2 Planning Level and Framework of Eco-industrial Park

4.2.1 Planning Level of Eco-industrial Park

4.2.2 Planning Framework of Eco-industrial Park

4.2.3 Planning Layout of Eco-industrial Park

- (1) Basic Principles of Planning and Design
- (2) Planning Steps of Eco-industrial Park
- (3) Design Factors of Eco-industrial Park
- (4) Establishment of Space Organization Ways
- (5) Establishment of Circular Industrial Chain
- (6) Establishment of Coherent Spatial Arrangement
- (7) Traffic Organization and Others

4.3 Planning of Eco-industrial Park Industrial Chain/Network

4.3.1 Standards of Eco-industrial Park Industrial Chain

4.3.2 Integration of Eco-industrial Park Industrial Chain

- (1) Eco-industrial Chain of Equipment Manufacturing Industry
- (2) Eco-industrial Chain of Auto Parts Industry
- (3) Eco-industrial Chain of Pharmaceutical Chemical Industry
- (4) Eco-industrial Chain of New Metallurgical Industry
- (5) Eco-industrial Chain of Food and Drinks Industry
- (6) Eco-industrial Chain of Packaging Materials Industry
- (7) Eco-industrial Chain of Electrical and Electronics Industry
- (8) Eco-industrial Chain of Textile Industry
- (9) Eco-industrial Chain of Building Materials Industry

4.3.3 Industrial Network Integration of Eco-industrial Park

- (1) Industry Connection among Industries
- (2) Connection between Industries and Environmental Protection Industry
- (3) Connection between Industries and Secondary Industry
- (4) Connection between Industries and Livestock and Poultry Breeding Industry

4.4 Circular Economy Construction and Development Routines of Eco-industrial Park

4.4.1 Construction of Circular Economy Mode for Enterprises

4.4.2 Construction of Circular Economic System among Enterprises

4.5 Construction of Eco-industrial Park Operating Management Framework

4.5.1 Technology System for Eco-industrial Park's Circular Economy

4.5.2 Management System for Eco-industrial Park's Circular Economy

4.5.3 Policy System for Eco-industrial Park's Circular Economy

4.6 Energy Evaluation on Circular Economy of Eco-logical Industrial Park

4.6.1 Energy Evaluation on Circular Economy for All levels of Enterprises

4.6.2 Analysis of Energy Flow of Circular Economy among Eco-industrial Parks

Chapter 5: Construction of Virtual Eco-industrial Park Mode for Key Economic Circles in China**5.1 Construction of Virtual Eco-industrial Park Mode for Yangtze River Delta Economic Circle**

5.1.1 Basic Conditions of Yangtze River Delta Economic Circle

- (1) Analysis of Cluster Conditions for Industries in Yangtze River Delta
- (2) Construction Status of Yangtze River Delta Information Platform
- (3) Analysis of Construction of Yangtze River Delta Credit System
- (4) Development Situation of Environmental Protection Industry in Yangtze River Delta

5.1.2 Base Selection for Yangtze River Delta Virtual Eco-industrial Park

5.1.3 Major Industrial Chain for Yangtze River Delta Virtual Eco-industrial Park

5.1.4 Operating Mode for Yangtze River Delta Virtual Eco-industrial Park

5.2 Construction of Virtual Eco-industrial Park Mode for Pearl River Delta Economic Circle

5.2.1 Basic Conditions of Pearl River Delta Economic Circle

- (1) Analysis of Cluster Conditions for Industries in Pearl River Delta

- (2) Construction Status of Pearl River Delta Information Platform
- (3) Analysis of Construction of Pearl River Delta Credit System
- (4) Development Situation of Environmental Protection Industry in Pearl River Delta
- 5.2.2 Base Selection for Pearl River Delta Virtual Eco-industrial Park
- 5.2.3 Major Industrial Chain for Pearl River Delta Virtual Eco-industrial Park
- 5.2.4 Operating Mode for Pearl River Delta Virtual Eco-industrial Park
- 5.3 Construction of Virtual Eco-industrial Park Mode for Bohai Rim Economic Circle**
 - 5.3.1 Basic Conditions of Bohai Rim Economic Circle
 - (1) Analysis of Cluster Conditions for Industries in Bohai Rim
 - (2) Construction Status of Bohai Rim Information Platform
 - (3) Analysis of Construction of Bohai Rim Credit System
 - (4) Development Situation of Environmental Protection Industry in Bohai Rim
 - 5.3.2 Base Selection for Bohai Rim Virtual Eco-industrial Park
 - 5.3.3 Major Industrial Chain for Bohai Rim Virtual Eco-industrial Park
 - 5.3.4 Operating Mode for Bohai Rim Virtual Eco-industrial Park
- 5.4 Construction of Virtual Eco-industrial Park Mode for Southwest China Economic Circle**
 - 5.4.1 Basic Conditions of Southwest China Economic Circle
 - (1) Analysis of Cluster Conditions for Industries in Southwest China
 - (2) Construction Status of Southwest China Information Platform
 - (3) Analysis of Construction of Southwest China Credit System
 - (4) Development Situation of Environmental Protection Industry in Southwest China
 - 5.4.2 Base Selection for Southwest China Virtual Eco-industrial Park
 - 5.4.3 Major Industrial Chain for Southwest China Virtual Eco-industrial Park
 - 5.4.4 Operating Mode for Southwest China Virtual Eco-industrial Park
- 5.5 Construction of Virtual Eco-industrial Park Mode for Hefei Economic Circle**
 - 5.5.1 Basic Conditions of Hefei Economic Circle
 - (1) Analysis of Cluster Conditions for Industries in Hefei
 - (2) Construction Status of Hefei Information Platform
 - (3) Analysis of Construction of Hefei Credit System
 - (4) Development Situation of Environmental Protection Industry in Hefei
 - 5.5.2 Base Selection for Hefei Virtual Eco-industrial Park
 - 5.5.3 Major Industrial Chain for Hefei Virtual Eco-industrial Park
 - 5.5.4 Operating Mode for Hefei Virtual Eco-industrial Park

Chapter 6: Analysis of Operation and Management of Demonstration Eco-industrial Parks in China

- 6.1 Case Study of Operation and Management of Comprehensive Eco-industrial Park**
 - 6.1.1 Nanhai National Eco-Industry Park
 - (1) Development Size and Spatial Arrangement
 - (2) Analysis of Economic Aggregate and Financial Resources
 - (3) Analysis of Current Industrial Chain
 - (4) Development of Current Enterprises in Parks
 - (5) Metabolism and Energy Flow
 - (6) Management System and Preferential Policies
 - (7) Analysis of Construction of Supporting Systems
 - (8) SWOT Analysis of Operation and Management
 - 6.1.2 Guangzhou National-class Demonstrative Eco-industrial Park
 - (1) Development Size and Spatial Arrangement
 - (2) Analysis of Economic Aggregate and Financial Resources
 - (3) Analysis of Current Industrial Chain
 - (4) Development of Current Enterprises in Parks
 - (5) Metabolism and Energy Flow
 - (6) Management System and Preferential Policies
 - (7) Analysis of Construction of Supporting Systems
 - (8) SWOT Analysis of Operation and Management
 - 6.1.3 Demonstrative Eco-industrial Park in Dalian Economic Technology Development Zone
 - (1) Development Size and Spatial Arrangement
 - (2) Analysis of Economic Aggregate and Financial Resources
 - (3) Analysis of Current Industrial Chain
 - (4) Development of Current Enterprises in Parks

- (5) Metabolism and Energy Flow
- (6) Management System and Preferential Policies
- (7) Analysis of Construction of Supporting Systems
- (8) SWOT Analysis of Operation and Management
- 6.1.4 Demonstrative Eco-industrial Park in Nanchang Hi-Tech Industry Development Zone
 - (1) Development Size and Spatial Arrangement
 - (2) Analysis of Economic Aggregate and Financial Resources
 - (3) Analysis of Current Industrial Chain
 - (4) Development of Current Enterprises in Parks
 - (5) Metabolism and Energy Flow
 - (6) Management System and Preferential Policies
 - (7) Analysis of Construction of Supporting Systems
 - (8) SWOT Analysis of Operation and Management
- 6.1.5 Demonstrative Eco-industrial Park in Tianjin Economic Technology Development Zone
 - (1) Development Size and Spatial Arrangement
 - (2) Analysis of Economic Aggregate and Financial Resources
 - (3) Analysis of Current Industrial Chain
 - (4) Development of Current Enterprises in Parks
 - (5) Metabolism and Energy Flow
 - (6) Management System and Preferential Policies
 - (7) Analysis of Construction of Supporting Systems
 - (8) SWOT Analysis of Operation and Management
- 6.1.6 Demonstrative Eco-industrial Park in Shanghai Jinqiao Export Processing Zone
 - (1) Development Size and Spatial Arrangement
 - (2) Analysis of Economic Aggregate and Financial Resources
 - (3) Analysis of Current Industrial Chain
 - (4) Development of Current Enterprises in Parks
 - (5) Metabolism and Energy Flow
 - (6) Management System and Preferential Policies
 - (7) Analysis of Construction of Supporting Systems
 - (8) SWOT Analysis of Operation and Management
- 6.1.7 Demonstrative Eco-industrial Park in Kunming Hi-Tech Industry Development Zone
 - (1) Development Size and Spatial Arrangement
 - (2) Analysis of Economic Aggregate and Financial Resources
 - (3) Analysis of Current Industrial Chain
 - (4) Development of Current Enterprises in Parks
 - (5) Metabolism and Energy Flow
 - (6) Management System and Preferential Policies
 - (7) Analysis of Construction of Supporting Systems
 - (8) SWOT Analysis of Operation and Management
- 6.1.8 Demonstrative Eco-industrial Park in Nanjing Economic Technology Development Zone
 - (1) Development Size and Spatial Arrangement
 - (2) Analysis of Economic Aggregate and Financial Resources
 - (3) Analysis of Current Industrial Chain
 - (4) Development of Current Enterprises in Parks
 - (5) Metabolism and Energy Flow
 - (6) Management System and Preferential Policies
 - (7) Analysis of Construction of Supporting Systems
 - (8) SWOT Analysis of Operation and Management
- 6.1.9 Demonstrative Eco-industrial Park in Beijing Economic Technology Development Zone
 - (1) Development Size and Spatial Arrangement
 - (2) Analysis of Economic Aggregate and Financial Resources
 - (3) Analysis of Current Industrial Chain
 - (4) Development of Current Enterprises in Parks
 - (5) Metabolism and Energy Flow
 - (6) Management System and Preferential Policies
 - (7) Analysis of Construction of Supporting Systems
 - (8) SWOT Analysis of Operation and Management
- 6.1.10 Demonstrative Eco-industrial Park in Xiaoshan Economic Technology Development Zone

- (1) Development Size and Spatial Arrangement
 - (2) Analysis of Economic Aggregate and Financial Resources
 - (3) Analysis of Current Industrial Chain
 - (4) Development of Current Enterprises in Parks
 - (5) Metabolism and Energy Flow
 - (6) Management System and Preferential Policies
 - (7) Analysis of Construction of Supporting Systems
 - (8) SWOT Analysis of Operation and Management
- 6.1.11 Demonstrative Eco-industrial Park in Shanghai Zhangjiang High-tech Industry Development Zone

- (1) Development Size and Spatial Arrangement
- (2) Analysis of Economic Aggregate and Financial Resources
- (3) Analysis of Current Industrial Chain
- (4) Development of Current Enterprises in Parks
- (5) Metabolism and Energy Flow
- (6) Management System and Preferential Policies
- (7) Analysis of Construction of Supporting Systems
- (8) SWOT Analysis of Operation and Management

6.2 Case Study of Construction and Operation/Management of Industry-based Eco-industrial Parks

6.2.1 Guigang National Eco-industrial (Sugar Refining) Demonstration Park

- (1) Development Size and Spatial Arrangement
- (2) Analysis of Economic Aggregate and Financial Resources
- (3) Analysis of Current Industrial Chain
- (4) Development of Current Enterprises in Parks
- (5) Metabolism and Energy Flow
- (6) Management System and Preferential Policies
- (7) Analysis of Construction of Supporting Systems
- (8) SWOT Analysis of Operation and Management

6.2.2 Lubei National Eco-industrial Demonstration Park

- (1) Development Size and Spatial Arrangement
- (2) Analysis of Economic Aggregate and Financial Resources
- (3) Analysis of Current Industrial Chain
- (4) Development of Current Enterprises in Parks
- (5) Metabolism and Energy Flow
- (6) Management System and Preferential Policies
- (7) Analysis of Construction of Supporting Systems
- (8) SWOT Analysis of Operation and Management
