

China Electricity Distribution Transformer Industry Report (2016–2021), Market Demand Forecast and Investment Strategy Planning

目 录

CONTENTS

Chapter 1: Review of development of China electricity distribution transformer industry

1.1 definition and classification of electricity distribution transformer industry

- 1.1.1 industry concepts and definitions
- 1.1.2 categories of main industry products
- 1.1.3 position of the industry in the national economy

1.2 statistical standards of electricity distribution transformer industry

- 1.2.1 statistical offices and statistical standards
- 1.2.2 statistical methods
- 1.2.3 types of data

1.3 analysis of market environment of electricity distribution transformer industry

- 1.3.1 analysis of industry policy environment
- 1.3.2 analysis of industry economic environment
 - (1) analysis of the macroeconomic environment
 - (2) impact of the macroeconomic environment on the industry
- 1.3.3 analysis of industry technical environment
- 1.3.4 analysis of industry social environment

Chapter 2: Analysis of electricity distribution transformer industry chain

2.1 analysis of electricity distribution transformer industry chain

2.2 analysis of raw material market of electricity distribution transformer industry

- 2.2.1 analysis of ordinary steel market
 - (1) production situation
 - (2) analysis of apparent consumption of ordinary steel
 - (3) analysis of price trend of ordinary steel
- 2.2.2 analysis of silicon steel market
 - (1) analysis of production of silicon steel
 - (2) analysis of market competition of silicon steel
 - (3) analysis of price trend of silicon steel

2.2.3 analysis of non-ferrous metals market

- (1) analysis of copper market
- (2) analysis of aluminum market

2.2.4 analysis of transformer oil market

2.2.5 analysis of insulation materials market

2.3 analysis of application market of electricity distribution transformer industry

- 2.3.1 analysis of the development of the power industry
 - (1) analysis of power supply
 - (2) analysis of electricity demand
 - (3) analysis of power supply and demand balance
- 2.3.2 analysis of National Grid construction
 - (1) the status quo of China's power grid
 - (2) the size of grid investment
 - (3) prospects of electric power construction investment
- 2.3.3 analysis of development of residential consumption

Chapter 3: Analysis of operation of the electricity distribution transformer industry

3.1 analysis of development of China electricity distribution transformer industry

- 3.1.1 overview of the general development of China electricity distribution transformer industry
- 3.1.2 main features of development of China electricity distribution transformer industry
- 3.1.3 analysis of operation of electricity distribution transformer industry in.....2012

- (1) analysis of operation efficiency
- (2) analysis of profitability capability
- (3) analysis of operations capability
- (4) analysis of solvency capability
- (5) analysis of development capability

3.2 analysis of economic indicators of electricity distribution transformer industry

- 3.2.1 main economic factors of electricity distribution transformer industry
- 3.2.2 analysis of economic indicators of electricity distribution transformer industry in.....2012
- 3.2.3 analysis of economic indicators of enterprises of different scale in.....2012
- 3.2.4 analysis of economic indicators of enterprises of different nature in.....2012

3.3 analysis of supply and demand balance of electricity distribution transformer industry in.....2012

- 3.3.1 analysis of the supply of national electricity distribution transformer industry in.....2012
 - (1) analysis of output of the national electricity distribution transformer industry
 - (2) analysis of finished products of the national electricity distribution transformer industry
- 3.3.2 analysis of the supply of regional electricity distribution transformer industry in.....2012
 - (1) analysis of top 10 regions leading in output value
 - (2) analysis of top 10 regions leading in finished products
- 3.3.3 analysis of the demand of national electricity distribution transformer industry in.....2012
 - (1) analysis of output value of the national electricity distribution transformer industry
 - (2) analysis of sales revenue of the national electricity distribution transformer industry
- 3.3.4 analysis of the demand of regional electricity distribution transformer industry in.....2012
 - (1) analysis of top 10 regions leading in output value
 - (2) analysis of top 10 regions leading in sales revenue
- 3.3.5 analysis of production and sales rate of nationwide electricity distribution transformer

industry

3.4 analysis of import and export market of electricity distribution transformer industry in.....2012

- 3.4.1 summary of import and export situation of electricity distribution transformer industry in.....2012
 - (1) the structure of import products
 - (2) forecast of industry import and recommendations
- 3.4.2 analysis of export market of electricity distribution transformer industry in.....2012
 - (1) the structure of export products
 - (2) forecast of industry export and recommendations
- 3.4.3 analysis of import market of electricity distribution transformer industry in.....2012
 - (1) the structure of import products
 - (2) forecast of industry import and recommendations

Chapter 4: Analysis of market competition of electricity distribution transformer industry

4.1 analysis of the whole market competition of the industry

4.2 analysis of the international market competition of the industry

- 4.2.1 development of international electricity distribution transformer market
- 4.2.2 analysis of competition of international electricity distribution transformer market
 - (1) analysis of ABB corporate development
 - 1) analysis of corporate development
 - 2) analysis of corporate operation
 - 3) analysis of corporate products and technology
 - 4) corporate sales channels and networks
 - 5) analysis of corporate investment layout in China
 - (2) analysis of ARVEA development
 - 1) analysis of corporate development
 - 2) analysis of corporate operation
 - 3) analysis of corporate products and technology
 - 4) corporate sales channels and networks
 - 5) analysis of corporate investment layout in China
 - (3) analysis of the development of Siemens AG
 - 1) analysis of corporate development
 - 2) analysis of corporate operation
 - 3) analysis of corporate products and technology
 - 4) corporate sales channels and networks
 - 5) analysis of corporate investment layout in China
- 4.2.3 analysis of trends of competition of international electricity distribution transformers

4.3 analysis of competition of the industry in the domestic market

4.3.1 analysis of competition pattern of domestic electricity distribution transformer industry

4.3.2 analysis of concentration of domestic electricity distribution transformer industry

(1) analysis of sales concentration

(2) analysis of capital concentration

(3) analysis of profit concentration

4.3.3 analysis of bargaining power of electricity distribution transformer manufacturing industry

4.3.4 analysis of potential threats of domestic electricity distribution transformer manufacturing industry

4.4 analysis of investment merger and reorganization and integration of the industry

4.4.1 overview of investment merger and reorganization and integration of electricity distribution transformer industry

4.4.2 investment merger and reorganization and integration of domestic electricity distribution transformer manufacturing industry

4.4.3 judgment of features of investment merger and reorganization and integration of electricity distribution transformer industry

4.5 analysis of characteristics of different types of enterprises in the industry

4.5.1 characteristics of different types of enterprises

4.5.2 analysis of concentration of economic types

Chapter 5: Analysis of market size and technology of main products of electricity distribution transformer industry

5.1 structural characteristics of main products of the industry

5.1.1 analysis of structural characteristics of products of the industry

5.1.2 overview of market development of products of the industry

5.2 analysis of market size of main products

5.2.1 classification by the insulating medium (cooling mode)

(1) analysis of oil-immersed distribution transformer market

1) analysis of 10KV oil-immersed transformer supply and demand

2) analysis of 20KV oil-immersed transformer supply and demand

3) analysis of 35KV oil-immersed transformer supply and demand

(2) analysis of dry-type distribution transformer market

5.2.2 classification by the core structure

(1) analysis of wound core distribution transformer (S11 type) market

(2) analysis of amorphous alloy distribution transformer market

5.2.3 classification by other methods

5.3 analysis of technology of main products

5.3.1 analysis of industry technology

(1) the number of patent applications

(2) the number of released patents

(3) analysis of patent applicants

(4) analysis of patent composition

5.3.2 development trends of new technology of major products

(1) development trends of new technology of the international electricity distribution transformer industry

(2) development trends of new technology of the domestic electricity distribution transformer industry

Chapter 6: Analysis of key regional markets of electricity distribution transformer industry in 2012

6.1 analysis of characteristics of the overall regional structure of the industry in.....2012

6.1.1 the general characteristics of regional structure

6.1.2 analysis of regional industry concentration

6.1.3 analysis of regional industry distribution

6.1.4 analysis of the regional distribution of industrial scale indicators

6.1.5 analysis of the regional distribution of industrial efficiency indicators

6.1.6 analysis of the regional distribution of company quantity

6.2 analysis of electricity distribution transformer industry of Guangdong Province in 2012 and forecast

6.2.1 Changes of the status of electricity distribution transformer industry of Guangdong Province

6.2.2 analysis of the economic health of electricity distribution transformer industry of

Guangdong Province

6.2.3 analysis of enterprises of electricity distribution transformer industry of Guangdong Province

- (1) analysis of enterprise concentration
- (2) analysis of enterprise development and profit and loss situation

6.2.4 forecast of development trends of electricity distribution transformer industry of Guangdong Province

6.3 analysis of electricity distribution transformer industry of Jiangsu Province in 2012 and forecast

6.3.1 Changes of the status of electricity distribution transformer industry of Jiangsu Province

6.3.2 analysis of the economic health of electricity distribution transformer industry of Jiangsu Province

6.3.3 analysis of enterprises of electricity distribution transformer industry of Jiangsu Province

- (1) analysis of enterprise concentration
- (2) analysis of enterprise development and profit and loss situation

6.3.4 forecast of development trends of electricity distribution transformer industry of Jiangsu Province

6.4 analysis of electricity distribution transformer industry of Zhejiang Province in 2012 and forecast

6.4.1 Changes of the status of electricity distribution transformer industry of Zhejiang Province

6.4.2 analysis of the economic health of electricity distribution transformer industry of Zhejiang Province

6.4.3 analysis of enterprises of electricity distribution transformer industry of Zhejiang Province

- (1) analysis of enterprise concentration
- (2) analysis of enterprise development and profit and loss situation

6.4.4 forecast of development trends of electricity distribution transformer industry of Zhejiang Province

6.5 analysis of electricity distribution transformer industry of Shandong Province in 2012 and forecast

6.5.1 Changes of the status of electricity distribution transformer industry of Shandong Province

6.5.2 analysis of the economic health of electricity distribution transformer industry of Shandong Province

6.5.3 analysis of enterprises of electricity distribution transformer industry of Shandong Province

- (1) analysis of enterprise concentration
- (2) analysis of enterprise development and profit and loss situation

6.5.4 forecast of development trends of electricity distribution transformer industry of Shandong Province

6.6 analysis of electricity distribution transformer industry of Liaoning Province in 2012 and forecast

6.6.1 Changes of the status of electricity distribution transformer industry of Liaoning Province

6.6.2 analysis of the economic health of electricity distribution transformer industry of Liaoning Province

6.6.3 forecast of development trends of electricity distribution transformer industry of Liaoning Province

Chapter 7: Analysis of operation of main enterprises in electricity distribution transformer industry in 2012

7.1 analysis of the overall development of electricity distribution transformer manufacturing enterprises in 2012

7.1.1 enterprise scale of electricity distribution transformer industry

7.1.2 industrial output of electricity distribution transformer industry

7.1.3 sales revenue and profits of electricity distribution transformer industry

7.1.4 analysis of innovation capability of main electricity distribution transformer manufacturing enterprises

7.2 analysis of leading enterprises in electricity distribution transformer industry

7.2.1 Qingdao Transformer Group Co., Ltd.

- (1) overview of the company's development
- (2) analysis of the company's production and marketing capabilities

- (3) analysis of the company's solvency capability
- (4) analysis of the company's operation capability
- (5) analysis of the company's profitability capability
- (6) analysis of the company's development capability
