

China Network Lending Industry Report (2013–2018), Market Prospect and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Background of investment of Chinese network lending industry

- 1.1 development background of network lending industry
 - 1.1.1 definition of network lending
 - 1.1.2 basic characteristics of network lending
 - 1.1.3 background of network lending industry
 - 1.1.4 factors for the rise of network lending industry
- 1.2 basic situation of network lending platform
 - 1.2.1 operation process of network lending platform
 - 1.2.2 classification of operation of network lending platform
 - (1) analysis of lending models of B2C network
 - 1) lending model of B2C network of commercial banks
 - 2) lending model of B2C network of small loan companies
 - (2) analysis of lending models of P2P network
 - 1.2.3 the potential risks of network lending platform
- 1.3 characteristics of investment of network lending industry
 - 1.3.1 analysis of barriers to enter network lending industry
 - 1.3.2 analysis of exit barriers of network lending industry

Chapter 2: Analysis of market environment of China's network lending industry

- 2.1 factors for the development of network lending industry under PEST model
 - 2.1.1 direction for the formulation of regulatory policy of network lending
 - 2.1.2 the impact of macroeconomy on the industry
 - 2.1.3 The impact of environmental changes on the credit industry
 - 2.1.4 the impact of financial reform policies on the industry
- 2.2 analysis of policy environment of network lending industry
 - 2.2.1 the State Council policies of small and micro financing support
 - 2.2.2 analysis of related policies released by the central bank
 - 2.2.3 analysis of related regulatory policies of CBRC
- 2.3 analysis of economic environment of network lending industry
 - 2.3.1 analysis of the consumption level of residents
 - 2.3.2 analysis of consumers' spending patterns
 - 2.3.3 changes in the socio-economic structure
 - 2.3.4 domestic economic growth and forecast of the trend
- 2.4 analysis of micro-finance environment of network lending industry
 - 2.4.1 analysis of SME credit
 - 2.4.2 analysis of micro credit financing demands
 - (1) analysis of loan scale of personal consumer
 - (2) analysis of loan scale of small and micro enterprises
 - (3) analysis of loan scale of SMEs
 - 2.4.3 analysis of the supply of microfinance capital
 - (1) analysis of operation of small loan companies
 - (2) analysis of operation of rural financial institutions
 - (3) analysis of operation of private lending industry

Chapter 3: Experience of development of foreign P2P network lending industry

- 3.1 analysis of the development of global network lending industry
 - 3.1.1 development course of foreign P2P network lending
 - 3.1.2 development scale of foreign P2P network lending
 - 3.1.3 status quo of P2P network lending in developed countries
 - (1) analysis of the status quo of P2P network lending in Britain
 - (2) analysis of the status quo of P2P network lending in America

- (3) analysis of the status quo of P2P network lending in Japan
 - 3.1.4 prediction of the size of loans of international P2P network lending
 - 3.2 comparative analysis of P2P network lending from home and abroad**
 - 3.2.1 comparative analysis of P2P network lending industry from home and abroad
 - 3.2.2 comparative analysis of P2P network lending companies from home and abroad
 - (1) introduction of well-known network lending platforms from home and abroad
 - (2) comparison of services of domestic and foreign network lending platforms
 - 3.3 analysis of operation model of foreign P2P network lending industry**
 - 3.3.1 comparison of operation model of foreign P2P network lending
 - 3.3.2 experience of operation model of foreign P2P network lending
 - (1) management model
 - (2) operation model
 - (3) regulatory model
 - 3.3.3 operation model of foreign representative P2P network lending
 - (1) British Zopa network lending platform
 - 1) analysis of development scale of the platform
 - 2) analysis of customer base of the platform
 - 3) analysis of operation model of the platform
 - 4) analysis of profitability level of the platform
 - 5) analysis of operation characteristic of the platform
 - 6) risk prevention mechanism of the platform
 - (2) American Prosper network lending platform
 - 1) analysis of development scale of the platform
 - 2) analysis of customer base of the platform
 - 3) analysis of operation model of the platform
 - 4) analysis of profitability level of the platform
 - 5) analysis of operation characteristic of the platform
 - 6) risk prevention mechanism of the platform
 - 7) case study of lending of the platform
 - (3) American Kiva network lending platform
 - 1) analysis of development scale of the platform
 - 2) analysis of customer base of the platform
 - 3) analysis of operation model of the platform
 - 4) analysis of profitability level of the platform
 - 5) analysis of operation characteristic of the platform
 - 6) risk prevention mechanism of the platform
 - 7) case study of lending of the platform
 - (4) American Lending Club network lending platform
 - 1) analysis of development scale of the platform
 - 2) analysis of customer base of the platform
 - 3) analysis of operation model of the platform
 - 4) analysis of profitability level of the platform
 - 5) analysis of operation characteristic of the platform
 - 6) risk prevention mechanism of the platform
- Chapter 4: Analysis of status quo of operation of China's network lending industry**
- 4.1 analysis of market demand of network lending industry**
 - 4.1.1 analysis of users' characteristics of network lending industry
 - 4.1.2 analysis of subscriber base of network lending industry
 - 4.1.3 analysis of financing demands of network lending industry
 - 4.2 analysis of development scale of network lending industry**
 - 4.2.1 analysis of transaction scale of network lending
 - 4.2.2 analysis of platform scale of network lending
 - 4.3 analysis of operation of network lending industry**
 - 4.3.1 investment costs of network lending industry
 - 4.3.2 profit level of network lending industry
 - 4.3.3 analysis of compensation of network lending industry
 - 4.4 analysis of revenue sources of network lending industry**
 - 4.4.1 revenue sources of B2C network lending
 - (1) analysis of loan interest income

- (2) outlook for other sources of revenue
- 4.4.2 revenue sources of P2P network lending
 - (1) analysis of revenue of financial fee
 - 1) analysis of revenue of service fee
 - 2) analysis of fee of account management
 - 3) outlook for other sources of revenue
- 4.4.3 revenue sources of third-party platform
 - (1) analysis of revenue of prepaid fee
 - (2) analysis of revenue of withdrawal fee
- 4.5 analysis of non-performing loans of network lending industry**
 - 4.5.1 reasons for non-performing loans of network lending industry
 - 4.5.2 comparative analysis of the level of risk of different lending standards
 - 4.5.3 analysis of non-performing loans of B2C network lending industry
 - 4.5.4 analysis of non-performing loans of P2P network lending industry
 - 4.5.5 analysis of risk reserve of network lending industry
- 4.6 models of network lending and case study**
 - 4.6.1 classification of operation mode of P2P network lending
 - 4.6.2 analysis of business model of typical network lending
 - (1) analysis of model of Ali small loan
 - (2) analysis of model of Paipai
 - (3) analysis of model of CreditEase
 - (4) analysis of model of Yifang
 - (5) analysis of model of 3P banking
 - 4.6.3 analysis of key factors of operation of Haha Lending
 - (1) history of operation of Haha Lending network lending platform
 - (2) reasons for the closure of Haha Lending network lending platform
 - (3) analysis of success factors of Haha Lending network lending platform
 - (4) analysis of innovation model of Haha Lending network lending platform
- 4.7 analysis of O2O development model of network lending industry**
 - 4.7.1 analysis of O2O development model of Ease Credit
 - 4.7.2 analysis of O2O development model of Paipai Lending
 - 4.7.3 analysis of O2O development model of Hongling Venture
- 4.8 analysis of development of network lending platform system**
 - 4.8.1 operation process of network lending platform
 - 4.8.2 user habits of network lending platform
 - 4.8.3 analysis of system characteristics of network lending platform
 - 4.8.4 analysis of system developers of network lending platform

Chapter 5: Analysis of competition and cooperation of China's network lending industry

- 5.1 SWOT analysis of network lending industry**
 - 5.1.1 analysis of competitive advantage of network lending industry
 - 5.1.2 analysis of competitive disadvantage of network lending industry
 - 5.1.3 analysis of development opportunity of network lending industry
 - 5.1.4 analysis of development threat of network lending industry
- 5.2 analysis of competition pattern of network lending industry**
 - 5.2.1 analysis of competition of enterprises of different nature
 - 5.2.2 analysis of competition of network lending rates
 - (1) competition of lending rates of network platform
 - (2) competition of service prices of network platform
 - 5.2.3 analysis of competition of network lending brands
- 5.3 analysis of the main operators of network lending industry**
