

China Exhibition Project Industry Report (2016–2021), Forecast and Investment Planning

目 录

CONTENTS

Chapter 1: Scope of the report of Chinese exhibition project industry

1.1 definition of exhibition project industry

1.2 status of exhibition project in the exhibition industry value chain

Chapter 2: Analysis of status quo of development of China's exhibition project industry

2.1 analysis of quantity of China's exhibition project companies and characteristics of structure

2.1.1 quantity of China's exhibition project companies and regional distribution

(1) scale of quantity of exhibition project companies

(2) regional distribution of exhibition project companies

2.1.2 capital scale and structure of China's exhibition project companies

(1) characteristics of capital scale of exhibition project companies

(2) regional distribution of capital scale of exhibition project companies

2.1.3 analysis of exhibition project companies of different nature

(1) quantity of exhibition project companies of different nature

(2) regional distribution of quantity of exhibition project companies of different nature

(3) analysis of capital scale of exhibition project companies of different nature

2.2 analysis of market demand and characteristics of Chinese exhibition project industry

2.2.1 analysis of characteristics of market scale of exhibition project industry

2.2.2 analysis of characteristics of market growth of exhibition project industry

Chapter 3: Analysis of market demand and prospects of exhibition project of exhibition industry

3.1 analysis of market demand of exhibition project of China's exhibition industry

3.1.1 exhibition activities of exhibition project industry

3.1.2 analysis of exhibition area of exhibition industry

3.1.3 characteristics of distribution of exhibition project of exhibition industry

(1) distribution by time

(2) distribution by region

(3) distribution by industry

3.2 analysis of status quo of construction of China's convention facilities

3.2.1 analysis of quantity of construction of exhibition venues

(1) scale of quantity of construction of exhibition venues

(2) distribution of quantity of construction of exhibition venues

3.2.2 analysis of construction area of exhibition project venues

(1) analysis of scale of construction area of exhibition venues

(2) regional distribution of construction area of built exhibition venues

(3) distribution of exhibition area of built exhibition venues

3.2.3 analysis of problems of construction of China's exhibition venues

3.3 analysis of the demand of exhibition project for enterprises to hold overseas exhibitions

3.3.1 analysis of organization of the global exhibitions

(1) overall situation of the global exhibitions

(2) exhibition area of various regions of the world

(3) scale of exhibition of the top ten exhibition countries worldwide

3.3.2 analysis of Chinese enterprises to hold overseas exhibitions

(1) situation of Chinese enterprises to hold exhibitions in America

(2) situation of Chinese enterprises to hold exhibitions in France

3.3.3 analysis of market demand of exhibition project of overseas exhibitions

3.4 analysis of market demand of exhibition project in China's major cities

3.4.1 analysis of competition pattern of the exhibition industry in key cities

3.4.2 analysis of market demand of exhibition project in Beijing

(1) quantity of exhibitions and exhibition area in Beijing

- (2) held exhibitions of various industries in Beijing
- (3) status quo of construction of exhibition venues and facilities in Beijing
- (4) analysis of revenues of exhibition industry in Beijing
- (5) policy and planning to promote the development of exhibition industry in Beijing
- 3.4.3 analysis of market demand of exhibition project in Shanghai
 - (1) quantity of exhibitions and exhibition area in Shanghai
 - (2) held exhibitions of various industries in Shanghai
 - (3) status quo of construction of exhibition venues and facilities in Shanghai
 - (4) analysis of companies of exhibition project industry in Shanghai
 - (5) planning of the development of exhibition industry in Shanghai
- 3.4.4 analysis of market demand of exhibition project in Guangzhou
 - (1) quantity of exhibitions and exhibition area in Guangzhou
 - (2) status quo of construction of exhibition venues and facilities in Guangzhou
 - (3) policy and planning to promote the development of exhibition industry in Guangzhou
- 3.4.5 analysis of market demand of exhibition project in Hangzhou
 - (1) quantity of exhibitions and exhibition area in Hangzhou
 - (2) status quo of construction of exhibition venues and facilities in Hangzhou
 - (3) analysis of revenues of exhibition industry in Hangzhou
 - (4) policy and planning to promote the development of exhibition industry in Hangzhou
- 3.4.6 analysis of market demand of exhibition project in Shenzhen
 - (1) quantity of exhibitions and exhibition area in Shenzhen
 - (2) held exhibitions of various industries in Shenzhen
 - (3) status quo of construction of exhibition venues and facilities in Shenzhen
 - (4) forecast of exhibition project market of exhibition industry in Shenzhen
- 3.4.7 analysis of market demand of exhibition project in Tianjing
 - (1) quantity of exhibitions and exhibition area in Tianjing
 - (2) held exhibitions of various industries in Tianjing
 - (3) status quo of construction of exhibition venues and facilities in Tianjing
 - (4) analysis of revenues of exhibition industry in Tianjing
 - (5) forecast of exhibition project market of exhibition industry in Tianjing
- 3.4.8 analysis of market demand of exhibition project in Qingdao
 - (1) quantity of exhibitions and exhibition area in Qingdao
 - (2) held exhibitions of various industries in Qingdao
 - (3) status quo of construction of exhibition venues and facilities in Qingdao
 - (4) policy and planning to promote the development of exhibition industry in Qingdao
- 3.4.9 analysis of market demand of exhibition project in Dalian
 - (1) quantity of exhibitions and exhibition area in Dalian
 - (2) held exhibitions of various industries in Dalian
 - (3) status quo of construction of exhibition venues and facilities in Dalian
 - (4) analysis of revenues of exhibition industry in Dalian
 - (5) policy and planning to promote the development of exhibition industry in Dalian
- 3.4.10 analysis of market demand of exhibition project in Changsha
 - (1) quantity of exhibitions and exhibition area in Changsha
 - (2) held exhibitions of various industries in Changsha
 - (3) status quo of construction of exhibition venues and facilities in Changsha
 - (4) planning of the development of exhibition industry in Changsha
- 3.4.11 analysis of market demand of exhibition project in Chengdu
 - (1) quantity of exhibitions and exhibition area in Chengdu
 - (2) status quo of construction of exhibition venues and facilities in Chengdu
 - (3) planning of the development of exhibition industry in Chengdu

3.5 forecast of market demand of exhibition project of exhibition industry

Chapter 4: Analysis and forecast of construction demand of Chinese museum

4.1 management system and sources of funding for construction of museum

- 4.1.1 management system of Chinese museum
- 4.1.2 sources of funding for construction of museum

4.2 analysis of characteristics of construction of museum

- 4.2.1 difference between museum project and ordinary architectural project
 - (1) different nature and objectives
 - (2) different engineering content

- (3) different artistic and technical content
- (4) different management methods
- 4.2.2 museum's hardware requirements
- 4.2.3 use of underground space of museum
- 4.3 analysis of investment and construction of Chinese museum**
 - 4.3.1 analysis of quantity of construction of the museum
 - 4.3.2 types of structure of existing museum
 - 4.3.3 quantity and structure of private museum
 - (1) situation of construction of private museum
 - (2) characteristics of private museum
- 4.4 exhibition and display activities of Chinese museum**
 - 4.4.1 exhibition and display activities of museum
 - 4.4.2 analysis of quantity museum visitors
- 4.5 analysis of development status quo of museum industry in various regions**
 - 4.5.1 analysis of construction and operation of museum in various regions
 - (1) analysis of construction of museum in various regions
 - (2) distribution of exhibition and display activities of regional museum
 - (3) revenue of regional museum
 - (4) quantity of visitors of museum in various regions
 - 4.5.2 status quo of construction of museum in Guangdong
 - (1) quantity and structure of museum in Guangdong
 - (2) exhibition activities of museum in Guangdong
 - (3) policy to promote the development of museum in Guangdong
 - 4.5.3 status quo of construction of museum in Beijing
 - (1) quantity and structure of museum in Beijing
 - (2) exhibition activities of museum in Beijing
 - (3) policy to promote the development of museum in Beijing
 - 4.5.4 status quo of construction of museum in Shanghai
 - (1) quantity and structure of museum in Shanghai
 - (2) exhibition activities of museum in Shanghai
 - (3) policy and planning to promote the development of museum industry in Shanghai
 - 4.5.5 status quo of construction of museum in Jiangsu
 - (1) quantity and structure of museum in Jiangsu
 - (2) exhibition activities of museum in Jiangsu
 - (3) policy and planning to promote the development of museum industry in Jiangsu
 - 4.5.6 status quo of construction of museum in Hunan
 - (1) quantity and structure of museum in Hunan
 - (2) exhibition activities of museum in Hunan
 - (3) policy and planning to promote the development of museum industry in Hunan
 - 4.5.7 status quo of construction of museum in Sichuan
 - (1) quantity and structure of museum in Sichuan
 - (2) exhibition activities of museum in Sichuan
 - (3) policy and planning to promote the development of museum industry in Sichuan
- 4.6 prospects of construction of Chinese museum**
 - 4.6.1 analysis of opportunities of construction of museum
 - 4.6.2 prospects of construction of museum
 - 4.6.3 prospects of construction of private museum

Chapter 5: Analysis and outlook of construction demand of China's science and technology museum

- 5.1 comparison of science and technology museum and the traditional museum**
 - 5.1.1 definition of science and technology museum
 - 5.1.2 comparison of science and technology museum and the traditional museum
 - (1) relationship between science and technology museum and the traditional museum
 - (2) different points of science and technology museum and the traditional museum
- 5.2 analysis of advantages of education of science and technology museum above school education**
 - 5.2.1 advantages of education of science and technology museum above school education
 - 5.2.2 significance of science and technology museum to develop science education
- 5.3 analysis of construction of China's science and technology museum**
 - 5.3.1 summary of construction course of China's science and technology museum

- 5.3.2 evolution of exhibition model of China' s science and technology museum
- 5.3.3 analysis of status quo of construction of China' s science and technology museum
 - (1) national fund-raising for science popularization
 - (2) infrastructure expenditures of science popularization stadium
 - (3) quantity and area of construction of science and technology museum
 - (4) distribution of area of science and technology museum
 - (5) regional distribution of science and technology museum
- 5.4 analysis of events of science and technology museum**
- 5.5 analysis of operation of China' s science and technology museum**
 - 5.5.1 situation of employees of science and technology museum
 - 5.5.2 structure of funding sources of science and technology museum
- 5.6 analysis of problems of China' s science and technology museum**
 - 5.6.1 design problem
 - 5.6.2 construction problem
 - 5.6.3 operation problem
