

China Special Metal Functional Materials Industry Report (2016–2021), Market Forecast and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Analysis of development environment of special metal functional materials industry

- 1.1 basic concepts of special metal functional materials industry
 - 1.1.1 definition and classification of the industry
 - 1.1.2 position of the industry in the new materials industry
- 1.2 analysis of economic environment of special metal functional materials industry
 - 1.2.1 analysis of the international economic environment trend
 - 1.2.2 analysis of the domestic economic environment trend
 - 1.2.3 analysis of impact of economic environment changes on the industry
- 1.3 analysis of policy environment of special metal functional materials industry
 - 1.3.1 interpretation of related policies of the industry
 - 1.3.2 interpretation of development planning of the industry
- 1.4 analysis of technical environment of special metal functional materials industry
 - 1.4.1 analysis of quantity of patent applications of the industry
 - 1.4.2 analysis of quantity of patent publications of the industry
 - 1.4.3 analysis of patent applicant of the industry
 - 1.4.4 analysis of hot technology of the industry

Chapter 2: Analysis of status quo of development of special metal functional materials industry

- 2.1 analysis of development trends of the global special metal functional materials industry
 - 2.1.1 analysis of development of the industry
 - 2.1.2 analysis of competitive landscape of the industry
 - 2.1.3 analysis of development trends of the industry
- 2.2 analysis of overall development of China's special metal functional materials industry
 - 2.2.1 analysis of development scale of the industry
 - 2.2.2 analysis of competitive landscape of the industry
 - 2.2.3 analysis of regional distribution of the industry
- 2.3 analysis of operation of China's special metal functional materials industry
 - 2.3.1 analysis of profitability capability of the industry
 - 2.3.2 analysis of solvency capability of the industry
 - 2.3.3 analysis of operation capability of the industry
 - 2.3.4 analysis of development capability of the industry

Chapter 3: Analysis of status quo of development and demand of rare earth functional materials industry

- 3.1 status quo of development and trends of rare earth functional materials industry
 - 3.1.1 analysis of scale of the industry
 - 3.1.2 technology development and production, research, study and application
 - 3.1.3 development of related industries
 - 3.1.4 development of key enterprises of the industry
 - 3.1.5 existing main problems of the industry
 - 3.1.6 forecast of development trends of the industry
- 3.2 analysis of development and application demand of rare earth magnetic materials
 - 3.2.1 status quo of development of rare earth magnetic materials industry
 - 3.2.2 analysis of application demand of rare earth magnetic materials
 - (1) computer
 - (2) automotive (new energy vehicles)
 - (3) motor
 - (4) wind power
 - (5) home appliances

- (6) CNC machine tools
- (7) medical treatment
- (8) other fields
- 3.2.3 key enterprises of rare earth magnetic materials industry
- 3.2.4 forecast of development prospects of rare earth magnetic materials
- 3.3 analysis of development and application demand of rare earth luminescent materials**
- 3.3.1 status quo of development of rare earth luminescent materials industry
- 3.3.2 analysis of application demand of rare earth luminescent materials
 - (1) energy efficient lighting
 - (2) monitor
 - (3) other fields
- 3.3.3 key enterprises of rare earth luminescent materials industry
- 3.3.4 forecast of development prospects of rare earth luminescent materials
- 3.4 analysis of development and application demand of rare earth hydrogen storage materials**
- 3.4.1 status quo of development of rare earth hydrogen storage materials industry
- 3.4.2 status quo of development and trends of NiMH battery
- 3.4.3 analysis of application demand of rare earth hydrogen storage materials
 - (1) new energy vehicle
 - (2) portable electronic device
 - (3) power tools
 - (4) other fields
- 3.4.4 key enterprises of rare earth hydrogen storage materials industry
- 3.4.5 forecast of development prospects of rare earth hydrogen storage materials
- 3.5 analysis of development and application demand of rare earth catalytic materials**
- 3.5.1 status quo of development of rare earth catalytic materials industry
- 3.5.2 analysis of application demand of rare earth catalytic materials
 - (1) Petrochemical
 - (2) natural gas
 - (3) motor vehicle exhaust purification catalyst
 - (4) industrial organic waste gas treatment
 - (5) fuel cell
 - (6) other fields
- 3.5.3 key enterprises of rare earth catalytic materials industry
- 3.5.4 forecast of development prospects of rare earth catalytic materials
- 3.6 analysis of development and application demand of other rare earth functional materials**
- 3.6.1 overview of development of other rare earth functional materials
- 3.6.2 application demand of other rare earth functional materials
- 3.6.3 forecast of development of other rare earth functional materials
- Chapter 4: Analysis of status quo of development and demand of tungsten and molybdenum sheet and deep processing industry**
- 4.1 analysis of status quo of development of tungsten and molybdenum sheet and deep processing industry**
- 4.1.1 analysis of scale of the industry
- 4.1.2 technology development and production, research, study and application
- 4.1.3 development of key enterprises of the industry
- 4.1.4 analysis of development of related industries
- 4.1.5 existing main problems of the industry
- 4.2 analysis of application demand of tungsten and molybdenum sheet and deep processed products**
- 4.2.1 solar PV
- 4.2.2 LCD
- 4.2.3 semiconductor
- 4.2.4 glass decoration
- 4.2.5 electric light
- 4.2.6 power electronics
- 4.2.7 special ceramics
- 4.2.8 sapphire
- 4.2.9 other fields
- 4.3 forecast of development of tungsten and molybdenum sheet and deep processed products**
- Chapter 5: Analysis of status quo of development and demand of semiconductor materials**

industry**5.1 analysis of status quo of development of semiconductor materials industry**

- 5.1.1 analysis of scale of the industry
- 5.1.2 technology development and production, research, study and application
- 5.1.3 development of key enterprises of the industry
- 5.1.4 analysis of development of related industries
- 5.1.5 existing main problems of the industry
- 5.1.6 forecast of development trends of the industry

5.2 analysis of development and application demand of silicon materials industry

- 5.2.1 status quo of development of silicon materials industry
- 5.2.2 application demand of silicon materials industry
 - (1) IC
 - (2) solar cell
 - (3) semiconductor device
 - (4) memory, microprocessor
 - (5) other fields
- 5.2.3 key enterprises of silicon materials industry
- 5.2.4 development trends of silicon materials industry
- 5.2.5 development prospects of silicon materials industry

5.3 analysis of status quo of development and demand of second-generation semiconductor materials industry

- 5.3.1 analysis of characteristics of second-generation semiconductor materials
- 5.3.2 status quo of development of second-generation semiconductor materials
 - (1) analysis of status quo of foreign development
 - (2) analysis of status quo of domestic research
- 5.3.3 application demand of second-generation semiconductor materials
 - (1) satellite communications
 - (2) mobile communications
 - (3) optical communications
 - (4) GPS navigation
 - (5) other fields
- 5.3.4 key enterprises of second-generation semiconductor materials
- 5.3.5 development trends of second-generation semiconductor materials

5.4 analysis of development and application demand of third-generation semiconductor materials industry

- 5.4.1 analysis of characteristics of third-generation semiconductor materials
- 5.4.2 status quo of development of third-generation semiconductor materials
 - (1) analysis of status quo of foreign development
 - (2) analysis of progress of domestic research
- 5.4.3 analysis of application demand of gallium nitride (GaN)
 - (1) big screen, lights, traffic lights and other fields
 - (2) lay the industrial base for semiconductor lighting
 - (3) bring the digital storage technology revolution
 - (4) important uses in the military field
- 5.4.4 analysis of application demand of Silicon carbide (SiC)
 - (1) power electronic devices
 - (2) semiconductor lighting
 - (3) other fields
- 5.4.5 development trends of third-generation semiconductor materials

Chapter 6: Analysis of development and demand of carbide industry**6.1 analysis of status quo of development of carbide industry**

- 6.1.1 analysis of scale of the industry
- 6.1.2 technology development and production, research, study and application
- 6.1.3 development of key enterprises of the industry
- 6.1.4 analysis of development of related industries
- 6.1.5 existing main problems of the industry

6.2 analysis of application demand of carbide industry

- 6.2.1 cutting tools
 - (1) analysis of development of the industry

- (2) status quo of demand for carbide of the industry
- (3) trends of demand for carbide of the industry
- 6.2.2 mining tools
 - (1) analysis of development of the industry
 - (2) status quo of demand for carbide of the industry
 - (3) trends of demand for carbide of the industry
- 6.2.3 wear-resistant parts
 - (1) analysis of development of the industry
 - (2) status quo of demand for carbide of the industry
 - (3) trends of demand for carbide of the industry

6.3 forecast of development trends of carbide industry

Chapter 7: Analysis of development of other subdivided areas of special metal functional materials

7.1 tantalum niobium materials

- 7.1.1 analysis of major characteristics of products
- 7.1.2 analysis of application fields of products
- 7.1.3 analysis of application demands of products

7.2 nuclear-grade rare metal materials

- 7.2.1 analysis of major characteristics of products
- 7.2.2 analysis of application fields of products
- 7.2.3 analysis of application demands of products

7.3 dilute precious metals

- 7.3.1 analysis of major characteristics of products
- 7.3.2 analysis of application fields of products
- 7.3.3 analysis of application demands of products

7.4 high performance targets

- 7.4.1 analysis of major characteristics of products
- 7.4.2 analysis of application fields of products
- 7.4.3 analysis of application demands of products

7.5 advanced energy storage materials

- 7.5.1 analysis of major characteristics of products
- 7.5.2 analysis of application fields of products
- 7.5.3 analysis of application demands of products

7.6 new copper alloys

- 7.6.1 analysis of major characteristics of products
- 7.6.2 analysis of application fields of products
- 7.6.3 analysis of application demands of products

7.7 new metal fiber porous material

- 7.7.1 analysis of major characteristics of products
- 7.7.2 analysis of application fields of products
- 7.7.3 analysis of application demands of products

7.8 metal powder materials

- 7.8.1 analysis of major characteristics of products
- 7.8.2 analysis of application fields of products
- 7.8.3 analysis of application demands of products

Chapter 8: Analysis of regional development of China's special metal functional materials industry

8.1 analysis of development of special metal functional materials industry in Beijing

- 8.1.1 analysis of development environment of the industry
- 8.1.2 analysis of development scale of the industry
- 8.1.3 analysis of major enterprises of the industry
- 8.1.4 construction of key projects
- 8.1.5 development trend of industrial base
- 8.1.6 analysis of development trends of the industry

8.2 analysis of development of special metal functional materials industry in Inner Mongolia

- 8.2.1 analysis of development environment of the industry
- 8.2.2 analysis of development scale of the industry
- 8.2.3 analysis of major enterprises of the industry
- 8.2.4 construction of key projects

8.2.5 development trend of industrial base

8.2.6 analysis of development trends of the industry

8.3 analysis of development of special metal functional materials industry in Jiangxi

8.3.1 analysis of development environment of the industry

8.3.2 analysis of development scale of the industry

8.3.3 analysis of major enterprises of the industry

8.3.4 construction of key projects

8.3.5 development trend of industrial base

8.3.6 analysis of development trends of the industry

8.4 analysis of development of special metal functional materials industry in Sichuan

8.4.1 analysis of development environment of the industry

8.4.2 analysis of development scale of the industry

8.4.3 analysis of major enterprises of the industry

8.4.4 construction of key projects

8.4.5 development trend of industrial base

8.4.6 analysis of development trends of the industry

8.5 analysis of development of special metal functional materials industry in Fujian

8.5.1 analysis of development environment of the industry

8.5.2 analysis of development scale of the industry

8.5.3 analysis of major enterprises of the industry

8.5.4 construction of key projects

8.5.5 development trend of industrial base

8.5.6 analysis of development trends of the industry

8.6 analysis of development of special metal functional materials industry in Zhejiang

8.6.1 analysis of development environment of the industry

8.6.2 analysis of development scale of the industry

8.6.3 analysis of major enterprises of the industry

8.6.4 construction of key projects

8.6.5 development trend of industrial base

8.6.6 analysis of development trends of the industry

8.7 analysis of development of special metal functional materials industry in Shaanxi

8.7.1 analysis of development environment of the industry

8.7.2 analysis of development scale of the industry

8.7.3 analysis of major enterprises of the industry

8.7.4 construction of key projects

8.7.5 development trend of industrial base

8.7.6 analysis of development trends of the industry

8.8 analysis of development of special metal functional materials industry in Yunnan

8.8.1 analysis of development environment of the industry

8.8.2 analysis of development scale of the industry

8.8.3 analysis of major enterprises of the industry

8.8.4 construction of key projects

8.8.5 development trend of industrial base

8.8.6 analysis of development trends of the industry

8.9 analysis of development of special metal functional materials industry in Hunan

8.9.1 analysis of development environment of the industry

8.9.2 analysis of development scale of the industry

8.9.3 analysis of major enterprises of the industry

8.9.4 construction of key projects

8.9.5 development trend of industrial base

8.9.6 analysis of development trends of the industry

Chapter 9: Analysis of operation of leading enterprises of special metal functional materials industry

9.1 overall situation of enterprises of special metal functional materials industry

9.2 analysis of operation of leading enterprises of special metal functional materials industry

9.2.1 Inner Mongolia Baotou Steel Rare Earth (Group) Hi-tech Co., Ltd.

(1) brief introduction of the company's development

(2) analysis of the company's main business

(3) analysis of the company's R&D level

- (4) analysis of the company's product structure
 - (5) analysis of the company's sales network
 - (6) analysis of the company's operation
 - 1) analysis of the company's major economic indicators
 - 2) analysis of the company's profitability capability
 - 3) analysis of the company's operation capability
 - 4) analysis of the company's solvency capability
 - 5) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 9.2.2 Beijing Zhongke Sanhuan Technology Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's main business
 - (3) analysis of the company's R&D level
 - (4) analysis of the company's product structure
 - (5) analysis of the company's sales network
 - (6) analysis of the company's operation
 - 1) analysis of the company's major economic indicators
 - 2) analysis of the company's profitability capability
 - 3) analysis of the company's operation capability
 - 4) analysis of the company's solvency capability
 - 5) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 9.2.3 Antai Technology Corporation
- (1) brief introduction of the company's development
 - (2) analysis of the company's main business
 - (3) analysis of the company's R&D level
 - (4) analysis of the company's product structure
 - (5) analysis of the company's sales network
 - (6) analysis of the company's operation
 - 1) analysis of the company's major economic indicators
 - 2) analysis of the company's profitability capability
 - 3) analysis of the company's operation capability
 - 4) analysis of the company's solvency capability
 - 5) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 9.2.4 Ningbo Yunsheng Corporation
- (1) brief introduction of the company's development
 - (2) analysis of the company's main business
 - (3) analysis of the company's R&D level
 - (4) analysis of the company's product structure
 - (5) analysis of the company's sales network
 - (6) analysis of the company's operation
 - 1) analysis of the company's major economic indicators
 - 2) analysis of the company's profitability capability
 - 3) analysis of the company's operation capability
 - 4) analysis of the company's solvency capability
 - 5) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 9.2.5 Hengdian Group DMEGC Magnetics Co., Ltd
- (1) brief introduction of the company's development
 - (2) analysis of the company's main business
 - (3) analysis of the company's R&D level
 - (4) analysis of the company's product structure
 - (5) analysis of the company's sales network
 - (6) analysis of the company's operation

- 1) analysis of the company's major economic indicators
- 2) analysis of the company's profitability capability
- 3) analysis of the company's operation capability
- 4) analysis of the company's solvency capability
- 5) analysis of the company's development capability
- (7) analysis of advantages and disadvantages of the company's operation
- (8) analysis of the company's latest development trend

there are another 21 enterprises

Chapter 10: Analysis of investment prospects of special metal functional materials industry

10.1 analysis of characteristics of investment of special metal functional materials industry

- 10.1.1 analysis of investment barriers of the industry
- 10.1.2 analysis of business model of the industry
- 10.1.3 analysis of profit factor of the industry

10.2 analysis of development trends of special metal functional materials industry

- 10.2.1 analysis of development priorities of the industry
- 10.2.2 analysis of major projects of the industry
- 10.2.3 analysis of development targets of the industry
- 10.2.4 analysis of development trends of the industry
- 10.2.5 forecast of development prospects of the industry

10.3 analysis of opportunities and risks of investment of special metal functional materials industry

- 10.3.1 analysis of status quo of investment of the industry
- 10.3.2 analysis of investment opportunities of the industry
- 10.3.3 analysis of risks of investment of the industry
- 10.3.4 Qianzhan's investment advice for the industry
