

China Automotive Remanufacturing Industry Report of Depth Research & Investment Strategy Analysis, 2016-2021

目 录

CONTENTS

Chapter 1: Summary of the development of China auto industry remanufacturing

1.1 Overview of remanufacturing

- 1.1.1 The definition of remanufacturing
 - (1) general sense of remanufacturing
 - (2) narrow sense of remanufacturing
- 1.1.2 remanufacturing workflow
- 1.1.3 applications of remanufacturing
 - (1) foreign remanufacturing applications
 - (2) domestic remanufacturing applications
- 1.1.4 difference of remanufacturing, manufacturing, maintenance
 - (1) remanufacturing and manufacturing
 - (2) remanufacturing and general maintenance
 - (3) remanufacturing and overhaul

1.2 Overview of automotive remanufacturing industry

- 1.2.1 The meaning of automotive remanufacturing
- 1.2.2 product range of automotive remanufacturing
- 1.2.3 benefit analysis of automotive remanufacturing
 - (1) social benefit
 - (2) economic benefit
- 1.2.4 analysis of intellectual property of automotive remanufacturing
 - (1) conflict of interest intellectual property
 - (2) scope of intellectual property rights

1.3 Analysis of automobile remanufacturing industry chain

- 1.3.1 overview of automotive remanufacturing industry chain
- 1.3.2 analysis of upstream automotive remanufacturing industry chain
 - (1) analysis of upstream vehicle recovery mode
 - (2) analysis of upstream vehicle dismantling way
- 1.3.3 analysis of downstream automotive remanufacturing industry chain

Chapter 2: PEST analysis of China automotive remanufacturing Industry

2.1 analysis of policy environment of automotive remanufacturing industry

- 2.1.1 Summary of automotive remanufacturing industry -related policies
- 2.1.2 Interpretation of automotive remanufacturing industry policy
 - (1) Interpretation of " circular economy development strategy and action plan for the near future , "
 - (2) Interpretation of " Twelfth-five-year plan on the development of energy-saving environmental protection industry "
 - (3) Interpretation of " views on promoting the development of remanufacturing industry "
 - (4) Interpretation of " management approach of automotive parts remanufacturing "
 - (5) Interpretation of " management approach of scrap car recycling "
- 2.1.3 The policy environment affecting the automotive remanufacturing industry

2.2 analysis of economic environment of automotive remanufacturing industry

- 2.2.1 Analysis of the global economic environment
 - (1) analysis of the overall health of the global economy of the second quarter of.....2013
 - (2) analysis of the economy of the second quarter of 2013 in Europe and America
 - (3) analysis of the economy of the second quarter of 2013 in Asia-Pacific
- 2.2.2 Analysis of China economic environment
 - (1) the gross domestic product (GDP) analysis
 - (2) analysis of industrial operation
 - (3) analysis of import and export situation

2.2.3 The economic environment affecting the automotive remanufacturing industry

2.3 analysis of social environment of automotive remanufacturing industry

2.3.1 change lifestyles and values promote the development of the automobile industry

- (1) lifestyle change
- (2) changing values

2.3.2 Environmental pollution and shortage of resources are direct driving force for the development of electric vehicle remanufacturing

- (1) the environmental pollution problems
- (2) shortage of resources

2.3.3 consumers traditional concepts affect automobile remanufacturing market size

2.3.4 social environment affecting automotive remanufacturing industry

2.4 analysis of technical environment of automotive remanufacturing industry

2.4.1 technical analysis of automotive remanufacturing

- (1) prediction of life of remanufacturing techniques
- (2) effective technology of non-destructive dismantling and separation and recovery
- (3) effective technology of environmental protection and green cleaning
- (4) nano surface engineering technology
- (5) automated surface engineering technology

2.4.2 technical analysis of China automotive remanufacturing

- (1) the status quo of automotive remanufacturing technology
- (2) patent applications of automobile remanufacturing
- (3) patent applicant structure of automotive remanufacturing
- (4) structure of invention patent holder of automobile remanufacturing technology

2.4.3 technology environment affecting automotive remanufacturing industry

Chapter 3: Analysis of China automotive remanufacturing upstream and downstream industry chain

3.1 analysis of China automobile industry development

3.1.1 analysis of China automobile production and sales scale

- (1) analysis of vehicle production and sales analysis in the first half of.....2013
- (2) analysis of auto production and sales in 2005年以来
- (3) analysis of auto sales rate in 2005年以来
- (4) analysis of the proportion trend in the world's automobile production and sales

3.1.2 analysis of operations benefit of China automobile manufacturing industry

- (1) analysis of enterprise scale in 2005年以来
- (2) analysis of scale of assets in 2005年以来
- (3) analysis of sales revenue in 2005年以来
- (4) analysis of gross profit in 2005年以来
- (5) analysis of annual industrial output value in 2005年以来

3.1.3 analysis of China automobile industry profitability

- (1) analysis of margin for 2005年以来
- (2) analysis of sales margin for 2005年以来
- (3) analysis of cost margin for 2005年以来
- (4) analysis of returns on total assets for 2005年以来

3.1.4 analysis of China auto industry market competition landscape

- (1) analysis of regional competition pattern
- (2) analysis of competition pattern
- (3) analysis of product competition pattern

3.1.5 analysis of the China automotive market segments

- (1) passenger car market
- (2) commercial vehicle market

3.1.6 prediction of China auto production and sales scale

3.2 Analysis of development of China auto parts industry

3.2.1 Analysis of operation benefit of China auto parts manufacturing industry

- (1) analysis of enterprise scale in 2005年以来
- (2) analysis of scale of assets in 2005年以来
- (3) analysis of sales revenue in 2005年以来
- (4) analysis of gross profit in 2005年以来
- (5) analysis of annual industrial output value in 2005年以来
- (6) analysis of the proportion of auto parts in the automotive industry

- 3.2.2 Analysis of profitability of China auto parts manufacturing industry
 - (1) analysis of margin in 2005年以来
 - (2) analysis of sales margin in 2005年以来
 - (3) analysis of cost margin in 2005年以来
 - (4) analysis of ROA in 2005年以来
- 3.2.3 Analysis of operating efficiency of regional markets of China auto parts
 - (1) comparison of enterprise size of the regional market in 2005年以来
 - (2) comparison of asset size of regional market in 2005年以来
 - (3) comparison of regional market sales in 2005年以来
 - (4) comparison of total regional market profits in 2005年以来
 - (5) comparison of regional market industrial output in 2005年以来
- 3.2.4 Analysis of regional market earnings of China auto parts
 - (1) comparison of gross profit margin of regional markets in 2005年以来
 - (2) comparison of regional marketing margins in 2005年以来
 - (3) comparison of cost margins of regional market in 2005年以来
 - (4) comparison of returns rate on total assets of regional market in 2005年以来
- 3.2.5 Analysis of import and export scale of China auto parts manufacturing
 - (1) analysis of import scale of auto parts in 2005年以来
 - (2) analysis of export scale of auto parts in 2005年以来
 - (3) analysis of international trade competitiveness of auto parts
- 3.3 analysis of China scrap car recycling industry**
 - 3.3.1 overview of China scrap car recycling industry
 - (1) car scrap standards
 - (2) car recycling standards
 - (3) recycling process of car scrap
 - (4) recycling of car scrap material
 - (5) status of automotive recycling industry
 - 3.3.2 analysis of recycling market of China scrap car
 - (1) analysis of recycling size and structure of car scrap
 - (2) analysis of recycling market competition of car scrap s
 - 3.3.3 analysis of recycling mode of China scrap car
 - (1) third party is responsible for recycling mode
 - (2) the producers are responsible for recycling mode
 - (3) the producers association is responsible for recycling mode
- 3.4 analysis of development of China auto repair industry**
 - 3.4.1 scale of China auto repair industry
 - 3.4.2 analysis of business model of China automotive repair industry
 - 3.4.3 analysis of market structure of China auto repair industry
 - 3.4.4 analysis of competition pattern of China automotive repair industry
 - (1) analysis of the competition pattern
 - (2) analysis of the regional competition pattern

Chapter 4: analysis of comparison of global automotive remanufacturing industry

- 4.1 analysis of the global automotive market**
 - 4.1.1 scale of cars in the world
 - 4.1.2 analysis of global automotive production and sales scale
 - 4.1.3 analysis of the global automotive market structure
 - (1) the structure of production in the region
 - (2) the structure of the sales area
 - (3) the market brand structure
- 4.2 analysis of the global automotive remanufacturing industry**
 - 4.2.1 development analysis of the global remanufacturing industry
 - (1) development status of the global remanufacturing industry
 - (2) the direction of the global remanufacturing industry
 - (3) the mode of operation of the global remanufacturing industry
 - 4.2.2 market size analysis of the global automotive remanufacturing
 - 4.2.3 major global automotive remanufacturing methods
- 4.3 analysis of developed automotive remanufacturing**
 - 4.3.1 analysis of the U.S. auto manufacturing industry
 - (1) the development process

- (2) the market size
- (3) modes of operation
- (4) legal environment
- (5) logistics analysis
- 4.3.2 analysis of the German automotive remanufacturing industry
 - (1) the development status
 - (2) the legal environment
 - (3) logistics analysis
- 4.3.3 Analysis of the Japanese automotive remanufacturing industry
 - (1) legal environment
 - (2) recovery mode
 - (3) sales model
- 4.4 the world's leading automotive remanufacturing companies**
 - 4.4.1 Caterpillar, Inc. (United States)
 - (1) company profile
 - (2) analysis of the company's development in China
 - (3) analysis of business in China
 - (4) remanufacturing business analysis
 - (5) products analysis
 - 4.4.2 Cummins, Inc. (United States)
 - (1) company profile
 - (2) analysis of the company's development in China
 - (3) analysis of business in China
 - (4) remanufacturing business analysis
 - (5) remanufactured products analysis
 - 4.4.3 WABCO (United States)
 - (1) company profile
 - (2) analysis of the company's development in China
 - (3) remanufacturing business analysis
 - 4.4.4 Cardone Industries, Inc. (United States)
 - 4.4.5 Genuine Parts Company (USA)
 - 4.4.6 Marshall Engines (USA)
 - 4.4.7 Maval Manufacturing, Inc. (United States)
 - 4.4.8 ZF Friedrichshafen AG (Germany)
 - (1) company profile
 - (2) analysis of the company's development in China
 - (3) remanufacturing business analysis
