

# China Oil and Gas Exploitation Industry Market Forecast and Investment Strategy Planning Report (2013-2017)

## 目 录

### CONTENTS

#### Chapter 1: Development Background of China Oil and Gas Exploitation Industry

##### 1.1 Industry Definition

- 1.1.1 Industry Definition
- 1.1.2 Scope Definition of Report
- 1.1.3 Position of Industry in National Economy

##### 1.2 Statistical Standards for Industry

- 1.2.1 Statistical Coverage of Industry
- 1.2.2 Statistical Methods of Industry
- 1.2.3 Data Categories of Industry

##### 1.3 Analysis of Policy Environment for Industry

- 1.3.1 Competent Departments in the Industry
- 1.3.2 Policies Related to Industry
  - (1) National Plan for Geological Exploitation
  - (2) National Plan for Mineral Resources, 2008-2015
  - (3) Oil and gas pipeline protection act of People's Republic of China
  - (4) Regulation on Tax Reform Problems for Xinjiang Crude Oil and Natural Gas Resources
  - (5) Special Oil Gain Premium
  - (6) Notice Concerning the Income Tax Credit for Overseas Oil (Gas) Resources Exploitation by Chinese Petroleum Enterprises
  - (7) Notice Concerning the Imported gas in proportion to return the import link value-added tax
  - (8) Industrial Guidance for Outbound Foreign Investment in Different Countries
  - (9) Decision of the State Council on the Revision of the Interim Regulations on Resource Tax of the People's Republic of China
  - (10) Guidance Opinions on Developing the Natural-Gas-Fired Distributed Energy Resource
  - (11) Guidance Opinions on the Development of Oil Circulation Industry during "Twelfth Five-year" Period
  - (12) Notice of Conducting Trial of Pricing Mechanism Reform for Natural Gas in Guangdong Province and the Guangxi

##### Autonomous Region

- (13) Notice of the Customs Tariff Commission of the State Council on the Tariff Implementation Plan for 2012

- (14) Shale Gas Exploration Right Bidding Intention Survey Bulletin

- (15) Implementation Opinions on Encouraging and Leading Private Capital to Further Expand Investment in the Field of Energy

##### 1.3.3 Development Planning of Industry

- (1) "Twelfth Five-year" Development Guide for Petroleum and Chemical Industry
- (2) "Twelfth Five-year" Development Planning for Petrochemical and Chemical Industry

##### 1.4 Analysis of Economic Environment for Industry

###### 1.4.1 Analysis of International Macro-economic Environment

- (1) International Macro-economic Status
- (2) International Macro-economic Forecast

###### 1.4.2 Analysis of Domestic Macro-economic Environment

- (1) Domestic Macro-economic Status
- (2) Domestic Macro-economic Forecast

###### 1.4.3 Analysis of Impact of Macro-economy on the Industry

- (1) Analysis of Correlation between Macro-economy and Price of Oil and Gas
- (2) Analysis of Impact of Oil and Gas Price on the Industry

##### 1.5 Analysis of Social Environment Industry

- 1.5.1 Environmental Protection Problems in the Development of Industry

## 1.5.2 Resource Problems in the Development of Industry

**Chapter 2: Analysis of Exploitation Situation of China Oil and Natural Gas Resource****2.1 Analysis of Proved International Oil and Natural Gas Resources Distribution**

## 2.1.1 Proved Resources Distribution of International Oil and Natural Gas

- (1) Proved International Natural Oil Resources Distribution
- (2) Proved International Natural Gas Resources Distribution

## 2.1.2 Analysis of Exploitation Status of International Oil and Natural Gas

- (1) Proved Oil Resources Distribution
- (2) Proved Natural Gas Resources Distribution

## 2.1.3 Analysis of Exploitation Status of China Oil and Natural Gas

- (1) Onshore Oil and Natural Gas Exploitation Status
- (2) Offshore Oil and Natural Gas Exploitation Status

## 2.1.4 Analysis of China Exploitation/Development Costs and Investment Situation

## 2.1.5 Analysis of Oil and Natural Gas Exploitation Progress for Major Companies

## 2.1.6 Analysis of Development Trend for China Oil and Natural Exploitation

**2.2 Analysis of Development of Oil and Natural Gas Exploitation Technologies**

## 2.2.1 Profile of New Geological Theory

- (1) Petroleum Geological Dynamics Theory
- (2) Petroleum System Theory
- (3) Geological Theory for Deep Basin Gas
- (4) Sequence Stratigraphy Theory
- (5) Reservoir Forming Dynamic System Theory
- (6) Basin Thermal Evolution Theory

## 2.2.2 New Technologies for Industry Exploitation

- (1) Technology of Basin Analysis Simulation
- (2) Technology of Reservoir Description
- (3) Technology of Description and Evaluation for Petroleum System
- (4) Technology of Description and Evaluation for Reservoir Forming Dynamic System
- (5) Geochemistry Method and Technology
- (6) Technology Seismic Information Recognition and Explaining
- (7) Technology of Magnetic Resonance Image Logging
- (8) Technology of Fluid Inclusion

## 2.2.3 Deep Oil and Natural Gas Exploitation Technologies

- (1) Deep Oil and Natural Gas Exploration Technologies
- (2) Deep Oil and Natural Gas Drilling Technologies
- (3) Suggestions for Improving China's Deep Sea Exploration Capability

**Chapter 3: Analysis of Development of International Oil and Gas Exploitation Industry****3.1 Analysis of Development of International Oil and Gas Exploitation Industry**

## 3.1.1 Development Status of International Oil and Gas Exploitation Industry

## 3.1.2 Regulation and Experiential Learning of International Oil and Gas Exploitation Industry

- (1) Regulation of US Oil and Gas Exploitation Industry
- (2) Regulation of UK Oil and Gas Exploitation Industry
- (3) Regulation of Canada Oil and Gas Exploitation Industry
- (4) Experience Summary of 3 Countries Above and Experiential Reference on China

## 3.1.3 Cooperation Mode for International Oil and Gas Exploitation Industry

## 3.1.4 Analysis of Difficulties in International Oil and Gas Exploitation Industry

## 3.1.5 Development Trend for International Oil and Gas Exploitation Industry

**3.2 Analysis of Development of Oil and Gas Exploitation Industry in Major Countries**

## 3.2.1 Saudi Arabia

- (1) Management System and Policies
- (2) Analysis of Reserves and Resources
- (3) Analysis of Exploration and Production
- (4) Analysis of Consumption and Import/Export
- (5) Analysis of Prospects Planning for Industry

## 3.2.2 Iran

- (1) Management System and Policies
- (2) Analysis of Reserves and Resources
- (3) Analysis of Exploration and Production
- (4) Analysis of Consumption and Import/Export

- (5) Analysis of Prospects Planning for Industry
- 3.2.3 Iraq
  - (1) Management System and Policies
  - (2) Analysis of Reserves and Resources
  - (3) Analysis of Exploration and Production
  - (4) Analysis of Consumption and Import/Export
  - (5) Analysis of Prospects Planning for Industry
- 3.2.4 Qatar
  - (1) Management System and Policies
  - (2) Analysis of Reserves and Resources
  - (3) Analysis of Exploration and Production
  - (4) Analysis of Consumption and Import/Export
  - (5) Analysis of Prospects Planning for Industry
- 3.2.5 Russia
  - (1) Management System and Policies
  - (2) Analysis of Reserves and Resources
  - (3) Analysis of Exploration and Production
  - (4) Analysis of Consumption and Import/Export
  - (5) Analysis of Prospects Planning for Industry
- 3.2.6 USA
  - (1) Management System and Policies
  - (2) Analysis of Reserves and Resources
  - (3) Analysis of Exploration and Production
  - (4) Analysis of Consumption and Import/Export
  - (5) Analysis of Prospects Planning for Industry
- 3.2.7 Kazakhstan
  - (1) Management System and Policies
  - (2) Analysis of Reserves and Resources
  - (3) Analysis of Exploration and Production
  - (4) Analysis of Consumption and Import/Export
  - (5) Analysis of Prospects Planning for Industry
- 3.2.8 Venezuela
  - (1) Management System and Policies
  - (2) Analysis of Reserves and Resources
  - (3) Analysis of Exploration and Production
  - (4) Analysis of Consumption and Import/Export
  - (5) Analysis of Prospects Planning for Industry

## Chapter 4: Analysis of Development of China Oil and Gas Exploitation Industry

### 4.1 Analysis of Development of China Oil and Gas Exploitation Industry

- 4.1.1 Analysis of Development Status of Industry
  - (1) Analysis of Onshore Development Status
  - (2) Analysis of Offshore Development Status
- 4.1.2 Analysis of Development Features of Industry
- 4.1.3 Pipes and Networks Construction of Industry
  - (1) Pipes and Networks Construction of Crude Oil
  - (2) Pipes and Networks Construction of Finished Oil
  - (3) Pipes and Networks Construction of Natural Gas
  - (4) Development Trend for Oil Pipes and Networks
- 4.1.4 Analysis of Competition of Industry
- 4.1.5 Analysis of Potential Threats in the Industry

### 4.2 Analysis of Operation of China Oil and Gas Exploitation Industry

- 4.2.1 Analysis of Operation Benefits of Industry
- 4.2.2 Analysis of Profitability of Industry
- 4.2.3 Analysis of Operating Capability of Industry
- 4.2.4 Analysis of Debt-paying Ability of Industry
- 4.2.5 Analysis of Development Capability of Industry

### 4.3 Analysis of Balance between Supply and Demand of China Oil and Gas Exploitation Industry

- 4.3.1 Analysis of Supply of Industry
  - (1) Analysis of Output Scale

- (2) Output Scale and Growth
- (3) Regional Distribution of Output
- 4.3.2 Analysis of Import and Export of Industry
  - (1) Import and Export of Crude Oil
  - (2) Import and Export of Finished Oil
  - (3) Import and Export of Natural Gas
- 4.3.3 Analysis of Income Size of Industry
- 4.3.4 Analysis of Production and Marketing Ratio of Industry
- 4.4 Analysis of Technologic Development of China Oil and Gas Exploitation Industry**
  - 4.4.1 Testing and Control Technology of Frequency Conversion for Rod-Pumped Well
  - 4.4.2 Analysis of Development of Wells Branch Technology
    - (1) Features of Wells Branch Technology
    - (2) Development of Foreign Wells Branch Technology
    - (3) Development of Domestic Wells Branch Technology
    - (4) Application Prospects for Wells Branch Technology
  - 4.4.3 Wells Branch Technology Status and Development Trend
    - (1) Oil-well Cement and Additive for Cement Slurry
    - (2) Foreign Cementing Technology
    - (3) Domestic Cementing Technology
  - 4.4.4 Analysis of Development of Clean Production Technology
    - (1) Geophysical Prospecting Clean Production Technology
    - (2) Well Drilling Clean and Production Technology
    - (3) Oil and Natural Exploitation Clean Production Technology
  - 4.4.5 Exploitation Technologies for Deep Sea Oil and Natural Gas
    - (1) Prevent and Exclude Pipe Plugging Technology
    - (2) Forecast for Deep Water Development Leakage Technology
    - (3) Key Tackling Contents for Deep Sea Oil and Gas Development Technologies
- 4.5 Analysis of Development Prospects for China Oil and Gas Exploitation Industry**
  - 4.5.1 Analysis of Development Trend for Industry
  - 4.5.2 Analysis of Demand Prospects for Industry
  - 4.5.3 Analysis of Development Prospects for Resources
    - (1) Analysis of Development Prospects for Onshore Resources
    - (2) Analysis of Development Prospects for Offshore Resources
    - (3) Analysis of Development Prospects for Overseas Resources

## **Chapter 5: Analysis of Demand of China Oil and Gas Exploitation Industry in Major Fields**

- 5.1 Analysis of China Overall Oil and Natural Gas Consumption Information**
  - 5.1.1 Position Changes of Oil and Natural Gas Consumption in Energy Industry
    - (1) Position Changes of Oil Consumption in Energy Industry
    - (2) Position Changes of Natural Gas Consumption in Energy Industry
  - 5.1.2 Consumption Changes of Oil and Natural Gas
    - (1) Oil Consumption Changes
    - (2) Natural Gas Consumption Changes
- 5.2 Analysis of Demand in China Oil Processing, Coking and Nuclear Fuels Processing Industry**
  - 5.2.1 Analysis of Development Size of Industry
  - 5.2.2 Analysis of Demand for Oil in the Industry
    - (1) Analysis of Oil Demand Status
    - (2) Demand Prospect Forecast for Oil
  - 5.2.3 Analysis of Demand for Natural Gas in the Industry
    - (1) Analysis of Natural Gas Demand Status
    - (2) Demand Prospects Forecast for Natural Gas
  - 5.2.4 Analysis of Development Prospects for Industry
- 5.3 Analysis of Demand in China Chemical Raw Materials and Chemical Products Manufacturing Industry**
  - 5.3.1 Analysis of Development Size of Industry
  - 5.3.2 Analysis of Demand for Oil in the Industry
    - (1) Analysis of Oil Demand Status
    - (2) Demand Prospect Forecast for Oil
