

China Railway Industry Indepth Research and Investment Strategy, 2013-2017

目 录

CONTENTS

Chapter 1: Development Overview of China Railway Industry

1.1 Concepts Related to Railway Industry

- 1.1.1 Definition Related to Railway Industry
- 1.1.2 Analysis of Railway Industrial Chain

1.2 Development Overview of Railway Industry

- 1.2.1 Analysis of Development History of Railway Industry
- 1.2.2 Analysis of Development Status of Railway Industry
- 1.2.3 Analysis of Railway Track in Use
- 1.2.4 Analysis of Earnings of Railway Industry
- 1.2.5 Analysis of Market Effect of Railway Construction

1.3 Development Direction for Railway Industry

- 1.3.1 Analysis of Railway Operating Model
- 1.3.2 Analysis Problems in Railway
- 1.3.3 Analysis of Development Direction for Railway

1.4 Analysis of Planning and Development of High-speed Rail

- 1.4.1 Planning and Implementation of High-speed Rail
- 1.4.2 Innovative Achievement of High-speed Rail
- 1.4.3 Operating Effect of High-speed Rail
- 1.4.4 Planning and Construction of Foreign High-speed Rail

Chapter 2: Analysis of Development Environment for China Railway Industry

2.1 Analysis of Policy Environment for Railway Industry

- 2.1.1 Supervision Mechanism of Railway Industry
- 2.1.2 Explanation of Policies Related to Railway
- 2.1.3 Explanation of Railway Development Planning

2.2 Analysis of Demand Environment for Railway Industry

- 2.2.1 China's Floating Population and Growth
- 2.2.2 Per Capital Disposable Income
- 2.2.3 Analysis of Development of China Coal Transportation
- 2.2.4 Analysis of Development of China Food Transportation

2.3 Analysis of Economic Environment for Railway Industry

- 2.3.1 Analysis of International Macro-economic Environment
 - (1) Analysis of Economic Environment for US
 - (2) Analysis of Economic Environment for Japan
 - (3) Analysis of Economic Environment for EU Zone
 - (4) Analysis of Economic Environment for Emerging Countries
- 2.3.2 Analysis of Domestic Macro-economic Environment
 - (1) Analysis of Domestic GDP Growth
 - (2) FAI
 - (3) Industrial Value Added Growth
 - (4) PMI
 - (5) PPI in Domestic
 - (6) CPI in Domestic
- 2.3.3 Analysis of Industry's Macro-economic Environment
 - (1) Railway Transportation
 - (2) Railway Fixed Investment
 - (3) Transport Safety for Railway
 - (4) Railway Science and Technology

Chapter 3: Analysis of Operation of Sub-industries Related to Railway Industry

3.1 Analysis of Operation of Railway Vehicles and CRH Manufacturing Industry

- 3.1.1 Analysis of Size of Railway Vehicles and CRH Manufacturing Industry
- 3.1.2 Production of Railway Vehicles and CRH Manufacturing Industry
- 3.1.3 Demand of Railway Vehicles and CRH Manufacturing Industry
- 3.1.4 Balance between Supply and Demand of Railway Vehicles and CRH Manufacturing Industry
- 3.1.5 Financial Operation of Railway Vehicles and CRH Manufacturing Industry
- 3.1.6 Operating Features and Trend of Railway Vehicles and CRH Manufacturing Industry

3.2 Analysis of Operation of Narrow Gauge Locomotive Manufacturing Industry

- 3.2.1 Analysis of Size of Narrow Gauge Locomotive Manufacturing Industry
- 3.2.2 Production of Narrow Gauge Locomotive Manufacturing Industry
- 3.2.3 Demand of Narrow Gauge Locomotive Manufacturing Industry
- 3.2.4 Balance between Supply and Demand of Narrow Gauge Locomotive Manufacturing Industry
- 3.2.5 Financial Operation of Narrow Gauge Locomotive Manufacturing Industry
- 3.2.6 Operating Features and Trend of Narrow Gauge Locomotive Manufacturing Industry

3.3 Analysis of Operation of Railway Locomotive Vehicle Accessories Manufacturing Industry

- 3.3.1 Analysis of Size of Railway Locomotive Vehicle Accessories Manufacturing Industry
- 3.3.2 Production of Railway Locomotive Vehicle Accessories Manufacturing Industry
- 3.3.3 Demand of Railway Locomotive Vehicle Accessories Manufacturing Industry
- 3.3.4 Balance between Supply and Demand of Railway Locomotive Vehicle Accessories Manufacturing

Industry

- 3.3.5 Financial Operation of Railway Locomotive Vehicle Accessories Manufacturing Industry
- 3.3.6 Operating Features and Trend of Railway Locomotive Vehicle Accessories Manufacturing

Industry

3.4 Analysis of Operation of Railroad Equipment and Accessories Manufacturing Industry

- 3.4.1 Analysis of Size of Railroad Equipment and Accessories Manufacturing Industry
- 3.4.2 Production of Railroad Equipment and Accessories Manufacturing Industry
- 3.4.3 Demand of Railroad Equipment and Accessories Manufacturing Industry
- 3.4.4 Balance between Supply and Demand of Railroad Equipment and Accessories Manufacturing

Industry

- 3.4.5 Financial Operation of Railroad Equipment and Accessories Manufacturing Industry

- 3.4.6 Operating Features and Trend of Railroad Equipment and Accessories Manufacturing Industry

Chapter 4: Analysis of Development of China Railway Network Construction Market

4.1 Analysis of China Railway Network Construction

- 4.1.1 Analysis of Railway Network Construction Status
- 4.1.2 Analysis of Railway Network Construction Planning
- 4.1.3 Railway Network Construction Investment
- 4.1.4 Railway Network Construction Project

4.2 Analysis of Regional Construction of China Railway Network

- 4.2.1 Analysis of Railway Network in East China
 - (1) Railway Network in Pearl River Delta Region
 - (2) Railway Network in Yangtze River Delta Region
 - (3) Railway Network in Bohai Rim Region
- 4.2.2 Analysis of Railway Network in Midwest China
 - (1) Railway Network in Central China
 - (2) Railway Network in Chengdu and Chongqing
 - (3) Railway Network in Western Region
- 4.2.3 Analysis of Railway Network in Northeast China
 - (1) Railway Network in Heilongjiang Region
 - (2) Railway Network in Jilin Region
 - (3) Railway Network in Liaoning Region

4.3 Analysis of Railway Construction Industrial Chain Market

- 4.3.1 Railway Construction Industrial Chain
- 4.3.2 Analysis of Railway Engineering Contract
- 4.3.3 Analysis of Railway Machinery Market
- 4.3.4 Analysis of Bridge Engineering Market
- 4.3.5 Analysis of Bridge Functional Accessories Market
- 4.3.6 Analysis of Rail-track Engineering Market
 - (1) Analysis of Rail Steel Track Market
 - (2) Analysis of Railway Fastening Market
 - (3) Analysis of Digital Control Machine Tool

4.4 Analysis of Investment and Financing of China Railway Network Construction

- 4.4.1 Financing for Railway Network Construction
- 4.4.2 Investment Constitution of Railway Network Construction
- 4.4.3 Investment Forecast for Railway Network Construction

Chapter 5: Analysis of Development of China Railway Electrification

5.1 Analysis of Railway Electrification Market

- 5.1.1 Constitution of Power Supply and Electrification Systems
- 5.1.2 Analysis of Power Supply and Electrification Systems
- 5.1.3 Analysis of Box-type Transformer Substation Market
- 5.1.4 Analysis of Traction Transformer Market

5.2 Analysis of Railway Power Supply Market

- 5.2.1 Constitution of Railway Power Supply Systems
- 5.2.2 Market Size of Railway Power Supply
- 5.2.3 Market Size of Traffic Signal Power

5.3 Analysis of Investment for Railway Electrification

- 5.3.1 Analysis of Reconstruction Status of Railway Electrification
- 5.3.2 Analysis of Major Railway Electrification Systems Enterprises
- 5.3.3 Analysis of Construction and Investment of Railway Electrification

Chapter 6: Analysis of Market Segments of China Railway Information System

6.1 Analysis of Railway Communication and Signal System Market

- 6.1.1 Railway Communication and Signal System's Position in Railway System
- 6.1.2 Analysis of Application of Railway Communication and Signal System
 - (1) Analysis of Features of Railway Communication and Signal System
 - (2) Development Overview of Railway Communication and Signal System
 - (3) Application of Railway Communication and Signal System
- 6.1.3 Analysis of Application of Railway Signaling System
 - (1) Analysis of Features of Railway Signaling System
 - (2) Development Overview of Railway Signaling System
 - (3) Application of Railway Signaling System
- 6.1.4 Analysis of Development of Railway Communication and Signal System Market
 - (1) Market Status of Railway Communication and Signal System
 - (2) Enterprise Certification for Railway Communication and Signal System
 - (3) Market Entry Principles of Railway Communication and Signal System
 - (4) Analysis of Operating Models for Railway Communication and Signal System
 - (5) Analysis of Pricing for Railway Communication and Signal System
 - (6) Market Competition of Railway Communication and Signal System
 - (7) Analysis of Investment Market of Railway Communication and Signal System
 - (8) Development Prospects for Railway Communication and Signal System Market

6.2 Analysis of Railway Signal PC Monitoring System Market

- 6.2.1 Analysis of Constitution of Railway Signal PC Monitoring System
- 6.2.2 Market Size of Railway Signal PC Monitoring System
- 6.2.3 Analysis of Pricing for Railway Signal PC Monitoring System
- 6.2.4 Competitive Landscape of Railway Signal PC Monitoring System
- 6.2.5 Market Trend for Railway Signal PC Monitoring System

6.3 Analysis of Railway Signaling Interlocking System Market

- 6.3.1 Development Overview of Railway Signaling Interlocking System
- 6.3.2 Market Factors of Railway Signaling Interlocking System
- 6.3.3 Market Forecast for Railway Signaling Interlocking System

6.4 Analysis of Development of Automatic Train Identification System

- 6.4.1 Development Overview of Automatic Train Identification System
- 6.4.2 Core Technology of Automatic Train Identification System
- 6.4.3 Competitive Landscape of Automatic Train Identification System
- 6.4.4 Market Prospects for Automatic Train Identification System

6.5 Analysis of Train Dispatching Command System Market

- 6.5.1 Development Overview of Train Dispatching Command System
- 6.5.2 Market Size of Train Dispatching Command System
- 6.5.3 Competitive Landscape of Train Dispatching Command System
- 6.5.4 Development Factors of Train Dispatching Command System
- 6.5.5 Market Barriers of Train Dispatching Command System

6.5.6 Technology Trend for Train Dispatching Command System

6.5.7 Market Prospects for Train Dispatching Command System

6.6 Analysis of Development of Railway Train Operation Safety Supervision And Control System

6.6.1 Development Overview of Railway Train Operation Safety Supervision And Control System

6.6.2 Investment Size of Railway Train Operation Safety Supervision And Control System

6.6.3 Competitive Landscape of Railway Train Operation Safety Supervision And Control System

6.6.4 Technology Level of Railway Train Operation Safety Supervision And Control System

6.6.5 Operating Model for Railway Train Operation Safety Supervision And Control Products

6.6.6 Analysis of Disaster Prevention and Safety Monitoring System

6.7 Analysis of Development of Railway Service and Fare Collection System

6.7.1 Development Overview of Railway Service and Fare Collection System

6.7.2 Market Size of Railway Service and Fare Collection System

6.7.3 Competitive Landscape of Railway Service and Fare Collection System

6.7.4 Development Strategy and Goal for Railway Service and Fare Collection System
