

China Machining Center Industry Report (2016–2021), Market Research and Investment Forecast

目 录

CONTENTS

Chapter 1: Overview of development of China's machining center industry

1.1 overview of machining center industry

- 1.1.1 definition of machining center industry
- 1.1.2 product category of machining center industry
- 1.1.3 analysis of application direction of product of machining center industry
- 1.1.4 analysis of business model of machining center industry

1.2 analysis of machining center industry chain

- 1.2.1 overview of machining center industry chain
- 1.2.2 analysis of the upstream and downstream of machining center industry chain
 - (1) analysis of the upstream of machining center industry chain
 - (2) analysis of the downstream of machining center industry chain

1.3 analysis of macro environment of China's machining center industry

- 1.3.1 analysis of policy environment of China's machining center industry
 - (1) summary of policy of machining center industry
 - (2) interpretation of policy of machining center industry
 - (3) analysis of impact of policy environment
- 1.3.2 analysis of economic environment of China's machining center industry
 - (1) analysis of economic environment of major export regions
 - (2) analysis of the domestic economic environment
 - (3) analysis of impact of economic environment

Chapter 2: Analysis of development of the global machining center industry

2.1 overview of development of the global machining center

- 2.1.1 analysis of development process of the global machining center
- 2.1.2 analysis of status quo of development of the global machining center
 - (1) status quo of product structure of machining center
 - (2) status quo of market demand of machining center
 - (3) status quo of market position of machining center

2.2 analysis of production and marketing of the global machining center

- 2.2.1 analysis of production of the global machining center
 - (1) analysis of scale of production of the global machining center
 - (2) analysis of major production areas of the global machining center
- 2.2.2 analysis of sales of the global machining center
 - (1) analysis of sales volume of the global machining center
 - (2) analysis of sales area of the global machining center
- 2.2.3 analysis of production and sales ratio of the global machining center

2.3 analysis of import and export of the global machining center

- 2.3.1 analysis of import of the global machining center
 - (1) analysis of import regions of the global machining center in.....2013
 - (2) analysis of scale of import of the global machining center
- 2.3.2 analysis of export of the global machining center
 - (1) analysis of export regions of the global machining center in.....2013
 - (2) analysis of scale of export of the global machining center
- 2.3.3 analysis of the proportion of import and export of lathe in the global machining center
 - (1) analysis of the proportion of import
 - (2) analysis of the proportion of export

2.4 analysis of market competitive landscape of the global machining center

- 2.4.1 analysis of regional competitive landscape
- 2.4.2 analysis of corporate competitive landscape

2.5 analysis of technology of the global machining center industry

- 2.5.1 status quo of development of technology of the global machining center industry
- 2.5.2 development trends of technology of the global machining center industry

2.6 analysis of machining center industry in major developed countries

- 2.6.1 analysis of development of machining center industry in America
 - (1) analysis of status quo of development of machining center industry in America
 - (2) analysis of market scale of machining center industry in America
 - (3) analysis of scale of import and export of machining center industry in America
 - (4) analysis of import and export area of machining center industry in America
 - (5) analysis of trade competitiveness of machining center industry in America
 - (6) analysis of development policies of machining center industry in America
- 2.6.2 analysis of development of machining center industry in Japan
 - (1) analysis of status quo of development of machining center industry in Japan
 - (2) analysis of market scale of machining center industry in Japan
 - (3) analysis of scale of import and export of machining center industry in Japan
 - (4) analysis of import and export area of machining center industry in Japan
 - (5) analysis of trade competitiveness of machining center industry in Japan
 - (6) analysis of development policies of machining center industry in Japan
- 2.6.3 analysis of development of machining center industry in Germany
 - (1) analysis of status quo of development of machining center industry in Germany
 - (2) analysis of market scale of machining center industry in Germany
 - (3) analysis of scale of import and export of machining center industry in Germany
 - (4) analysis of import and export area of machining center industry in Germany
 - (5) analysis of trade competitiveness of machining center industry in Germany
 - (6) analysis of development policies of machining center industry in Germany

Chapter 3: Analysis of development of China's machining center industry

3.1 overview of development of China's machining center industry

- 3.1.1 analysis of development process of China's machining center industry
- 3.1.2 analysis of status quo of development of China's machining center industry
- 3.1.3 analysis of China's application industries of machining center

3.2 analysis of production and sales of China's machining center industry

- 3.2.1 analysis of production scale of China's machining center industry
- 3.2.2 analysis of sales (consumption) scale of China's machining center industry
- 3.2.3 market share of domestic machining center

3.3 analysis of import and export of China's machining center industry

- 3.3.1 analysis of import of China's machining center industry
 - (1) analysis of import of China's machining center in.....2013
 - (2) analysis of import region of China's machining center industry
 - (3) analysis of structure of imported products of China's machining center industry
- 3.3.2 analysis of export of China's machining center industry
 - (1) analysis of scale of export of China's machining center in.....2013
 - (2) analysis of structure of exported products of China's machining center industry
- 3.3.3 comparative analysis of import and export of China's machining center industry
 - (1) comparative analysis of import and export volume
 - (2) comparative analysis of import and export value
 - (3) comparative analysis of import and export price
 - (4) comparative analysis of import and export product structure
- 3.3.4 analysis of competitiveness of China's machining center industry
 - (1) analysis of trade competitiveness of China's machining center industry
 - (2) comparative analysis of trade competitiveness of foreign and domestic machining center

industry

3.4 analysis of competitive landscape of China's machining center market

- 3.4.1 analysis of regional competitive landscape of China's machining center
- 3.4.2 analysis of corporate competitive landscape of China's machining center
 - (1) domestic local machining center enterprises
 - (2) domestic foreign-owned machining center enterprises
- 3.4.3 analysis of competitive landscape of products of China's machining center
- 3.4.4 analysis of competitive trends of China's machining center industry
 - (1) analysis of competitive strategy of machining center industry
 - (2) analysis of competitive trends of machining center industry

3.5 analysis of technology of China's machining center industry

- 3.5.1 status quo of development of technology of China's machining center industry
- 3.5.2 analysis of technology patent applications of China's machining center industry
 - (1) analysis of quantity of patent applications of the industry
 - (2) analysis of patent applicants of the industry
- 3.5.3 analysis of the gap of technology between domestic and international machining center
 - (1) major gap between domestic and foreign technology
 - (2) analysis of reasons for the gap between domestic and international technology
- 3.5.4 development trends of technology of China's machining center industry

Chapter 4: Analysis and forecast of market development of major products of China's machining center industry

4.1 analysis of China's vertical machining center market

- 4.1.1 analysis of development of vertical machining center
 - (1) analysis of status quo of development of China's vertical machining center
 - (2) analysis of production of China's vertical machining center
 - (3) analysis of import and export of China's vertical machining center
- 4.1.2 analysis of main application industries of vertical machining center
- 4.1.3 analysis of major producers of vertical machining center
- 4.1.4 analysis of development trends of vertical machining center
- 4.1.5 forecast of vertical machining center

4.2 analysis of China's horizontal machining center market

- 4.2.1 analysis of development of horizontal machining center
 - (1) analysis of status quo of development of horizontal machining center
 - (2) analysis of scale of production of horizontal machining center
 - (3) analysis of import and export of horizontal machining center
- 4.2.2 analysis of main application industries of horizontal machining center
- 4.2.3 analysis of major producers of horizontal machining center
- 4.2.4 analysis of development trends of horizontal machining center
- 4.2.5 forecast of horizontal machining center

4.3 analysis of China's gantry machining center market

- 4.3.1 analysis of development of gantry machining center
 - (1) analysis of status quo of development of gantry machining center
 - (2) analysis of scale of production of gantry machining center
 - (3) analysis of import and export of gantry machining center
- 4.3.2 analysis of main application industries of gantry machining center
- 4.3.3 analysis of major producers of gantry machining center
- 4.3.4 analysis of development trends of gantry machining center
- 4.3.5 forecast of gantry machining center

Chapter 5: Analysis of China's machining center in key regions

5.1 analysis of machining center market in northeastern regions

- 5.1.1 analysis of development foundation of machining center industry in northeastern regions
- 5.1.2 analysis of scale of machining center market in northeastern regions
- 5.1.3 analysis of market trend of machining center market in northeastern regions
- 5.1.4 analysis of development outlook of machining center industry in northeastern regions

5.2 analysis of machining center market in Bohai Rim

- 5.2.1 analysis of development foundation of machining center industry in Bohai Rim
- 5.2.2 analysis of scale of machining center market in Bohai Rim
- 5.2.3 analysis of market trend of machining center market in Bohai Rim
- 5.2.4 analysis of development outlook of machining center industry in Bohai Rim

5.3 analysis of machining center market in Yangtze River Delta

- 5.3.1 analysis of development foundation of machining center industry in Yangtze River Delta
- 5.3.2 analysis of scale of machining center market in Yangtze River Delta
- 5.3.3 analysis of market trend of machining center market in Yangtze River Delta
- 5.3.4 analysis of development outlook of machining center industry in Yangtze River Delta

5.4 analysis of machining center market in Pearl River Delta

- 5.4.1 analysis of development foundation of machining center industry in Pearl River Delta
- 5.4.2 analysis of scale of machining center market in Pearl River Delta
- 5.4.3 analysis of development outlook of machining center industry in Pearl River Delta

Chapter 6: Analysis of operation of leading enterprises of China's machining center

industry

6.1 analysis of the overall situation of China's machining center enterprises

6.1.1 analysis of status quo of development of China's machining center enterprises

6.1.2 analysis of problems of China's machining center enterprises

6.2 analysis of operation of leading enterprises of China's machining center

6.2.1 Dalian Machine Tool Group Co., Ltd.

(1) brief introduction of the company's development
