

China Dry Type Transformer Industry Report (2016–2021), Market Demand Forecast and Investment Strategic Planning

目 录

CONTENTS

Chapter 1: Analysis of development environment of dry-type transformer industry

1.1 definition and classification of dry-type transformer

- 1.1.1 definition of dry-type transformer
- 1.1.2 composition structure of dry-type transformer
- 1.1.3 classification of dry-type transformer

1.2 analysis of characteristics of dry-type transformer industry

- 1.2.1 characteristics of dry-type transformer
- 1.2.2 working conditions and performance of dry-type transformer
- 1.2.3 property of environmental protection of dry-type transformer

1.3 analysis of development environment of dry-type transformer industry

- 1.3.1 analysis of policy environment of the industry
 - (1) management department of the industry
 - (2) related policy trend of the industry
- 1.3.2 analysis of economic environment of the industry
 - (1) analysis of the international macro economic environment
 - (2) analysis of the domestic macro economic environment
 - (3) analysis of impact of economic environment changes on the industry
- 1.3.3 analysis of technical environment of the industry
 - (1) analysis of patent application of the industry
 - (2) analysis of development trends of industry technology

Chapter 2: Analysis of industry chain of dry-type transformer industry

2.1 brief introduction of industry chain of dry-type transformer industry

2.2 analysis of raw material markets of dry-type transformer

- 2.2.1 analysis of ordinary steel market
 - (1) analysis of output of ordinary steel
 - (2) analysis of apparent consumption of ordinary steel
 - (3) analysis of price trend of ordinary steel
- 2.2.2 analysis of silicon steel sheet market
 - (1) analysis of output of silicon steel sheet
 - (2) analysis of competitive landscape of silicon steel sheet market
 - (3) analysis of price trend of silicon steel sheet
- 2.2.3 analysis of non-ferrous metals market
 - (1) analysis of copper market
 - (2) analysis of aluminum market
- 2.2.4 analysis of epoxy market
 - (1) analysis of status quo of supply and demand of epoxy
 - (2) analysis of price trend of epoxy resin
- 2.2.5 analysis of insulation materials market
 - (1) analysis of status quo of supply and demand of insulation materials
 - (2) analysis of development prospects of insulation materials
- 2.2.6 analysis of impact of changes in raw material markets on the industry

2.3 analysis of development of application market of dry-type transformer

- 2.3.1 analysis of development of electricity market
 - (1) analysis of application of dry-type transformer in electricity system
 - (2) analysis of status quo of power construction and investment
 - (3) forecast of power construction and investment
- 2.3.2 analysis of development of petrochemical market
 - (1) analysis of application of dry-type transformer in petrochemical industry
 - (2) analysis of status quo of development of petrochemical industry

- (3) forecast of development of petrochemical industry
- 2.3.3 analysis of development of rail transit market
 - (1) analysis of application of dry-type transformer in Rail transit
 - (2) analysis of urban rail transit construction
- 2.3.4 analysis of impact of development of downstream applications on the industry

Chapter 3: Analysis of status quo of development of dry-type transformer industry

3.1 analysis of the overall development of dry-type transformer industry

- 3.1.1 overview of development of dry-type transformer industry
- 3.1.2 analysis of output of dry-type transformer industry
- 3.1.3 analysis of application distribution of dry-type transformer industry

3.2 analysis of operation of dry-type transformer industry

- 3.2.1 analysis of profit capability of dry-type transformer industry
- 3.2.2 analysis of solvency capability of dry-type transformer industry
- 3.2.3 analysis of operation capability of dry-type transformer industry
- 3.2.4 analysis of development capability of dry-type transformer industry

3.3 analysis of development of main products and application of dry-type transformer industry

- 3.3.1 analysis of development of insulation impregnated dry type transformer
 - (1) overview of development of insulation impregnated dry type transformer
 - (2) main characteristics of insulation impregnated dry type transformer
 - (3) application area of insulation impregnated dry type transformer
- 3.3.2 analysis of development of dry-type transformer with epoxy-resin insulation
 - (1) analysis of development of epoxy resin pouring dry-type transformer
 - 1) overview of development of epoxy resin pouring dry-type transformer
 - 2) main characteristics of epoxy resin pouring dry-type transformer
 - 3) main types of epoxy resin pouring dry-type transformer
 - (2) analysis of development of wrapping epoxy resin dry-type transformer
- 3.3.3 comparative analysis of insulation impregnated dry type transformer and dry-type transformer with epoxy-resin insulation
- 3.3.4 analysis of development of amorphous alloy dry-type transformer
 - (1) amorphous alloy material
 - 1) introduction of amorphous alloy material
 - 2) characteristics of amorphous alloy material
 - 3) application of amorphous alloy material
 - (2) analysis of development of amorphous alloy dry-type transformer
 - (3) analysis of technical economy of amorphous alloy dry-type transformer
 - 1) analysis of technical performance of amorphous alloy core transformer
 - 2) analysis of economic and social benefits of amorphous alloy core transformer

Chapter 4: Analysis of processing technology of dry-type transformer industry

4.1 production of dry-type transformer

4.2 technical level of dry-type transformer

- 4.2.1 analysis of loss level
- 4.2.2 analysis of sound level
- 4.2.3 analysis of rated capacity and load capacity
- 4.2.4 analysis of application of intelligent terminal TTU

4.3 analysis of harmonic suppression strategy of dry-type transformer

- 4.3.1 analysis of background of harmonic formation of dry-type transformer
- 4.3.2 suppress harmonics from the structure of dry-type transformer
- 4.3.3 configuring an external device to suppress harmonics

4.4 analysis of voltage regulation strategy of dry-type transformer

- 4.4.1 analysis of voltage fluctuation and regulation of dry-type transformer
- 4.4.2 analysis of requirements of equipment for voltage
- 4.4.3 analysis of voltage regulation measures of dry-type transformer
 - (1) regulation by changing ratio of transformer
 - (2) line regulation by reactive compensation device
 - (3) automatic voltage regulation

4.5 analysis of selection criteria of dry-type transformer

- 4.5.1 temperature control system of dry-type transformer
- 4.5.2 protective way of dry-type transformer
- 4.5.3 cooling way of dry-type transformer

- 4.5.4 overload capacity of dry-type transformer
- 4.5.5 low pressure outlet method and interface cooperation of dry-type transformer

4.6 analysis of operation and maintenance of dry-type transformer

- 4.6.1 on-site common faults of dry-type transformer
- 4.6.2 test before operation and trial operation
 - (1) test before operation
 - (2) test during trial operation
- 4.6.3 test in the state of initial operation
- 4.6.4 routine maintenance and periodic inspection
- 4.6.5 considerations of maintenance
 - (1) maintenance and inspection in the state of electrification
 - (2) maintenance and inspection in the state of outage
 - (3) other considerations
- 4.6.6 test after repair

Chapter 5: Status quo of production and operation of major enterprises of China's dry-type transformer industry

5.1 analysis of the overall development of dry-type transformer enterprises

- 5.1.1 scale of enterprise of dry-type transformer industry
- 5.1.2 industrial output of dry-type transformer industry
- 5.1.3 sales revenue and profit of dry-type transformer industry

5.2 case study of leading enterprises of dry-type transformer industry

- 5.2.1 China Electric Equipment Group Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.2 Sunten Electric Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.3 Hainan Jinpan Electric Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's major economic indicators
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.4 Jiangsu Huapeng Transformer Co., Ltd.
 - (1) brief introduction of the company's development

- (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.5 Hangzhou Qianjiang Electric Group Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.6 Guangzhou Junfa Electric Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
- 5.2.7 Shandong Jinmanke Electric Group Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.8 Shandong Luneng Mount. Tai Electric Equipment Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.9 Shandong Dacheng Electric Co., Ltd.
- (1) brief introduction of the company's development

- (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.10 Changzhou Xidian Transformer Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.11 Baoding Tianwei Group Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.12 Sanbian Technology Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's major economic indicators
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.13 Tianwei Yunnan Transformer Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.14 Suzhou Antai Transformer Co., Ltd.

- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (4) analysis of the company's profitability capability
 - (5) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (6) analysis of advantages and disadvantages of the company's operation
 - (7) analysis of the company's latest development trend
- 5.2.15 Guangzhou Yunbian Electric Equipment Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's operation
 - (4) analysis of advantages and disadvantages of the company's operation
- 5.2.16 Beijing Huatai Transformer Co., Ltd. of Wolong Electric Group Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's operation
 - (4) analysis of advantages and disadvantages of the company's operation
 - (5) analysis of the company's latest development trend
- 5.2.17 Zhenjiang Tianli Transformer Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (4) analysis of the company's profitability capability
 - (5) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (6) analysis of advantages and disadvantages of the company's operation
- 5.2.18 Pearl Electric Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (4) analysis of the company's profitability capability
 - (5) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (6) analysis of advantages and disadvantages of the company's operation
 - (7) analysis of the company's latest development trend
- 5.2.19 Qingdao Transformer Group Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
- 5.2.20 Henan Zhulu Power Equipment Co., Ltd.
- (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing

- (5) analysis of the company's profitability capability
- (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
- (7) analysis of advantages and disadvantages of the company's operation
- 5.2.21 Shenyang Haocheng Electric Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.22 Wujiang Transformer Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
- 5.2.23 Yunnan Tongbian Electric Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's sales channels and network
 - (4) analysis of the company's operation
 - 1) analysis of the company's capabilities of production and marketing
 - (5) analysis of the company's profitability capability
 - (6) analysis of the company's operation capability
 - 1) analysis of the company's solvency capability
 - 2) analysis of the company's development capability
 - (7) analysis of advantages and disadvantages of the company's operation
 - (8) analysis of the company's latest development trend
- 5.2.24 Jiangsu Wanxin Power Equipment Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's products and technology
 - (3) analysis of the company's operation
 - (4) analysis of advantages and disadvantages of the company's operation

Chapter 6: Forecast of investment of dry-type transformer industry

6.1 analysis of characteristics of investment of dry-type transformer industry

- 6.1.1 analysis of entry barriers of dry-type transformer industry
- 6.1.2 analysis of profit model of dry-type transformer industry
- 6.1.3 analysis of profit factor of dry-type transformer industry

6.2 analysis of development prospect of dry-type transformer industry

- 6.2.1 analysis of development trends of transformer industry
- 6.2.2 analysis of development trends of dry-type transformer industry
- 6.2.3 prediction of development prospects of dry-type transformer market

6.3 analysis of risks of investment of dry-type transformer industry

- 6.3.1 policy risk of dry-type transformer industry
- 6.3.2 technical risk of dry-type transformer industry
- 6.3.3 risk of supply and demand of dry-type transformer industry
- 6.3.4 other risks of dry-type transformer industry

6.4 investment advice of dry-type transformer industry

6.4.1 analysis of status quo of investment of dry-type transformer industry

6.4.2 main investment advice for dry-type transformer industry
