

China Optical Communication Device Industry Report (2016–2021), Market Prospect and Investment Strategy Planning

目 录

CONTENTS

Chapter 1: Analysis of background and development environment of Chinese optical communication device industry

- 1.1 definition of optical communication device industry**
 - 1.1.1 definition of optical communication device industry
 - 1.1.2 product structure of optical communication device industry
 - 1.1.3 position of optical communication device in the industry chain
 - 1.1.4 property of optical communication device industry
 - (1) classification by life cycle of the industry
 - (2) classification by reaction to the economic cycle
- 1.2 analysis of economic environment of optical communication device industry**
 - 1.2.1 analysis of international macroeconomic environment
 - (1) status quo of international macroeconomy
 - (2) forecast of international macroeconomy
 - 1.2.2 analysis of domestic macroeconomic environment
 - (1) status quo of domestic macroeconomy
 - (2) forecast of domestic macroeconomy
 - 1.2.3 impact of domestic and foreign macroeconomic environment on optical communication device industry
 - 1.2.4 analysis of development of related industries
 - (1) demand for communications equipment industry
 - (2) price trends of communications equipment industry
 - (3) exports of communications equipment industry
 - (4) investment of communications equipment industry
- 1.3 analysis of policy environment of optical communication device industry**
 - 1.3.1 management system of the industry
 - 1.3.2 related policies of the industry
- 1.4 analysis of technical environment of optical communication device industry**
 - 1.4.1 analysis of optical communication technology
 - (1) development status quo of optical communication technology
 - (2) multiplexing technology
 - 1) broadband amplifier technology
 - 2) dispersion compensation technology
 - 3) soliton WDM transmission technology
 - 4) fiber access technology
 - 5) fiber to the home (FTTH)
 - 1. all-optical network
 - 1.4.2 analysis of optical communication device technology
 - (1) development status quo of optical communication device technology
 - 1) passive optoelectronic communication technology
 - 2) active optoelectronic communication technology
 - (2) development trends of optical communication device technology
 - 1) intelligent
 - 2) miniaturization
 - 3) integration
- 1.5 analysis of trade environment of optical communication device industry**
 - 1.5.1 analysis of status quo of product trade of the industry
 - (1) export of electronic information industry
 - (2) import of electronic information industry
 - 1.5.2 development trends of trade environment of the industry

Chapter 2: Analysis of development of domestic and foreign optical communication device industry

2.1 analysis of development of the global optical communication device industry

- 2.1.1 analysis of quantity of enterprises of the global optical communication device industry
- 2.1.2 analysis of market scale of the global optical communication device industry
- 2.1.3 analysis of market competition of the international optical communication device industry
 - (1) from the world's perspective, the industry is in the state of monopolistic competition
 - (2) larger competitive differences between different subdivided areas
 - (3) competition pattern of globalization has been formed
 - (4) professional optical device manufacturers to become market competitors
- 2.1.4 analysis of China's international status of optical communication device
- 2.1.5 forecast of market scale of the international optical communication device industry

2.2 analysis of development of Chinese optical communication device industry

- 2.2.1 overview of the development of optical communication device industry
- 2.2.2 analysis of market scale of optical communication device industry
- 2.2.3 analysis of factors affecting optical communication device industry
 - (1) communication technology upgrades
 - (2) the global division of labor and industry transfer
 - (3) the construction of broadband access continues to heat up

2.3 analysis of competition of Chinese optical communication device market

- 2.3.1 analysis of competition structure of Chinese optical communication device industry
 - (1) competition between existing competitors
 - (2) analysis of bargaining power of suppliers of key elements
 - (3) analysis of bargaining power of buyers
 - (4) analysis of potential entrants of the industry
 - (5) analysis of risk of alternatives
- 2.3.2 analysis of competition of multinational companies in China
 - (1) analysis of competition of Finisar company in China
 - (2) analysis of competition of JDSU Company in China
 - (3) analysis of competition of Oclaro Company in China
 - (4) analysis of competition of Oplink Company in China
 - (5) analysis of competition of AFOP Company in China
 - 1) analysis of competition of Sumitomo Electric Industries, Ltd.
 - (6) analysis of competition of IPG Company

Chapter 3: Analysis of China's optical communication device market

3.1 analysis of market of active optoelectronic components

- 3.1.1 overview of the development of active optoelectronic components
- 3.1.2 analysis of market scale of active optoelectronic components
- 3.1.3 analysis of main production enterprises of active optoelectronic components
 - (1) Oclaro
 - (2) Wuxi Zhongxing
 - (3) Accelink
- 3.1.4 analysis of market of main products of active optoelectronic components
 - (1) analysis of fiber amplifier market
 - 1) analysis of market demand of fiber amplifier
 - 2) market competition pattern of fiber amplifier
 - 3) analysis of development trends of fiber amplifier
 - (2) analysis of fiber laser market
 - 1) analysis of market demand of fiber laser
 - 2) market competition pattern of fiber laser
 - 3) analysis of development trends of fiber laser
 - (3) analysis of light detector market
 - (4) analysis of optical transponder market
 - (5) analysis of optical modulator market
- 3.1.5 forecast of market of optical active devices
 - (1) high-speed transceiver module technology and market have become a bright spot
 - (2) optical transponder module technology and market
 - 1) VCSEL module technology and market
 - (3) tunable laser module technology and market

- 1) 40Gb/sLiNbO3 electro-optic modulation technology dominates the market

3.2 analysis of market of passive optoelectronic components

- 3.2.1 overview of the development of passive optoelectronic components
- 3.2.2 analysis of market scale of passive optoelectronic components
- 3.2.3 analysis of main production enterprises of passive optoelectronic components
 - (1) JDSU
 - (2) O-Net
 - (3) Gaoyi Technology
- 3.2.4 analysis of market of main products of passive optoelectronic components
 - (1) analysis of fiber optic connector market
 - 1) market demand of fiber optic connector
 - 2) market competition pattern of fiber optic connector
 - 3) analysis of development trends of fiber optic connector
 - (2) analysis of fiber coupler market
 - 1) market demand of fiber coupler
 - 2) market competition pattern of fiber coupler
 - 3) analysis of development trends of fiber coupler
 - (3) analysis of optical switch market
 - 1) market demand of optical switch
 - 2) market competition pattern of optical switch
 - 3) analysis of development trends of optical switch
 - (4) analysis of WDM market
 - 1) market demand of WDM
 - 2) market competition pattern of WDM
 - 3) analysis of development trends of WDM
 - (5) analysis of optical attenuator market
 - 1) market demand of optical attenuator
 - 2) market competition pattern of optical attenuator
 - 3) analysis of development trends of optical attenuator
 - (6) analysis of optical isolator market
 - (7) analysis of optical filter market
 - (8) analysis of optical splitter market
 - 1) forecast of market of passive optoelectronic components

Chapter 4: Analysis of market demand of Chinese optical communication device industry

4.1 analysis of demand of optical transmission equipment industry

- 4.1.1 analysis of scale of optical transmission equipment market
 - (1) scale of the global optical transport equipment market
 - (2) scale of Chinese optical transmission equipment market
- 4.1.2 forecast of optical transmission equipment market
 - (1) forecast of the global optical transmission equipment market
 - (2) forecast of Chinese optical transmission equipment market
- 4.1.3 analysis of cost of optical transmission equipment in optical communication devices
 - (1) status quo of the proportion of cost of optical transmission equipment in optical communication devices
 - (2) development trends of the proportion of cost of optical transmission equipment in optical communication devices
- 4.1.4 analysis of demand of optical communication devices in optical transmission equipment industry
- 4.1.5 analysis of demand of major companies of optical transmission equipment industry
 - (1) analysis of ZTE' s demand of optical communication devices
 - 1) analysis of the operation of ZTE
 1. analysis of the company' s revenue
 - 1.1) analysis of the company' s solvency capability
 - 1.2) analysis of the company' s operation capability
 - 1.3) analysis of the company' s profitability capability
 - 1.4) analysis of the company' s development capability
 - 2) procurement process of optical communication devices by ZTE
 - 3) ZTE' s main requirements for suppliers
 - 4) analysis of procurement concentration of ZTE

(2) analysis of Huawei' s demand of optical communication devices

- 1) analysis of the operation of Huawei
 1. analysis of the company' s revenue
 - 1.1) analysis of the company' s solvency capability
 - 1.2) analysis of the company' s operation capability
 - 1.3) analysis of the company' s profitability capability
 - 1.4) analysis of the company' s development capability
 - 2) procurement process of optical communication devices by Huawei
 - 3) Huawei' s main requirements for suppliers

(3) analysis of Fiberhome' s demand of optical communication devices

- 1) analysis of the operation of Fiberhome
 1. analysis of the company' s revenue
 - 1.1) analysis of the company' s solvency capability
 - 1.2) analysis of the company' s operation capability
 - 1.3) analysis of the company' s profitability capability
 - 1.4) analysis of the company' s development capability
 - 2) procurement process of optical communication devices by Fiberhome
 - 3) Fiberhome' s main requirements for suppliers
 - 4) analysis of procurement concentration of Fiberhome

4.2 analysis of demand of fiber-optic broadband network construction

4.2.1 scale of optical access subscribers and forecast

4.2.2 status quo of fiber optic broadband network construction

4.2.3 analysis of operators' FTTX tender

- (1) China Mobile' s FTTX tender
 - 1) quantity of central purchasing
 - 2) beneficiary manufacturers
- (2) analysis of China Unicom' s FTTX tender
 - 1) quantity of central purchasing
 - 2) beneficiary manufacturers
- (3) analysis of China Telecom' s FTTX tender
 - 1) quantity of central purchasing
 - 2) beneficiary manufacturers

4.2.4 analysis of operators' fiber optic broadband network construction and investment

- (1) analysis of China Mobile' s fiber optic broadband network construction and investment
 - 1) amount of investment of fiber-optic broadband network construction
 - 2) forecast of amount of investment of fiber-optic broadband network construction
- (2) analysis of China Unicom' s fiber optic broadband network construction and investment
 - 1) amount of investment of fiber-optic broadband network construction
 - 2) forecast of amount of investment of fiber-optic broadband network construction
- (3) analysis of China Telecom' s fiber optic broadband network construction and investment
 - 1) amount of investment of fiber optic network construction
 - 2) forecast of amount of investment of fiber-optic network construction

4.2.5 analysis of demand of optical communication devices in fiber optic network construction

4.3 analysis of demand of 3G network construction

4.3.1 status quo of 3G network construction

- (1) China Mobile' s TD-SCDMA network construction
- (2) China Unicom' s WCDMA network construction
- (3) China Telecom' s CDMA network construction

4.3.2 status quo of investment of 3G network

4.3.3 main equipment suppliers' tenders in 3G network construction

- (1) China Mobile' s tenders in TD-SCDMA network construction
- (2) China Telecom' s tenders in CDMA network expansion / upgrade
- (3) China Unicom' s tenders in WCDMA network construction tenders

4.3.4 prediction of scale of 3G investment

- (1) China Mobile' s 3G network construction and capital expenditure plans
- (2) China Telecom' s 3G network construction and capital expenditure plans
- (3) China Unicom' s 3G network construction and capital expenditure plans

4.3.5 analysis of demand of optical communication devices in 3G network construction

4.4 analysis of demand of smart grid construction

- 4.4.1 smart grid development plan
- 4.4.2 scale of smart grid investment
- 4.4.3 process of smart grid construction
- 4.4.4 analysis of power FTTH construction
 - (1) definition and advantages of power FTTH
 - (2) solution selection of power FTTH
 - (3) development plan of power FTTH
 - (4) process of power FTTH construction
- 4.4.5 analysis of demand of optical communication devices in smart grid
- 4.5 analysis of demand of Broadcasting Network (NGB) construction**
 - 4.5.1 quantity of cable subscribers
 - 4.5.2 standards for NGB network construction
 - 4.5.3 plan of NGB network construction
 - (1) the overall planning
 - (2) planning of stages
 - 4.5.4 scale of investment of NGB network construction
 - 4.5.5 analysis of demand of optical communication devices in NGB network construction
- 4.6 3 analysis of demand of triple play**
 - 4.6.1 concept of triple play
 - 4.6.2 development process of triple play
 - 4.6.3 the industry chain of triple play
 - 4.6.4 main policies of triple play
 - 4.6.5 pilot content of triple play
 - 4.6.6 pilot progress of triple play
 - 4.6.7 analysis of demand of optical communication devices in triple play
- 4.7 analysis of demand of "broadband China" strategy**
 - 4.7.1 background of "broadband China" strategy
 - 4.7.2 specific target of "broadband China" strategy
 - 4.7.3 investment plan of "broadband China" strategy
 - 4.7.4 analysis of demand of optical communication devices in "broadband China" strategy

Chapter 5: Analysis of production and operation of main enterprises of Chinese optical communication device industry

- 5.1 analysis of ranking of manufacturers of optical communication device industry**
 - 5.1.1 ranking of sales revenue
 - 5.1.2 ranking of total profit
- 5.2 case study of leading enterprises of optical communication device industry**
 - 5.2.1 Wuhan Accelink Technology Co., Ltd.
 - (1) overview of the company's development
 - (2) analysis of the company's main economic index
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's product structure and new product developments
 - (9) analysis of the company's sales channels and network
 - (10) analysis of the company's operation advantages and disadvantages
 - (11) analysis of the company's investment, merger and restructuring
 - (12) analysis of the company's latest developments
 - 5.2.2 0-Net Communications (Group) Co., Ltd.
 - (1) overview of the company's development
 - (2) analysis of the company's main economic index
 - (3) analysis of the company's profitability capability
