

China Wind Power Equipment Industry Report (2016–2021), Market Demand and Investment Forecast

目 录

CONTENTS

Chapter 1: Overview of development of China's wind power equipment industry

- 1.1 definition and classification of wind power equipment industry
- 1.2 principle of wind power
- 1.3 system structure of wind power generation
 - 1.3.1 wind power generator
 - 1.3.2 wind power equipment
 - 1.3.3 wind power system
 - (1) classification of major products of wind power equipment
- 1.4 analysis of supply chain of wind power equipment industry
 - 1.4.1 introduction of supply chain of wind power equipment industry
 - 1.4.2 introduction of major downstream supply chain of wind power equipment industry
 - (1) status quo of investment and construction of wind farm
 - 1) status quo and characteristics of construction of wind farm
 - 2) analysis of cost benefit of wind farm
 - 3) construction of investment of wind farm
 - 4) prospects of investment and construction of wind farm
 - 5) status quo and prospects of investment of offshore wind power
 - (2) analysis of power grid construction
 - 1.4.3 introduction of upstream supply chain of wind power equipment industry
 - (1) development of steel market
 - (2) development of non-ferrous metals market
 - (3) glass fiber industry
 - (4) epoxy resin industry

Chapter 2: Analysis of development of China's wind power equipment industry in.....2013

- 2.1 analysis of development of wind power industry
 - 2.1.1 wind energy resource potential and development level
 - 2.1.2 development of wind power industry
 - 2.1.3 start of the quota system to increase the scale of wind power
 - 2.1.4 analysis of China's wind power electricity constitutes and changes
 - (1) difference between target electricity price and reference electricity price
 - (2) composition of wind power tariff and influencing factors
 - (3) analysis of wind power tariff
 - 1) general calculation process of wind power tariff
 - 2) analysis of the impact of various factors on wind power tariff
 - 3) wind power tariff differences and change trends
 - 2.1.5 development of off-grid wind power market
- 2.2 analysis of operation mode of wind power industry
 - 2.2.1 background of generation of wind power operating concession
 - 2.2.2 progress of wind power concession projects
 - 2.2.3 wind power concession bidding and evaluation procedures
 - 2.2.4 bidding and evaluation of wind power concession projects
 - (1) wind power concession bidding projects
 - (2) competition of wind power concession bidding
 - (3) analysis of wind power tender price
 - 2.2.5 impact of wind power concession
- 2.3 analysis of development of China's wind power equipment industry
 - 2.3.1 overview of development of China's wind power equipment industry
 - 2.3.2 installed capacity of wind power equipment
 - 2.3.3 development of wind power equipment manufacturing

- 2.3.4 major characteristics of development of wind power equipment industry
- 2.3.5 analysis of main influencing factors of the industry

Chapter 3: Analysis of market environment of wind power equipment industry

3.1 analysis of policy environment of the industry

- 3.1.1 regulatory regime and authorities of the industry
 - 3.1.2 related policy trend of the industry
 - (1) macroeconomic policy
 - 1) "Long-term development plan of renewable energy"
 - 2) "Renewable Energy Law of People's Republic of China "
 - 3) "Several opinions of the State Council on accelerating the revitalization of the manufacturing industry"
 - 4) "Medium and Long-term Science and Technology Development Plan"
 - (2) industrial policy
 - 1) "Notice on improvement of wind power feed-in tariff policy"
 - 2) "Notice on the management of the construction of wind power"
 - 3) "Interim measures about special fund management of renewable energy development "
 - 4) "Pilot scheme of renewable energy prices and cost-sharing management"
 - 5) "Regulations concerning renewable energy generation"
 - 6) "Opinions to promote the development of wind power industry"
 - 7) "Regulatory approach of grid enterprises to purchase renewable energy electricity"
 - 8) "About 800 million yuan of nuclear power, wind power subsidies"
 - (3) tax policy
 - 3.1.3 development planning of wind power equipment industry
- #### 3.2 analysis of economic environment of the industry
- 3.2.1 analysis of the international macro economic environment
 - 3.2.2 analysis of the domestic macro economic environment
 - 3.2.3 analysis of macro economic environment of the industry
- #### 3.3 analysis of social environment of the industry
- 3.3.1 impact of environmental protection and high oil prices on the industry
 - 3.3.2 relationship between wind power equipment selection and optimization and electricity price
 - 3.3.3 impact of low-temperature environment on wind turbines
 - 3.3.4 distribution of wind resources does not match structure of electricity consumption and grid structure
- #### 3.4 impact of of the "Kyoto Protocol" on China's wind power industry
- 3.4.1 overview of the "Kyoto Protocol"
 - 3.4.2 clean development mechanism and its impact on the industry

Chapter 4: Analysis of market competition of wind power equipment industry

4.1 analysis of competition of the international wind power equipment manufacturing industry

- 4.1.1 development of the global wind power industry
 - (1) distribution of the world's wind resources
 - (2) analysis of the world's wind power installed capacity
 - (3) policy environment of the world's wind power
 - 4.1.2 analysis of installed capacity in major countries and regions
 - 4.1.3 competitive landscape of the international wind power equipment manufacturing industry
 - 4.1.4 investment layout of multinational enterprises in China
 - (1) Denmark Vestas
 - (2) American GEWind
 - (3) Spanish Gamesa
 - (4) India's Suzlon
 - (5) German Nordex
 - 4.1.5 analysis of competitive strategy of multinational enterprises in China
- #### 4.2 analysis of competition of China's wind power equipment manufacturing industry
- 4.2.1 competitive landscape of domestic wind power equipment manufacturing industry
 - 4.2.2 analysis of competitiveness of foreign and domestic-funded enterprises of wind power equipment manufacturing industry
 - 4.2.3 comparison of industry profits of machine and parts manufacturers
 - 4.2.4 analysis of regional structure of development of wind power equipment
 - 4.2.5 analysis of key success factors for enterprises of wind power equipment industry
- #### 4.3 analysis of five-force model of China's wind power equipment industry

- 4.3.1 degree of internal competition of WTG
- 4.3.2 threat of potential entrants of the industry
- 4.3.3 threat of alternatives of the industry
- 4.3.4 impact of wind farm investors
- 4.3.5 impact of bottlenecks of key components
- 4.4 analysis of industrial integration of wind power equipment industry**
 - 4.4.1 overview of integration of wind power equipment industry
 - 4.4.2 analysis of integration of the domestic wind power equipment
 - 4.4.3 integration trend of wind power equipment industry
 - 4.4.4 bottleneck and breakthrough of the whole industry chain of wind power

Chapter 5: Status quo of major product markets of wind power equipment industry

5.1 structural characteristics of main products of the industry

- 5.1.1 analysis of major product markets of the industry
 - (1) analysis of market of wind turbine
 - (2) analysis of market of gearbox products
 - (3) analysis of market of tower products
 - (4) analysis of market of bearing products
 - (5) analysis of market of fan blade products
 - (6) analysis of market of generator products
 - (7) analysis of market of control system products
 - (8) analysis of market of other products

5.2 analysis of sales channels of industry products

- 5.2.1 status quo of sales channels of wind power generation equipment
- 5.2.2 domestic sales depending on purchases of five power generation groups
- 5.2.3 conditions for exporting large quantities of wind power equipment are still not mature
- 5.2.4 contribution of self-developed wind farms to sales volume

5.3 the gap with foreign main product technology of the industry

- 5.3.1 the gap with foreign main product technology of the industry
- 5.3.2 main reasons for the gap with foreign products

5.4 development trends of product technology of wind power equipment manufacturing industry

- 5.4.1 development trends of the international new technologies of wind power equipment manufacturing industry
- 5.4.2 development trends of the domestic new technologies of wind power equipment manufacturing industry

Chapter 6: Analysis of import and export markets of wind power equipment industry in 2012年以来

6.1 summary of import and export of wind power equipment industry

6.2 analysis of export market of wind power equipment industry

- 6.2.1 analysis of export of the industry in.....2012
 - (1) overall situation of export of the industry
 - (2) structure of export product of the industry
- 6.2.2 analysis of export of the industry in.....2013
 - (1) overall situation of export of the industry
 - (2) structure of export product of the industry

6.3 analysis of import and export markets of wind power equipment industry

- 6.3.1 analysis of import of the industry in.....2012
 - (1) overall situation of import of the industry
 - (2) structure of import product of the industry
- 6.3.2 analysis of import of the industry in.....2013
 - (1) overall situation of import of the industry
 - (2) structure of import product of the industry

6.4 forecast of import and export of wind power equipment industry and advice

- 6.4.1 forecast of export of wind power equipment industry and advice
- 6.4.2 forecast of import of wind power equipment industry and advice

Chapter 7: Status quo of production and operation of major enterprises of China's wind power equipment industry

7.1 analysis of the overall development of wind power equipment enterprises

- 7.1.1 scale of enterprises of wind power equipment industry
- 7.1.2 industrial output of wind power equipment industry

7.1.3 sales revenue and profit of wind power equipment industry

7.2 case study of leading enterprises of wind power equipment industry

7.2.1 Xinjiang Goldwind Sci Tech Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's major economic indicators
- (3) analysis of the company's profitability capability
- (4) analysis of the company's operation capability
- (5) analysis of the company's solvency capability
- (6) analysis of the company's development capability
- (7) analysis of the company's organizational structure
- (8) analysis of the company's product structure and new product developments
- (9) analysis of the company's sales channels and network
- (10) SWOT analysis of the company's operation
- (11) analysis of investment, merger and restructuring of the company
- (12) analysis of the company's latest development trend

7.2.2 Sinovel Technology (Group) Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's operation
- (3) analysis of the company's product structure and new product developments
- (4) analysis of the company's sales channels and network
- (5) SWOT analysis of the company's operation
- (6) analysis of investment, merger and restructuring of the company

7.2.3 Dongfang Turbine Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's operation
- (3) analysis of the company's product structure and new product developments
- (4) SWOT analysis of the company's operation
- (5) analysis of investment, merger and restructuring of the company
- (6) analysis of the company's latest development trend

7.2.4 Zhejiang Yunda Wind Power Engineering Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's operation
- (3) analysis of the company's organizational structure
- (4) analysis of the company's product structure and new product developments
- (5) analysis of the company's sales channels and network
- (6) SWOT analysis of the company's operation
- (7) analysis of the company's latest development trend

7.2.5 Nantong CASC Wanyuan Acciona Wind Power Equipment Manufacturing Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's operation
- (3) analysis of the company's product structure and new product developments
- (4) analysis of the company's sales channels and network
- (5) SWOT analysis of the company's operation
- (6) analysis of investment, merger and restructuring of the company

7.2.6 Shanghai Electric Wind Power Equipment Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's operation
- (3) analysis of the company's product structure and new product developments
- (4) SWOT analysis of the company's operation
- (5) analysis of investment, merger and restructuring of the company

7.2.7 Guangdong Mingyang Wind Power Technology Co., Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's operation
- (3) analysis of the company's product structure and new product developments
- (4) analysis of the company's sales channels and network
- (5) SWOT analysis of the company's operation

7.2.8 XEMC Ltd.

- (1) brief introduction of the company's development
- (2) analysis of the company's operation

- (3) analysis of the company's organizational structure
- (4) analysis of the company's product structure and new product developments
- (5) analysis of the company's sales channels and network
- (6) SWOT analysis of the company's operation
- (7) analysis of investment, merger and restructuring of the company
- 7.2.9 Jiangsu New United Heavy Industry Science & Technology Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's product structure and new product developments
 - (3) analysis of the company's sales channels and network
 - (4) SWOT analysis of the company's operation
 - (5) analysis of the company's latest development trend
- 7.2.10 Vestas Wind Technology (China) Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's organizational structure
 - (4) analysis of the company's product structure and new product developments
 - (5) SWOT analysis of the company's operation
 - (6) analysis of investment, merger and restructuring of the company
- 7.2.11 AVIC Huiteng Wind Power Equipment Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's product structure and new product developments
 - (4) analysis of the company's sales channels and network
 - (5) SWOT analysis of the company's operation
 - (6) analysis of investment, merger and restructuring of the company
- 7.2.12 Shanghai FRP Research Institute
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's product structure and new product developments
 - (4) analysis of the company's sales channels and network
 - (5) SWOT analysis of the company's operation
 - (6) analysis of investment, merger and restructuring of the company
- 7.2.13 Zhejiang Huayi Wind Energy Development Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's organizational structure
 - (4) analysis of the company's product structure and new product developments
 - (5) analysis of the company's sales channels and network
 - (6) SWOT analysis of the company's operation
 - (7) analysis of investment, merger and restructuring of the company
- 7.2.14 Hangzhou Hangfa Power Equipment Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's organizational structure
 - (4) analysis of the company's product structure and new product developments
 - (5) analysis of the company's sales channels and network
 - (6) SWOT analysis of the company's operation
 - (7) analysis of the company's latest development trend
- 7.2.15 Repower North Wind Power Equipment Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's organizational structure
 - (3) analysis of the company's product structure and new product developments
 - (4) analysis of the company's sales channels and network
 - (5) SWOT analysis of the company's operation
- 7.2.16 Baoding Huide Wind Power Engineering Company
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's organizational structure
 - (4) analysis of the company's product structure and new product developments

- (5) SWOT analysis of the company's operation
- 7.2.17 Xinjiang Wind Energy Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's equity structure
 - (4) analysis of the company's product structure and new product developments
 - (5) SWOT analysis of the company's operation
 - (6) analysis of investment, merger and restructuring of the company
- 7.2.18 Lanzhou Great Wall Electrical Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's major economic indicators
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's organizational structure
 - (8) analysis of the company's product structure and new product developments
 - (9) analysis of the company's sales channels and network
 - (10) SWOT analysis of the company's operation
 - (11) analysis of investment, merger and restructuring of the company
 - (12) analysis of the company's latest development trend
- 7.2.19 Gamesa Wind Power (Tianjin) Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's product structure and new product developments
 - (4) SWOT analysis of the company's operation
 - (5) analysis of investment, merger and restructuring of the company
- 7.2.20 Beijing Beizhong Steam Turbine Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's product structure and new product developments
 - (4) analysis of the company's sales channels and network
 - (5) SWOT analysis of the company's operation
 - (6) analysis of investment, merger and restructuring of the company
- 7.2.21 Nordex (Yinchuan) Wind Power Equipment Manufacturing Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's product structure and new product developments
 - (4) SWOT analysis of the company's operation
- 7.2.22 CSIC (Chongqing) Sea Windpower Equipment Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's product structure and new product developments
 - (4) analysis of the company's sales channels and network
 - (5) SWOT analysis of the company's operation
 - (6) analysis of investment, merger and restructuring of the company
 - (7) analysis of the company's latest development trend
- 7.2.23 CSR Zhuzhou Electric Locomotive Research Institute Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's organizational structure
 - (4) analysis of the company's product structure and new product developments
 - (5) analysis of the company's sales channels and network
 - (6) SWOT analysis of the company's operation
 - (7) analysis of the company's latest development trend
- 7.2.24 Hebei Goldwind Power Equipment Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's product structure and new product developments

- (4) analysis of the company's sales channels and network
- (5) SWOT analysis of the company's operation
- 7.2.25 Qiqihar Heavy CNC Equipment Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's product structure and new product developments
 - (4) analysis of the company's sales channels and network
 - (5) SWOT analysis of the company's operation
 - (6) analysis of investment, merger and restructuring of the company
 - (7) analysis of the company's latest development trend
- 7.2.26 Nanjing High SpeedGear Manufacturing Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's product structure and new product developments
 - (4) analysis of the company's sales channels and network
 - (5) SWOT analysis of the company's operation
 - (6) analysis of the company's latest development trend
- 7.2.27 Wuhan Guoce Technology Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's organizational structure
 - (4) analysis of the company's product structure and new product developments
 - (5) analysis of the company's sales channels and network
 - (6) SWOT analysis of the company's operation
- 7.2.28 Shenyang China Creative Wind Power Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's product structure and new product developments
 - (4) SWOT analysis of the company's operation
 - (5) analysis of the company's latest development trend
- 7.2.29 Jiangsu Tianqi Logistics System Engineering Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's major economic indicators
 - (3) analysis of the company's profitability capability
 - (4) analysis of the company's operation capability
 - (5) analysis of the company's solvency capability
 - (6) analysis of the company's development capability
 - (7) analysis of the company's product structure and new product developments
 - (8) analysis of the company's sales channels and network
 - (9) SWOT analysis of the company's operation
 - (10) analysis of investment, merger and restructuring of the company
 - (11) analysis of the company's latest development trend
- 7.2.30 Lianyungang Zhongfu Lianzhong Composites Group Co., Ltd.
 - (1) brief introduction of the company's development
 - (2) analysis of the company's operation
 - (3) analysis of the company's organizational structure
 - (4) analysis of the company's product structure and new product developments
 - (5) analysis of the company's sales channels and network
 - (6) SWOT analysis of the company's operation
 - (7) analysis of the company's latest development trend

Chapter 8: Analysis and forecast of development trends of wind power equipment industry

8.1 development trends of China's wind power equipment market

- 8.1.1 analysis of development trends of wind power industry
 - (1) long-term national policy to support development of wind power
 - (2) the state makes key investment in UHV power grid
 - (3) local government to actively develop wind power
- 8.1.2 analysis of development trends of China's wind power equipment market
 - (1) there is still great space of demand in overseas markets
 - (2) inspire domestic manufacturers to take the international route

- (3) to set up factories overseas and procurement. Cost advantage is more obvious.
- (4) export of the whole machine is still a cost advantage
- (5) emerging wind power countries to be started

8.1.3 forecast of development prospects of China's wind power equipment market

8.2 analysis of characteristics of investment of wind power equipment industry

8.2.1 analysis of entry barriers of wind power equipment industry

8.2.2 analysis of profit model of wind power equipment industry

8.2.3 analysis of profit factor of wind power equipment industry

8.3 advice for investment of China's wind power equipment industry

8.3.1 analysis of status quo of investment of wind power equipment industry

8.3.2 major investment advice for wind power equipment industry

Chapter 9: Analysis of risks and opportunities of credit extension of China's wind power equipment industry

9.1 environmental risk and prompt

9.1.1 impact of the international environment on the industry and risk prompt

9.1.2 impact of the macro environment on the industry and risk prompt

9.1.3 monetary policy of the Central Bank and banking regulation

9.2 policy risk and prompt

9.2.1 impact of industrial policy and risk prompt

9.2.2 impact of environmental protection policy and risk prompt

9.2.3 impact of energy saving and emission reduction policy and risk prompt

9.2.4 impact of energy planning and risk prompt

9.3 market risk and prompt

9.3.1 risk prompt of market supply and demand

9.3.2 risk prompt of market price

9.3.3 risk prompt of industrial competition

9.4 credit opportunity of the industry and suggestions

9.4.1 overall credit opportunity and credit suggestions

9.4.2 credit opportunity of related industries and credit suggestions

9.4.3 regional credit opportunity and suggestions

(1) features and summary of regional development

(2) credit suggestions for regional market

9.4.4 corporate credit opportunity and suggestions

9.5 credit opportunity of the industry chain and suggestions

9.5.1 credit opportunity of wind power equipment industry

9.5.2 credit opportunity of wind power operation industry
