

China Medical Informationization Industry Indepth Research and Investment Strategy Planning Report, 2017-2022

目 录

CONTENTS

Chapter 1: Analysis of Development Environment for China Medical Informationization Industry

1.1 Development Background of Medical Informationization Industry

- 1.1.1 Definition of Medical Informationization Industry
- 1.1.2 Development Background of Medical Informationization Industry
- 1.1.3 Development Meaning of Medical Informationization Industry
 - (1) Digging out Medical Treatment Potentials
 - (2) Improving Service Quality
 - (3) Guarantee Medical Security
 - (4) Good for Regional Resource Allocation
- 1.1.4 Constitution of Medical Informationization and the Functions
 - (1) Hospital Management Informationization
 - (2) Clinic Management Informationization
 - (3) Public Health Informationization
 - (4) Medical Insurance Informationization
 - (5) Drugs Circulation Informationization
- 1.1.5 Industrial Chain of Medical Informationization Industry

1.2 Analysis of Policy Environment for Medical Informationization Industry

- 1.2.1 Regulatory System of Industry
 - (1) Supervision and Management for Medical and Health Informationization
 - (2) Supervision and Management for Software Industry
- 1.2.2 Policies and Regulations Related to Industry
 - (1) Guidance for Construction of Regional Healthcare Information Platform Based on Health Records (For Trial Implementation)
 - (2) Technical Solutions for Construction of Regional Healthcare Information Platform Based on Health Records (For Trial Implementation)
 - (3) Guidance Opinion on Standardizing Rural and Urban Residents' Health Records
 - (4) Basic Framework and Data Standards of Health Records (For Trial Implementation)
 - (5) Basic Framework and Data Standards of EMR (For Trial Implementation)
 - (6) Basic Requirements for EMR (For Trial Implementation)
 - (7) Working Plan for EMR Pilot
 - (8) Evaluation Methods and Standards for EMR System Function Application by Level
 - (9) Technical Solutions for Maternal and Child Health Health Information System Based on Regional Health Information Platform (For Trial Implementation)
 - (10) Notice on Management Plans for Clinics Informationization Construction in Villages of M i d w e s t R e g i o n s i n 2 0 1 0
 - (11) Guidance for Construction of Health Comprehensive Management Information Platform
 - (12) Technical Requirements for Resident's Health Card
- 1.2.3 Development Strategies and Planning of Industry
 - (1) "Twelfth Five-year" Plan for Construction of Health Informationization
 - (2) Development Planning Outline for National Health Informationization, 2003-2010
 - (3) Development Strategies for National Informationization, 2006-2020
 - (4) Guidance Opinion and Initial Development Planning for Health Informationization, 2011-2015
 - (5) Plan for Drug Electronic Supervision Work, 2011-2015
- 1.3 Analysis of Economic Environment for Medical Informationization Industry
 - 1.3.1 Analysis of Macro-economic Trend
 - 1.3.2 Forecast for Macro-economic Trend
 - 1.3.3 Analysis of Macro-economic Environment for Industry
- 1.4 Analysis of Talent Environment for Medical Informationization Industry

- 1.4.1 Talent Supply in the Industry
- 1.4.2 Demand Supply in the Industry
- 1.4.3 Suggestions for Talent Cultivation in the Industry
- 1.5 Analysis of New Medical Reform and Medical Informationization**
 - 1.5.1 Reform Directions of China Medical System
 - (1) Separation between Diagnosis and Medicine
 - (2) Reform Ownership Structure of Public Hospitals
 - (3) Solving Problems of Unbalanced Medical Resource Allocation
 - 1.5.2 Explanation of New Medical Reform
 - 1.5.3 New Reform Priorities and Capital Flows
 - 1.5.4 Requirements of New Medical Reform on Information Technology
 - (1) Medical Service Provider
 - (2) Public Health and Health Administration
 - (3) Medicine and Medical Device Supplier
 - (4) Medical Service Payer
 - 1.5.5 Medical Reform Deeply Propelling Construction of Informationization

Chapter 2: Analysis of Development of China Medical Informationization Industry

2.1 Analysis of Development of Medical Industry

- 2.1.1 Development Overview of Medical Industry
- 2.1.2 Investment Size of Medical Industry
- 2.1.3 Analysis of Development of Medical and Health Institutions
 - (1) Analysis of Development Size of Medical and Health Institutions
 - (2) Analysis of Operation of Medical and Health Institutions
 - (3) Analysis of Competition among Medical and Health Institutions
- 2.1.4 Analysis of Development Prospects for Medical Industry

2.2 Analysis of Development of China Medical Informationization Industry

- 2.2.1 Development Experience of Foreign Medical Informationization
- 2.2.2 Development History of China Medical Informationization Industry
- 2.2.3 Development Phase of China Medical Informationization Industry
- 2.2.4 Analysis of Factors to Impact Medical Informationization Industry
 - (1) Advantages
 - (2) Disadvantages
- 2.2.5 Market Size of Medical Informationization Industry
 - (1) Overall Market Size
 - (2) Hardware Market Size
 - (3) Software Market Size
 - (4) Service Market Size
- 2.2.6 Analysis of Competition of Medical Informationization Industry
 - (1) Competitive Landscape of Medical Informationization Industry
 - (2) Market Concentration of China Medical Informationization Industry
 - (3) Competition Trend of China Medical Informationization Industry

2.3 Analysis of Opportunities and Challenges of China Medical Informationization Industry

- 2.3.1 Analysis of Development Opportunities of Medical Informationization Industry
- 2.3.2 Analysis of Challenges in Medical Informationization Industry

2.4 Analysis of Development Trend of China Medical Informationization Industry

- 2.4.1 Overall Development Trend of China Medical Informationization Industry
- 2.4.2 Development Trend of Informationization of Different Medical Institutions
 - (1) Development Trend of Informationization of Large-scale Hospitals
 - (2) Development Trend of Informationization of Small and Medium-sized Hospitals
- 2.4.3 Product Trend of China Medical Informationization Industry

2.5 Development Prospects Forecast for China Medical Informationization Industry

- 2.5.1 Market Prospects for Medical Informationization Industry
- 2.5.2 Market Size Forecast for Medical Informationization Industry
 - (1) Forecast for Overall Market Size
 - (2) Forecast for Hardware Market Size
 - (3) Forecast for Software Market Size
 - (4) Forecast for Service Market Size
- 2.5.3 Development Prospects for Informationization of Small and Medium-sized Hospitals

Chapter 3: Analysis of Development of China Hospital Management Informationization

3.1 Analysis of Development of Hospital Management Information System

- 3.1.1 Overview of Hospital Management Information System
- 3.1.2 Investment Size of Hospital Informationization
- 3.1.3 Regional Development of Hospital Informationization
- 3.1.4 Analysis of Development of Hospital Information System (HIS)
 - (1) HIS Development Background
 - (2) HIS Construction Status
 - (3) HIS Application Benefits
 - (4) Problems and Strategies of HIS Construction
 - (5) HIS Development Trend

3.2 Analysis of HIS

- 3.2.1 Analysis of HIS Market Size
- 3.2.2 Analysis of HIS Market Structure
- 3.2.3 Analysis of HIS Market Competition
- 3.2.4 HIS Market Demand Prospects

3.3 Analysis of Development of Telemedicine

- 3.3.1 Service Modes of Telemedicine
- 3.3.2 Key Technologies in Telemedicine
- 3.3.3 Investment of Telemedicine
- 3.3.4 Development Status of Telemedicine
- 3.3.5 Development Obstacles and Strategies of Telemedicine
- 3.3.6 Market Demand Prospects of Telemedicine

Chapter 4: Analysis of Development of China Clinical Information System

4.1 Analysis of Clinical Information System Market

- 4.1.1 CIS Overview
 - (1) CIS Concept and Constitution
 - (2) Major Goal for Establishing CIS
 - (3) CIS Features
- 4.1.2 Domestic CIS Application Status
- 4.1.3 Foreign CIS Application Status
- 4.1.4 Problems and Suggestions in CIS
- 4.1.5 CIS Development Trend
- 4.1.6 Analysis of CIS Market
 - (1) Analysis of CIS Market Size
 - (2) Analysis of CIS Market Structure
 - (3) Analysis of CIS Market Competition
 - (4) CIS Market Demand Prospects

4.2 Analysis of Picture Archiving And Communication System (PACS) Market

- 4.2.1 Analysis of PACS Development
 - (1) Design Principles of PACS
 - (2) International PACS Development Status
 - (3) Domestic PACS Development Status
 - (4) PACS Planning and Construction
 - (5) Problems in PACS
 - (6) PACS Development Trend
- 4.2.2 Analysis of PACS Application
 - (1) PACS Application Status
 - (2) Analysis of PACS Application
 - (3) PACS Application Status
 - (4) PACS Application Benefits
- 4.2.3 Analysis of PACS Market Segments
 - (1) Analysis of RIS Market
 - (2) Analysis of Other PACS Market Segments

4.3 Analysis of Laboratory Information System (LIS) Market

- 4.3.1 LIS Development Status
 - (1) International LIS Development Status
 - (2) Domestic LIS Development Status
- 4.3.2 LIS Application Benefits
- 4.3.3 Problems in LIS

- 4.3.4 LIS Experiential Learning
- 4.3.5 LIS Development Trend

4.4 Analysis of EMR Market

- 4.4.1 EMR Development Overview
 - (1) EMR Concept
 - (2) Analysis of EMR Features
 - (3) EMR Development Stage
- 4.4.2 EMR Application and Experiential Learning in Foreign Countries
 - (1) EMR Application and Experiential Learning in US
 - (2) EMR Application and Experiential Learning in UK
 - (3) EMR Application and Experiential Learning in Japan
 - (4) EMR Application and Experiential Learning in Korea
- 4.4.3 EMR Application in Domestic
- 4.4.4 Analysis of EMR Application Benefits
- 4.4.5 Problems in EMR
 - (1) Confused Understanding in the Concept
 - (2) No Guidance in Its Development
 - (3) Imperfect System
 - (4) Understanding Problems of Safety and Legal Position
 - (5) Technical Problems
- 4.4.6 Development Suggestions for EMR
- 4.4.7 EMR Market Demand Prospects

Chapter 5: Analysis of Development of China Public Health Informationization

5.1 Enlightenment of Foreign Public Health Informationization Development on China

- 5.1.1 Enlightenment of US Public Health Informationization Development on China
- 5.1.2 Enlightenment of UK Public Health Informationization Development on China
- 5.1.3 Enlightenment of Canada Public Health Informationization Development on China
- 5.1.4 Enlightenment of Australia Public Health Informationization Development on China

5.2 Analysis of Construction of China Public Health Informationization

- 5.2.1 Development Stage of China Public Health Informationization
- 5.2.2 Construction Mode for China Public Health Informationization
- 5.2.3 Investment Size of China Public Health Informationization
- 5.2.4 Analysis of Construction of China Public Health Informationization
 - (1) Construction of Epidemic and Emergency Monitoring System
 - (2) Construction of Emergency Operation Center for Any Public Health Emergency
 - (3) Construction of Medical Treatment Information System
 - (4) Health Inspection Information System
- 5.2.5 Analysis of Benefits of Public Health Informationization
- 5.2.6 Analysis of Public Health Informationization Market
 - (1) Market Overview of Public Health Informationization
 - (2) Market Size of Public Health Informationization
 - (3) Market Structure of Public Health Informationization

5.3 Analysis of Development Prospects for China Public Health Informationization

- 5.3.1 Problems and Strategies of Public Health Informationization
 - (1) Problems in Public Health Informationization
 - (2) Development Strategies for Public Health Informationization
- 5.3.2 Development Trend for Public Health Informationization
- 5.3.3 Development Prospects for Public Health Informationization

Chapter 6: Analysis of Regional Development of China Medical Informationization

6.1 Analysis of Development of Beijing Medical Informationization

- 6.1.1 Beijing Medical Resource Allocation
- 6.1.2 Development Planning for Beijing Medical Informationization
- 6.1.3 Investment Size of Beijing Medical Informationization
- 6.1.4 Construction Progress of Beijing Medical Informationization
- 6.1.5 Development Prospects for Beijing Medical Informationization

6.2 Analysis of Development of Shanghai Medical Informationization

- 6.2.1 Shanghai Medical Resource Allocation
- 6.2.2 Development Planning for Shanghai Medical Informationization
- 6.2.3 Investment Size of Shanghai Medical Informationization

- 6.2.4 Construction Progress of Shanghai Medical Informationization
- 6.2.5 Development Prospects for Shanghai Medical Informationization

6.3 Analysis of Development of Zhejiang Medical Informationization

- 6.3.1 Zhejiang Medical Resource Allocation
- 6.3.2 Development Planning for Zhejiang Medical Informationization
- 6.3.3 Investment Size of Zhejiang Medical Informationization
- 6.3.4 Construction Progress of Zhejiang Medical Informationization
- 6.3.5 Development Prospects for Zhejiang Medical Informationization

6.4 Analysis of Development of Guangdong Medical Informationization

- 6.4.1 Guangdong Medical Resource Allocation
- 6.4.2 Development Planning for Guangdong Medical Informationization
- 6.4.3 Investment Size of Guangdong Medical Informationization
- 6.4.4 Construction Progress of Guangdong Medical Informationization
- 6.4.5 Development Prospects for Guangdong Medical Informationization

6.5 Analysis of Development of Jiangsu Medical Informationization

- 6.5.1 Jiangsu Medical Resource Allocation
- 6.5.2 Development Planning for Jiangsu Medical Informationization
- 6.5.3 Investment Size of Jiangsu Medical Informationization
- 6.5.4 Construction Progress of Jiangsu Medical Informationization
- 6.5.5 Development Prospects for Jiangsu Medical Informationization

6.6 Analysis of Development of Chongqing Medical Informationization

- 6.6.1 Chongqing Medical Resource Allocation
- 6.6.2 Development Planning for Chongqing Medical Informationization
- 6.6.3 Investment Size of Chongqing Medical Informationization
- 6.6.4 Construction Progress of Chongqing Medical Informationization
- 6.6.5 Development Prospects for Chongqing Medical Informationization

6.7 Analysis of Development of Anhui Medical Informationization

- 6.7.1 Anhui Medical Resource Allocation
- 6.7.2 Development Planning for Anhui Medical Informationization
- 6.7.3 Investment Size of Anhui Medical Informationization
- 6.7.4 Construction Progress of Anhui Medical Informationization
- 6.7.5 Development Prospects for Anhui Medical Informationization

6.8 Analysis of Development of Xiamen Medical Informationization

- 6.8.1 Xiamen Medical Resource Allocation
- 6.8.2 Development Planning for Xiamen Medical Informationization
- 6.8.3 Investment Size of Xiamen Medical Informationization
- 6.8.4 Construction Progress of Xiamen Medical Informationization
- 6.8.5 Development Prospects for Xiamen Medical Informationization

Chapter 7: Analysis of Development of Key Technologies in China Medical Informationization Industry

7.1 Development of Cloud Computing and Its Application in Medical Healthcare

- 7.1.1 Development of Cloud Computing
 - (1) Definition of Cloud Computing
 - (2) Development Features of Cloud Computing
 - (3) Market Size of Cloud Computing
 - (4) Analysis of Competition of Cloud Computing
 - (5) Development Prospects for Cloud Computing
- 7.1.2 Services Cloud Computing Providing for Medical Health Informationization
 - (1) Online Software Service
 - (2) Data Storage Service
 - (3) Calculating and Analyzing Service
 - (4) Hardware Lending Service
- 7.1.3 Problems of Cloud Computing in the Application of Health Care
- 7.1.4 Prospect Forecast for Cloud Computing in the Application of Health Care

7.2 Development of Internet of Things and the Application in Medical Healthcare

- 7.2.1 Analysis of Development of Internet of Things
 - (1) Definition of Internet of Things
 - (2) Development Features of Internet of Things
 - (3) Development Mode for Internet of Things

- (4) Competition Analysis of Internet of Things
- (5) Development Prospects for Internet of Things
- 7.2.2 Policy Environment for Application of Internet of Things in Health Care
 - (1) Foreign Relevant Policies in Foreign
 - (2) Domestic Relevant Policies in Domestic
- 7.2.3 Relevant Application of Internet of Things in Health Care
 - (1) Personnel Positioning
 - (2) Wireless Medical Monitoring
 - (3) Vital Signs Collection
 - (4) Medical Product Management
 - (5) Medical Device Management
 - (6) Medical Waste Treatment
 - (7) Blood Management
- 7.2.4 Problems of Internet of Things in Application of Medial Field
 - (1) Technology
 - (2) Application Development in Industry
- 7.2.5 Prospects Forecast for Application of Internet of Things in Health Care

7.3 Application of Wireless Technology in Medical Healthcare

- 7.3.1 Application of Wireless Technology in Health Care
 - (1) Telemedicine
 - (2) Identity of Patient and Data Collection
 - (3) Drug Tracking
 - (4) Medical Waste Tracking
 - (5) Medical Device Management
 - (6) Blood Management
- 7.3.2 Foreign and Domestic Wireless Medical Technology Application Status
 - (1) Application Status at Board
 - (2) Application Status at Home
- 7.3.3 Problems of Wireless Application in Health Care
 - (1) WLAN Safety Problem
 - (2) Wireless Signal Interference Problem
 - (3) Data Reliable Problem
- 7.3.4 Prospects Forecast for Application of Wireless Technology in Health Care

7.4 Analysis of Development of Medical and Health Information Standardization

- 7.4.1 Overview of Medical and Health Information Standardization
 - (1) Definition of Medical and Health Information Standardization
 - (2) Importance of Medical and Health Information Standardization
- 7.4.2 Progress of Medical and Health Information Standardization Over the World
 - (1) International Medical and Health Information Standardization Organization
 - (2) Major Standards for International Medical and Health Information
- 7.4.3 Progress of Medical and Health Information Standardization in Domestic
 - (1) Domestic Medical and Health Information Standardization Organization
 - (2) Research Progress of Medical and Health Information Standardization in Domestic
- 7.4.4 Problems in Domestic Medical and Health Information Standardization
- 7.4.5 Development Suggestions for Domestic Medical and Health Information Standardization

Chapter 8: Analysis of Leading Enterprises in China Medical Informationization Industry

8.1 Case Study of China Medical Informationization Solution Providers

- 8.1.1 Analysis of Shanghai Kingstar Winning Software Co., Ltd.
 - (1) Analysis of Development Profile
 - (2) Products and Solutions
 - (3) Technology and R&D Strength
 - (4) Analysis of Typical Customers
 - (5) Analysis of Major Economic Indicators
 - (6) Analysis of Profitability
 - (7) Analysis of Operational Capability
 - (8) Analysis of Debt-paying Ability
 - (9) Analysis of Development Capability
 - (10) Analysis of Business Networks
 - (11) SWOT Analysis of Operation Situation

- (12) Analysis of Development Strategies
- (13) Analysis of Latest Development Trend
- 8.1.2 Analysis of Neusoft Corporation
 - (1) Analysis of Development Profile
 - (2) Products and Solutions
 - (3) Technology and R&D Strength
 - (4) Analysis of Typical Customers
 - (5) Analysis of Major Economic Indicators
 - (6) Analysis of Profitability
 - (7) Analysis of Operational Capability
 - (8) Analysis of Debt-paying Ability
 - (9) Analysis of Development Capability
 - (10) Analysis of Business Networks
 - (11) SWOT Analysis of Operation Situation
 - (12) Analysis of Development Strategies
 - (13) Analysis of Latest Development Trend
- 8.1.3 Analysis of Tianjian Technology Group
 - (1) Analysis of Development Profile
 - (2) Products and Solutions
 - (3) Technology and R&D Strength
 - (4) Analysis of Typical Customers
 - (5) Analysis of Business Networks
 - (6) Analysis of Operational Advantages and Disadvantages
 - (7) Analysis of Latest Development Trend
